Scope and Content

This series contains the original applications and re-admissions for the Missouri Veterans Home (St. James). Almost all early applications are missing up to #1300. As such, it is an incomplete list of residents at the home. However, information on early residents can be found in the partially indexed series *Inmate Registers*. After #1300, only an occasional application is missing in this series.

Although application numbers were assigned when admitted, and hence the applications should be chronological as well as numerical order, in actual fact, the applications are dated quite a bit later. For instance, Alfred Ackley, the first man for which we have an application, was first admitted in 1902 according to the *Inmate Register* but the application is dated 1929. If this was an application for re-admission, it would be understandable, but the application is not headed such, though it may be one by default.

[Applications and inmate registers](#) up to 1929 are available as digital images on the Missouri Digital Heritage website.

INMATE REGISTERS, 1897-1973

Arrangement: Chronological and numerical

Scope and Content

This series contains the original admission registers for inmates (residents) at the Missouri Veterans Home at St. James. Because almost all of the early applications up to #1300 are missing, these registers may be all that remain of a soldier's admission to the home. Each entry is dated and given an admission number, starting on June 25, 1897, with Private Frank T. Kenyon of Company I, 47th Regiment, Missouri Infantry. The last admission was dated February 26, 1973. The admission number should match the application number, if it still exists; see the series *Applications* for more information.

The first four inmate registers have their own alphabetical indexes. Information given in the register may include the following: name, admission date and number, friends or near kin, service record, date and place of birth, present age, amount of pension, nature of disability, occupation, marital status, literacy, church and lodge memberships, and other remarks. The last may include biographical data, addresses of relatives, date of death and place of burial. Generally the amount of information on a resident becomes progressively less as the years go on. Starting in the third volume, there are two entries per page instead of the earlier one page per entry.

[Applications and inmate registers](#) up to 1929 are available as digital images on the Missouri Digital Heritage website.
