HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

Title	Code of State Regulations	Division	Chapter	Rule
1	CSR	10-	1.	010
Department		Agency, Division	General area regulated	Specific area regulated

They are properly cited by using the full citation, i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

RSMo—The most recent version of the statute containing the section number and the date.

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of the proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety (90)-day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

PROPOSED AMENDMENT

3 CSR 10-4.130 Owner May Protect Property; Public Safety. The commission proposes to amend section (1).

PURPOSE: This amendment clarifies that, in addition to provisions in this rule, federal regulations apply to control measures involving damage by migratory birds including raptors. This amendment also makes an editorial change from the singular word "turkey" to plural "turkeys."

captured or killed by the owner of the property being damaged, or by his/her representative, at any time and without permit, but only by shooting or trapping except by written authorization of the director or, for avian control, of his/her designee. Wildlife may be so controlled only on the owner's property to prevent further damage.

AUTHORITY: sections 40 and 45 of Art. IV, Mo. Const. Original rule filed Aug. 15, 1973, effective Dec. 31, 1973. For intervening history, please consult the Code of State Regulations. Amended: Filed Sept. 27, 2007.

NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed amendment with John W. Smith, Assistant Director, Department of Conservation, PO Box 180, Jefferson City, MO 65102. Chapter 31—Child Abuse

PROPOSED RULE

13 CSR 35-31.025 Child Abuse and Neglect Review Process

PURPOSE: This rule establishes a child abuse and neglect review process to provide for a review of child abuse and neglect determinations when an alleged perpetrator disagrees with the division’s finding of preponderance of the evidence.

(1) Upon written request, the Children’s Division will provide an opportunity for an administrative review to any alleged perpetrator

who disagrees with the local division's finding of preponderance of the evidence in a child abuse or neglect investigation.

(2) The alleged perpetrator will receive written notification of the preponderance of the evidence finding by the local division office and of his or her right to an administrative review of the finding.

(A) The alleged perpetrator will have sixty (60) days from the receipt of the notification of the child abuse/neglect finding to request an administrative review in writing to the circuit manager.

(B) The circuit manager, or his or her designee, will review, within ten (10) working days of receipt of the request, the investigative report and all appropriate material presented by the alleged perpetrator and determine whether to uphold or reverse the finding.

(C) The circuit manager, or his or her designee, will notify the alleged perpetrator in writing of the decision to uphold or reverse the original finding. If the finding is upheld, the circuit manager, or his or her designee, will forward the request to the Child Abuse and Neglect Review Board (CANRB) for further administrative review.

(3) The division may establish more than one (1) Child Abuse and Neglect Review Board to assure timely review of child abuse and neglect determinations.

(4) Each Child Abuse and Neglect Review Board will be composed of nine (9) members from specified professions outlined in section 210.153, RSMo 2000. Members are appointed by the governor with the advice and consent of the senate.

(5) Initially, three (3) board members will be appointed to serve for a term of three (3) years, three (3) board members will be appointed to serve for a term of two (2) years, and three (3) board members will be appointed to serve for a period of one (1) year.

(A) Members may continue serving after their term expires and until either their reappointment or until their replacement is appointed and approved.

(B) The members of the board shall designate a chairperson.

(6) The governor may remove and/or replace a member of the board for the following reasons:

(A) Death;

(B) Resignation;

(C) Mental or physical incapacitation which limits the member from effectively serving on the board; or

(D) For good cause as determined by the governor.

(7) The members of the board will hold all information obtained in the course of a review in the strictest confidence and will not discuss or disclose any information regarding any case, except as permitted under section 210.150, RSMo 2000.

(8) The members of the board will meet at a location within Missouri regularly, depending on the number of requests for review being filed, but a minimum of one (1) board will meet a minimum of one (1) time per month.

(9) The Child Abuse and Neglect Review Board will adhere to the following procedures for notification and scheduling of child abuse and neglect reviews:

(A) Within five (5) working days of receiving the request for review, the Children's Division CANRB liaison will notify the alleged perpetrator and the circuit manager of the date, time, and location of the review.

1. The Children's Division CANRB liaison or the board may grant a continuance to the alleged perpetrator for good cause. However, the number of continuances will be restricted to assure timely reviews.

2. If court adjudication occurs prior to the CANRB proceeding or prior to the CANRB's issuance of the board's determination, the

Children's Division CANRB liaison or the board will notify the alleged perpetrator that the board is foreclosed from ruling on the division's finding by statute.

3. If requested, and not otherwise prohibited by statute, the circuit manager will provide a copy of the child abuse and neglect investigation to the alleged perpetrator, including all records provided to the board, with the exception of confidential information or other information that could jeopardize child safety.

4. The alleged perpetrator may submit written information for the board to review before the proceeding if it is received by the board not less than twenty-one (21) calendar days prior to the hearing date; and

(B) The Children's Division CANRB liaison or the board shall notify the child or the child's parent, guardian, or legal representative that a review has been scheduled and of their opportunity to attend and/or to provide information on behalf of the child. The child's parent, guardian, or legal representative may submit written information for the board to review before the proceeding if it is received by the board not less than twenty-one (21) calendar days prior to the hearing date.

(10) At the review, the division, the child's representative, and then the alleged perpetrator (in that order) will each have twenty (20) minutes to present information to the board.

(A) The board may approve extra time for any presentation at the board's discretion.

(B) The alleged perpetrator's attendance is not mandatory for a review to be held.

(C) The board may approve participation by conference call for any participant.

(D) The alleged perpetrator may be represented by legal counsel.

(E) The division will be represented by appropriate staff, legal counsel, and/or the written record.

(F) The alleged perpetrator and the division may have witnesses provide testimony.

(G) Witnesses shall only be allowed to attend that portion of the review in which they are presenting information.

(H) The board will review and discuss all relevant materials and testimony, and all board members present at the hearing shall have the right to vote on whether to uphold or reverse the division's finding.

1. The board must have a quorum of not less than five (5) members to hold a hearing. If a quorum is not present, the hearing will be cancelled and rescheduled.

2. The board's decision must be based on a majority vote. In cases where there is no majority vote, the division's finding shall remain unchanged and considered affirmed.

3. The board's decision must be based on competent and substantial evidence on the whole record to support the preponderance of the evidence finding of abuse or neglect.

4. The board's decision must occur on the day of the review.

(11) The decision of the board will be the agency's final decision upholding or reversing the preponderance of the evidence finding of abuse or neglect.

(12) Within five (5) working days of the board's decision, the board shall notify the alleged perpetrator, the Children's Division, and the child's representative of the board's decision in writing. The decision shall be mailed to the last known address of such persons and their attorneys or legal representatives of record.

(13) The board shall expunge its administrative files at three (3) years with the exception of a log documenting the board's final decision.

(14) Annually, the department will evaluate the following factors related to the work of the Child Abuse and Neglect Review Board(s):

(A) Number of requests;

- (B) Geographic area of requests;
- (C) Results of reviews;
- (D) Composition of the board(s); and
- (E) Necessary amendments of the rules.

**Title 2—DEPARTMENT OF AGRICULTURE
Division 30—Animal Health
Chapter 2—Health, Requirements for Movement of
Livestock, Poultry and Exotic Animals**

ORDER OF RULEMAKING

By the authority vested in the director of the Department of Agriculture under section 265.020, RSMo 2000, the director amends a rule as follows:

**2 CSR 30-2.040 Animal Health Requirements for Exhibition
is withdrawn.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 15, 2007 (32 MoReg 971-976). This proposed amendment is withdrawn.

The state veterinarian received comments from two (2) sources, Dr. Tony Martin and Rose Foster, Program Coordinator for the Missouri Poultry Inspection Program.

COMMENT: Dr. Martin felt that without the descriptive clarification of "active lesions of ringworm" and "warts" there would be a wider variation in interpretation of what is "active ringworm" and what is a "wart" and these descriptors better defined lesions significant enough to deny permission to show affected animals as well as the removal of the scabies statement. Dr. Martin also questioned the change of pre-entry testing requirement for brucellosis test-eligible animal from sixty (60) to thirty (30) day and swine pre-entry brucellosis testing is sixty (60) days and not thirty (30) days like cattle. Along with these concerns, Dr. Martin commented that removing the section "Miscellaneous and Exotic Animals" especially exotic bovinds

added a risk to the production cattle species. Also, the omission of requirements for "Captive Cervids" could add to the risk and concern for brucellosis, tuberculosis (TB), chronic wasting disease (CWD), and Johnes in these species.

COMMENT: Ms. Foster noted changes to the poultry regulations to clarify that Missouri waterfowl are exempt from pullorum testing for shows.

RESPONSE: After consideration of the changes to this amendment and discussion with the Joint Committee on Administrative Review, the department decided to withdraw this amendment. The department will file these changes in a future amendment.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 16, 2007 (32 MoReg 1093-1095). No changes have been made to the text of the proposed amendment, so it is not reprinted here. SUMMARY OF COMMENTS: No public hearing was held. No written comments were received during the comment period.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 10—Air Conservation Commission
Chapter 6—Air Quality Standards, Definitions,
Sampling and Reference Methods and Air Pollution
Control Regulations for the Entire State of Missouri**

ORDER OF RULEMAKING

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo 2000, the commission amends a rule as follows:

10 CSR 10-6.110 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 15, 2007 (32 MoReg 976-987). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Natural Resources' Air Pollution Control Program received comments on the proposed amendment from eight (8) sources: Missouri Air Conservation Commission, City of Independence Water Pollution Control Department, Kansas City Health Department, Regulatory Environmental Group for Missouri (REGFORM), Springfield-Greene County Health Department, St. Louis City Health Department, St. Louis County Health Department, and U.S. Environmental Protection Agency (EPA).

COMMENT #1: Following the conclusion of the annual program financial review presentation, the commission asked questions regarding 1) the need for legislative action to fund revenue options, 2) the role and funding of nonprofit organizations, 3) pass-through funding, and 4) what programs do not fully fund themselves with current fees.

RESPONSE: Legislative action is required for funding the revenue options presented. Nonprofit organizations are, for example, Mid-America Regional Council in Kansas City and East-West Gateway Council of Governments, American Lung Association, and Washington University in St. Louis. These organizations coordinate outreach efforts and coordinate community involvement with rulemakings and State Implementation Plan developments. Pass-through funding provides financial resources for these organizations. There are agreements with the receiving organizations providing for budgets, work plans, performance measures, and reports. The Air Program's Permit & Emission Fee and Asbestos Fee funds are no longer self-sufficient sources of revenue. For example, in State Fiscal Year 2006, asbestos fees generated approximately three hundred four thousand dollars (\$304,000) and expended approximately four hundred thirty-one thousand dollars (\$431,000), for asbestos related costs. The Permit & Emission Fee fund generated approximately \$9.5 million and expended approximately \$10.1 million for air activities. The current fee rates do not generate the required revenue to fund a full twelve (12) months of operations. This failure to generate sufficient revenue to cover the annual cost of administering the programs has created a serious cash flow problem. If asbestos fees are not increased, to be more in line with the actual costs of day-to-day business, the asbestos fund balance will be in the negative and the program will have to use another source of revenue to fund asbestos activities. The same goes for the Permit & Emission Fee fund, even with the proposed forty dollars (\$40) per ton, the expenditures are still expected to exceed revenues. No wording changes have been made to the proposed rulemaking as a result of this comment.

COMMENT #2: At the conclusion of the emission fee rule testimony, the commission asked questions regarding 1) wide range of fees charged compared to other states, 2) any fees charged on mobile sources by other states, 3) removal of the chargeable emissions limit cap of twelve thousand (12,000) tons of regulated pollutants emitted, 4) percentage of total regulated pollutants derived from mobile sources versus stationary sources, and 5) percentage of Air Program budget regulating mobile sources.

RESPONSE: Emission fees and how they are charged by the states is very difficult to compare as the states utilize various methods. As presented in the fee rule testimony, a survey of the eight (8) states contiguous to Missouri shows a variety of ways to establish fees for emissions. Arkansas, Iowa, Kansas, Kentucky, Nebraska, and Oklahoma use a cost per ton factor (range twenty dollars and ninety-six cents to sixty-one dollars (\$20.96 to \$61)). Illinois uses a graded fee structure based on level of emissions. Tennessee uses a fee structure based on major and minor sources. Also, fees are charged for construction permits based on anticipated emissions. The state of Illinois charges a type of fuel tax to fund the state's automobile inspection and maintenance program on the Illinois side of the St. Louis metropolitan area. Air Program is not aware of any other states charging fees on mobile sources. Legislation would be required to remove the chargeable emissions limit cap. Based on the St. Louis emission inventory, on and off road mobile source emissions make up approximately fifty percent (50%) of the emissions in the St. Louis area based on a typical summer day emissions. This is also probably representative of emissions statewide. On-road mobile emissions represent thirty-one percent (31%) of volatile organic compounds and off-road emissions represent twenty-one percent (21%). On-road mobile emissions represent forty-three percent (43%) of nitrogen oxides and off-road emissions represent seventeen percent (17%). It is estimated that approximately twelve percent (12%) of the Air Program budget goes toward regulating mobile sources. This percentage reflects the cost of the Inspection Maintenance Program,

Stage II Program, and estimates the additional expense of developing emission inventories and control strategies for mobile sources, as there is no activity code or project code established that would have captured this information. No wording changes have been made to the proposed rulemaking as a result of this comment.

COMMENT #3: The City of Independence Water Pollution Control Department and the St. Louis County Health Department commented that the emission statement requirements in subsection (1)(B) and paragraph(3)(A)4. are conflicting.

RESPONSE AND EXPLANATION OF CHANGE: After review of these requirements, the rule text in paragraph (3)(A)4. was revised to reflect that emission statements for facilities in ozone nonattainment areas are required annually.

COMMENT #4: EPA and the St. Louis County Health Department commented that the fourth sentence in paragraph (3)(A)3. states that sources are allowed to file reports once every five (5) years which conflicts with the reporting frequency table in paragraph (3)(A)6.

RESPONSE AND EXPLANATION OF CHANGE: As a result of this comment, the sentence was deleted from the rule text since it was redundant information that is not needed since reporting frequency requirements are specified in the table in paragraph (3)(A)6.

Due to the similarity of the following four (4) comments, one (1) response that addresses these comments can be found at the end of these four (4) comments.

COMMENT #5: The Kansas City Health Department is supportive of the increase of the emissions fee to forty dollars (\$40) per ton of regulated air pollutant emitted. The Kansas City program is supported by a mix of federal, state, and local revenues. State emission fees provide about fifty-seven percent (57%) of the program's budget. This level of funding has remained essentially level for the past several years despite increasing direct costs, principally salary and fringe benefits for employees. Maintaining state emissions fees on a flat basis will not provide funds to maintain a quality program. As Kansas City recently violated EPA's ozone standard, an increase in the emissions fee is needed to help fund efforts to avoid further violations. The Kansas City program views air management for the Kansas City area as a federal, state, and local partnership.

COMMENT #6: The Springfield-Greene County Health Department is supportive of the increase of the emissions fee to forty dollars (\$40) per ton of regulated air pollutant emitted. State funding of Springfield's Air Quality Control Program has remained essentially stagnant for the past four (4) years. At the same time, operational costs continue to increase in order to meet of the needs of the area's fast growing population. Again, due to the rapid growth of the area, new programs and services have been added resulting in additional financial demands on the Springfield Program. Stagnant funding has hindered training efforts for staff and area businesses. Adequate funding is needed to protect public health and be proactive in protecting public health. The Springfield Program understands that the proposed emissions fee increase does not provide adequate support for the state and local programs into the future. The Springfield Program encourages the state, the commission, the department, and local agencies to continue their efforts to find alternative funding sources.

COMMENT #7: The St. Louis City Health Department is supportive of the increase of the emissions fee to forty dollars (\$40) per ton of regulated air pollutant emitted. State and local air pollution control programs are primarily funded by a combination of federal funds and state fees. Increased costs at the local level and flat funding in recent years have made it difficult to be competitive in salaries and recruitment of technical staff and timeliness and quality of services. The St. Louis City Health Department is committed to providing effective and efficient services to those sources of air pollution that fall under regulation in a manner that reduces air pollutants to protect public health.

COMMENT #8: The St. Louis County Health Department is supportive of the increase of the emissions fee to forty dollars (\$40) per ton of regulated air pollutant emitted. A large component of St. Louis County Health Department's success is directly related to the agency receiving adequate funding for staff and operating expenses from the state through various venues including emission fees. These funds provide the foundation for a number of air related activities including interaction with the regulated community. Without funding, supported in part by emission fees, the St. Louis County Program would be challenged to provide the level of service to which its permit holders are entitled and which they have come to expect. Due to the stagnant level of state funding of the past several years, the St. Louis County Program is finding it more difficult to carry out its contracted scope of work. In essence, a quality level of service cannot be maintained on stagnant funding levels. It is recognized that if this emissions fee increase is approved that the statutory maximum fee would be attained.

RESPONSE: The emissions fee is required to be set annually by statute and the emissions fee level is reviewed annually in cooperation with the regulated community to establish an annual fee amount to support the financial integrity of the program. The cities' and counties' support of the proposed emissions fee of forty dollars (\$40) per ton is appreciated. The increase of the fee to forty dollars (\$40) per ton is necessary to help maintain the financial integrity of the program, to provide a viable program for the benefit of Missouri's citizens and their children, to support a quality air pollution control program, and to assure federal obligations can be met. The level of state funding provided by the emissions fees collected is a significant and important funding source to the local air agencies that provide air quality protection and service. An emissions fee increase by the commission is also necessary to address the financial difficulties of increasing local program costs and the effects of economic inflation. No wording changes have been made to the proposed rulemaking as a result of these comments.

COMMENT #9: The Regulatory Environmental Group for Missouri (REGFORM) supports raising the emissions fee from thirty-four dollars and fifty cents to thirty-eight dollars (\$34.50 to \$38) per ton—a ten percent (10%) increase in the emissions fee for calendar year 2007. REGFORM believes that its member companies and others have shouldered the burden of the Title V support while other significant emission sources, particularly mobile, have not paid a fair share or any share at all. They believe it is flawed and unfair to reward reductions in air emissions by increasing the fee per ton. Therefore, REGFORM is asking the Missouri Air Conservation Commission to hold the line on the emissions fee at thirty-eight dollars (\$38) per ton and, working with the Missouri Department of Natural Resources and others, to implement a long-term solution to the funding of the Air Program. They also proposed a list of actions they support to help locate and support alternative sources of revenue, continue vigilance with respect to federal monies, and work with the Air Program to streamline important regulatory activities. REGFORM opposes raising the cap for the emissions fee or adjustments with existing facility limits. They believe any new sources of revenue derived should be drafted to have the new revenue streams flow to the Air Program during the fall of 2008.

RESPONSE: As presented in the financial testimony, even with the forty dollars (\$40) proposed fee increase, there is a shortfall of funding to sufficiently fund a full year of the department's air media activities. At the proposed forty dollars (\$40) fee rate payable June 1, 2008, the cash flow problem is projected to occur in March 2009. An additional source of revenue would be required for the program to continue operating until June 2009, when fees are again due. A fee rate of thirty-eight dollars (\$38) per ton, which was proposed by REGFORM, would only accelerate this cash flow problem. Over the past several years, much effort has been expended in finding opportunities for streamlining the Air Program. Where possible, streamlining efforts have been implemented. If additional streamlining

opportunities are identified, the Air Program stands ready to consider and implement those opportunities if reasonable and appropriate. Any basic change in funding of the Air Program will most likely require proposing legislation in the Missouri General Assembly. Proposing successful legislation can be a long process to bring to fruition. In many instances, this is accomplished over multiple legislative sessions. Legislative proposals for the 2008 session of the General Assembly will be competing with many other issues for time and attention as 2008 is a general election year in the nation and Missouri. The Air Program will work with REGFORM and other parties to determine, consider, and implement a fair and equitable long-term funding solution to meet the financial needs to fund a viable quality Air Pollution Control Program for the state of Missouri and its citizens. No wording changes have been made to the proposed rulemaking as a result of these comments.

COMMENT #10: The St. Louis County Health Department commented that the table in paragraph (3)(A)6., section 3, should have the last line re-worded to state — but not required to obtain an operating permit. The current version makes it appear that the source is not accepting an operating permit. Also, the new section 5. of this table states—for any one (1) pollutant during the Peak Ozone Season. It should state—for any one (1) pollutant annually.

RESPONSE AND EXPLANATION OF CHANGE: As a result of this comment, the wording in the table in paragraph (3)(A)6., section 3, has been changed for clarity and the section 5 wording has been changed to eliminate the conflict between subsection (1)(B) and paragraph (3)(A)4.

COMMENT #11: The St. Louis County Health Department commented that the new paragraph (3)(A)5. states "... in accordance with the requirements in section (4) of this rule...". Since there is no section (4) in the rule, this phrase should be deleted.

RESPONSE: Section (4) entitled Reporting and Record Keeping exists in the rule although the section was not published as part of the proposed amendment in the June 15, 2007 *Missouri Register* because no changes were proposed. Therefore, this phrase should remain in the rule text and no wording changes have been made as a result of this comment.

COMMENT #12: The St. Louis County Health Department commented that all crematories that burn only human or animal remains should be exempt from all EIQ requirements. (Reasoning: Each crematory reports less than one (<1) ton of annual emissions; it is an inefficient use of their time and staff time to require EIQ's of these facilities. The impact to MDNR revenue should be minimal.)

RESPONSE: Since this suggested change was not part of the amendment proposed in the public notice, no wording changes can be made to the proposed rulemaking as a result of this comment at this time. However, the Air Program will keep on file the comment regarding crematories for consideration on any amendment proposed in the future.

10 CSR 10-6.110 Submission of Emission Data, Emission Fees and Process Information

(3) General Provisions.

(A) Record Keeping and Reporting Requirements.

1. The owner or operator of an installation that is a source of any air contaminant shall collect, record and maintain, during each calendar year of operation—the time period and duration of emissions; the amounts of processed materials, fuels and solvents consumed; and the amounts of process materials, fuels and solvents stored in tanks and storage piles which emit any regulated air pollutant.

2. The owner or operator of an installation subject to paragraph (3)(A)1. of this rule shall file with the director, on the frequency specified in paragraph (3)(A)6. of this rule, reports containing the

information specified in paragraph (3)(A)1. of this rule. The reports shall specify the type and location of all sources of regulated air pollutants and the amount of each type of regulated air pollutant at each location; the size and height of all emission outlets, stacks and vents; the processes employed, including all fuel combustion and incineration; the type of air pollution control equipment used at the installation; the capture efficiency and control efficiency of the air pollution control equipment, where applicable; and ozone season information (Form 2.0Z) from sources located in nonattainment areas. Capture efficiency shall be applicable to emission points which are controlled by air pollution control devices and are not fully enclosed. Capture efficiency is not applicable to fugitive dust. The department encourages facilities to perform tests to determine capture efficiency. Industrial ventilation principles and engineering calculations may be used if testing is physically impossible or cost prohibitive. If testing or engineering calculation is not possible, then a default value of fifty percent (50%) capture efficiency may be used. Documentation verifying the capture efficiency shall be included with the EIQ. The owner or operator may submit a report containing information of a different nature provided the information submitted is adequate for the purposes of air quality planning and fee assessment and is approved by the director. Information submitted shall be reduced by the director to emission data as defined in 10 CSR 10-6.210(3)(B)2.

3. The reports required by paragraphs (3)(A)2. and 4. of this rule shall be completed on state supplied EIQ forms or in a form satisfactory to the director and shall be submitted to the director by June 1 after the end of each reporting period. After the effective date of this rule, any revision to the EIQ forms will be presented to the regulated community for a forty-five (45)-day comment period. The reporting periods for an installation, as determined by the reporting frequency specified in paragraph (3)(A)6. of this rule, shall end on

December 31 of each calendar year. Each report shall contain the information required by paragraph (3)(A)2. of this rule for each air contaminant source at the installation for the twelve (12)-month period immediately preceding the end of the reporting period, in addition to the information required under paragraph (3)(A)1. of this rule to be collected, recorded and maintained during each year of operation of the installation.

4. For sources located in ozone nonattainment areas, an emission statement is required if the actual emission of nitrogen oxides (NO_x), volatile organic compounds (VOCs) or carbon monoxide (CO) is equal to or greater than ten (10) tons for any one (1) pollutant annually. Emissions of each pollutant shall be reported if a facility meets the ten (10) ton threshold for any of the three (3) pollutants. Emissions statement reporting requirements shall be completed on state supplied EIQ forms and include the information required at paragraph (3)(A)2. of this rule and ozone season information for VOC, NO_x and CO emissions and any other criteria pollutant requested by the director. After the effective date of this rule, any revision to the EIQ forms will be presented to the regulated community for a forty-five (45)-day comment period. Emission statements shall be submitted in accordance with the schedule in paragraph (3)(A)6. of this rule.

5. All data collected and recorded in support of the provisions of this rule shall be retained in accordance with the requirements in section (4) of this rule by the owner or operator for not less than five (5) years after the end of the calendar year in which the data was collected and all these records shall be made available to the director upon his/her request.

6. The reports required by paragraphs (3)(A)2. and 4. of this rule shall be filed on the following frequency:

Reporting Frequency

Installation Classification	Emission Inventory Questionnaire	
	Nonattainment Area	All Other
1. Any installation required to obtain a Part 70 or Intermediate State Operating Permit under 10 CSR 10-6.065.	Annually	Annually
2. Any installation required to obtain a Basic State Operating Permit under 10 CSR 10-6.065.	Once every three (3) years	Once every three (3) years
3. Any installation required to obtain a construction permit under 10 CSR 10-6.060 or accepting a permit-by-rule under 10 CSR 10-6.062, but not required to obtain an operating permit.	Once every six (6) years	Once every six (6) years
4. Any installation required to submit an EIQ by the director.	Within forty-five (45) days of request	Within forty-five (45) days of request
5. Any ozone nonattainment area installation whose actual emissions of VOC, NO _x or CO is equal to or greater than ten (10) tons for any one (1) pollutant annually.	Annually, an emission statement is required	Exempt, no emission statement required

(D) Emission Fees.

1. Any air contaminant source required to obtain a permit under sections 643.010–643.190, RSMo, except sources that produce charcoal from wood, shall pay an annual emission fee, regardless of their EIQ reporting frequency, of forty dollars and no cents (\$40.00) per ton of regulated air pollutant emitted starting with calendar year 2007 in accordance with the conditions specified in paragraph (3)(D)2. of this rule. Sources which are required to file reports once every three (3) or six (6) years may use the information in their most recent EIQ to determine their annual emission fee if they have an EIQ on file. Sources that increase or decrease emissions by twenty percent (20%) will be required to provide a complete (rather than the short form) EIQ for that year and every CERR reporting year thereafter (i.e., 2011, 2014, 2017, etc. as applicable).

2. General requirements.

A. The fee shall apply to the first four thousand (4,000) tons of each regulated air pollutant emitted. However, no air contaminant source shall be required to pay fees on total emissions of regulated air pollutants in excess of twelve thousand (12,000) tons in any calendar year. A permitted air contaminant source which emitted less than one (1) ton of all regulated pollutants shall pay a fee equal to the amount of one (1) ton.

B. The fee shall be based on the information provided in the facility's EIQ.

C. An air contaminant source which pays emissions fees to a holder of a certificate of authority issued pursuant to section 643.140, RSMo, may deduct those fees from the emission fee due under this section.

D. The fee imposed under paragraph (3)(D)1. of this rule shall not apply to ammonia, carbon monoxide, and PM_{2.5} particulate matter emissions.

E. The fees for emissions produced during the previous calendar year shall be due June 1 each year for all United States Department of Labor Standard Industrial Classifications. The fees shall be payable to the Department of Natural Resources.

F. All Emissions Inventory Questionnaire forms or equivalent approved by the director shall be due annually on June 1 according to the required reporting schedules in paragraph (3)(A)6. of this rule for all United States Department of Labor Standard Industrial Classifications.

G. For the purpose of determining the amount of air contaminant emissions on which the fees are assessed, a facility shall be considered one (1) source under the definition of section 643.078.2, RSMo, except that a facility with multiple operating permits shall pay emission fees separately for air contaminants emitted under each individual permit.

3. Fee collection. The annual changes to this rule to establish emission fees for a specific year do not relieve any source from the payment of emission fees for any previous year.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 25—Hazardous Waste Management Commission
Chapter 2—Commission Procedures**

ORDER OF RULEMAKING

By the authority vested in the Hazardous Waste Management Commission under sections 260.370 and 621.250, RSMo Supp. 2006, the commission adopts a rule as follows:

10 CSR 25-2.020 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the April 16, 2007 *Missouri Register* (32 MoReg 640–641). One change was made to the Authority section of the proposed rule and that portion of the rule is reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF TESTIMONY: During the public hearing before the Missouri Hazardous Waste Management Commission on June 21, 2007, the department testified that the proposed rule establishes a procedure for appealing department decisions and requesting a hearing before the state's Administrative Hearing Commission (AHC). The rule further establishes a procedure for disposition of the AHC's recommendation after the hearing has been conducted. The department testified that the rule resulted from statutory changes contained in House Bill 824, passed by the 2005 General Assembly and also from the work of the department's Commissioner Core Workgroup. The department further testified that the substantive portions of the rule concerning deadlines for requesting appeals and for referring the AHC's recommendation back to the commission codify the requirements of the statute. Other than the department, there was no testimony at the public hearing either in support of or opposed to the rule. The department received a letter dated June 29, 2007, from Carol Eighmey, Executive Director of the Petroleum Storage Tank Insurance Fund (PSTIF). The letter contained four (4) comments requesting clarification on the applicability of the rule and also commenting on portions of the rule itself. Below are summaries of the comments and the department's response.

COMMENT #1: Carol Eighmey (PSTIF) commented that a "dispute resolution process" at the department level is not included in the Missouri Risk Based Corrective Action guidance document for petroleum storage tanks or in this draft rule.

RESPONSE: The department will be including in a revision of the Missouri Risk Based Corrective Action (MRBCA) guidance document for petroleum storage tanks a review process that is identical to the process described in Appendix D of the 2006 MRBCA departmental technical guidance document. Appendix D lays out a process to contest any written decision of a project manager regarding the applicability of the MRBCA guidance or rules to a specific site being addressed under those rules or guidance. The decision is first informally appealed to the project manager's direct supervisor, then to the section chief of the Tanks Section or the director of the Hazardous Waste Program. The program director's decision is considered a final decision that may be appealed pursuant to Chapter 536, RSMo. This process is simple, expeditious, effective, and will provide the remediating party directly affected by a MRBCA decision a means to voice any concerns.

COMMENT #2: Carol Eighmey (PSTIF) commented that the rule is unclear as to the application of this rule to decisions made by Tanks Section staff using rules promulgated by the Clean Water Commission.

RESPONSE: Senate Bill 901, in the 2004 legislative session, transferred oversight of the underground storage tank program from the Clean Water Commission (CWC) to the Hazardous Waste Management Commission (HWMC). Since the HWMC provides oversight for the Tanks Section and the regulations by which they operate, all decisions made by Tanks staff will be overseen by the HWMC.

COMMENT #3: Carol Eighmey (PSTIF) commented that if the rule applied to Tanks sites, then an extended time frame for filing an appeal or requesting a hearing in (3)(A) should be substituted for the required thirty (30) days.

RESPONSE: The thirty (30)-day time line for requesting a hearing is established by statute in section 621.250(2), RSMo. Because the timeline is established in the statute, the department is prohibited from allowing additional time to file a petition for a hearing.

COMMENT #4: Carol Eighmey (PSTIF) commented that the process outlined in the rule is not a cost effective means for resolving the type of disputes typically seen during tank site cleanups. She urged that the commission be used as an "informal sounding board" for review of such matters, or in the alternative that the department

establish a process that allows for mediation by a qualified, independent mediator.

RESPONSE: As discussed in the department's response to an earlier comment, informal appeals of department decisions made during the risk-based cleanup process may be made through an internal review process. Decisions made by department staff during that review process may ultimately be appealed pursuant to Chapter 536, RSMo. The informal review process should offer an efficient, cost-effective and fair method to resolve many, if not most, disputes before the more expensive and time-consuming formal appeals process.

COMMENT #5: While reviewing the proposed rule, a Department of Natural Resources staff person commented that the Authority section of the rule contained an incorrect citation. The citation should be to 621.250, RSMo and not to 621.050, RSMo.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees with the comment and has included a change to the Authority section in this order of rulemaking.

ORDER OF RULEMAKING

By the authority vested in the State Board of Nursing under section 335.036, RSMo 2000, the board adopts a rule as follows:

20 CSR 2200-2.070 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on June 1, 2007 (32 MoReg 864-865). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri State Board of Nursing received two (2) public comments and made one (1) change to the text of the rule based on their review.

COMMENT #1: A comment was received from Nancy Debasio, Research College of Nursing requesting clarification of whether it is necessary to state that students shall have access to a quiet area designated for study in light of the fact that most access resources online. **RESPONSE AND EXPLANATION OF CHANGE:** The board believes it is important to have a quiet area designated for study, but it does not have to be connected to the library. Therefore, paragraph (2)(A)1. is being deleted and the language is being added as section (3).

COMMENT #2: A comment was received from Nancy Debasio, Research College of Nursing stating that budget refers to printed and multi-media materials. Ms. Debasio sought the board's opinion if multi-media referred to the budget for online journals. **RESPONSE AND EXPLANATION OF CHANGE:** The board clarified multi-media does also refer to online journals. To clarify, the board has changed the wording in paragraph (2)(B)1. from “printed and multi-media material” to “appropriate resources.”

COMMENT #3: During review of the proposed rule, the board found the need to change paragraph (6)(B)3. to clarify that the policies and procedures for using the technology/computers need not be in writing.

RESPONSE AND EXPLANATION OF CHANGE: The board amended (6)(B)3.

20 CSR 2200-2.070 Physical Facilities

(A) Each program and each campus of each program shall have access to library resources with current and available resources to meet the educational needs of the students and the instructional and scholarly activities of the faculty.

(B) Management of library resources shall include:

1. Budget for acquisition of appropriate resources;

2. System for identifying or deleting outdated resources; and

3. Policies and procedures governing the administration and the use of the library resources shall be in writing and available to students and faculty.

(3) Quiet area designated for study.

20 CSR 2200-2.080 is adopted.

(4) Classrooms.

(A) Classrooms shall be of size, number and type for the number of students and teaching methodology.

(B) Classrooms shall have climate control, ventilation, lighting, seating, furnishings, and equipment conducive to learning.

3. Policies and procedures governing the administration and the use of the technology/computers. These policies and procedures shall be made available to students and faculty.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on June 1, 2007 (32 MoReg 866). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri State Board of Nursing received one (1) public comment and made one (1) change to the text of the rule based on their review. Due to a similarity of the following two (2) comments, one (1) response that addresses both comments can be found at the end of these two (2) comments.

COMMENT #1: During review of the proposed rule the board recognized it would need to allow a certain percentage of clinical time to be dedicated to clinical simulation.

COMMENT #2: Mari Beth Linder, Ph.D., R.N., B.C., Associate Professor and Department Head, Department of Nursing, Missouri Southern State University stated that if the National Council of State Boards of Nursing (NCSBN) has a position statement that simulation hours should not be counted as direct clinical, that this fact should be referenced under section (2).

RESPONSE AND EXPLANATION OF CHANGE: Most agree that there is not sufficient evidence to determine the effectiveness of clinical simulation, however, the board's intent is that the minimum standards are outcome-based and programs should be able to structure their programs based on evidence. To support the evolution of education, the board added section (3) to clarify that clinical simulation and clinical skills lab time is at the discretion of the nursing program.

20 CSR 2200-2.080 Clinical Sites

(3) Clinical simulation and clinical skills lab time is at the discretion of the nursing program.

This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri State Board of Nursing made one (1) change to the text of the rule based on their review.

COMMENT: Stemming from a discussion with a school at the Midwest Leadership Institute, the board reviewed the rule and determined that changes are needed to clarify the text of rule. The school indicated that the clinical site director selects the preceptor and the preceptor may change daily. The clinical faculty does not regularly visit the clinical site. The school was relying on written materials and evaluations that the preceptor completes. They suggested that a sentence be added that requires the faculty of the nursing program meet with the preceptor and the student on a regular basis.

RESPONSE AND EXPLANATION OF CHANGE: The board amended section (3).

20 CSR 2200-2.085 Preceptors

(3) Responsibilities of the nursing program faculty in regards to utilization of preceptors shall include:

(D) Assume responsibility for each student's final evaluation and the assigning of a performance rating or grade;

(E) Faculty shall be readily available to students and clinical preceptors during clinical learning experiences; and

(F) The designated faculty member shall meet periodically with the clinical preceptors and student(s) for the purpose of monitoring and evaluating learning experiences.

SUMMARY OF COMMENTS: The Missouri State Board of Nursing discussed one (1) suggestion for change to the text of the rule based on their review.

COMMENT: After reviewing the proposed rule, a board member suggested that subsection (1)(D) be further clarified as to whether "members of the class to which they are admitted" means "admit" as in the original class or the readmitted class.

RESPONSE: The intent is the readmitted class, but this should be at the discretion of the nursing program so no change has been made.

This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri State Board of Nursing received two (2) public comments and made one (1) change to the text of the rule based on their review.

COMMENT #1: A comment was received from Nancy Debasio, Research College of Nursing requesting clarification of whether it is necessary to state that students shall have access to a quiet area designated for study in light of the fact that most access resources online.

RESPONSE AND EXPLANATION OF CHANGE: The board believes it is important to have a quiet area designated for study, but it does not have to be connected to the library. Therefore, subsection (2)(A)1. is being deleted and the language is being added as section (3).

COMMENT #2: A comment was received from Nancy Debasio, Research College of Nursing stating that budget refers to printed and multi-media materials. Ms. Debasio sought the board's opinion if multi-media referred to the budget for online journals.

RESPONSE AND EXPLANATION OF CHANGE: The board clarified multi-media does also refer to online journals. To clarify, the board has changed the wording in paragraph (2)(B)1. from "printed and multi-media material" to "appropriate resources."

COMMENT #3: During review of the proposed rule, the board found the need to change paragraph (6)(B)3. to clarify that the policies and procedures for using the technology/computers need not be in writing.

RESPONSE AND EXPLANATION OF CHANGE: The board amended (6)(B)3.

ORDER OF RULEMAKING

By the authority vested in the State Board of Nursing under sections 335.036 and 335.071, RSMo 2000, the board adopts a rule as follows:

This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Two (2) comments were received by the board.

Due to a similarity of the following two (2) comments, one (1) response that addresses both comments can be found at the end of these two (2) comments.

COMMENT #1: After reviewing the proposed rule a member of the board recognized that the board would need to allow a certain percentage of clinical time to be dedicated to clinical simulation. She suggested that this be no more than twenty percent (20%) simulation; twenty percent (20%) observation; and sixty percent (60%) actual patient care.

COMMENT #2: Mari Beth Linder, Ph.D., R.N., B.C., Associate Professor and Department Head, Department of Nursing, Missouri Southern State University stated that if the National Council of State Boards of Nursing (NCSBN) has a position statement that simulation hours should not be counted as direct clinical, that this fact should be referenced under section (2).

RESPONSE AND EXPLANATION OF CHANGE: Most agree that there is not sufficient evidence to determine the effectiveness of clinical simulation, however, the board's intent is that the minimum standards are outcome based and programs should be able to structure their programs based on evidence. To support the evolution of education, the board believes a clarifying statement should be made that clinical simulation and clinical skills lab time is at the discretion of the nursing program. Therefore, the board has amended section (3).

20 CSR 2200-3.080 Clinical Sites

(3) Clinical simulation and clinical skills lab time is at the discretion of the nursing program.

Division 2200—State Board of Nursing Chapter 3—Minimum Standards for Approved Programs of Practical Nursing

ORDER OF RULEMAKING

By the authority vested in the State Board of Nursing under sections 335.036 and 335.071, RSMo 2000, the board adopts a rule as follows:

20 CSR 2200-3.085 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on June 1, 2007 (32 MoReg 900-901). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri State Board of Nursing made one (1) change to the text of the rule based on their review.

COMMENT: Stemming from a discussion with a school at the Midwest Leadership Institute, the board reviewed the rule and determined that changes are needed to clarify the text of rule. The school indicated that the clinical site director selects the preceptor and the preceptor may change daily. The clinical faculty does not regularly visit the clinical site. The school was relying on written materials and evaluations that the preceptor completes. They suggested that a sentence be added that requires the faculty of the nursing program meet with the preceptor and the student on a regular basis.

RESPONSE AND EXPLANATION OF CHANGE: The board amended section (3).

20 CSR 2200-3.085 Preceptors

(3) Responsibilities of the nursing program faculty in regards to utilization of preceptors shall include:

(D) Assume responsibility for each student's final evaluation and the assigning of a performance rating or grade;

(E) Faculty shall be readily available to students and clinical preceptors during clinical learning experiences; and

(F) The designated faculty member shall meet periodically with the clinical preceptors and student(s) for the purpose of monitoring and evaluating learning experiences.

Background

The individuals listed in this notice have recently filed applications requesting MoDOT to issue SPE Certificates to exempt them from the physical qualification requirements relating to vision in 49 CFR 391.41(b)(10), or to diabetes in 49 CFR 391.41(b)(3), which otherwise apply to drivers of CMVs in Missouri intrastate commerce.

Under section 622.555, *Missouri Revised Statutes* (RSMo) Supp. 2006, MoDOT may issue a Skill Performance Evaluation Certificate, for not more than a two (2)-year period, if it finds that the applicant has the ability, while operating CMVs, to maintain a level of safety that is equivalent to or greater than the driver qualification standards of 49 CFR 391.41. Upon application, MoDOT may renew an exemption upon expiration.

Accordingly, the agency will evaluate the qualifications of each applicant to determine whether issuing a SPE Certificate will comply with the statutory requirements and will achieve the required level of safety. If granted, the SPE Certificate is only applicable to intrastate transportation wholly within Missouri.
