Publication Restrictions: Standard copyright rules apply

Preferred Citation: [item description], [date]; *Edward Kopplin Conservation Collection*, Record Group 998.410; Missouri State Archives, Jefferson City.

Acquisition Information: State Agency Transfer; Accession #2012-0148

Processing Information: Processing completed by EW on 11/14/2017.

HISTORICAL AND BIOGRAPHICAL NOTES

Edward Mortimer (E.M.) Kopplin (1890-1954) joined the Missouri Fish and Game Commission in 1912. Fisheries were in the family, as Kopplin's father Phillip and grandfather Thomas also worked at fish hatcheries. In June 1932, E.M. took over as superintendent of the State Fish Hatchery in Forest Park, St. Louis, succeeding his father. By the time the Conservation Commission was formed in November 1936, Kopplin had moved to the Lewis and Clark Hatchery in Rushville, MO outside of St. Joseph. He raised sunfish, crappie, bullheads, channel catfish, bass, and bluegill. Kopplin and his assistant Homer Duncan would drive up to 35,000

miles a year together delivering fish for stocking ponds and lakes throughout Missouri. On March 19, 1954 the pair were in a car accident. Kopplin, who had been driving, died of his injuries in an Atchison, Kansas hospital the next day. He was survived by his wife Johanna (Phillipson) and son E.M. Kopplin, Jr.

SERIES

Audio/Visual Materials, 1950s-

Extent: 4 Items

Scope and Content

This series consists of two audio tapes and two 78rpm records. It's possible that the audio tapes are duplicates of one another. The records are in good condition and supposedly concern the introduction of multiflora rose to Missouri as a windbreak and soil retarding device. Access to these records requires staff approval.
