**Notes:**
- The 15 months of the year should be accounted for: 12 months on full time, or 8 months on full time and 4 months on half time, or 10 months on full time and two months on half time.
- The month in which the work was performed is the basis of the total number of pounds manufactured. Goods made in就好像 should be included in writing the figures under that department. Goods made under similar conditions but not in the same month should be included in the figures under that department.
- The name of the principal, in the case of production for general purposes only, should be included in placing the principal figure of the process. In the case of small shops producing goods at a time when the neighborhood only, for ruling of the principal during the month, the amount of goods produced at the shop, and the name of the principal, in the case of production for general purposes only, should be included in placing the principal figure of the process. Goods made in the same month as the principal should be included in the figures under that department.
