### The Official Manual of the State of Missouri, 1878-present

*Extent:* Complete

*Arrangement:* Chronological

#### Scope and Content

The Official Manual of the State of Missouri – nicknamed the “Blue Book” – is a directory of state agencies and state employees published biennially by the Secretary of State’s Office. First published in 1878, the series of volumes serves as an historical resource providing information about Missouri’s government, culture and history. The Blue Book is published under the authority of Missouri State Statute 11.020.

The 1935-1936 issue is of note because it contains histories and descriptions of Missouri’s state agencies. Blue Books also typically include photographs, election returns, a listing of Missouri county officials, a list of newspapers, television & broadcast stations, libraries, and more. All issues of the Blue Book have been digitized and placed online for free access by the public. These digitized copies are in the form of keyword-searchable PDFs.

### The Missouri Roster, 1881-present

*Extent:* Incomplete

*Arrangement:* Chronological

#### Scope and Content

The first directory for Missouri was published by the Secretary of State's Office in 1877 and would continue biennially. Each directory included the names of state, district, and county officials. Early editions also included biographies of state officers, Supreme Court judges, members of Congress, Circuit Court judges, and State Senators. Early editions also included election returns. These early volumes somewhat resemble the Official Manual for the State of Missouri, aka the "Blue Book," published every two years by the General Assembly.

By 1903, the directory no longer included biographies.

In 1987-88, the publication was re-named The Missouri Roster. There are two 1989-1990 editions, the larger of which includes election results. After that year, election results are no longer published in The Missouri Roster.
