

This section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order of rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

The agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety (90)-day period during which an agency shall file its order of rulemaking for publication in the *Missouri Register* begins either: 1) after the hearing on the proposed rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

**Title 9—DEPARTMENT OF MENTAL HEALTH
Division 30—Certification Standards
Chapter 4—Mental Health Programs**

ORDER OF RULEMAKING

By the authority vested in the Director of the Department of Mental Health under section 630.050, RSMo Supp. 2009 and sections 630.655 and 632.050, RSMo 2000, the rule is adopted as follows:

9 CSR 30-4.0432 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on September 15, 2009 (34 MoReg 1986-1990). Those sections with changes are reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The department received sixteen (16) comments on the proposed rule.

COMMENT #1: Two (2) comments were received stating that a paraprofessional mental health worker should be added as a multidisciplinary Assertive Community Treatment (ACT) team member under section (5). The paraprofessional may have a bachelor's degree in a field other than behavioral sciences or a high school diploma and work experience with adults with severe and persistent mental illness or with individuals with similar human services' needs. The comments include a recommendation that the paraprofessional should participate in assessment, treatment planning, and service delivery activities but not assume case management responsibilities.

RESPONSE: The department has not revised the rule as requested

because the current proposed rule permits the desired request in subsection (5)(I).

COMMENT #2: Two (2) individuals stated that both a licensed practical nurse and a registered nurse should qualify under subsection (5)(C). The commenter recommended that the licensed practical nurse should have several years of experience working with persons with mental illness.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested because a registered nurse is needed to fulfill all the necessary functions of the multidisciplinary team nurse.

COMMENT #3: Two (2) individuals recommended that a program assistant should not be assigned to the team as a team member in subsection (5)(H) because this is an unreasonable expectation in a large agency with multiple services. It was suggested that the non-clinical team support functions be addressed as stated in section (6) or section (12).

RESPONSE AND EXPLANATION OF CHANGE: The department is in partial agreement with this comment and has revised the rule accordingly by maintaining the requirement for a program assistant but allowing for a prorated Full-Time Equivalent (FTE) depending on team size.

COMMENT #4: A comment was received regarding subsection (7)(E) recommending that NOS (not otherwise specified) not be included as a qualifying diagnosis. The commenter stated that this diagnosis does not necessarily indicate a long-term psychiatric disability and that clients in this program should have established contacts with mental health services.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested because the rule states that additional admission criteria must also be met.

COMMENT #5: One (1) commenter recommended that the initial assessment described in subsection (8)(G) should not be completed on the day of admission but no later than the third session so as not to create delays in services.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested.

COMMENT #6: A similar comment was made regarding subsection (8)(H) about the initial treatment plan. The comment recommends that the time period to complete the initial treatment plan should be increased to no later than the third session.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested.

COMMENT #7: One (1) comment was received recommending that, in subsection (9)(F), the comprehensive assessment should be updated annually.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested.

COMMENT #8: In subsection (9)(F), one (1) commenter recommended that the comprehensive assessment not be completed on the day of admission but that a provisional triage-based service plan be created to initiate care and establish some immediate collaborative goals.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested because a comprehensive assessment is not required on the day of admission. The initial assessment shall be completed on the day of admission as stated in subsection (8)(G) which functions as a provisional triage-based plan to initiate care and establish some immediate collaborative goals.

COMMENT #9: An individual commented that in subsection (9)(L), treatment plans should not be rewritten every six (6) months and recommends instead to require that a note describing the review and update of the treatment plan should suffice.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested because the rule does not require that the treatment plan be rewritten to assure a means for review.

COMMENT #10: Two (2) individuals commented that, in subsection (9)(L), treatment plans should be reviewed quarterly.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested because agencies may choose to review treatment plans more often than required in this rule.

COMMENT #11: In subsection (10)(E), the commenter stated that it is ill advised to expect no more than ten percent (10%) of individuals to graduate annually because more individuals may be prepared for discharge in a given year. The commenter recommends that the discharge criteria listed in a subsequent subsection of this rule be applied and to delete this percentage as a requirement.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees with this comment and has revised the rule as requested to clarify the difference between graduating and dropping out of the program.

COMMENT #12: A comment was received on subsection (10)(I) indicating that the clinical staff-to-client ratio should be 10:1.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested because the standard applies as long as the team continues to demonstrate acceptable outcomes.

COMMENT #13: A comment was received regarding subsection (10)(M). The commenter recommended that all clients should not be seen multiple times daily unless indicated. The recommendation included changing the language to reference those clients with severe, emergent, or acute symptoms.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees with this comment and has revised the rule as requested.

COMMENT #14: Two (2) commenters recommended that clients should have, on average, contact with more than two (2) team members per month or contact with at least two (2) team members per month in subsection (10)(O) providing more flexibility.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested.

COMMENT #15: A comment was received regarding subsection (10)(P) recommending elimination of this requirement or amending the requirement to one (1) or two (2) contacts per week including informal integrated dual disorder treatment; or indicate that these clients need to have their substance abuse issues addressed appropriately in the treatment plan to include weekly interventions including informal integrated dual disorder treatment.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees with this comment and has revised the rule as requested.

COMMENT #16: Regarding subsection (10)(T), the commenter recommends this requirement be rewritten to indicate that for at least ninety percent (90%) of clients, natural support system contacted by the team at least two (2) times per month.

RESPONSE: The department disagrees with this comment and has not revised the rule as requested.

9 CSR 30-4.0432 Assertive Community Treatment Programs

(5) Personnel and Staff Development. ACT shall be delivered by a multidisciplinary team (team) responsible for coordinating a com-

prehensive array of services. The team shall include, but is not limited to, the following disciplines:

(H) The team shall include a program assistant. A team of one hundred (100) individuals requires one (1) Full-Time Equivalent (FTE) prorated based on team size. The program assistant shall have education and experience in human services or office management. The program assistant shall organize, coordinate, and monitor all non-clinical operations of the team including, but not limited to, the following:

1. Managing medical records;
2. Operating and coordinating the management information system; and
3. Triaging telephone calls and coordinating communication between the team and individuals receiving ACT services.

(10) Service Provision.

(E) Individuals are offered services on a time unlimited basis, with less than ten percent (10%) dropping out annually, excluding those who graduate from services.

(M) Individuals who are experiencing severe, emergent, or acute symptoms shall be contacted multiple times daily by the team.

(P) Individuals with co-occurring substance abuse disorders shall be provided integrated mental health and substance abuse treatment.

Title 13—DEPARTMENT OF SOCIAL SERVICES Division 70—MO HealthNet Division Chapter 15—Hospital Program

ORDER OF RULEMAKING

By the authority vested in the MO HealthNet Division under sections 208.152, 208.153, 208.201, and 208.471, RSMo Supp. 2009, the division amends a rule as follows:

13 CSR 70-15.010 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on September 1, 2009 (34 MoReg 1802-1805). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Social Services, MO HealthNet Division, received and reviewed written comments on the proposed amendment from eleven (11) sources: The Missouri Hospital Association; HCA Midwest Health System; Saint Louis University Hospital; Royal Oaks Hospital; Ranken Jordan Pediatric Specialty Hospital; CenterPointe Hospital; Lashly & Baer, P.C.; the Honorable Jeanette Mott Oxford, representing the 59th District in the Missouri House of Representatives; the Honorable Jim Lembke, representing the 1st District in the Missouri Senate; the Honorable Rachel Storch, representing the 64th District in the Missouri House of Representatives; and the Honorable Barney Fisher, representing the 125th District in the Missouri House of Representatives. The comments are summarized as follows:

COMMENT #1: Several commenters described the potential reductions in MO HealthNet payments to hospitals as a result of the proposed changes to the better of days and utilization adjustment calculations as too abrupt, severe, rapid, and drastic, and commented that the potential reduction in Medicaid payments “in such a sudden and significant manner” would adversely impact their hospitals. Most commenters suggested that the proposed amendment include a transition or phase-in period for reductions in estimated days and utilization adjustments used to determine Direct Medicaid payments, so that hospitals could adjust over time to potential reductions in Medicaid reimbursement.

RESPONSE AND EXPLANATION OF CHANGE: The MO HealthNet Division (MHD) has been discussing the need to revise the use of the “better of” estimated Medicaid patient days and the utilization adjustment with the hospital industry since August 2008 so they were aware of the change. MHD has taken the comments into consideration and has revised the proposed amendment in the final order of rulemaking to reduce the initial impact on hospitals and allow for a longer transition period. Subsection (15)(B) of the proposed amendment will be changed to phase out the use of the better of days as follows: if the estimated MO HealthNet patient days used in the prior state fiscal year are greater than the current state fiscal year’s estimated days, the estimated MO HealthNet patient days used in the prior state fiscal year will be reduced by twenty-five percent (25%) of the difference effective January 1, 2010, fifty percent (50%) of the difference effective July 1, 2010, seventy-five percent (75%) of the difference effective July 1, 2011, and estimated days for the current state fiscal year shall be used effective July 1, 2012, forward. Subsection (15)(B) of the proposed amendment will also be changed to phase out the utilization adjustment for hospitals as follows: Hospitals other than safety net hospitals, children’s hospitals, and specialty pediatric hospitals shall receive sixty-seven percent (67%) of the utilization adjustment effective January 1, 2010, thirty-four percent (34%) effective July 1, 2010, and no utilization adjustment shall apply effective July 1, 2011, forward; children’s hospitals and specialty pediatric hospitals shall receive sixty-seven percent (67%) of the utilization adjustment effective January 1, 2010, and fifty percent (50%) effective July 1, 2010, forward. Safety net hospitals shall continue to receive one hundred percent (100%) of the utilization adjustment.

COMMENT #2: Several commenters suggested that the proposed amendment include caps, limitations, or stop-losses on reductions in Medicaid payment reductions that may occur as a result of the proposed amendment. Several commenters indicated that subparagraph (15)(B)4.A. of the proposed amendment eliminates the utilization adjustment for most hospitals but allows children’s hospitals to continue receiving fifty percent (50%) of their utilization adjustments. The commenters cited this provision as an example of a stop-loss already incorporated in the proposed amendment. They commented further on their recommendation of a stop-loss provision in the proposed amendment by citing the three (3)-percentage-point change limitation in the annual calculation of outpatient prospective payment rates as an example of an existing stop-loss provision in the current regulation.

RESPONSE: MHD believes it has addressed the commenters’ concerns regarding caps and limitations in the response and explanation of change for the previous comment. MHD believes that the revisions to the proposed amendment will treat all facilities in an equitable manner. MHD would point out that the three (3)-percentage-point limitation for outpatient rate calculation is not a provision in a rule but is part of the regression calculation used to set a hospital’s prospective outpatient percentage. No change to the rule text was made as a result of this comment.

COMMENT #3: Two (2) commenters indicated that the department’s intent is unclear regarding the application of subparagraph (15)(B)4.A. of the proposed amendment to Ranken Jordan Pediatric Specialty Hospital. The commenters stated that Ranken Jordan met the definition of a children’s hospital and noted in their comments that payment projections for state fiscal year 2010 showed that Ranken Jordan did not receive the fifty percent (50%) utilization adjustment afforded children’s hospitals under the proposed amendment. They recommended in their comments that subparagraph (15)(B)4.A. of the proposed amendment be revised to include specialty pediatric hospitals with children’s hospitals as hospitals qualifying for fifty percent (50%) of their utilization adjustments.

RESPONSE AND EXPLANATION OF CHANGE: MHD has taken these comments into consideration and has revised the proposed

amendment in the final order of rulemaking to treat the utilization adjustment for specialty pediatric hospitals in the same manner as the children’s hospitals. MHD would point out that Ranken Jordan does not meet the definition of a children’s hospital as noted in the comments. It is defined as a specialty pediatric hospital, which is not the same as a children’s hospital. MHD is not going to revise the definition of a children’s hospital in subsection (2)(S) of the rule to include specialty pediatric hospitals. However, MHD has revised subparagraph (15)(B)4.A. of the proposed amendment to treat the utilization adjustment for specialty pediatric hospitals in the same manner as the children’s hospitals (detailed above in the division’s response and explanation of change to the first comment).

COMMENT #4: Several commenters indicated that while the Federal Reimbursement Allowance (FRA) tax assessment increased from \$845 million in state fiscal year (SFY) 2009 to \$880 million in SFY 2010, MHD was proposing a rule to potentially reduce Medicaid payments to hospitals beginning in SFY 2010. They questioned why the FRA assessment was increasing in SFY 2010 when the proposed rule contained no additional Medicaid payments. They commented that the proposed amendment would have a negative financial impact, yet the proposed amendment’s fiscal note indicates the “amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.” Another commenter questioned if the proposed cost of the amendment to private entities would be limited to five hundred dollars (\$500).

RESPONSE AND EXPLANATION OF CHANGE: MHD disputes the assumption in this comment that MO HealthNet payments to Missouri hospitals will decrease in SFY 2010 while the hospitals’ FRA tax assessment will increase in SFY 2010. MHD payments to Missouri hospitals in SFY 2010, in the aggregate, were projected to increase by approximately \$23 million over SFY 2009 payments. The SFY 2010 payments and assessments are based on the most current hospital cost report data and applied trend factors. No change to the rule text was made as a result of this comment. A revised fiscal note, however, will be included with the order of rulemaking.

COMMENT #5: Several commenters indicated that the better of days calculations and the utilization adjustments being revised in the proposed amendment have been approved by the Centers for Medicare and Medicaid Services (CMS). The commenters also noted that the better of days calculation methodology has only been incorporated as part of the regulation since January 30, 2009, and questioned why MHD is changing a provision that was codified only months ago.

RESPONSE: The State Plan approved by CMS allows MHD to use estimated Medicaid patient days to calculate prospective payments to hospitals. The estimate is more specifically defined in the rule. The “better of days” provision in paragraph (15)(B)2. of the rule was recently added to clarify the method of estimating patient days and is being redefined in this regulation. MHD constantly strives to pay hospitals appropriately for Medicaid days served. As MHD compared actual days to estimated days, it became apparent that the estimate methodology resulted in an inflated estimate. MHD will continue to define and redefine methodologies for calculating estimates so that estimates closely reflect actual experience. No change to the rule text was made as a result of this comment.

COMMENT #6: Several commenters indicated that two (2) St. Louis area hospitals may close if the proposed amendment is implemented; that MO HealthNet participants would utilize other St. Louis hospitals with higher patient costs if the two (2) lower-cost hospitals close; and that this shift in utilization to higher-cost hospitals would result in higher MO HealthNet hospital payments and exceed any potential Medicaid savings from the proposed amendment.

RESPONSE: For over a year, MHD has reviewed its methodology for estimating Medicaid patient days for hospital Direct Medicaid payments and has continuously shared its findings with the hospital industry. The most notable finding was the excess Medicaid patient

days estimated for some Missouri hospitals as a result of the “better of days” provision. In cases where hospitals merge, change service mix, and close specialized units, the “better of days” calculation results in estimated Medicaid days that are much higher than actual experience. The two (2) St. Louis area hospitals at the heart of this comment have a significant variance between estimated days and actual Medicaid patient days because of changes in the services provided by each hospital.

The comment assumes that MO HealthNet participants will be forced to choose a higher-cost hospital if the two (2) St. Louis hospitals close. Some of the commenters have identified three (3) particular St. Louis area hospitals as the only alternatives for patients who would otherwise be admitted to the two (2) hospitals in question. The information to make such determinations is not readily identifiable or quantifiable as this is an assumed scenario that has not actually occurred. There are twenty-three (23) hospitals within St. Louis city and county that will provide alternatives for care for Medicaid patients. Some migration of patients from the two (2) hospitals has already occurred as a result of curtailed services at one (1) of the hospitals. Statewide the regulation resulted in a net Medicaid savings. The savings provided the state match enabling MHD to continue to make hospital Direct Medicaid payments. No change to the rule text was made as a result of this comment.

COMMENT #7: One (1) commenter indicated that if a particular St. Louis area hospital is forced to close as a result of reduced Medicaid reimbursement from the proposed amendment, the additional Medicaid days for certain other St. Louis hospitals would increase, causing future increases in graduate medical education (GME) payments. The comment included an estimate of \$9 million in additional Medicaid GME payments as a result of Medicaid patient days migrating from the “closed” hospital to three (3) area hospitals.

RESPONSE: The commenter’s assumption is similar to that in the previous comment—that if a particular St. Louis area hospital were to close, MO HealthNet participants would be admitted to one (1) of three (3) other St. Louis area hospitals that report GME costs. Again, MHD questions the assumption that the MHD participants would go to only those three (3) other hospitals. No change to the rule text was made as a result of this comment.

COMMENT #8: One (1) commenter indicated that if the proposed amendment forces two (2) particular St. Louis area hospitals to close, the state would lose an estimated \$10.1 million per year in FRA hospital provider tax revenues from the closed hospitals.

RESPONSE: When patients migrate to other hospitals, it results in an increase in revenues to those hospitals serving the patients. Any lost FRA assessment revenue from a hospital closing is likely to be reported as revenue by other area hospitals. Also, the FRA provider tax assessment is based on the amount needed to make estimated hospital payments as defined in statute and regulations. The aggregate need would be compensated by adjusting the assessment or tax rate applied to all hospitals. No change to the rule text was made as a result of this comment.

13 CSR 70-15.010 Inpatient Hospital Services Reimbursement Plan; Outpatient Hospital Services Reimbursement Methodology

(15) Direct Medicaid Payments.

(B) Direct Medicaid payment will be computed as follows:

1. The MO HealthNet share of the inpatient FRA assessment will be calculated by dividing the hospital’s inpatient Medicaid patient days by the total inpatient hospital patient days from the hospital’s base cost report to arrive at the inpatient Medicaid utilization percentage. This percentage is then multiplied by the inpatient FRA assessment for the current SFY to arrive at the increased allowable MO HealthNet costs for the inpatient FRA assessment. The MO HealthNet share of the outpatient FRA assessment will be calculated by dividing the hospital’s outpatient MO HealthNet charges by the

total outpatient hospital charges from the base cost report to arrive at the MO HealthNet utilization percentage. This percentage is then multiplied by the outpatient FRA assessment for the current SFY to arrive at the increased allowable MO HealthNet costs for the outpatient FRA assessment;

2. The unreimbursed MO HealthNet costs are determined by subtracting the hospital’s per diem rate from its trended per diem costs. The difference is multiplied by the estimated MO HealthNet patient days for the current SFY plus the out-of-state days from the fourth prior year cost report trended to the current SFY. The estimated MO HealthNet patient days for the current SFY shall be the better of the sum of the Fee-for-Service (FFS) days plus managed care days or the days used in the prior SFY’s Direct Medicaid payment calculation. The FFS days are determined from a regression analysis of the hospital’s FFS days from February 1999 through December of the second prior SFY. The managed care days are based on the FFS days determined from the regression analysis, as follows: The FFS days are factored up by the percentage of FFS days to the total of FFS days plus managed care days from the hospital’s fourth prior year cost report. The difference between the FFS days and the FFS days factored up by the FFS days’ percentage are the managed care days.

A. Effective January 1, 2010, the estimated MO HealthNet patient days shall be the better of the sum of the FFS days plus managed care days or the days used in the prior SFY’s Direct Medicaid payment calculation (i.e., for SFY 2010, prior SFY would be SFY 2009) adjusted downward by twenty-five percent (25%) of the difference between the sum of the FFS days plus managed care days and the days used in the prior SFY’s Direct Medicaid payment calculation.

(I) The FFS days plus managed care days are determined as follows: The FFS days are determined by applying a trend to the second prior Calendar Year (CY) days (i.e., for SFY 2010, second prior CY would be 2008) as determined from the state’s Medicaid Management Information System (MMIS). The trend is determined from a regression analysis of the hospital’s FFS days from February 1999 through December of the second prior CY. The managed care days are based on the FFS days determined from the regression analysis, as follows: The FFS days are factored up by the percentage of FFS days to the total of FFS days plus managed care days from the hospital’s fourth prior year cost report. The difference between the FFS days and the FFS days factored up by the FFS days’ percentage are the managed care days.

(II) The days used in the prior SFY’s Direct Medicaid payment calculation adjusted downward by twenty-five percent (25%) are determined as follows: The days used in the prior SFY’s Direct Medicaid payment calculation are compared to the sum of the FFS days plus managed care days as determined in part (15)(B)2.A.(I). If the hospital has greater estimated days as used in the prior SFY’s Direct Medicaid payment calculation than the sum of the FFS days plus managed care days as determined in part (15)(B)2.A.(I), the difference between the days is multiplied by twenty-five percent (25%) and this amount is removed from the estimated days used in the prior SFY’s Direct Medicaid payment calculation to arrive at the current year’s estimated days.

B. Effective July 1, 2010, the estimated MO HealthNet patient days shall be the better of the sum of the FFS days plus managed care days or the days used in the SFY 2009 Direct Medicaid payment calculation adjusted downward by fifty percent (50%) of the difference between the sum of the FFS days plus managed care days and the days used in the SFY 2009 Direct Medicaid payment calculation.

(I) The FFS days plus managed care days are determined as set forth in part (15)(B)2.A.(I).

(II) The days used in the prior SFY’s Direct Medicaid payment calculation adjusted downward by fifty percent (50%) are determined as follows: The days used in the prior SFY’s Direct Medicaid payment calculation are compared to the sum of the FFS days plus

managed care days as determined in part (15)(B)2.A.(I). If the hospital has greater estimated days as used in the prior SFY's Direct Medicaid payment calculation than the sum of the FFS days plus managed care days as determined in part (15)(B)2.A.(I), the difference between the days is multiplied by fifty percent (50%) and this amount is removed from the estimated days used in the prior SFY's Direct Medicaid payment calculation to arrive at the current year's estimated days.

C. Effective July 1, 2011, the estimated MO HealthNet patient days shall be the better of the sum of the FFS days plus managed care days or the days used in the SFY 2009 Direct Medicaid payment calculation adjusted downward by seventy-five percent (75%) of the difference between the sum of the FFS days plus managed care days and the days used in the SFY 2009 Direct Medicaid payment calculation.

(I) The FFS days plus managed care days are determined as set forth in part (15)(B)2.A.(I).

(II) The days used in the prior SFY's Direct Medicaid payment calculation adjusted downward by seventy-five percent (75%) are determined as follows: The days used in the prior SFY's Direct Medicaid payment calculation are compared to the sum of the FFS days plus managed care days as determined in part (15)(B)2.A.(I). If the hospital has greater estimated days as used in the prior SFY's Direct Medicaid payment calculation than the sum of the FFS days plus managed care days as determined in part (15)(B)2.A.(I), the difference between the days is multiplied by seventy-five percent (75%) and this amount is removed from the estimated days used in the prior SFY's Direct Medicaid payment calculation to arrive at the current year's estimated days.

D. Effective July 1, 2012, the estimated MO HealthNet patient days shall be the sum of the FFS days plus managed care days. The FFS days plus managed care days are determined as set forth in part (15)(B)2.A.(I).

E. The trended cost per day is calculated by trending the base year costs per day by the trend indices listed in paragraph (3)(B)1., using the rate calculation in subsection (3)(A). In addition to the trend indices applied to inflate base period costs to the current fiscal year, base year costs will be further adjusted by a Missouri Specific Trend. The Missouri Specific Trend will be used to address the fact that costs for Missouri inpatient care of MO HealthNet residents have historically exceeded the compounded inflation rates estimated using national hospital indices for a significant number of hospitals. The Missouri Specific Trend will be applied at one and one-half percent (1.5%) per year to the hospital's base year. For example, hospitals with a 1998 base year will receive an additional six percent (6%) trend, and hospitals with a 1999 base year will receive an additional four and one-half percent (4.5%) trend.

F. For hospitals that meet the requirements in paragraphs (6)(A)1., (6)(A)2., and (6)(A)4. of this rule (safety net hospitals), the base year cost report may be from the third prior year, the fourth prior year, or the fifth prior year. For hospitals that meet the requirements in paragraphs (6)(A)1. and (6)(A)3. of this rule (first tier Disproportionate Share Hospitals), the base year operating costs may be the third or fourth prior year cost report. The MO HealthNet Division shall exercise its sole discretion as to which report is most representative of costs. For all other hospitals, the base year operating costs are based on the fourth prior year cost report. For any hospital that has both a twelve (12)-month cost report and a partial year cost report, its base period cost report for that year will be the twelve (12)-month cost report.

G. The trended cost per day does not include the costs associated with the FRA assessment, the application of minimum utilization, the utilization adjustment, and the poison control costs computed in paragraphs (15)(B)1., 3., 4., and 5.;

3. The minimum utilization costs for capital and medical education is calculated by determining the difference in the hospital's cost per day when applying the minimum utilization as identified in paragraph (5)(C)4., and without applying the minimum utilization.

The difference in the cost per day is multiplied by the estimated MO HealthNet patient days for the SFY;

4. The utilization adjustment cost is determined by estimating the number of MO HealthNet inpatient days the hospital will not provide as a result of the managed care health plans limiting inpatient hospital services. These days are multiplied by the hospital's cost per day to determine the total cost associated with these days. This cost is divided by the remaining total patient days from its base period cost report to arrive at the increased cost per day. This increased cost per day is multiplied by the estimated MO HealthNet days for the current SFY to arrive at the MO HealthNet utilization adjustment.

A. Effective January 1, 2010, hospitals other than safety net hospitals as defined in subsection (6)(B) will receive sixty-seven percent (67%) of the utilization adjustment calculated in accordance with paragraph (15)(B)4. Safety net hospitals will continue to receive one hundred percent (100%) of the adjustment calculated in accordance with paragraph (15)(B)4.

B. Effective July 1, 2010, hospitals other than safety net hospitals as defined in subsection (6)(B), children's hospitals as defined in subsection (2)(S), and specialty pediatric hospitals as defined in subsection (2)(P) will receive thirty-four percent (34%) of the utilization adjustment calculated in accordance with paragraph (15)(B)4. Children's hospitals and specialty pediatric hospitals will receive fifty percent (50%) of the adjustment calculated in accordance with paragraph (15)(B)4. Safety net hospitals will continue to receive one hundred percent (100%) of the adjustment calculated in accordance with paragraph (15)(B)4.

C. Effective July 1, 2011, the utilization adjustment will no longer apply to any hospital other than safety net hospitals as defined in subsection (6)(B), children's hospitals as defined in subsection (2)(S), and specialty pediatric hospitals as defined in subsection (2)(P). Children's hospitals and specialty pediatric hospitals will continue to receive fifty percent (50%) of the adjustment calculated in accordance with paragraph (15)(B)4. Safety net hospitals will continue to receive one hundred percent (100%) of the adjustment calculated in accordance with paragraph (15)(B)4.

5. The poison control cost shall reimburse the hospital for the prorated MO HealthNet managed care cost. It will be calculated by multiplying the estimated MO HealthNet share of the poison control costs by the percentage of managed care participants to total MO HealthNet participants; and

6. Prior to July 1, 2006, the costs for including out-of-state Medicaid days is calculated by subtracting the hospital's per diem rate from its trended per diem cost and multiplying this difference by the out-of-state Medicaid days from the base year cost report. Effective July 1, 2006, the costs for including out-of-state Medicaid days is calculated by subtracting the hospital's per diem rate from its trended per diem cost and multiplying this difference by the out-of-state Medicaid days as determined from the regression analysis performed using the out-of-state days from the fourth, fifth, and sixth prior year cost reports.

REVISED PUBLIC COST: This amendment will result in additional MO HealthNet payments to private entities of approximately \$38,982,240 for SFY 2010 over the original estimated increase of \$22,911,742.

* The SFY 2010 Original includes items already provided for in rule (i.e., updating to a more current cost report base). In addition, this includes the cost of the proposed amendment (i.e., the 3.9% trend for SFY 2010, the 75% reduction in better of days and elimination of the utilization adjustment).

IV. ASSUMPTIONS

As a result of comments to the proposed amendment relating to the changes in the better of days calculation and the utilization adjustment, the division revised the proposed amendment in the final order of rulemaking to reduce the initial impact of these changes on hospitals and allow for a longer transition period. Effective for dates of service beginning January 1, 2010, the final order of rulemaking revises the better of days calculation for all hospitals and revises the utilization adjustment for all hospitals except for safety net hospitals, as follows:

- The proposed amendment reduced the better of days calculation by 75% and the order of rulemaking reduces the better of days calculation by 25%.
- The proposed amendment eliminated the utilization adjustment for all hospitals except for safety net hospitals and children's hospitals and the order of rulemaking provides for hospitals other than safety net hospitals to receive 67% of the utilization adjustment. Safety net hospitals will continue to receive 100% of the utilization adjustment.

Division 50—The County Employees' Retirement Fund
Chapter 2—Membership and Benefits

ORDER OF RULEMAKING

By the authority vested in the County Employees' Retirement Fund Board of Directors under section 50.1032, RSMo 2000, the board amends a rule as follows:

16 CSR 50-2.035 Payment of Benefits is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 1, 2009 (34 MoReg 2146–2147). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received.

**Title 20—DEPARTMENT OF INSURANCE,

**Division 200—Insurance Solvency and Company

**Chapter 1—Financial Solvency and Accounting
 Standards**

ORDER OF RULEMAKING

By the authority vested in the director of the Missouri Department of Insurance, Financial Institutions and Professional Registration under section 374.045, RSMo Supp. 2009, the director adopts a rule as follows:

**20 CSR 200-1.105 Property and Casualty Actuarial Opinions
 is adopted.**

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 2009 (34 MoReg 2154). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The director received testimony from Mark Stahlhuth, counsel for the Division of Insurance Company Regulation, in support of and explaining the proposed rule. No further testimony was offered at the hearing. The Reinsurance Association of America (RAA) wrote to support adoption of the proposed rule because it is based on the Property and Casualty Actuarial Opinion Model Law of the National Association Insurance Commissioners (NAIC) but suggested that the rule more closely conform to the language used in the NAIC model.

RESPONSE: The director appreciates RAA's comments but declines the suggestion because the director lacks rulemaking authority to adopt all the language of the NAIC model.

**Title 20—DEPARTMENT OF INSURANCE,
 FINANCIAL INSTITUTIONS AND PROFESSIONAL
 REGISTRATION**
Division 400—Life, Annuities and Health
Chapter 3—Medicare Supplement Insurance

ORDER OF RULEMAKING

By the authority vested in the director of the Missouri Department of Insurance, Financial Institutions and Professional Registration under section 374.045, RSMo Supp. 2009, the director amends a rule as follows:

20 CSR 400-3.650 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on September 1, 2009 (34 MoReg 1805–1920). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The director received one (1) letter containing three (3) comments on the proposed amendment from America's Health Insurance Plans (AHIP). AHIP later noted that the third comment no longer applied; therefore, only two (2) comments are included in this order of rulemaking.

COMMENT #1: AHIP requested that paragraph (5)(A)3. be amended to be consistent with the National Association of Insurance Commissioners Model Regulation which offers a technical amendment to update the language regarding Medicare deductible and co-payment percentage factors.

RESPONSE AND EXPLANATION OF CHANGE: The director agrees with this comment and has modified the proposed amendment accordingly.

COMMENT #2: AHIP commented that the new amendments for paragraph (12)(B)1. establish a new qualifying event for eligibility to guarantee issue of Medicare supplement plans. The new qualifying event would be for a person enrolled under an employee welfare benefit plan that provides health benefits that supplement Medicare benefits when "the individual leaves the plan." AHIP noted that this provision is not related to changes required by the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA) or the Genetic Information Non-Discrimination Act of 2008 (GINA), and it goes beyond the federal minimum standards. AHIP asked that the words "or the individual leaves the plan;" be deleted from paragraph (12)(B)1.

RESPONSE: The director appreciates this comment, but no changes have been made to the proposed amendment in response. The text referenced by AHIP is a Missouri-specific provision that was previously in the regulation for a number of years until it was mistakenly removed by a prior amendment. The director believes this provision previously provided Missouri consumers a necessary additional protection and should be reinserted, even though the language is not consistent with the NAIC Model Regulation.

**20 CSR 400-3.650 Medicare Supplement Insurance Minimum
 Standards Act**

(5) Minimum Benefit Standards for Policies or Certificates Issued for Delivery Prior to July 30, 1992. No policy or certificate may be advertised, solicited, or issued for delivery in this state as a Medicare supplement policy or certificate unless it meets or exceeds the following minimum standards. These are minimum standards and do not preclude the inclusion of other provisions or benefits which are not inconsistent with these standards.

(A) General Standards. The following standards apply to Medicare supplement policies and certificates and are in addition to all other requirements of this rule.

1. A Medicare supplement policy or certificate shall not exclude or limit benefits for losses incurred more than six (6) months from the effective date of coverage because it involved a preexisting condition. The policy or certificate shall not define a preexisting condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six (6) months before the effective date of coverage.

2. A Medicare supplement policy or certificate shall not indemnify against losses resulting from sickness on a different basis than losses resulting from accidents.

3. A Medicare supplement policy or certificate shall provide that benefits designed to cover cost sharing amounts under Medicare will be changed automatically to coincide with any changes in the applicable Medicare deductible, copayment, or coinsurance amounts. Premiums may be modified to correspond with such changes.

4. A “noncancelable,” “guaranteed renewable,” or “noncancelable and guaranteed renewable” Medicare supplement policy shall not—

A. Provide for termination of coverage of a spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than the nonpayment of premium; or

B. Be cancelled or nonrenewed by the issuer solely on the grounds of deterioration of health.

5.

A. Except as authorized by the director, an issuer shall neither cancel nor non-renew a Medicare supplement policy or certificate for any reason other than nonpayment of premium or material misrepresentation.

B. If a group Medicare supplement insurance policy is terminated by the group policyholder and not replaced as provided in subparagraph D. of this paragraph, the issuer shall offer certificate holders an individual Medicare supplement policy. The issuer shall offer the certificate holder at least the following choices:

(I) An individual Medicare supplement policy currently offered by the issuer having comparable benefits to those contained in the terminated group Medicare supplement policy; and

(II) An individual Medicare supplement policy which provides only such benefits as are required to meet the minimum standards as defined in subsection (6)(B) of this rule.

C. If membership in a group is terminated, the issuer shall—

(I) Offer the certificate holder the conversion opportunities described in subparagraph 5.B. of this subsection; or

(II) At the option of the group policyholder, offer the certificate holder continuation of coverage under the group policy.

D. If a group Medicare supplement policy is replaced by another group Medicare supplement policy purchased by the same policyholder, the issuer of the replacement policy shall offer coverage to all persons covered under the old group policy on its date of termination. Coverage under the new group policy shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced.

6. Termination of a Medicare supplement policy or certificate shall be without prejudice to any continuous loss which commenced while the policy was in force, but the extension of benefits beyond the period during which the policy was in force may be predicated upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or to payment of the maximum benefits. Receipt of Medicare Part D benefits will not be considered in determining a continuous loss.

7. If a Medicare supplement policy eliminates an outpatient prescription drug benefit as a result of requirements imposed by the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, the modified policy shall be deemed to satisfy the guaranteed renewal requirements of this subsection.

**Title 20—DEPARTMENT OF INSURANCE,
FINANCIAL INSTITUTIONS AND PROFESSIONAL
REGISTRATION
Division 2220—State Board of Pharmacy
Chapter 2—General Rules**

ORDER OF RULEMAKING

By the authority vested in the State Board of Pharmacy under section 338.140.1, RSMo 2000, and section 338.380, RSMo Supp. 2009, the board adopts a rule as follows:

20 CSR 2220-2.175 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 2009 (34 MoReg 2195–2203). The section with changes is reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The board received three (3) comments on the proposed rule.

COMMENT#1: After further review, the board identified an incorrect citation in the purpose statement of the rule.

RESPONSE AND EXPLANATION OF CHANGE: The board voted to change the current citation from section 333.080, RSMo, to section 338.380, RSMo.

COMMENT #2: The board received a comment from Douglas Lang, RPh, a former board member and current member of the Missouri Society of Health-Systems Pharmacists, recommending that the board change paragraph (5)(D)2. of the rule to clarify that impaired licensees are prohibited from possessing or consuming any legal drug, unless prescribed by a physician. The current language only prohibits the possession/consumption of controlled substances without physician authorization. The commenter indicated that several non-controlled drugs may also be addictive and should be prohibited unless prescribed by a treating physician.

RESPONSE AND EXPLANATION OF CHANGE: The board reviewed and agreed with the proposed recommendation and has amended the proposed rule to reflect the change.

COMMENT #3: After further review, the board recommended amending paragraph (5)(D)3. to clarify the current language regarding the “possession” of alcohol. The board recognizes the importance of prohibiting an impaired licensee from consuming alcohol due to the high potential for abuse/addiction. This potential is especially prevalent for impaired licensees with confirmed impairment issues. However, after consulting with legal counsel, the board expressed concerns regarding the potential scope of the term “possession” in the absence of a precise definition. Accordingly, the board recommended that the rule be clarified to clearly reflect that impaired licensees participating in the Well-Being Committee are prohibited from the consumption of alcohol.

RESPONSE AND EXPLANATION OF CHANGE: The board reviewed and agreed with the proposed recommendation and has amended the proposed rule to reflect the change.

20 CSR 2220-2.175 Well-Being Program

PURPOSE: This rule establishes guidelines for the operation of the Well-Being Committee, pursuant to section 338.380, RSMo.

(5) Well-Being Committee Duties.

(D) The committee shall enter into written contracts with each impaired licensee. The contract between the committee and the impaired licensee shall be a minimum of five (5) years in duration, or the time designated by the board. The contract between the committee and impaired licensee shall include, but shall not be limited to, the following conditions/requirements:

1. Each impaired licensee shall comply with all terms, conditions, or treatment identified, required, or recommended by the contractor or the board for the treatment, evaluation, monitoring, or assessment of the impaired licensee;

2. Each impaired licensee shall abstain from the possession or

consumption of legend medication, except as prescribed by a treating prescriber;

3. Each impaired licensee shall abstain from illegal possession of alcohol, the consumption of alcohol, and the possession or consumption of illegal drugs;

4. Each impaired licensee shall submit to random drug testing unless otherwise specified by the board, committee, or contractor;

5. Each impaired licensee shall report to the committee or the contractor all relapses or other breaches of the contractual terms;

6. Each impaired licensee shall report to or meet with the board, committee, contractor, or the contractor's appointed designee as may be requested by the board, committee, or contractor;

7. Each impaired licensee shall attend support meetings as requested by the committee, contractor, or treatment providers;

8. Each impaired licensee referred to the Well-Being Program by the board shall authorize the committee to release any and all information regarding the impaired licensee to the board;

9. Each impaired licensee voluntarily enrolled in the Well-Being Program shall authorize the committee to release any and all information regarding the impaired licensee to the board upon a violation of any state or federal drug law or if the licensee breaches or fails to comply with any terms of a Well-Being contract; and

10. Each impaired licensee shall be financially responsible for all drug screens and any other professional or administrative service rendered on behalf of the impaired licensee.

ORDER OF RULEMAKING

By the authority vested in the Real Estate Appraisers under section 339.509, RSMo 2000, and sections 339.515 and 339.517, RSMo Supp. 2009, the commission amends a rule as follows:

20 CSR 2245-3.010 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 1,

2009 (34 MoReg 2207–2208). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The commission received one (1) comment on the proposed amendment.

COMMENT #1: The Missouri Appraisers Advisory Council (MAAC) is in support of the proposed amendment. MAAC concurs with the proposed amendment because the classification "licensed appraiser" was originally intended to be a beginning practitioner/trainee license but has been used as a license that grants greater authority. Also, the amendment allows licensed appraisers to maintain their current license and includes a lengthy grace period for those still wishing to file an application for a "state licensed real estate appraiser." The Appraisal Qualifications Board also recognized the need in the current real estate environment to have better educated/trained appraisers and issued new educational standards effective January 1, 2008, which requires additional education for all levels. And as of October 1, 2009, the Federal Housing Administration (FHA) no longer allows "licensed appraisers" to complete FHA appraisals.

RESPONSE AND EXPLANATION OF CHANGE: The commission appreciates the support from MAAC. However, upon further review of the proposed amendment and sections 339.500 through 339.549, RSMo, the commission is withdrawing the proposed paragraph (5)(C)2.

20 CSR 2245-3.010 Applications for Certification and Licensure

(5) Prerequisite for Certification.

(C) State-Licensed Real Estate Appraiser.

1. As a prerequisite for licensure as a state-licensed real estate appraiser, an applicant shall present satisfactory evidence to the commission that the applicant possesses the equivalent of two thousand (2,000) hours of appraisal experience obtained over a period of not less than twelve (12) months under the supervision of a state-certified real estate appraiser and supported by adequate written reports or file memoranda. The applicant must have at least fifty percent (50%) of the required experience hours in the state of Missouri. Hours may be treated as cumulative in order to achieve the necessary two thousand (2,000) hours of appraisal experience.

IN ADDITION

3 CSR 10-7.455 Turkeys: Seasons, Methods, Limits

As a matter of public information, the following dates and bag limits shall apply to turkey hunting seasons for 2010. These are based on the formula for season dates set out in subsections (1)(A), (1)(B), and (1)(D) of this rule in the *Code of State Regulations* and actions of the Conservation Commission on December 17, 2009, to annually establish the season length and bag limit of the spring, fall, and youth hunting seasons.

Spring Season: The 2010 spring turkey hunting season will be twenty-one (21) days in length (April 19–May 9, 2010). A person possessing the prescribed turkey hunting permit may take two (2) male turkeys or turkeys with visible beards during the season; provided, only one (1) turkey may be taken the first seven (7) days of the season (April 19 through April 25), and only one (1) turkey may be taken per day from April 26 through May 9. Shooting hours: one-half (½) hour before sunrise to 1:00 p.m. Central Daylight Saving Time.

Youth Spring Season Dates: April 10–11, 2010. A youth possessing the prescribed youth turkey hunting permit and is at least six (6) but not older than fifteen (15) years of age may take one (1) male turkey or turkey with visible beard. Shooting hours: one-half (½) hour before sunrise to sunset, Central Daylight Saving Time.

Fall Season: The 2010 fall turkey hunting season will be thirty-one (31) days in length (October 1–October 31, 2010). Two (2) turkeys of either sex may be taken during the season. Shooting hours: one-half (½) hour before sunrise to sunset, Central Daylight Saving Time.

Public Notice and Request for Comments on Applications for Issuance of Skill Performance Evaluation Certificates to Intrastate Commercial Drivers with Diabetes Mellitus or Impaired Vision

SUMMARY: This notice publishes MoDOT's receipt of applications for the issuance of Skill Performance Evaluation (SPE) Certificates from individuals who do not meet the physical qualification requirements in the Federal Motor Carrier Safety Regulations for drivers of

commercial motor vehicles in Missouri intrastate commerce, because of impaired vision or an established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control. If granted, the SPE Certificates will authorize these individuals to qualify as drivers of commercial motor vehicles (CMVs), in intrastate commerce only, without meeting the vision standard prescribed in 49 CFR 391.41(b)(10), if applicable, or the diabetes standard prescribed in 49 CFR 391.41(b)(3).

If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard.

Background

The individuals listed in this notice have recently filed applications requesting MoDOT to issue SPE Certificates to exempt them from the physical qualification requirements relating to vision in 49 CFR 391.41(b)(10) or to diabetes in 49 CFR 391.41(b)(3), which otherwise apply to drivers of CMVs in Missouri intrastate commerce.

Under section 622.555, RSMo Supp. 2009, MoDOT may issue a Skill Performance Evaluation Certificate, for not more than a two (2)-year period, if it finds that the applicant has the ability, while operating CMVs, to maintain a level of safety that is equivalent to or greater than the driver qualification standards of 49 CFR 391.41. Upon application, MoDOT may renew an exemption upon expiration.

Accordingly, the agency will evaluate the qualifications of each applicant to determine whether issuing a SPE Certificate will comply with the statutory requirements and will achieve the required level of safety. If granted, the SPE Certificate is only applicable to intrastate transportation wholly within Missouri.

**Title 20—DEPARTMENT OF INSURANCE,
FINANCIAL INSTITUTIONS AND PROFESSIONAL
REGISTRATION**

IN ADDITION

Pursuant to section 537.610, RSMo, regarding the Sovereign Immunity Limits for Missouri Public Entities, the Director of Insurance, Financial Institutions and Professional Registration is required to calculate the new limits on awards for liability.

Using Implicit Price Deflator (IPD) for Personal Consumption Expenditures (PCE), as required by section 573.610, RSMo, the two (2) new Sovereign Immunity Limits effective January 1, 2010, were established by the following calculations:

Index Based on 2005 Dollars	
Third Quarter 2008 IPD Index	110.276
Third Quarter 2009 IPD Index	109.567

New 2010 Limit = 2009 Limit \times (2009 Index / 2008 Index)

For all claims arising out of a single accident or occurrence:
2,509,186 = 2,525,423 \times (109.567 / 110.276)

For any one (1) person in a single accident or occurrence:
376,378 = 378,814 \times (109.567 / 110.276)
