For purposes of this survey, units are defined as "units of acquisition or purchase." The "unit" is determined by considering whether the item/title is restricted to a finite number of users, or has an unlimited number of simultaneous users.

Finite Use: Count of units is based on the number of usages acquired (equivalent to purchasing multiple copies of a single title). For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit;" if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units."

Unlimited Simultaneous Use: Count of units is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited, simultaneous users, then this would be counted as 100 "units."
