

This section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order of rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

The agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety (90)-day period during which an agency shall file its order of rulemaking for publication in the *Missouri Register* begins either: 1) after the hearing on the proposed rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

Division 70—Plant Industries
Chapter 40—Missouri Treated Timber Products Law
Rules

ORDER OF RULEMAKING

By the authority vested in the Department of Agriculture under section 280.050, RSMo 2000, the director adopts a rule as follows:

2 CSR 70-40.015 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on September 16, 2002 (27 MoReg 1561-1562). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Comments were accepted from September 17 through October 17, 2002. The Forest Resources Program Coordinator received a written comment from the Missouri Forest Products Association, Houston Wood Treating and Universal Forest Products.

COMMENT: The Missouri Forest Products Association supports the rule changes drafted by the department. They felt that the cur-

rent rule needed to be updated to correct contradictions in wording and to reflect current AWPA standards.

RESPONSE: The department is grateful to the Missouri Forest Products Association for offering their support of this rule change.

COMMENT: Houston Wood Treating felt that standards for hardwood species should be abolished. They felt that these standards put wood treaters at an unfair disadvantage, since most states do not have regulatory programs in place to monitor treated wood products sold in their respective states. They also stated that some out-of-state wood treating facilities treat hardwood species and sell those products into Missouri with total disregard for Missouri regulations and are allowed to go unregulated unless the retailer or consumer complains to the department. Finally, they felt that wood treaters should be allowed to simply put a disclaimer on their hardwood products stating that it does not conform to AWPA standards.

RESPONSE: The department feels that it would be unfair to not only the consumer but also the industry to drop retention and penetration standards for hardwood species. Companies that treat hardwood species already have an advantage over companies that only treat softwood species. Treaters of hardwood species are only required to meet 66% of current AWPA standards, whereas treaters of softwood species are obligated to meet 100% of current AWPA standards. In addition, the department has documented quite easily that it is possible for treaters to meet the hardwood requirements assuming the material has been allowed to dry adequately prior to treatment. For these reasons, the department feels that it would be prudent to maintain the current standards for hardwood species. The department also disagrees with the statement regarding out-of-state wood treaters having an unfair advantage. Any wood treating facility that sells their products into Missouri is obligated to have a producer's license and are required to follow the Missouri Treated Timber Law, just as in-state treaters are required to do. These products are routinely sampled at dealer locations to monitor compliance. In addition, based on dealer inspections conducted in the last year, the department feels that the vast majority of treated hardwood products are treated by facilities located within Missouri.

COMMENT: Universal Forest Products recommended that the department consider the following requests: 1) Consider replacing the reference to the 2001 AWPA Book of Standards with the verbiage "Current Book of AWPA Standards" or at the very least, make reference to the 2002 AWPA Book of Standards since there have been many changes to the books design since 2001, 2) Reference to the AWPA C-Standards should be reworded to make reference to the AWPA Use Category System since it was Universal's understanding that the C-Standards would be deleted from the AWPA Book of Standards in the near future, 3) Exempt peeler core landscape timbers from this requirement, assuming that companies agree to place a disclaimer statement on their tags stating that their product does not conform to AWPA standards and should not be used for structural purposes, 4) Consider removing the requirement that requires treaters of softwoods not listed in the AWPA Book of Standards to label their product with a disclaimer since this requirement is too broad, 5) Consider modifying tag requirements by removing point type size and label size restrictions.

RESPONSE AND EXPLANATION OF CHANGE: 1) Suggestion noted and reference to the 2001 AWPA Book of Standards will be changed to reference the 2002 AWPA Book of Standards, 2) Suggestion noted and reference to the AWPA C Standards will be changed to reference the AWPA Use Category System, 3) Suggestion noted and department agrees that an peeler core landscape timbers should be exempted from this requirement. The exemption will allow treaters to place a disclaimer on their product stating that peeler core landscape timbers are not treated to AWPA Standards and are not recommended for structural purposes, 4) Suggestion noted and although the department does not agree that the requirement should be eliminated, it does agree that the wording is a bit vague and will

reword the requirement to make reference to the Use Category System and will specify that products intended for ground contact purposes should include the statement not recommended for structural purposes, which will exempt above ground applications from being required to contain that verbiage, 5) Suggestion noted and department agrees that these specific requirements are incorrect and can be removed without changing the intent of the rule.

2 CSR 70-40.015 Standards For Treated Timber

(1) The preservatives and preservative solution used shall meet the American Wood Preservers' Association (AWPA) Standard P-Preservative, as published in the 2002 *AWPA Book of Standards*, as incorporated by reference in this rule.

(2) Standards for Treatment of Coniferous, Softwood Species. The requirements for retention and penetration of preservatives used shall not be less than the published 2002 *American Wood Preservers' Association Book of Standards*, as incorporated by reference in this rule, except that—

(A) For ponderosa pine, red pine and southern yellow pine, the minimum net retention level of copper naphthenate shall be .055 pounds per cubic foot, copper as metal, for round poles and posts used as structural members. This section shall expire when use category standards are established by AWPA for these products;

(B) Softwoods not listed in the AWPA Use Category Tables as treatable species shall be labeled "Does not conform to AWPA Standards." Furthermore, products that fall under this classification and are intended for ground contact use shall also include the statement, "Not recommended for structural purposes;"

(C) Softwood peeler core landscape timbers shall be exempted from meeting AWPA standards, if treater puts tags on each individual timber that states the following, "Does not conform to AWPA standards, not recommended for structural purposes." Companies who fail to label these products with this disclaimer will be regulated based on AWPA standards.

1. All products as defined by this rule shall be labeled with a tag in accordance to the following requirements:

A. Tags shall remain attached at each point of sale and may only be removed by the final purchaser;

B. Each tag shall be placed on the surface of each product so that it is readily visible to the purchaser;

C. Each tag shall be legible;

D. Tags shall be constructed of water resistant material.

(3) Standards for Treatment of Deciduous, Hardwood Species. The requirement for retention and penetration of preservatives used shall not be less than the published 2002 *American Wood Preservers' Association Standards*, as incorporated by reference in this rule, except that—

(A) The minimum net retention for oil-borne pentachlorophenol in the treatment of hardwoods, other than white oak, shall be 0.20 pounds of active ingredient per cubic foot or equal to four (4.0) pounds of five percent (5%) solution. White oak shall be treated to refusal;

(B) The minimum net retention for water borne copper chromated arsenate in the treatment of hardwoods other than white oak shall be 0.264 pounds of active ingredient. White oak shall be treated to refusal;

(C) The minimum net retention for oil borne copper naphthenate in the treatment of hardwoods, other than white oak, shall be 0.033 pounds per cubic foot copper as metal. White oak shall be treated to refusal;

(D) Effective March 30, 2003, all hardwoods, five inches (5") and greater in thickness and treated according to subsections (3)(A)-(C) or up to the levels of the AWPA Use Category Tables, shall be labeled with a tag as follows:

1. Hardwoods listed in the AWPA manual shall be labeled with a tag stating the percentage of AWPA ground contact or above ground contact retention level guaranteed and a statement of treatment to refusal for white oak. For example, a mixed bundle of white and red oak timbers, five inches (5") in thickness and greater, treated with a five percent (5%) solution of pentachlorophenol to 0.20 pounds of active ingredient per cubic foot, for ground contact, shall be tagged "Treated to 66% of AWPA Ground Contact Standards. White Oak Treated to Refusal." Furthermore, the same mixed bundle of white and red oak timbers, treated under the same conditions to 0.25 pounds of active ingredient per cubic foot could also be tagged, "Treated to 100% of AWPA Above Ground Contact Standards. White Oak Treated to Refusal;"

2. Hardwoods not listed in the AWPA Use Category Tables as treatable species shall be labeled "Does not conform to AWPA Standards." Furthermore, products that fall under this classification and are intended for ground contact use shall also include the statement, "Not recommended for structural purposes."

3. All products as defined by this rule shall be labeled with a tag in accordance to the following requirements:

A. Tags shall remain attached at each point of sale and may only be removed by the final purchaser;

B. Each tag shall be placed on the surface of each product so that it is readily visible to the purchaser;

C. Each tag shall be legible;

D. Tags shall be constructed of water resistant material.

(4) Other Treatment Standards. All other standards for treatment of timber or timber products with preservatives not covered by 2 CSR 70-40.015 shall not be less than the published 2002 *American Wood Preservers' Association Book of Standards*, as incorporated by reference in this rule.

Title 2—DEPARTMENT OF AGRICULTURE
Division 70—Plant Industries
Chapter 40—Missouri Treated Timber Products Law
Rules

ORDER OF RULEMAKING

By the authority vested in the Department of Agriculture under section 280.050, RSMo 2000, the director adopts a rule as follows:

2 CSR 70-40.025 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on September 16, 2002 (27 MoReg 1563). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Comments were accepted from September 17 through October 17, 2002. The Forest Resources Program Coordinator received a written comment from the Missouri Forest Products Association, Universal Forest Products, Houston Wood Treating & Arneson Timber Company.

COMMENT: The Missouri Forest Products Association supports the rule changes drafted by the department. They felt that the current rule needed to be updated to correct contradictions in wording and to reflect current AWPA standards.

RESPONSE: The department is grateful to the Missouri Forest Products Association for offering their support of this rule change.

COMMENT: 1) Universal Forest Products felt that reference to 2001 Book of AWPA Standards should be replaced with a reference to the 2002 AWPA Book of Standards. 2) Universal Forest Products feels that the department should follow the guidelines established by the American Lumber Standards Committee (ALSC) of the U.S. Department of Commerce in regards to compliance requirements. 3) Also, felt that ten (10) samples was not a sufficient amount needed to make a determination of compliance.

RESPONSE AND EXPLANATION OF CHANGE: 1) Suggestion noted and verbiage will be changed to make reference to the 2002 AWPA Book of Standards. 2) The department contacted the ALSC and determined that there is no written policy that third party inspection agencies follow in regards to ALSC policy. A spokesperson for ALSC stated that inspection agencies use their own discretion regarding compliance maintenance. Timber Products Inspection, which is one of several third party inspection agencies, was contacted and stated that they required a ninety-five percent (95%) overall compliance rate for treating companies to maintain. 3) In response to the statement regarding insufficient sample numbers, it was determined by phone call that there was a misunderstanding by Universal regarding the term sample. The wording will be changed to clarify how many actual core samples will be taken for compliance determinations and under what circumstances these samples will be taken.

COMMENT: 1) Houston Wood Treating feels that the eighty percent (80%) compliance rate is unfair to treaters who treat hardwood products such as oak. 2) Also feels that some treaters could be unfairly biased due to the amount of treated inventory on hand at any one given time. 3) Finally, they feel that red oak and white oak species are difficult to differentiate, which can make treating oak ties difficult, not to mention the fact that inspectors could mistake white oak for red oak during sampling.

RESPONSE: 1) The department does not agree that an eighty percent (80%) compliance rate is unfair. On the contrary, treaters of hardwood species such as oak, have an advantage over treaters of softwood species, such as pine. Treaters of hardwood species are

only required to meet sixty-six percent (66%) of AWPA standards whereas treaters of pine are required to treat to one hundred percent (100%) of AWPA standards. 2) How many samples are taken during an inspection has always been at the inspector's discretion. Since many facilities vary on the amount of inventory on hand at any given time, it would be impossible for inspectors to take the exact number of samples at each treating facility. 3) On the contrary, it is relatively simple to tell the difference between red and white oak species. It can be difficult to identify prior to taking core samples, however, an individual core can easily be distinguished by looking at the wood cells. Open cells indicate a red oak species, closed cells indicate a white oak species.

COMMENT: Arneson Timber Company feels that an eighty percent (80%) compliance rate is too "inflexible" due to the fact that wood treating is not an exact science.

RESPONSE: The department has spent the last two (2) years offering assistance to treaters having problems meeting retention and penetration requirements as outlined in the law. Some companies have not put forth an effort to correct their deficiencies. Although many variables can affect how well wood accepts preservative, the department feels that the consumers of Missouri should be assured that they are purchasing quality treated wood products. This can only be done by maintaining a reasonable level of compliance among all wood treaters.

2 CSR 70-40.025 Standards For Inspection, Sampling and Analysis

(1) The standards for inspection procedures shall be in accordance with the American Wood Preservers' Association (AWPA) Standard M2-Inspection of Treated Timber Products as published in the 2002 *AWPA Book of Standards*, as incorporated by reference in this rule.

(2) The standards for sampling and quality control procedures shall be in accordance with the published 2002 American Wood Preservers' Association, as incorporated by reference in this rule, except that—

(A) Any core samples taken during an inspection shall consist of one (1) lot. A lot for inspection at the treating plant will normally be a retort charge. A lot for inspection at plant storage yards or at sales yards where the final purchase has not been made, shall be that material available at the time and place of inspection which contains products from any one (1) treating plant and shall contain only one (1) species and one (1) preservative treatment. Lumber, plywood and posts shall not be mixed in one (1) inspection lot;

(B) The number of core samples taken during inspection of coniferous, softwood species shall be twenty (20) per lot. The samples shall be selected randomly from the lot being inspected;

(C) The number of core samples taken during inspection of deciduous, hardwood species shall be eight (8) per lot. The samples shall be randomly selected from the lot being inspected;

(D) Effective March 30, 2003 all treated timber producers will be required to maintain an eighty percent (80%) compliance rating. Samples will be taken from a minimum of two (2) units or bundles of treated material. No more than three (3) samples from separate lots will be taken during any inspection of an individual treating company's product. After ten (10) samples (twenty (20) cores per sample for softwood species, eight (8) cores per sample for hardwood species) have been taken from separate lots, compliance rates will be calculated. Every effort will be made to ensure that separate lots are sampled, however, if bundles are not marked with a lot number or if the treater is unsure of the lot number, samples will simply be taken from available material of the same dimensions, treated by the same treater with the same preservative. If a producer has three (3) or more stop sales based on either retention or penetration failures within these ten (10) samples, the producer will be contacted and informed that if an eighty percent (80%) compliance rating is not met

after an additional ten (10) samples (twenty (20) cores per sample for softwood species, eight (8) cores per sample for hardwood species) have been taken, the director or his/her representative will hold a hearing to determine if the producer's license should be suspended or revoked. If it is determined that the producer has not made a good faith effort to gain compliance, the director may suspend or revoke the license of the treated timber producer as provided under section 280.040, RSMo.

(3) The standards for methods of analysis for all type preservatives used shall be in accordance with the American Wood Preservers' Association (AWPA) Standard A-Analysis Methods, as published in the 2002 *AWPA Book of Standards*, as incorporated by reference in this rule.

RESPONSE AND EXPLANATION OF CHANGE: Suggestion noted and a change will be made in the wording of this rule to allow both options to be considered.

COMMENT: Houston Wood Treating & Massie's Pole Yard stated that hammerstamping dimensional lumber should be allowed as opposed to requiring tags.

ORDER OF RULEMAKING

By the authority vested in the secretary of state under section 400.9-526, RSMo Supp. 2001, the secretary adopts a rule as follows:

15 CSR 30-90.090 is adopted.

Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS AND EXPLANATION OF CHANGE: No comments were received. The agency on its own initiative modified the rule to respond to records that were not created pursuant to Chapter 400.9, RSMo, or intended for an improper purpose, such as to hinder, harass, or otherwise wrongfully interfere with any person. The agency has noticed increased activity in the attempted filing of records to harass or wrongfully interfere with Missouri citizens. To address this problem, the agency added sections (7) through (10) and the word “cancellation” in the title of the rule.

15 CSR 30-90.090 Refusal to File; Cancellation; Defects in Filing

(7) The secretary of state may refuse to accept filing of a UCC record when the secretary of state determines that the record is not created pursuant to Chapter 400.9, RSMo, or is otherwise intended for an improper purpose, such as to hinder, harass, or otherwise wrongfully interfere with any person.

(8) The secretary of state shall cancel a previously filed record if:

(A) A correction statement alleging that a previously filed record was wrongfully filed and that it should have been rejected under section (7) of this rule;

(B) Such correction statement includes a written certification, under oath, by the person that the contents of the correction statement are true and accurate to the best of the person’s knowledge; and

(C) The secretary of state, without undue delay, determines that the contested record was wrongfully filed and should have been rejected. In order to determine whether the record was wrongfully filed, the secretary of state may require the person filing the correction statement and the secured party to provide any additional relevant information requested by the secretary of state, including an original or a copy of any security agreement that is related to the record. If the secretary of state finds that the record was wrongfully filed and should have been rejected under section (7) of this rule, the secretary of state shall cancel the record and it shall be void and of no effect.

(9) If the secretary of state cancels a record under section (8), the secretary shall communicate to the person that presented the record the fact of and reason for the cancellation.

(10) If the secretary of state refuses to accept a record for filing pursuant to section (7) of this rule or cancels a wrongfully filed record pursuant to section (8) of this rule, the secured party may file an appeal within thirty (30) days after the refusal or cancellation in the Circuit Court of Cole County.

(A) Filing a petition requesting to be allowed to file the document commences the appeal. The petition shall be filed with the court and

the secretary of state and shall have the record attached to it. Upon the commencement of an appeal, it shall be advanced on the court docket and heard and decided by the court as soon as possible.

(B) Upon consideration of the petition and other appropriate pleadings, the court may order the secretary of state to file the record or take other action the court considers appropriate, including the entry of orders affirming, reversing, or otherwise modifying the decision of the secretary of state. The court may order other relief, including equitable relief, as may be appropriate.

(C) The court’s final decision may be appealed as in other civil proceedings.
