

This section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order of rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

The agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety (90)-day period during which an agency shall file its order of rulemaking for publication in the *Missouri Register* begins either: 1) after the hearing on the proposed rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

ORDER OF RULEMAKING

By the authority vested in the State Board of Education under sections 161.092, 168.021, 168.071, and 168.081, RSMo Supp. 2009 and section 168.011, RSMo 2000, the board hereby amends a rule as follows:

5 CSR 80-800.290 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 1, 2010 (35 MoReg 456-457). The section with changes is reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The State Board of Education reviewed fifty-two (52) comment letters from Missouri public school districts regarding the examples of content areas in which college credits could be found, as well as length and varieties of certificates.

COMMENT #1: Eight (8) districts supported the clarification of subject content areas with the understanding that the quality of substitute teachers is important and that the addition of career/vocational areas would enhance their ability to provide appropriately qualified substitute teachers. They remarked that the streamlining of the substitute process would be beneficial to local districts' workload and make substitute licenses more portable.

COMMENT #2: Forty-four (44) districts objected to the content area examples citing that it is very difficult to find substitute teachers regardless of the area in which their college credits were earned.

RESPONSE AND EXPLANATION OF CHANGES: The staff concurs with the numerous objections and has deleted the proposed amendments to section (1) to retain original wording on semester hours and reworded the length of validity.

5 CSR 80-800.290 Application for Substitute Certificate of License to Teach

(1) An applicant for a substitute Missouri certificate of license to teach who has successfully completed sixty (60) semester hours or more of credit from an academic degree granting institution which is contained within the United States Department of Education's *Directory of Post-Secondary Institutions*, or approved by the commissioner of education, and possesses good moral character may be granted a substitute Missouri certificate of license to teach pursuant to the rules promulgated by the State Board of Education (board).

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 10—Air Conservation Commission
Chapter 6—Air Quality Standards, Definitions, Sampling
and Reference Methods and Air Pollution Control
Regulations for the Entire State of Missouri**

ORDER OF RULEMAKING

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo 2000, the commission amends a rule as follows:

10 CSR 10-6.110 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 1, 2010 (35 MoReg 461-467). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Natural Resources' Air Pollution Control Program (APCP) received sixteen (16) comments on the proposed amendment from seventeen (17) sources: Advertisers Display & Exhibits, Ameren Corporation, ANH Refractories Company, Enersys Energy Products Inc., General Motors Vehicle Manufacturing, Heider Environmental Consulting, Hastings Engineering, Inc., Henniges Automotive, Lifeline Foods, LLC, Midwest Environmental Consultants, Mid-West Industrial Chemical Co., Regulatory Environmental Group for Missouri, Springfield-Greene County Health Department, University of Missouri, Fred Weber Inc., Western Container Company, and a citizen.

Due to similar concerns expressed in the following six (6) comments, one (1) response that addresses these concerns can be found at the end of these six (6) comments:

COMMENT #1: The Regulatory Environmental Group for Missouri (REGFORM) requested that the Emissions Inventory Questionnaire (EIQ) reporting deadlines be moved forward one (1) month from the proposed dates to April 1 for paper filing and May 1 for electronic filing through the Missouri Emissions Inventory System (MoEIS). REGFORM explained that it would be difficult for their members to provide the data by the proposed March 1 and April 1 deadlines

because the raw data needed to calculate emissions may not be available in time and there are staffing issues as a result of the number of other state and federal reports due in the same timeframe.

COMMENT #2: ANH Refractories Company, Enersys Energy Products Inc., Henniges Automotive, Lifeline Foods, LLC, Mid-West Industrial Chemical Co., and Fred Weber Inc. commented that they do not support changing the due date for EIQs from June 1 to March 1 because of the shortened timeframe for reporting emissions. Several of these commenters expressed concerns with significant work load and staffing issues as a result of multiple state and federal reports due in the same timeframe as the proposed March 1 and April 1 deadlines.

COMMENT #3: Ameren commented that they support the comments submitted by REGFORM and requested moving the deadline to April 1 for paper filing and May 1 for MoEIS users. Ameren must submit emission information for over thirty-five (35) emission units in Missouri and the proposed March 1 and April 1 deadlines would be an insufficient amount of time to assure the data required to be submitted is of highest quality. In addition, Ameren must complete a number of other reports during this time period.

COMMENT #4: General Motors commented that they are concerned with changing the EIQ deadline from June 1 to March 1 because a number of other reports are due on or before April 1. Further, General Motors commented that they understand the need for the Air Program to meet EPA's reporting deadline and requested moving the EIQ due date to May 1.

COMMENT #5: The University of Missouri commented that they do not support the EIQ deadline change from June 1 to March 1 and April 1. They commented that it is difficult to collect the needed information from the large number of departments on campus operated independently of each other and an accelerated date would place a tremendous strain on already minimal personnel resources at this publicly-funded university. In addition, MU has a number of other state and federal reports due in the March/April timeframe.

COMMENT #6: Heider Environmental Consulting commented that they do not support the EIQ deadline change from June 1 due to difficulties completing EIQs for multiple clients at the same time, particularly those with a large number of reportable emission points. If the due date is moved to March 1, they requested allowing companies to file for extensions similar to the Internal Revenue Service (IRS) system for taxes, in which people can pay anticipated fees and submit the completed forms at a later date.

RESPONSE AND EXPLANATION OF CHANGE: The Air Program proposed moving the current June 1 emissions reporting deadline to March 1 for paper filing and April 1 for electronic filing in response to the new timeline established by the U.S. Environmental Protection Agency (EPA) Air Emissions Reporting Rule (AERR). The AERR reduces the time the Air Program has to submit emissions data to the National Emissions Inventory (NEI) by five (5) months. It is critical to submit high quality data to the NEI in a timely manner because it is the basis for federal rulemaking decisions. It will be a significant challenge for Air Program staff to collect, quality assure, reformat, and submit emissions data to the NEI within the EPA's new reduced schedule. The intent of the proposed reporting deadline change was to distribute the five (5)-month EPA schedule reduction between the time the regulated community has to complete their emissions reports and the time the Air Program has to prepare and submit data to the NEI.

Although the proposed amendment moves up the emissions report deadline, it expands the reduced reporting option for all but the largest emitters. This change allows qualified facilities to file a simple, one (1)-page reduced reporting form in lieu of a full, detailed emissions report. The expanded reduced reporting option is expected to benefit approximately one thousand (1,000) facilities, or nearly half of the permitted sources in the state, by significantly reducing their annual reporting burden.

The Air Program recognizes the work load and staffing concerns expressed by these commenters, many of which will not qualify for the reduced reporting option. With additional adjustments to internal

form processing and invoicing procedures, the Air Program determined that deadlines of April 1 for paper filing and May 1 for MoEIS submittals can be accommodated.

The rulemaking being proposed already includes an automatic one (1)-month extension for online filing. Recent simplifications and other improvements to MoEIS have significantly benefitted those who file their full emissions reports online. Additional emissions report extensions similar to the IRS, as suggested by Heider Environmental Consulting, are not feasible due to EPA's compressed schedule for the NEI. However, the Air Program is committed to providing facilities with assistance in completing emissions reports and using MoEIS in order to support timely submission of their data.

As a result of these comments, the reporting due date was changed to April 1 with an automatic extension to May 1 for MoEIS submittals in subsections (4)(C), (4)(D), (4)(I), and (4)(J).

Due to similarities in the following two (2) comments, one (1) response can be found at the end of these two (2) comments:

COMMENT #7: Western Container Company commented that they did not oppose any of the proposed amendment changes.

COMMENT #8: Advertisers Display & Exhibits commented that they are a small source emitting a total of one (1) to two (2) tons per year. They endorse the proposed changes if their understanding is correct that they would not be required to file another full emissions report unless their emissions change by five (5) tons or more.

RESPONSE: The Air Program appreciates Advertisers Display & Exhibits' and Western Container Company's support for the proposed rule changes. The Advertisers Display & Exhibits' understanding of the proposed changes is correct—because they have a de minimis permit, they will not be required to file another full emissions report, unless their emissions change by five (5) tons or more or a new construction permit is issued. No changes have been made to the rule text as a result of these comments. However, as discussed in the previous response to comments #1 through #6, the emissions report due date is being changed to April 1 with an automatic one (1)-month extension to May 1 for those reporting online directly to MoEIS.

COMMENT #9: Springfield-Greene County Health Department commented that they do not support the proposed change to reduce the reporting frequency for sources with intermediate, basic, and de minimis permits because the most accurate representation of emissions would be obtained through more frequent data collection. Furthermore, indefinite submittals of reduced reporting forms increases the burden on inspectors and will likely result in an increase in audits which can be more time consuming than reviewing EIQs. The County Health Department requested that intermediate operating permit holders continue to submit a full EIQ on an annual basis and basic and de minimis facilities continue to submit a full EIQ on a three (3)-year and six (6)-year cycle, respectively. They also requested that these sources submit reduced reporting forms in interim years with a full EIQ requirement if a construction permit is issued or a five (5)-ton change in emissions occurs.

RESPONSE: Due to the EPA's new reporting requirements, the Air Program has a significantly reduced period of time to collect, quality assure, and submit emissions data to the NEI. Therefore, it is important to prioritize the annual data collection effort to ensure appropriate allocation of staff resources. The group of facilities referred to in this comment amount to about half the number of emissions reports collected annually. Emissions from these facilities are less than one percent (1%) of reported emissions, which makes it more cost-effective to allocate resources to larger sources. The effect of continuing the current rule's one (1)-, three (3)-, or six (6)-year cycle for this group of sources is to require a full emissions report for less than five (5)-ton emission changes. This proposed amendment does require a full emissions report when material five (5)-ton changes occur or a new permit is issued. Expanding the reduced reporting option for these small sources will benefit both businesses and the Air Program by reducing resources allocated to relatively

unchanged emissions reports.

The reduction in full emissions reporting frequency in this proposed rulemaking is not expected to increase the burden on inspectors nor increase audits. Based on the Emission Inventory Unit's experience, effective communication and technical assistance improves compliance and results in better quality data. This amendment does not relax the obligation for permit holders to self-monitor and report violations. No changes have been made to the rule text as a result of this comment.

COMMENT #10: Hastings Engineering, Inc. commented that the reporting frequency for the reduced reporting form in Table 4 is not consistent with section (4).

RESPONSE: Although the reporting frequency appears similar in Table 4, the difference is that a *full emissions report* is required when emissions change by five (5) tons or *more*, and a *reduced reporting form* is allowed when emissions change *less* than five (5) tons. No changes have been made to the rule text as a result of this comment.

COMMENT #11: Ameren Corporation commented that they currently use the Electric Power Research Institute (EPRI) product called TRI for Power Plants (LARK-TRIPP) to estimate hazardous air pollutant (HAPs) emissions for the EIQs for Ameren's facilities. This software product's main purpose is to estimate releases of toxic chemicals for the EPA's Toxic Release Inventory (TRI) reporting due July 1 each year. This product is updated each year with the most up-to-date emission information to assure that the release estimates are as accurate as current science can support. This product is not finalized until late April each year. Therefore, it would be impossible to meet the proposed deadline or even the revised May 1 deadline suggested by REGFORM. While Ameren could generate an alternative estimate of HAPs, the corporation believes that this would raise the issue of the consistency of HAPs estimates used in the EIQ process and the estimates submitted to EPA for the TRI submittal. Ameren would prefer to make identical HAPs submittals for EIQ and TRI reporting. In order to accommodate this consistency, Ameren believes that additional time for submitting the HAPs emission information should be given to facilities that are using products like EPRI's LARK-TRIPP that, due to yearly updates, would not be available to be used for EIQ HAPs estimation.

RESPONSE: The Air Program's current practice is to accept changes to emission data as needed after the reporting deadline. This will not change as a result of this rulemaking. On this particular issue, the program will continue to work with Ameren and other facilities in similar situations to assure HAP data is consistent with TRI data. No changes to the rule text are required to accommodate this issue.

COMMENT #12: General Motors Vehicle Manufacturing commented that the pollutant fee applicability in Table 2 includes HAPs as a pollutant subject to fees. Certain HAPs are also accounted for as Volatile Organic Compounds (VOC) and Particulate Matter (PM), which can create a duplication of emissions. General Motors requests that HAPs are not included in the fee determination to avoid duplication of emissions and the generation of inaccurate emissions fees.

RESPONSE AND EXPLANATION OF CHANGE: HAPs that are reported as VOC or PM are subject to fees only as VOC or PM. HAPs that are not VOC or PM are subject to fees as itemized HAPs. Every chargeable emission is subject to fees only once per reporting year, regardless of reported pollutant categories. Paragraph (3)(A)5. and Table 2 in the rule text have been changed to clarify this.

COMMENT #13: Midwest Environmental Consultants commented that subsection (4)(A) is confusing. They asked why the information in Table 3 is provided since the information is already required on the EIQ forms. They also asked if the information in Table 3 is supposed to be submitted to the Emissions Inventory Unit when new emission units are added and when the information is to be submitted.

RESPONSE: The information in Table 3 is provided to list specific

data elements required to complete an emission report for consistency with EPA requirements. The information in Table 3 should be included in the emissions report when new emission units are added, typically as a result of a new construction permit. If these data elements have already been provided in a previous emissions report, they do not need to be submitted again unless they have changed. No changes have been made to the rule text as a result of this comment.

Due to similar concerns expressed in the following two (2) comments, one (1) response that addresses these concerns can be found at the end of these two (2) comments:

COMMENT #14: REGFORM commented that the Air Program has made significant strides to improve MoEIS reporting and responding to specific inquiries. REGFORM suggests that the Air Program actively reach out to key regulated sources for feedback and commentary on MoEIS.

COMMENT #15: REGFORM recommended that the Air Program establish a workgroup to facilitate an on-going dialogue for continuous improvement to MoEIS which, coupled with the proactive outreach, would make MoEIS the favored path for reporting emissions. The workgroup would be a permanent subgroup of the Air Advisory Forum and meet as needed. REGFORM would assist in identifying stakeholders to participate in this on-going effort.

RESPONSE: The Air Program's Emissions Inventory Unit has worked with and reached out to stakeholders to simplify the emissions reporting process. We have made progress in making MoEIS and emissions reporting more user friendly and consider this to be an ongoing process. The Air Program commits to continue working with interested stakeholders through the Air Advisory Forum on emissions reporting and MoEIS issues. No changes have been made to the rule text as a result of this comment.

COMMENT #16: A citizen expressed disagreement with the proposed amendment because it is being proposed on the sole basis of ozone safety which ultimately hurts businesses.

RESPONSE: The purpose of this proposed rulemaking is to incorporate recent changes to federal emissions reporting requirements. This rule change is intended to mitigate the burden on many facilities by requiring full, detailed emissions reports less frequently, while only accelerating the emissions reporting deadline by a minimal amount of time. No changes have been made to the rule text as a result of this comment.

10 CSR 10-6.110 Reporting Emission Data, Emission Fees, and Process Information

(3) General Provisions.

(A) Emission Fees.

1. Any installation subject to this rule, except sources that produce charcoal from wood, shall pay an annual emission fee of forty dollars and no cents (\$40.00) per ton of applicable pollutant emissions identified in Table 2 of this rule.

2. For full emissions reports, the fee is based on the information provided in the installation's emissions report. For sources which qualify for and use the Reduced Reporting Form, the fee shall be based on the last full emissions report.

3. The fee shall apply to the first four thousand (4,000) tons of each air pollutant subject to fees as identified in Table 2 of this rule. No installation shall be required to pay fees on total emissions in excess of twelve thousand (12,000) tons for any reporting year. An installation subject to this rule which emitted less than one (1) ton of all pollutants subject to fees shall pay a fee for one (1) ton.

4. An installation which pays emission fees to a holder of a certificate of authority issued pursuant to section 643.140, RSMo, may deduct those fees from the emission fee due under this section.

5. The fee imposed in paragraph (3)(A)1. of this rule shall not apply to NH₃, CO, PM_{2.5}, or HAPs reported as PM₁₀ or VOC, as summarized in Table 2 of this rule.

6. Emission fees for the reporting year are due June 1 after each reporting year. The fees shall be payable to the Missouri Department of Natural Resources.

7. To determine emission fees, an installation shall be considered one (1) source as defined in section 643.078.2, RSMo, except that an installation with multiple operating permits shall pay emission fees separately for air pollutants emitted under each individual permit.

TABLE 2. Pollutant Fee Applicability

PM ₁₀ pri	PM _{2.5} pri
SO ₂	CO
NO _x	NH ₃
VOC	HAPs reported as PM ₁₀ or VOC

(4) Reporting and Record Keeping. All data collected and recorded in accordance with the provisions of this rule shall be retained by the owner or operator for not less than five (5) years after the end of the calendar year in which the data was collected and all these records shall be made available upon the director's request.

(C) An installation not required to submit a full emissions report is required to submit a Reduced Reporting Form, which is due April 1 after each reporting year.

(D) The full emissions report is due April 1 after each reporting year. If the full emissions report is filed electronically via MoEIS, this due date is extended to May 1.

(I) If there is no production from an installation in a reporting year, no emission fees are due for that year but notice of such status must be provided to the director in writing by the emissions report due date of April 1.

(J) If an installation is out of business, the final emissions report required will be for the full or partial year the installation went out of business. Notice of such status must be provided to the director in writing by the emissions report due date of April 1.

IN ADDITION

7 CSR 10-25.010 Skill Performance Evaluation Certificates for Commercial Drivers

PUBLIC NOTICE

Public Notice and Request for Comments on Applications for Issuance of Skill Performance Evaluation Certificates to Intrastate Commercial Drivers with Diabetes Mellitus or Impaired Vision

SUMMARY: This notice publishes MoDOT's receipt of applications for the issuance of Skill Performance Evaluation (SPE) Certificates, from individuals who do not meet the physical qualification requirements in the Federal Motor Carrier Safety Regulations for drivers of commercial motor vehicles in Missouri intrastate commerce, because of impaired vision or an established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control. If granted, the SPE Certificates will authorize these individuals to qualify as drivers of commercial motor vehicles (CMVs), in intrastate commerce only, without meeting the vision standard prescribed in 49 CFR 391.41(b)(10), if applicable, or the diabetes standard prescribed in 49 CFR 391.41(b)(3).

DATES: Comments must be received at the address stated below, on or before August 31, 2010.

ADDRESSES: You may submit comments concerning an applicant, identified by the Application Number stated below, by any of the following methods:

- *Email:* Kathy.Hatfield@modot.mo.gov
- *Mail:* PO Box 893, Jefferson City, MO 65102-0893
- *Hand Delivery:* 1320 Creek Trail Drive, Jefferson City, MO 65109
- *Instructions:* All comments submitted must include the agency name and Application Number for this public notice. For detailed instructions on submitting comments, see the Public Participation heading of the Supplementary Information section of this notice. All comments received will be open and available for public inspection and MoDOT may publish those comments by any available means.

FOR FURTHER INFORMATION CONTACT: Ms. Kathy Hatfield, Motor Carrier Specialist, (573) 522-9001, MoDOT Motor Carrier Services Division, PO Box 893, Jefferson City, MO 65102-0893. Office hours are from 7:30 a.m. to 4:00 p.m., CT, Monday through Friday, except state holidays.

SUPPLEMENTARY INFORMATION:

Public Participation

If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard.

Background

The individuals listed in this notice have recently filed applications requesting MoDOT to issue SPE Certificates to exempt them from the physical qualification requirements relating to vision in 49 CFR 391.41(b)(10), or to diabetes in 49 CFR 391.41(b)(3), which otherwise apply to drivers of CMVs in Missouri intrastate commerce.

Under section 622.555, RSMo Supp. 2009, MoDOT may issue a Skill Performance Evaluation Certificate, for not more than a two (2)-year period, if it finds that the applicant has the ability, while operating CMVs, to maintain a level of safety that is equivalent to or greater than the driver qualification standards of 49 CFR 391.41. Upon application, MoDOT may renew an exemption upon expiration.

Accordingly, the agency will evaluate the qualifications of each applicant to determine whether issuing a SPE Certificate will comply with the statutory requirements and will achieve the required level of safety. If granted, the SPE Certificate is only applicable to intrastate transportation wholly within Missouri.

Qualifications of Applicants

Application #MP090911032

Applicant's Name & Age: Bobby Joe Hull, 49

Relevant Physical Condition: Mr. Hull's uncorrected visual acuity in his left eye is 20/20 Snellen and 20/400 in his right eye. This is due to a central retina vein occlusion.

Relevant Driving Experience: Mr. Hull is currently employed by a large trucking company and has driven commercial motor vehicles for approximately twenty-five (25) years. Drives personal vehicle(s) daily.

Doctor's Opinion & Date: Following an examination in June 2010, his ophthalmologist certified, "In my medical opinion, Mr. Hull's visual deficiency is stable, he has sufficient vision to perform the driving tasks required to operate a commercial motor vehicle, and the applicant's condition will not adversely affect his ability to operate a commercial motor vehicle safely."

Traffic Accidents and Violations: No accidents or violations within the past three (3) years.

Application #MP080708029

Applicant's Name & Age: Joel David Gorman, 34

Relevant Physical Condition: Mr. Gorman's best-corrected visual acuity in both eyes is 20/20 Snellen. He has insulin-treated diabetes mellitus and has been using insulin for control since April 2008.

Relevant Driving Experience: Mr. Gorman has driven nearly nine (9) years for a concrete company in Jefferson City, MO. Drives personal vehicle(s) daily.

Doctor's Opinion & Date: Following an examination in June 2010, his endocrinologist certified, "In my medical opinion, Mr. Gorman's

diabetes deficiency is stable, he is capable of performing the driving tasks required to operate a commercial motor vehicle, and the applicant's condition will not adversely affect his ability to operate a commercial motor vehicle safely."

Traffic Accidents and Violations: No accidents or violations within the past three (3) years.

Request for Comments

The Missouri Department of Transportation, Motor Carrier Services Division, pursuant to section 622.555, RSMo, and rule 7 CSR 10-25.010, requests public comment from all interested persons on the applications for issuance of Skill Performance Evaluation Certificates described in this notice. We will consider all comments received before the close of business on the closing date indicated earlier in this notice.

Issued on: July 1, 2010

Rules About Rule Numbers

A rule number can only be used once. Once a rule number has been used for a rule, the same rule number cannot be used for another rule with a different subject.

Leave room in your chapters for expansion of rules. Normally rule numbers should be assigned in increments of ten (10)–15 CSR 30-997.010, 15 CSR 30-997.020, etc. This way, you should have room to add rules between numbers in the future should the need to do so arise.

For more about rule numbering please see page 5.02A of *Rulemaking 1-2-3 Drafting and Style Manual* which can be found online at <http://www.sos.mo.gov/adrules/manual/manual.asp>.
