This amendment filed August 30, 2001, effective **September 15, 2001**.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT
Division 220—State Board of Pharmacy
Chapter 2—General Rules**

ORDER OF RULEMAKING

By the authority vested in the State Board of Pharmacy under sections 338.010, 338.095, 338.140 and 338.280, RSMo 2000, the board amends a rule as follows:

4 CSR 220-2.085 Electronic Transmission of Prescription Data
is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on May 15, 2001 (26 MoReg 1025). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: One comment was received from the Missouri Retailers Association addressing four different issues.

COMMENT: The commenter stated that new sections 1D, 2C, 2D and 2E, focus on the fact that the technology is not readily available to pharmacies today that incorporates an electronic signature and the ability to authenticate the sender.

RESPONSE: The Board disagrees with this comment, since they believe and have knowledge that the technology is readily available and have seen demonstrations of such technology. No change was made based on this comment.

COMMENT: The commenter asks that the Board delay the promulgation of such a regulation until the Federal Drug Enforcement Administration (DEA) publishes their final regulations on electronic prescription transmission of controlled substance prescriptions, which is expected in the Fall of 2001. The commenter feels that consistency between federal and state requirements regarding electronic signatures would facilitate greater efficiency in pharmacy operations and prevent confusion in attempting to comply with what could possibly be conflicting regulations.

RESPONSE: There is no assurance that the final regulations will be promulgated in the Fall of 2001 and further, the Board believes that its rule amendment is written in such a way as to avoid any conflict with possible DEA regulations. No change was made based on this comment.

COMMENT: The commenter states that the security paper requirement for prescriptions which are electronically generated appears to be onerous for non-controlled prescriptions; and also questions why the Board would require security paper on electronically transmitted prescriptions and not on handwritten prescriptions.

RESPONSE: First, this rule does not require any pharmacy to utilize this kind of technology. This rule only sets up minimum standards for those entities who desire to utilize this type of technology in issuing new prescriptions. Second, security paper of the type provided for in this rule is necessary due to the ability to otherwise easily forge or duplicate prescriptions from an electronic source and with the special paper described in this rule, the ability to falsify such prescriptions will be thwarted. The appropriate use of such prescription technology is important for all drugs in order to ensure the health and safety of the public. Finally, those entities, which are able to provide the technology to pharmacies who wish to use it, maintain security paper of this nature for this use and it is readily available. No change was made based on this comment.

COMMENT: The commenter also asked for clarification regarding the application of this rule to electronic transfers of prescriptions between pharmacies.

RESPONSE: This regulation does not apply to the transfer of a prescription between pharmacies, which is handled electronically. In that instance, there is a prescription on file at one pharmacy, which can be transferred electronically between pharmacies, under certain conditions. The rule in question here deals with an original prescription, which is provided to the pharmacy electronically from a prescriber. These are two separate issues. No change was made based on this comment.

ORDER OF RULEMAKING

Chapter 2—General Rules

ORDER OF RULEMAKING

By the authority vested in the Board of Nursing Home Administrators under section 344.070, RSMo 2000, the board amends a rule as follows:

13 CSR 73-2.020 Procedures and Requirements for Licensure of Nursing Home Administrators is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 1, 2001 (26 MoReg 1180-1183). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective **January 1, 2002**.

SUMMARY OF COMMENTS: John Dalton, Kaiser, MO expressed support for the proposed amendment and commented that he is "in favor of higher qualifications" and "a Bachelor's degree should be required as is the case in most, if not all, other states." Oral comments in support of the changes were received from the Missouri League of Nursing Home Administrators. The Missouri Health Care Association commended the Board for taking steps to remove some of the obstacles for qualified persons but added that the proposed rule should be even less restrictive. They recommended the Board make additional changes to widen the pool of eligible nursing facility administrators in Missouri.

RESPONSE: The Board of Nursing Home Administrators has considered these comments and has decided to make no change to the rule. Missouri is one of 20 states experiencing a decline in the number of candidates applying for licensure. All states but 1, Mississippi, have qualifications higher than Missouri. Of the remaining 19 states, one 1 has taken steps to lower educational requirements in order to attract more candidates (allow associate degree or other bachelor's degrees + AIT). The Board does not believe that lowering the minimum qualifications will result in a larger pool of good administrators. Candidates who do not meet the minimum qualifications proposed by the Board still have the opportunity to sit the examinations once the prescribed course of

instruction and training is completed, pursuant to 13 CSR 73-2.031.
