### HISTORICAL AND BIOGRAPHICAL NOTES

Quoted from p. 1 of the “Welcome Aboard” pamphlet in this collection:

“*USS Missouri*, ‘Mighty Mo,’ is the fourth ship and the second battleship to bear the name of the ‘Show Me’ state. The ship is also the last battleship built by the United States.

“The keel for the 58,000 ton Iowa-class battleship was laid in 1941 and *Missouri* was launched in 1944. The ship provided gunfire support in the battles of Iwo Jima and Okinawa during World War II. On September 2, 1945 *Battleship Missouri* was the spot for the signing of a Formal Instrument of Surrender by Japan to the Allied Forces, ending World War II.

“*Missouri* was called on to participate in several shore bombardments off the coast of Korea between 1950 and 1953 before being decommissioned and placed in ‘mothballs’ at Puget Sound Naval Shipyard in Bremerton, Washington in 1955.

“*Missouri* was recommissioned in 1986 in San Francisco, California and departed on an Around-the-World Shakedown cruise – the first battleship to circumnavigate the world since President Theodore Roosevelt’s ‘Great White Fleet’ of 1907-1909. The ship is homeported in Long Beach, California.

“In 1987, *Missouri* journeyed to the troubled waters of the Persian Gulf, supporting shipping operations near the Strait of Hormuz. During 1988, *Missouri* participated in the Rim of the Pacific (RimPac) Exercise off the coast of Hawaii. Following a routine shipyard period in early 1989, *Missouri* returned to sea and later in the year participated in Pacific Exercise (PacEx) ’89 and visited Pusan, Korea.”

In 1991 the battleship was deployed again to the Persian Gulf and provided US support in Operation Desert Shield and Operation Desert Storm. It fired a total of 783 rounds and launched 28 Tomahawk cruise missiles during the Desert Storm campaign.

The *USS Missouri BB-63* was ultimately decommissioned on March 21, 1992. It sat for a while in Bremerton, WA until the Navy moved it to the Pearl Harbor Memorial in Hawaii in 1998.
