Capital Revenue and Expenditures

Please provide a state edit check explaining where the capital revenue came from and which capital project it was spent on for any entry in this section.

Capital Revenue must be designated as capital revenue for a specified capital project at the point it is collected. Include all capital funds received or expended for (a) site acquisition; (b) new buildings; (c) additions to or renovation of library buildings; (d) furnishings, equipment, and initial collections for new buildings, building additions, or building renovations; (e) library automation systems; (f) new vehicles; and (g) other one-time major projects.

Exclude revenue or expenditures for (1) replacement and repair of existing furnishings and equipment; (2) regular purchases of library materials; (3) investments for capital appreciation; (4) contributions to endowments; (5) revenue passed through to another agency; or (6) funds unspent in the previous fiscal year (i.e., carryover).

Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch.

Library Collection - Electronic Materials
For purposes of this survey, units are defined as "units of acquisition or purchase." The "unit" is determined by considering whether the item/title is restricted to a finite number of users, or has an unlimited number of simultaneous users.

Finite Use: Count of units is based on the number of usages acquired (equivalent to purchasing multiple copies of a single title). For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit;" if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units."

Unlimited Simultaneous Use: Count of units is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited, simultaneous users, then this would be counted as 100 "units."
