

This section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order of rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

The agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety (90)-day period during which an agency shall file its order of rulemaking for publication in the *Missouri Register* begins either: 1) after the hearing on the proposed rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

**Title 2—DEPARTMENT OF AGRICULTURE
Division 80—State Milk Board
Chapter 3—Production and Distribution of Grade A
Retail Raw Milk and Milk Products**

ORDER OF RULEMAKING

By the authority vested in the State Milk Board under section 196.939, RSMo 2000, the board hereby amends a rule as follows:

2 CSR 80-3.070 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 1, 2010 (35 MoReg 855-857). The section with changes is reprinted here. This amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENT: No public hearing was held. One (1) written comment was received during the comment period.

COMMENT #1: Scott Clardy, Missouri Department of Health and Senior Services, suggested some changes to paragraph (1)(A)26. and the addition of subparagraphs (1)(A)26.C. and (1)(A)26.D. to reflect precautions in case of a bioterrorism act.

RESPONSE: Paragraph (1)(A)26. will be changed to reflect DHSS's suggested changes and consultation with Missouri Department of Agriculture and State Milk Board and subparagraphs (1)(A)26.C. and (1)(A)26.D. have been added.

2 CSR 80-3.070 The Grading of Milk and Milk Products

(1) Grades shall be based on the following standards, the grading of milk products being identical with the grading of milk, except that the bacterial count standards shall be doubled in the case of cream. The grade of milk product shall be that of the lowest grade of milk product used in its preparation.

(A) Grade A retail raw milk is raw milk produced upon dairy farms conforming with all of the following items of sanitation. The bacterial plate count of the milk shall not exceed fifty thousand (50,000) per milliliter and not more than one hundred (100) coliform per milliliter as determined in accordance with 2 CSR 80-3.060.

1. Cow health. All herds and additions shall be tested and found free of tuberculosis before any milk is sold, and all herds shall be retested at least every twelve (12) months thereafter. The tests and retests shall be made and any reactors disposed of, in accordance with the latest requirements approved by the United States Department of Agriculture (USDA), for tuberculosis-free accredited herds, in effect at the time of the adoption of these regulations. A certificate identifying each animal signed by the veterinarian or attested to by the state authority, and filed as directed by the state authority, shall be evidence to the previously-mentioned test.

A. All herds and additions shall be tested and found free of brucellosis before any milk is sold and all herds shall be retested at least every twelve (12) months thereafter. Tests and retests shall be made, and any reactors disposed of in accordance with the latest requirements by the USDA, in effect at the time of the adoption of these rules. A certificate identifying each animal, signed by the veterinarian and the director of the laboratory making the test and filed as directed by the state authority, shall be evidence of the previous test.

B. Cows which show a complete induration of one (1) quarter or extensive induration in one (1) or more quarters of the udder, upon physical examination whether secreting abnormal milk or not, shall be permanently excluded from the milking herd, provided that this shall not apply in the case of quarter that is completely dry. Cows giving bloody, stringy, or otherwise abnormal milk, but without entire or extensive induration of the udder, shall be excluded from the herd until reexamination shows that the milk has become normal.

C. For other diseases, such tests and examinations as the state authority may require after consultation with state livestock sanitary officials shall be made at intervals and by methods prescribed by him/her, and any diseased animals or reactors shall be disposed of as s/he may require.

2. Milking barn—lighting. A milking barn, stable, or parlor shall be provided. It shall be provided with adequate light, properly distributed for both day and night milking.

3. Milking barn—air space and ventilation. Sections of the milking barn, stable, or parlor where cows are kept or milked shall be well ventilated and shall be so arranged as to avoid overcrowding.

4. Milking barn—floors, animals. The floors and gutters of that portion of the barn, stable, or parlor in which cows are milked shall be constructed of concrete, or other approved, impervious, and easily-cleaned material. Floors and gutters shall be graded so as to drain properly and shall be kept clean and in good repair. No swine or fowl shall be permitted in the milking barn, stable, or parlor. If horses, dry cows, calves, or bulls should be stabled, they shall be confined in stalls, stanchions, or pens which shall be kept clean and in good repair.

5. Milking barn—walls and ceilings. The interior walls and the ceilings of the milking barn, stable, or parlor shall be whitewashed or painted as often as may be necessary or finished in an approved manner and shall be kept clean and in good repair. Where there is a second story above the milking barn, stable, or parlor, the ceiling shall be tight. If feed should be ground or mixed, or sweet food should be stored, in a feed room or feed storage space which adjoins the milking space, it shall be separated by a dust-tight partition and door.

6. Cowyard—The cowyard shall be graded and drained as well as is practicable and shall be so kept that there are no standing pools of water nor accumulations of organic waste; provided, that in loafing areas, cattle housing areas, or both, manure droppings shall be removed, or clean bedding added, at sufficiently frequent intervals to prevent the accumulation of manure on cows' udders and flanks. Swine shall be kept out.

7. Manure disposal—All manure shall be removed and stored or disposed of in such a manner as to best prevent the breeding of flies and the access of cows to piles thereof.

8. Milkhouse or room—construction and equipment. There shall be provided a milkhouse or milkroom in which the cooling, handling, and storing of milk and milk products, and the washing, bactericidal treatment, and storing of milk containers and utensils shall be done.

A. The milkhouse or room shall be provided with a smooth floor, constructed of concrete or other impervious material, maintained in good repair, and graded as to provide proper drainage.

B. It shall have walls and ceilings of such construction as to permit easy cleaning and shall be well painted or finished in an approved manner.

C. It shall be well lighted and well ventilated.

D. It shall have all openings effectively screened, including outward opening self-closing doors, unless other effective means are provided to prevent the entrance of flies.

E. It shall be used for no purposes other than those specified previously, except as may be approved by the state authority; it shall not open directly into a milking barn or stable, nor into any room used for domestic purposes; it shall have water piped into it; it shall be provided with adequate facilities for heating water to clean utensils; and it shall be equipped with three (3) compartment stationary, wash and rinse vats. The cleaning and other operations shall be located and conducted so as to prevent any contamination of the milk or cleaned equipment.

F. The milkhouse shall be partitioned to separate the handling of milk and storage of cleaned utensils from the cleaning and other operations, which shall be located and conducted as to prevent any contamination of the milk or of cleaned equipment. 2 CSR 80-3.100 shall be posted in the milkhouse.

9. Milkhouse or room—cleanliness and flies. The floors, walls, ceilings, and equipment of the milkhouse or room shall be kept clean at all times. All necessary means for the elimination of flies shall be used.

10. Toilet. Every dairy farm shall be provided with one (1) or more sanitary toilets, conveniently located and properly constructed, operated, and maintained so that the waste is inaccessible to flies and does not pollute the surface soil nor contaminate any water supply.

11. Water supply. Water for all dairy purposes shall be from a supply properly located, protected, and operated and shall be easily accessible, adequate, and of a safe, sanitary quality.

12. Utensils—construction. All multiuse containers, equipment, and other utensils used in the handling, storage, or transportation of milk or milk products shall be made of smooth, nonabsorbent, non-corrodible, nontoxic material, shall be so constructed as to be easily cleaned, and shall be kept in good repair. Joints and seams shall be welded or soldered flush. Woven-wire cloth shall not be used for strained milk. When milk is strained, strainer pads shall be used and shall not be reused. All milk pails obtained shall be of the seamless, hooded type. All single-service articles used shall have been manufactured, packaged, transported, and handled in a sanitary manner.

13. Utensils—cleaning. All multiuse containers, equipment, and other utensils used in the handling, storage, or transportation of milk and milk products shall be thoroughly cleaned after each usage.

14. Utensils—bactericidal treatment. All multiuse containers, equipment, and other utensils used in the handling, storage, or transportation of milk and milk products, before each usage, shall be subjected effectively to an approved bactericidal process utilizing steam, hot water, chemicals, or hot air.

15. Utensils—storage. All containers and other utensils used in the handling, storage, or transportation of milk or milk products, unless stored in bactericidal solutions, shall be stored so as to drain dry and so as not to become contaminated before being used.

16. Utensils—handling. After bactericidal treatment, containers, and other milk and milk product utensils shall be handled in such a manner as to prevent contamination of any surface with which milk or milk products come into contact.

17. Milking—udders and teats, abnormal milk. Milking should be done in the milking barn, stable, or parlor. The udders and teats of all milking cows shall be clean and wiped with an approved bactericidal solution at the time of milking. Abnormal milk shall be kept out of the milk supply and shall be handled and disposed of as to preclude the infection of the cows and the contamination of milk utensils.

18. Milking—flanks. The flanks, bellies, and tails of all milking cows shall be free from visible dirt at the time of milking. All brushing shall be completed before milking commences.

19. Milkers' hands. Milkers' hands shall be washed clean, rinsed with an effective bactericidal solution, and dried with a clean towel, immediately before milking and immediately after any interruption in the milking operation. Wet-hand milking is prohibited. Convenient facilities shall be provided for the washing of milkers' hands. No person with an infected cut or lesion on hands or arms shall milk cows or handle milk or milk utensils.

20. Clean clothing. Milkers and milk handlers shall wear clean outer garments while milking or handling milk, milk products, containers, utensils, or equipment.

21. Milk stools. Milk stools and surcingles shall be kept clean.

22. Removal of milk. Each pail or can of milk shall be removed immediately to the milkhouse or straining room. No milk shall be strained or poured in the barn, unless it is protected from flies and other contamination.

23. Cooling. Immediately after completion of milking, milk and milk products shall be cooled to forty-five degrees Fahrenheit (45 °F) or less and shall be maintained at that temperature until delivery, as determined in accordance with 2 CSR 80-3.060.

24. Vehicles and surrounding. All vehicles used for the transportation of milk or milk products shall be constructed and operated so as to protect their contents from the sun, from freezing, and from contamination. All vehicles used for the distribution of milk or milk products shall have the distributor's name prominently displayed.

25. Bottling and capping. Milk and milk products not for pasteurization shall be bottled on the farm where produced. Bottling and capping shall be done in a sanitary manner by means of approved equipment, and these operations shall be integral in one (1) machine. Caps or cap stock shall be purchased in sanitary containers and shall be kept in a clean, dry place until used.

26. Personnel health/control of communicable diseases related to milk. The Missouri Department of Agriculture, State Veterinarian and the Executive Director of the State Milk Board in consultation with the local health authority, the director of the Department of Health and Senior Services (DHSS) or the director's designated representative, or physician authorized by him/her may examine and take a careful morbidity history of every person connected with a producer-distributor dairy, or about to be employed by one, whose work brings him/her into contact with the production, handling, storage, or transportation of milk, milk products, containers, or equipment. If the examination or history should suggest that the person may be a carrier of, or be infected with, any communicable diseases likely to be transmitted through milk, s/he shall obtain any appropriate samples or specimens for laboratory analysis that may be necessary to confirm the diagnosis or presence of disease. The laboratory that provides testing for the samples or specimens will be certified by the Clinical Laboratory Improvement Act of 1988 (CLIA), and if the results justify, that person shall not be engaged in work that brings him/her into contact with the production, handling, storage, or transportation of milk, milk products, containers, or equipment.

A. The person shall furnish information, submit to physical examinations, and submit laboratory specimens as the health officer may require for the purpose of determining freedom from infection.

B. No person with an infected cut or lesion on hands or arms shall handle milk, milk products, milk containers, or milk equipment.

C. Upon receiving a report of communicable disease, it shall be the duty of the local health authority, the director of the DHSS, or the director's designated representative to establish appropriate control measures which may include inspection of the premises, isolation, quarantine, disinfection, immunization, closure, or other measures considered appropriate by medical experts for the protection of public health.

D. Whenever a case of unrecognized illness is reported or otherwise brought to the attention of the local health authority or the DHSS and investigation presents evidence of a communicable disease, but sufficient time has not elapsed to render a positive diagnosis, after consultation with the director or his/her designated representative, the control measures applicable to actual cases of the suspected communicable disease will be implemented, until a positive diagnosis can be established. If a disease proves to be non-communicable, the temporary control measures shall be terminated at once.

STATUTORY LIST OF CONTRACTORS BARRED FROM PUBLIC WORKS PROJECTS

The following is a list of contractor(s) who have been prosecuted and convicted of violating the Missouri Prevailing Wage Law and whose Notice of Conviction has been filed with the Secretary of State pursuant to section 290.330, RSMo. Under this statute, no public body is permitted to award a contract, directly or indirectly, for public works 1) to Michael B. Robin, 2) to any other contractor or subcontractor that is owned, operated, or controlled by Mr. Robin, including Plumbco, Inc., or 3) to any other simulation of Mr. Robin or of Plumbco, Inc., for a period of one (1) year, or until December 17, 2010.

Name of Contractor	Name of Officers	Address	Date of Conviction	Debarment Period
Michael B. Robin DBA Plumbco, Inc. Case No. 09AO-CR01174		7534 Heron Drive Neosho, MO 64804	12/17/09	12/17/2009-12/17/2010

The Secretary of State is required by sections 347.141 and 359.481, RSMo 2000, to publish dissolutions of limited liability companies and limited partnerships. The content requirements for the one-time publishing of these notices are prescribed by statute. This listing is published pursuant to these statutes. We request that documents submitted for publication in this section be submitted in camera ready 8 1/2" x 11" manuscript by email to dissolutions@sos.mo.gov.

Notice of Corporate Dissolution To All Creditors of and Claimants Against Dan The Handyman LLC

On August 30, 2010, Dan The Handyman LLC, a Missouri corporation, filed its Articles of Dissolution with the Missouri Secretary of State. Dissolution was effective on September 1, 2010.

Said corporation requests that all persons and organizations who have claims against it present them immediately by letter to the corporation at:

Dan The Handyman LLC
2307 N Bess Place
Springfield, MO 65803

All claims must include the name and address of the claimant; the amount claimed; the basis for the claim; and the date(s) on which the event(s) on which the claim is based occurred.

NOTICE: Because of the dissolution of Dan The Handyman LLC, any claims against it will be barred unless a proceeding to enforce the claim is commenced within two years after the publication date of the two notices authorized by statute, whichever is published last.

NOTICE OF DISSOLUTION To All Creditors and Claimants Against INNOVATIA, INC. a Missouri Corporation

On August 9, 2010, INNOVATIA, INC., a Missouri corporation, filed its Articles of Dissolution with the Missouri Secretary of State. The dissolution of the corporation was effective on that date.

INNOVATIA, INC. requests that all persons and organizations who have claims against it present them immediately by letter to INNOVATIA, Inc., c/o Kurt S. Hansen, Sole Shareholder & Director, 14523 Marmont Drive, Chesterfield, MO 63017.

All claims must include the following: the name and address of the claimant; the amount claimed; the basis of the claim; the date(s) on which the events occurred which provided the basis for the claim; and copies of any other supporting data.

Pursuant to Section 351.482 of the Revised Statutes of Missouri, as amended, any claim against Innovatia, Inc. will be barred unless a proceeding to enforce the claim is commenced within two years after the last publication of the notices required by the statute.

Notice of Dissolution of Nonprofit Corporation

NOTICE: Because of the dissolution of The Sinks Land Co., any claims against it will be barred unless a proceeding to enforce the claim is commenced within two years after the publication date of the notices authorized by statute, whichever is published last.

The Sinks Land Co.

By: Mary H. Dwyer, President

Rule Changes Since Update to Code of State Regulations

This cumulative table gives you the latest status of rules. It contains citations of rulemakings adopted or proposed after deadline for the monthly Update Service to the *Code of State Regulations*, citations are to volume and page number in the *Missouri Register*, except for material in this issue. The first number in the table cite refers to the volume number or the publication year—30 (2005) and 31 (2006). MoReg refers to *Missouri Register* and the numbers refer to a specific *Register* page, R indicates a rescission, W indicates a withdrawal, S indicates a statement of actual cost, T indicates an order terminating a rule, N.A. indicates not applicable, RAN indicates a rule action notice, RUC indicates a rule under consideration, and F indicates future effective date.
