By the authority vested in the Missouri Department of Mental Health under section 630.050, RSMo Supp. 2011, the department amends a rule as follows:

9 CSR 45-2.017 Utilization Review Process is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 1, 2012 (37 MoReg 355–377). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Mental Health received two (2) comments from Jhan Hurn, Chief Executive Officer, Community Support Services of Missouri, a private provider of targeted case management for persons with developmental disabilities in southwest Missouri.

COMMENT #1: Mr. Hurn requested that not-for-profit entities providing targeted case management also be allowed to establish a utilization review committee, in addition to County Boards for Developmental Disabilities (also known as “Senate Bill 40 Boards”). RESPONSE: While the Department of Mental Health (DMH) does have the authority under the Medicaid State Plan to contract with not-for-profit entities for the provision of targeted case management services, only County Boards for Developmental Disabilities are legally eligible to participate in the non-federal share of the cost of Medicaid services through a process known as Intergovernmental Transfer. Because Utilization Review Committees have authority to make recommendations to the division which have a fiscal impact to DMH expenditures for home and community-based Medicaid services, the DMH is unable to extend this privilege to a not-for-profit, non-governmental entity that does not have the ability to contribute to the cost of Medicaid services.

COMMENT #2: Mr. Hurn expressed concerns about the time lines set forth in sections (4) and (5) of the rule, regarding the annual submission of service plans to the Utilization Review Committee two (2) months prior to the date service plans expire, and when service plans require a change but the situation is not an emergency.

RESPONSE: The Centers for Medicare and Medicaid Services (CMS) has granted the state of Missouri authority to operate the home and community-based waivers on the condition the state meet assurances which are detailed in federal law. One assurance is all waiver participants must have an individual service plan, and that plan must be reviewed and updated no less frequently than annually (three hundred sixty-five (365) days). The state is required to monitor performance, collect data, and report to CMS the state’s adherence to the waiver assurances. All service plans completed three hundred sixty-six (366) days or more subsequent to the previous service plan are considered out of compliance with the waiver authority. These time frames were established in the original rule to ensure the state stays in compliance with federal mandates. Another federal

assurance is the state must protect the health and welfare of all waiver participants. Failure to respond to the changing service needs of a waiver participant in a timely manner could jeopardize health and welfare. In addition, participants have a right to appeal all denials of service, and a delay in implementation of a new service or increased level of service due to a change in needs could be appealed by the participant or their legal representative. Thus, the DMH has established time lines to ensure changes in service plans that will result in additional cost can be reviewed by the Utilization Review Committee and approved by the director or designee as quickly as feasible.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 10—Air Conservation Commission
Chapter 6—Air Quality Standards, Definitions, Sampling
and Reference Methods and Air Pollution Control
Regulations for the Entire State of Missouri**

ORDER OF RULEMAKING

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo Supp. 2011, the commission amends a rule as follows:

10 CSR 10-6.060 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 1, 2012 (37 MoReg 379-383). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Natural Resources' Air Pollution Control Program received three (3) comments from the U.S. Environmental Protection Agency on this rule amendment.

COMMENT #1: The Environmental Protection Agency (EPA) commented that Missouri may want to consider using the phrase — promulgated as of — or similar language in order to make clear which rules Missouri is intending to incorporate. EPA notes that the *Code of Federal Regulations* is not actually published on July 1, but more accurately contains a codification of regulations which have been promulgated or revised as of July 1.

RESPONSE AND EXPLANATION OF CHANGE: The department's Air Pollution Control Program agrees to make the change EPA suggests in referring to the *Code of Federal Regulations*. This change will make the incorporation by reference clear.

COMMENT #2: EPA commented that they recently proposed a revision to the definition of — regulated NSR pollutant — contained in the regulations for Prevention of Significant Deterioration and in the EPA's Emission Offset Interpretative Rule (77 FR 15656). Since Missouri is proposing to incorporate by reference updates through July 1, 2011, in the *Code of Federal Regulations*, Missouri will then be adopting definitions which the EPA intends to revise.

RESPONSE: The department's Air Pollution Control Program cannot take action at this time since EPA's action is only proposed. Should EPA's proposed action become final, we will take action at the next available opportunity to update the rule. No change was made to the rule text as a result of this comment.

COMMENT #3: EPA commented on the importance of adopting the fine particulate matter (PM_{2.5}) New Source Review Implementation Rule provisions contained in this proposed rulemaking.

RESPONSE: The department's Air Pollution Control Program agrees with EPA on the importance of having Missouri's air permitting rules up-to-date with all necessary elements of a PM_{2.5} program. No change was made to the rule text as a result of this comment.

This rule does not incorporate any subsequent amendments or additions;

3. Solely for the purposes of section (9) of this rule, the following definitions shall be used in addition to definitions specified elsewhere in this subsection:

A. Construct a major source—

(I) Fabricate, erect, or install, at any greenfield site, a stationary source or group of stationary sources which is located within a contiguous area and under common control and which emits or has the potential to emit ten (10) tons per year of any hazardous air pollutant (HAP) or twenty-five (25) tons per year of any combination of HAPs; or

(II) Fabricate, erect, or install, at any developed site, a new process or production unit which in and of itself emits or has the potential to emit ten (10) tons per year of any HAP or twenty-five (25) tons per year of any combination of HAPs;

B. Greenfield site—A contiguous area under common control that is an undeveloped site;

C. Process or production—Any collection of structures and/or equipment, that processes, assembles, applies, or otherwise uses material inputs to produce or store an intermediate or final product. A single facility may contain more than one (1) process or production unit;

D. Reconstruct a major source—Replace components at an existing process or production unit where the replacement of components in and of itself emits or has the potential to emit ten (10) tons per year of any HAP or twenty-five (25) tons per year of any combination of HAPs, whenever—

(I) The fixed capital cost of the new components exceeds fifty percent (50%) of the fixed capital cost that would be required to construct a comparable process or production unit; and

(II) It is technically and economically feasible for the reconstructed major source to meet the applicable maximum achievable control technology emission limitation for new sources established under this section;

E. Research and development activities—Activities conducted at a research or laboratory facility whose primary purpose is to conduct research and development into new processes and products, where such source is operated under the close supervision of technically-trained personnel and is not engaged in the manufacture of products for sale or exchange for commercial profit, except in a *de minimis* manner;

F. Similar source—A stationary source or process that has comparable emissions and is structurally similar in design and capacity to a constructed or reconstructed major source such that the source could be controlled using the same control technology; and

G. Definitions for certain terms, other than those defined in subparagraphs (1)(A)3.A. through F. of this rule, may be found in 40 CFR 63.41, promulgated as of July 1, 2011, and hereby incorporated by reference in this rule, as published by the Office of the Federal Register, U.S. National Archives and Records, 700 Pennsylvania Avenue NW, Washington, DC 20408. This rule does not incorporate any subsequent amendments or additions;

4. Nonattainment pollutant—Each and every pollutant for which the location of the source is in an area designated to be in nonattainment of a National Ambient Air Quality Standard (NAAQS) under section 107(d)(1)(A)(i) of the Act. Any constituent or precursor of a nonattainment pollutant shall be a nonattainment pollutant, provided that the constituent or precursor pollutant may only be regulated under this rule as part of regulation of the corresponding NAAQS pollutant. Both volatile organic compounds (VOC) and nitrogen oxides (NO_x) shall be nonattainment pollutants for a source located in an area designated nonattainment for ozone;

5. The provisions of subsection (8)(B) of this rule regarding the term administrator shall apply; and

6. Definitions for certain terms used in this rule, other than those defined elsewhere in this subsection, may be found in 10 CSR 10-6.020.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 10—Air Conservation Commission
Chapter 6—Air Quality Standards, Definitions, Sampling
and Reference Methods and Air Pollution Control
Regulations for the Entire State of Missouri**

ORDER OF RULEMAKING

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo Supp. 2011, the commission amends a rule as follows:

10 CSR 10-6.065 Operating Permits is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 1, 2012 (37 MoReg 383–388). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Natural Resources' Air Pollution Control Program received no comments on the proposed amendment.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 10—Air Conservation Commission
Chapter 6—Air Quality Standards, Definitions, Sampling
and Reference Methods and Air Pollution Control
Regulations for the Entire State of Missouri**

ORDER OF RULEMAKING

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo Supp. 2011, the commission amends a rule as follows:

10 CSR 10-6.260 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 1, 2012 (37 MoReg 388–392). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Natural Resources' Air Pollution Control Program received three (3) comments from three (3) sources on this rule amendment: the U.S. Environmental Protection Agency, the Boeing Company St. Louis, and City Utilities.

COMMENT #1: The Environmental Protection Agency (EPA) commented that, in part (3)(B)3.A.(V), Missouri remove the language — within ninety (90) days of the date part — in addition to the already proposed deletion.

RESPONSE AND EXPLANATION OF CHANGE: The department's Air Pollution Control Program agrees with EPA's comment that additional language needs to be removed. The language has been removed and replaced. We believe this will make the requirements clear.

COMMENT #2: The Boeing Company commented in support of the proposed amendment as it will streamline the permitting process. Under the provisions of subsection (3)(B), companies such as Boeing that use #2 fuel oil as a backup fuel, as a matter of Title V compliance certification, have had to show that it would not cause or contribute to an exceedance of the sulfur dioxide National Ambient Air Quality Standards (NAAQS). The compliance certification for Boeing was based on detailed fuel sulfur calculations in the Title V Statement of Basis. Removal of subsection (3)(B) will be a significant streamlining improvement for those Title V permit holders like Boeing who are extremely unlikely to cause an ambient exceedance of either the old sulfur dioxide NAAQS or the new one.

RESPONSE: The department's Air Pollution Control Program appreciates Boeing's support of this proposed amendment. The Boeing Company provided the comment on 10 CSR 10-6.260 that initiated this rulemaking. No change was made to the rule text as a result of this comment.

COMMENT #3: City Utilities commented in support of the proposed amendment rescinding subsection (3)(B) as it is an appropriate and overdue measure to clean up the Missouri sulfur regulation. This subsection comes from an earlier rulemaking that consolidated four (4) separate geographical rules into a single statewide rule. This sulfur dioxide standard might be difficult to implement on a statewide basis, especially in urban area, and may be why the EPA did not add this as a federally enforceable provision in the Missouri State Implementation Plan.

RESPONSE: The department's Air Pollution Control Program appreciates City Utilities' support of this proposed amendment. No change was made to the rule text as a result of this comment.

10 CSR 10-6.260 Restriction of Emission of Sulfur Compounds

(3) General Provisions.

(B) Restriction of Emission of Sulfur Dioxide from Indirect Heating Sources.

1. Subsection (3)(B) of this rule applies to installations in which fuel is burned for the primary purpose of producing steam, hot water, or hot air or other indirect heating of liquids, gases, or solids and in the course of doing so the products of combustion do not come into direct contact with process materials. When any products or by-products of a manufacturing process are burned for the same purpose or in conjunction with any fuel, the same maximum emission limitations shall apply.

A. No person shall cause or allow emissions of sulfur dioxide into the atmosphere from any indirect heating source in excess of eight pounds (8 lbs.) of sulfur dioxide per million Btus actual heat input averaged on any consecutive three (3)-hour time period unless that source is listed in Table I or subject to a provision of 10 CSR 10-6.070 New Source Performance Regulations with an applicable sulfur compound emission limit.

B. The following existing indirect heating sources listed in Table I shall limit their average sulfur emissions into the atmosphere to the allowable amount of sulfur dioxide per million Btus of actual heat input averaged on any consecutive three (3)-hour basis.

** Kansas City Power & Light—The SO₂ emission rate comes from the Prevention of Significant Deterioration permit for Unit 5A and is implemented in accordance with the terms of the permit.

*** Boiler 6 at the Lake Road Plant is limited to a 24-hour daily block average of 1,400 pounds of SO₂/hour.

C. Compliance with paragraph (3)(B)2. of this rule shall be determined by source testing as specified in subsection (5)(B) of this rule.

D. Other methods approved by the staff director in advance may be used.

E. Owners or operators of sources and installations subject to paragraph (3)(B)2. of this rule shall furnish the director such data as s/he may reasonably require to determine whether compliance is being met.

3. Indirect heating sources located in Franklin, Jefferson, St. Louis, St. Charles Counties, or City of St. Louis.

A. Restrictions applicable to installations with a capacity of two thousand (2,000) million or more Btus per hour.

(I) No person shall cause or permit the emission of sulfur dioxide to the atmosphere from any installation with a capacity of two thousand (2,000) million or more Btus per hour in an amount greater than two and three-tenths pounds (2.3 lbs.) of sulfur dioxide per million Btus of actual heat input averaged on any consecutive three (3)-hour time period unless that source is listed in part (3)(B)3.A.(II) of this rule or is subject to a provision of 10 CSR 10-6.070 New Source Performance Regulations with an applicable sulfur compound emission limit.

(II) The following existing installations shall limit their sulfur dioxide emissions into the atmosphere from the combustion of any fuels to the allowable amount of sulfur dioxide per million Btus of actual heat input listed:

Facility	Emission Rate per Unit* (Pounds Sulfur Dioxide Per Million Btus)
Ameren UE—Labadie Plant	4.8
Ameren UE—Portage des Sioux Plant	4.8

*Daily average, 00:01 to 24:00

(III) Owners or operators of sources and installations subject to paragraph (3)(B)3. of this rule shall furnish the director such data as s/he may reasonably require to determine whether compliance is being met.

(IV) Each source subject to limitations under subparagraph (3)(B)3.A. of this rule may emit sulfur dioxide at a rate not to exceed the allowable emission rate by more than twenty percent (20%) for not more than three (3) days in any one (1) month.

(V) Compliance with part (3)(B)3.A.(II) of this rule shall be demonstrated by sulfur dioxide and either carbon dioxide or oxygen continuous monitoring devices. The devices shall be certified by the owner or operator to be installed and operational in accordance with Performance Specifications 2 and 3, 40 CFR part 60, Appendix B. The devices shall also be operated and maintained in accordance with the procedures and standards set out at 40 CFR 60.13(d) and (e)(2).

(VI) Reports shall be as specified in section (4) of this rule.

B. Restrictions applicable to installations with a capacity of less than two thousand (2,000) million Btus per hour.

(I) During the months of October, November, December, January, February, and March of every year, no person shall burn or permit the burning of any coal containing more than two percent (2%) sulfur or of any fuel oil containing more than two percent (2%) sulfur in any installation having a capacity of less than two thousand (2,000) million Btus per hour. Otherwise, no person shall burn or permit the burning of any coal or fuel oil containing more than four percent (4%) sulfur in any installation having a capacity of less than two thousand (2,000) million Btus per hour.

(II) Part (3)(B)3.B.(I) of this rule shall not apply to any installation if it can be shown that emissions of sulfur dioxide from

the installation into the atmosphere will not exceed two and three-tenths (2.3) pounds per million Btus of heat input to the installation.

(III) Owners or operators of sources and installations subject to this section shall furnish the director such data as s/he may reasonably require to determine whether compliance is being met.

C. Compliance with paragraph (3)(B)3. of this rule shall be determined by source testing as specified in subsection (5)(B) of this rule.

D. Other methods approved by the staff director in advance may be used.

Periodic Review of State Agency Rules and Non-Substantive Changes Provision

SB 469 and HB 1135 Truly Agreed To and Finally Passed by the 96th General Assembly, 2012 and signed by the governor will go into effect on August 28, 2012.

These bills require state agencies to periodically review all of their rules according to a schedule set out in statute. There are specific criteria that must be included in a report submitted to the Joint Committee on Administrative Rules and the Small Business Regulatory Fairness Board regarding the rule review. Failure to file the report shall result in the rule being void and of no further effect.

Also included in these bills is the authority for the secretary of state to make non-substantive changes in the *Code of State Regulations* per the filing of a request by a state agency with the Joint Committee on Administrative Rules and the secretary of state concurrently. A notice of the non-substantive change will be published in the *Missouri Register* after which the rule will be updated in the *Code of State Regulations*. Non-substantive changes include changes in department or division name information in response to statutory changes or executive orders, or to changes in state agency address, state agency telephone numbers, email addresses, or state agency website addresses.
