---

**NOTES.**

- All the 12 months of the year should be accounted for in full months, except for 2 or 3 months on the 31st of December, which should be treated as full months.
- The age of the business should be calculated from the date of establishment. If the business has been discontinued, the date of discontinuance should be recorded.
- The value of the stock should be determined at its current market price, taking into account the condition and age of the animals.
- The value of the property should be calculated based on its current market value.
- The value of the whole business should include all assets and liabilities at the end of the year.

---

**FORWARDING—This is an index of great importance. The best information available should be used in filling these columns.**
