HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

Title	Code of State Regulations	Division	Chapter	Rule
1	CSR	10-	1.	010
Department		Agency, Division	General area regulated	Specific area regulated

They are properly cited by using the full citation, i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

RSMo—The most recent version of the statute containing the section number and the date.

ATTEST:

Jason Kander
Secretary of State

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

ETC's compliance is in question, an ETC's application for disbursement shall be held in abeyance until all compliance issues are adequately resolved.

[(1)](3) The [Fund Administrator] MoUSFA shall make disbursements from the [Missouri Universal Service Fund (MoUSF)] by wire transfer, check, or other appropriate means to fund recipients.

[(2)](4) The [Fund Administrator] MoUSFA shall not make any disbursements to itself unless said disbursements have been first approved by the board.

PROPOSED RULE

4 CSR 240-31.120 Lifeline Program and Disabled Program

PURPOSE: This proposed rule identifies requirements for participating in the Lifeline and/or Disabled programs. Any ETC participating in the Lifeline program must comply with these rules, including an ETC solely receiving federal Lifeline support.

(1) Lifeline and Disabled Programs Described.

(A) The Lifeline Program eligibility criteria include participation in:

1. MO HealthNet (formerly Medicaid) or any program pursuant to 42 U.S.C. sections 1396-1396v;
2. Supplemental Nutrition Assistance (Food Stamps) or any program pursuant to 7 U.S.C. section 51;
3. Supplemental Security Income, or any program pursuant to 42 U.S.C. section 7;
4. Low-Income Home Energy Assistance (LIHEAP) or any program pursuant to U.S.C. section 94;
5. Federal Public Housing Assistance (Section 8) or any program pursuant to 42 U.S.C. section 8);
6. National School Free Lunch Program pursuant to 42 U.S.C. section 13;
7. Temporary Assistance for Needy Families pursuant to 42 U.S.C. section 7(IV); or
8. A consumer's household income is at or below one hundred thirty-five percent (135%) of the federal poverty level; and
9. Any other eligibility criteria as determined by the Federal Communications Commission (FCC) to be applicable in all states or as identified in FCC rule 47 CFR 54.409.

(B) The Lifeline Program is funded by the Federal Universal Service Fund (FUSF) and the Missouri Universal Service Fund (MoUSF). An Eligible Telecommunications Carrier (ETC) participating in the Lifeline Program shall comply with this rule even if it solely receives only federal support.

1. The FUSF Lifeline funding is specified in 47 CFR 54.403. This funding is available to all designated ETCs.
2. The MoUSF Lifeline funding is three dollars and fifty cents (\$3.50) per month per Lifeline subscriber for ETCs certificated as a telecommunications company or registered as an Interconnected Voice over Internet Protocol (VoIP) provider.
3. MoUSF Lifeline funding when combined with FUSF Lifeline funding shall not exceed the sum of an ETC's local voice telephony service monthly rate and subscriber line charge.

(C) The Disabled Program is a residential retail service that offers a qualifying disabled customer reduced charges for voice telephony service. The Disabled Program is solely administered by the board through these rules and is solely funded by the MoUSF.

1. The Disabled Program eligibility criteria include participation in:

- A. Veteran Administration Disability Benefits;
- B. State Blind Pension;
- C. State Aid to Blind Persons;
- D. State Supplemental Disability Assistance;
- E. Federal Social Security Disability; or
- F. Federal Supplemental Security Income.

2. The MoUSF provides three dollars and fifty cents (\$3.50) per month per disabled subscriber; however, MoUSF support is limited to telecommunications companies and interconnected VoIP providers. MoUSF support is not available to wireless carriers.

(2) Carrier Participation Requirements in the Lifeline and Disabled Programs.

(A) A carrier must be designated as an ETC by the commission in order to participate in the Lifeline or Disabled Program and receive FUSF and/or MoUSF support.

(B) An ETC shall demonstrate compliance with all of the following requirements:

1. All ETC substantive and filing requirements identified in 4 CSR 240-31.130;

2. Remittance payments to the FUSF and MoUSF, as applicable;

3. Reporting requirements to Federal Universal Service Fund Administrator (FUSFA) and the Missouri Universal Service Fund Administrator (MoUSFA);

4. All requirements associated with the Lifeline program identified in 47 CFR Part 54 Subpart E and this chapter;

5. All requirements associated with the Disabled program identified in this chapter; and

6. Any ETC must be current in all filing requirements and other Missouri Public Service Commission (MoPSC) required assessments prior to receipt of support payments from the MoUSF.

(C) An ETC shall annually recertify a subscriber's continued eligibility for participation in the Lifeline program. A subscriber shall submit proof of eligibility at least once every two (2) years unless an ETC has an automated means of verifying subscriber eligibility or alternatively a carrier's annual recertification process is administered by the FUSFA.

(D) An ETC shall annually recertify a subscriber's participation in the Disabled program using either of the following procedures:

1. Apply the same procedure as identified in subsection (2)(C) to all Disabled program participants; or

2. Limit annual recertification efforts to any household participating in the disabled program whereby the qualifying disabled customer is not listed as the voice telephony subscriber. In such situations the ETC may limit its inquiry to the voice telephony subscriber as to whether the qualifying disabled customer remains within the household.

(E) An ETC shall comply with all audit requests by the FCC, the FUSFA, MoUSFA and the commission staff, concerning compliance with any and all requirements of the Lifeline and Disabled programs.

(F) If an ETC provides wholesale service to a company without ETC designation whereby the reseller offers Lifeline service or Disabled service to qualifying consumers, such wholesale arrangements are subject to the ETC receiving support directly from the FUSF and/or MoUSF for qualifying low-income or disabled consumers served by the reseller. The reseller shall not directly receive USF support.

(3) Consumer Eligibility for the Lifeline and Disabled Programs.

(A) All consumers shall complete the application form approved by the board and submit adequate proof of eligibility. A board-approved application shall be required even if a carrier only seeks federal Lifeline support.

(B) Lifeline or Disabled service shall be limited to one kind of support per household. A Lifeline subscriber may receive both state and federal Lifeline support, but a household shall not receive both Lifeline and Disabled support, nor shall it receive Lifeline or Disabled support from multiple providers.

(C) A subscriber's participation in the Lifeline or Disabled Programs shall be denied or discontinued if it is discovered the subscriber has submitted incorrect, false, or fraudulent information to the carrier.

(4) De-enrollment Procedures.

(A) De-enrollment generally. If an ETC has a reasonable basis to believe a household no longer meets the eligibility criteria for participation in the Lifeline or Disabled program then the ETC shall provide written notification to the subscriber of impending termination. Notification shall be sent in writing separate from the subscriber's monthly bill, if one is provided, and shall be written in clear, easily understood language. A subscriber shall be allowed thirty (30)-days following the date of the impending termination notification to submit acceptable proof of continued eligibility consistent with applicable annual re-certification requirements. If a subscriber fails to demonstrate continued eligibility, the ETC shall de-enroll that subscriber within five (5) business days of the expiration of the thirty (30)-day response period.

(B) De-enrollment for duplicative support. If an ETC is notified by the FUSFA that a subscriber is receiving Lifeline service from another ETC or that more than one member of the subscriber's household is receiving Lifeline service, then the ETC shall de-enroll the subscriber from participation in the company's Lifeline program within five (5) business days.

(C) De-enrollment for non-usage. If an ETC does not assess or collect a monthly fee and the Lifeline subscriber has failed to comply for sixty (60) consecutive days with usage requirements as defined in 47 CFR 54.407(c)(2) then the ETC shall provide written notice of impending de-enrollment to the subscriber. The notice shall inform the subscriber in clear, easily understood language that if the subscriber fails to use the Lifeline service within the next thirty (30) days then the subscriber will be de-enrolled from the Lifeline program. If the subscriber uses the Lifeline service within thirty (30) days of providing such notice then the company shall not terminate the subscriber's Lifeline service.

(D) De-enrollment for failure to re-certify. If a Lifeline or Disabled subscriber fails to respond to the ETC's attempts to obtain applicable re-certification, or fails to provide the annual one-per-household re-certification as required by 47 CFR 54.410(f), then the ETC shall de-enroll the subscriber within five (5) business days after the expiration of the thirty (30)-day response period. This requirement shall also apply to a subscriber who relies on a temporary address and fails to respond to the ETC's address re-certification attempts pursuant to 47 CFR 54.410(g), if implemented.

(E) An ETC shall not be eligible for Lifeline or Disabled reimbursement for any de-enrolled subscriber following the date of that subscriber's de-enrollment.

(5) Requirements for a Company offering Lifeline or Disabled Service on a resale basis without ETC status.

(A) Any company offering Lifeline and/or Disabled service solely on a resale basis and without ETC status shall comply with all requirements identified in this chapter and 47 CFR Part 54 Subpart E.

(B) The company shall provide the following information to the manager of the commission's Telecommunications Unit:

1. Certification via affidavit by an officer of the company that the company will comply with all requirements associated with the Lifeline or Disabled Programs within 4 CSR 240-31 and 47 CFR Part 54 Subpart E as if the company has ETC designation.

2. Contact information including address, email, and direct phone number for the primary individual employed by the company for ensuring compliance with 4 CSR 240-31 and 47 CFR Part 54 Subpart E.

3. A copy of the consumer application enrollment form the company intends to use to sign-up customers to the Lifeline and/or Disabled Programs.

4. Full and complete responses to information identified in 4 CSR 240-31.130(1)(B)1., 2., 4., 7., 8., 11. and 12.; (C) and (D).

(C) Companies intending to offer Lifeline and/or Disabled service solely on a resale basis and without ETC status shall provide the information in subsection (5)(B) at least thirty (30) days in advance of offering such services. Any company already offering such services on the effective date of this rule must provide such information within thirty (30) days of the effective date of this rule.

(D) The company shall annually submit, no later than July 1 of each year, all information required in 4 CSR 240-31.130(3)(A) in the commission's Electronic Filing and Information System.

This list shall consist of any formal proceeding in any jurisdiction that has either been initiated or completed within the past year. For each proceeding the company shall provide an accurate citation of the proceeding, the jurisdiction, and a brief description of the allegations along with the status of any finalized decisions regarding the proceeding by a regulatory agency or court;

Rule Number and Title:	4 CSR 240-31.130 Eligible Telecommunications Carrier Requirements
Type of Rulemaking:	Proposed Rule

II. SUMMARY OF FISCAL IMPACT

Estimate of the number of entities by class which would likely be affected by the adoption of the rule:	Classification by types of the business entities which would likely be affected:	Estimate in the aggregate as to the cost of compliance with the rule by the affected entities:
12	Wireless companies with Lifeline-only ETC status	\$21,600

III. WORKSHEET

One wireless Eligible Telecommunications Carrier (ETC) status suggests the annual filing proposed by 4 CSR 240-31.130(3) will increase company costs beyond \$500 in the aggregate. This annual filing is not anticipated to be burdensome. Landline telecommunications companies and ETCs receiving high-cost support already provide most of the requested information either through the filing of an annual report or through the annual USF high-cost certification process. Nevertheless, the submission of annual filing to the Missouri PSC will be new for wireless Lifeline-only ETCs. This fiscal note estimates the annual filing requirement of 4 CSR 240-31.130(3) may increase the costs for such existing wireless Lifeline-only ETCs by \$600 per year or \$1,800 aggregate.

8 hours * \$75 = \$600 estimated annual cost per company.

\$600 * 3 years = \$1,800 aggregate cost per company.

IV. ASSUMPTIONS

Estimated life of this rule is three years.

A company will not need legal and outside consulting services in order to comply with 4 CSR 240-31.130(3).

Compiling and submitting the annual filing may require up to 8 hours using in-house personnel. This assumption is based on a wireless ETC's feedback.

\$75/hour rate for using in-house personnel. This assumption is based on a wireless ETC's feedback.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT
Division 240—Public Service Commission
Chapter 50—Water Utilities**

PROPOSED RULE

4 CSR 240-50.050 Environmental Cost Adjustment Mechanism

PURPOSE: This rule allows the establishment of an Environmental Cost Adjustment Mechanism (ECAM), which allows periodic rate adjustments to reflect net increases or decreases in a water utility's prudently incurred costs directly related to compliance with federal, state, or local environmental law, regulation, or rules.

(1) Definitions. As used in this rule, the below listed terms are defined as follows:

(A) ECAM qualifying environmental costs means prudently incurred costs, both capital and expense, occurring after the later of the last day of the test year or last day of the true-up period in a water utility's most recent rate case, and which meet the following conditions:

1. Costs that are directly related to the imposition, after the later of the last day of the test year or last day of the true-up period in the company's most recent rate case, of any federal, state, or local law (including, without limitation, common law, statutes, ordinances, or regulations) pertaining to the regulation or protection of health, safety, and the environment for which compliance is required after the later of the last day of the test year or last day of the true-up period in the company's most recent rate case; or

2. Costs that are directly related to any permit, license, agreement, or order developed or issued for which compliance is required after the last day of the test year or last day of the true-up period in the company's most recent rate case in response to any federal, state, or local law (including, without limitation, common law, statutes, ordinances, or regulations) pertaining to the regulation or protection of health, safety, and the environment; or

3. Are not available for inclusion in any approved Infrastructure System Repair Surcharge as defined in 4 CSR 240-3.650; and

4. Do not include any increased costs resulting from negligent or wrongful acts or omissions by the utility.

(B) Environmental Cost Adjustment Mechanism (ECAM) means a mechanism established in a general rate proceeding that allows periodic rate adjustments, outside a general rate proceeding, to reflect the net increases or decreases in a water utility's ECAM qualifying environmental costs.

(C) General rate proceeding means a general rate proceeding or complaint proceeding before the commission in which all relevant factors that may affect the costs, or rates and charges, of the water utility are considered by the commission.

(D) Staff means the staff of the Public Service Commission.

(E) True-up year means the twelve (12)-month period beginning on the first day of the first calendar month following the effective date of the commission order approving an ECAM unless the effective date is on the first day of the calendar month. If the effective date of the commission order approving a rate mechanism is on the first day of a calendar month, then the true-up year begins on the effective date of the commission order. The first annual true-up period shall end on the last day of the twelfth calendar month following the effective date of the commission order establishing the ECAM. Subsequent true-up years shall be the succeeding twelve (12)-month periods. If a general rate proceeding is concluded prior to the conclusion of a true-up year, the true-up year may be less than twelve (12) months.

(F) Water utility means a water corporation as defined in section 386.020(59), RSMo, subject to commission regulation pursuant to Chapters 386 and 393, RSMo.

(2) Applications to Establish or Modify an ECAM. Pursuant to the provisions of this rule, 4 CSR 240-2.060, and section 386.266, RSMo, only a water utility, in a general rate proceeding, may file an application with the commission to establish, modify, or discontinue an ECAM by filing tariff schedules. Any party in a general rate proceeding in which an ECAM is proposed or in effect may seek to continue, modify, support, or oppose the proposed or existing ECAM. After a full hearing in a general rate proceeding, the commission shall approve, modify, or reject the application to establish or modify an ECAM. The final approved ECAM shall be designed to permit the water utility to make periodic rate adjustments to its rate schedules outside of a general rate proceeding to reflect changes in its environmental costs as defined in subsection (1)(C).

(A) The ECAM shall be based on known and measurable ECAM Qualifying Environmental Costs.

(B) The water utility shall include in its initial notice to customers regarding the general rate case in which an ECAM is first proposed, a commission-approved description of how the water utility proposes that the ECAM would operate.

(C) The commission may take into account any change in business risk to the water utility resulting from establishment, continuation, or modification of the ECAM in setting the water utility's allowed return in any rate proceeding, in addition to any other changes in business risk experienced by the water utility.

(D) In determining which environmental cost components to include in an ECAM, the commission will consider, but is not limited to only considering, the magnitude of the costs, the ability of the utility to manage the costs, the incentive provided to the utility as a result of the inclusion or exclusion of the cost, and the extent to which the cost is related to environmental compliance.

(E) The commission may, in its discretion, determine what portion of prudently incurred environmental costs may be recovered in an ECAM and what portion shall be recovered in base rates.

(F) If costs are requested to be recovered through the ECAM and the revenue to be collected in the ECAM rate schedules exceeds two and one-half percent (2.5%) of the water utility's Missouri annual gross jurisdictional revenues, the water utility cannot subsequently request that any cost identified as an environmental cost be recovered through a infrastructure system repair surcharge.

(3) Application for Discontinuation of an ECAM. An ECAM shall be discontinued only after providing the opportunity for a full hearing in a general rate proceeding. The commission shall consider all relevant factors that affect the cost or overall rates and charges of the petitioning water utility.

(A) Any party to the general rate proceeding may oppose the discontinuation of an ECAM on the grounds that the water utility is currently experiencing, or in the next four (4) years is likely to experience, declining costs or on any other grounds that would result in a detriment to the public interest. If the commission finds that the water utility is seeking to discontinue the ECAM under these circumstances, the commission shall not permit the ECAM to be discontinued, and shall order its continuation or modification. To continue or modify the ECAM under such circumstances, the commission must find that it provides the water utility a sufficient opportunity to earn a fair rate of return.

(B) The commission may take into account any change in business risk to the water utility resulting from discontinuance of the ECAM in setting the water utility's allowed return in any rate proceeding, in addition to any other changes in business risk experienced by the water utility.

(C) The water utility shall include in its initial notice to customers regarding the general rate case, a commission-approved description of why it believes the ECAM should be discontinued.

(D) Subsections (2)(C) through (2)(F) shall apply to any proposal for continuation or modification.

(4) Periodic Adjustments of ECAMs. If a water utility files proposed rate schedules to establish or adjust its ECAM rates between general rate proceedings, the staff shall examine and analyze the information filed by the water utility and additional information obtained through discovery, if any, to determine if the proposed ECAM rate adjustment is in accordance with the provisions of this rule, section 386.266, RSMo, and the ECAM established in the water utility's most recent general rate proceeding.

(A) The staff shall submit a recommendation regarding its examination and analysis to the commission not later than thirty (30) days after the water utility files its tariff schedules to adjust its ECAM rates.

1. If the staff determines that the ECAM rate adjustment is in accordance with the provisions of the rule, section 386.266, RSMo, and the ECAM established in the water utility's most recent general rate proceeding, the commission shall either—

A. Issue an interim rate adjustment order approving the tariff schedules and the ECAM rate adjustments within sixty (60) days of the water utility's filing; or

B. If no such order is issued, the tariff schedules and ECAM rate adjustments shall take effect sixty (60) days after the tariff schedules were filed.

2. If the staff determines that the ECAM rate adjustment is not in accordance with the provisions of this rule, section 386.266, RSMo, or the ECAM established in the water utility's most recent rate proceeding and the water utility agrees with the staff's determination, the commission shall reject the rate schedules proposed in the water utility's filing and shall instead order implementation of appropriate tariff schedules and ECAM rate adjustments taking into consideration staff's determinations, with the tariff schedules and ECAM rate adjustments to be effective within sixty (60) days after the tariff schedules were filed.

3. If the staff determines that the ECAM rate adjustment is not in accordance with the provisions of this rule, section 386.266, RSMo, and the ECAM established in the water utility's most recent general rate proceeding and the water utility disagrees with the staff's determination, the commission shall reject the rate schedules proposed in the water utility's filing, order implementation of an appropriate interim ECAM rate schedule and shall schedule an evidentiary hearing to be held within sixty (60) days after the tariff schedules were filed. After conclusion of the evidentiary hearing, the commission shall either—

A. Issue a rate adjustment order approving the tariff schedules as filed; or

B. Reject the proposed rate schedules of the water utility's filing and shall instead order implementation of an appropriate rate schedule taking into consideration evidence presented in the evidentiary hearing to be effective within ninety (90) days after the tariff schedules were filed.

(B) The ECAM rate adjustment shall reflect a comprehensive measurement of changes in revenue requirement due to any federal, state, or local laws, permits, licenses, agreements, or orders that impact ECAM qualifying environmental costs as defined in subsection (1)(A) in either a positive or negative manner.

(C) The periodic adjustment shall reflect a comprehensive measurement of both increases and decreases to any ECAM qualifying environmental costs incurred since the previous ECAM filing.

(D) Any periodic adjustment made to ECAM rate schedules shall not generate an annual amount of general revenue that exceeds two and one-half percent (2.5%) of the water utility's Missouri gross jurisdictional revenues established in the water utility's most recent general rate proceeding.

1. Missouri gross jurisdictional revenues shall be the amount established in the water utility's most recent general rate proceeding and shall exclude gross receipts tax, sales tax, and other similar pass-through taxes not included in tariffed rates for regulated services;

2. The water utility shall be permitted to collect any applicable gross receipts tax, sales tax, or other similar pass-through taxes and

such taxes shall not be counted against the two and one-half percent (2.5%) rate adjustment cap; and

3. Any environmental costs, to the extent addressed by the ECAM, not recovered as a result of the two and one-half percent (2.5%) limitation on rate adjustments, including depreciation and property taxes related to capital investments, may be deferred at a carrying cost each month equal to the water utility's net of tax cost of capital, for recovery in a subsequent ECAM periodic adjustment or in the water utility's next general rate proceeding.

(E) A water utility with an ECAM shall file one (1) mandatory adjustment to its ECAM in each true-up year coinciding with the true-up of its ECAM. It may also file one (1) additional adjustment to its ECAM within a true-up year.

(F) The water utility shall be current on its submission of its Surveillance Monitoring Reports as required in section (9) of this rule in order for the commission to process the water utility's requested ECAM adjustment increasing rates.

(G) If the staff, Office of the Public Counsel (OPC), or other party has not received information required by commission rule or order, it shall notify the water utility within ten (10) days of the water utility's filing of an application or tariff schedules to adjust the ECAM rates and identify the information required. The water utility, within ten (10) days of the request, shall supply the information identified by the party, or shall notify the party that, in its opinion, the information provided was in compliance.

(H) If the water utility does not supply the information in a timely manner, the party asserting the failure to provide the required information must timely file a motion to compel with the commission. While the commission is considering the motion to compel, the processing time line for the adjustment to increase ECAM rates shall be suspended. If the commission then issues an order requiring the information be provided, the time necessary for the information to be provided shall further extend the processing time line for the adjustment to increase ECAM rates. For good cause shown the commission may further suspend this timeline.

(5) True-ups of an ECAM. A water utility that files for an ECAM shall include in its tariff schedules and application, if filed in addition to tariff schedules, provisions for true-ups on at least an annual basis that shall accurately and appropriately remedy any over-collection or under-collection through subsequent rate adjustments or refunds.

(A) The subsequent true-up rate adjustments or refunds shall include interest at the water utility's short-term borrowing rate. The interest rate on accumulated ECAM under-collections or over-collections shall be calculated on a monthly basis for each month the ECAM rate is in effect, equal to the weighted average interest rate paid by the water utility on short-term debt for that calendar month. This rate shall then be applied to a simple average of the same month's beginning and ending cumulative ECAM over-collection or under-collection balance. Each month's accumulated interest shall be included in the ECAM over-collection or under-collection balances on an ongoing basis.

(B) The true-up adjustment shall be the difference between the revenue collected and the revenue authorized for collection during the true-up period and billed revenues associated with the ECAM during the true-up period.

(C) The water utility shall be current on its submission of its Surveillance Monitoring Reports as required in section (9) of this rule at the time that it files its application for a true-up of its ECAM in order for the commission to process the water utility's requested annual true-up of any under-collection.

(D) The staff shall examine and analyze the information filed and additional information obtained through discovery, to determine whether the true-up is in accordance with the provisions of this rule, section 386.266, RSMo, and the ECAM established in the water utility's most recent general rate proceeding. The staff shall submit a recommendation regarding its examination and analysis to the commission not later than thirty (30) days after the water utility files its

tariff schedules for a true-up. The commission shall either issue an order deciding the true-up within sixty (60) days of the water utility's filing, suspend the timeline of the true-up in order to receive additional evidence and hold a hearing if needed, or, if no such order is issued, the tariff schedules and the ECAM rate adjustments shall take effect by operation of law sixty (60) days after the water utility's filing.

1. If the staff, OPC, or other party has not received information required by commission rule or order, it shall notify the water utility within ten (10) days of the water utility's filing of an application or tariff schedules to adjust the ECAM rates and identify the information required. The water utility, within ten (10) days of the request, shall supply the information identified by the party, or shall notify the party that, in its opinion, the information provided was in compliance.

2. If the water utility does not supply the information in a timely manner, the party asserting the failure to provide the required information must timely file a motion to compel with the commission. While the commission is considering the motion to compel, the processing time line for the adjustment to increase ECAM rates shall be suspended. If the commission then issues an order requiring the information be provided, the time necessary for the information to be provided shall further extend the processing time line for the adjustment to increase ECAM rates. For good cause shown the commission may further suspend this timeline.

3. If the party asserting the information is not being provided can demonstrate to the commission that the adjustment shall result in a reduction in the ECAM rates, the processing timeline shall continue with the best information available. When the water utility provides the necessary information, the ECAM shall be adjusted again, if necessary, to reflect the additional information provided by the water utility.

(6) Duration of ECAMs and Requirement for General Rate Case. Once an ECAM is approved by the commission, it shall remain in effect for a term of not more than four (4) years unless the commission earlier authorizes its modification, extension, or discontinuance in a general rate proceeding.

(A) A water utility may submit proposed rate schedules to implement periodic adjustments to its ECAM rate between general rate proceedings.

(B) If an ECAM expires due to the four (4) year limitation, a water utility is not prohibited from requesting establishment of a new ECAM in connection with a subsequent rate case.

(C) If the commission approves an ECAM for a water utility, the water utility must file a general rate case with the effective date of new rates to be no later than four (4) years after the effective date of the commission order implementing the ECAM, assuming the maximum statutory suspension of the rates so filed.

1. The four (4)-year period shall not include any periods in which the water utility is prohibited from collecting any charges under the adjustment mechanism, or any period for which charges collected under the ECAM must be fully refunded. In the event a court determines that the ECAM is unlawful and all moneys collected are fully refunded as a result of such a decision, the water utility shall be relieved of any obligation to file a rate case. The term fully refunded as used in this section does not include amounts refunded as a result of reductions in net environmental compliance costs or prudence adjustments.

2. At the time of the filing of the general rate case described above, the water utility shall file revised ECAM rate schedules to reset the ECAM to zero when new base rates and charges become effective following a commission order establishing customer rates in the general rate proceeding that incorporates eligible costs previously reflected in an ECAM into the water utility's base rates. If an over or under recovery of ECAM revenues, including any commission ordered refunds, exists after the ECAM has been reset to zero, the

amount of over or under recovery shall be tracked in an account and considered in the water utility's next ECAM filing.

(7) Prudence Reviews Respecting an ECAM. A prudence review of the costs subject to the ECAM shall be conducted no less frequently than at eighteen (18)-month intervals.

(A) All amounts ordered refunded by the commission shall include interest at the water utility's short-term borrowing rate. The interest shall be calculated on a monthly basis in the same manner as describe in subsection (5)(A) of this rule.

(B) Staff shall submit a recommendation regarding its examination and analysis to the commission not later than one hundred eighty (180) days after the staff initiates its prudence audit. The timing and frequency of prudence audits for each ECAM shall be established in the general rate proceeding in which the ECAM is established. Staff shall file notice within ten (10) days of starting its prudence audit. The commission shall issue an order not later than two hundred ten (210) days after staff commences its prudence audit if no party to the proceeding in which the prudence audit is occurring files, within one hundred ninety (190) days of staff's commencement of its prudence audit, a request for hearing.

1. If staff, OPC, or other party auditing the ECAM determines that insufficient information has been supplied to make a recommendation regarding the prudence of the water utility's ECAM qualifying environmental costs, it may utilize discovery to obtain the information it seeks.

2. If the water utility does not timely supply the information, the party asserting the failure to provide the required information must timely file a motion to compel with the commission. While the commission is considering the motion to compel the processing timeline shall be suspended. If the commission then issues an order requiring the information to be provided, the time necessary for the information to be provided shall further extend the processing timeline. For good cause shown, the commission may further suspend the timeline.

3. The water utility shall refund all imprudently incurred costs plus interest at the water utility's short-term borrowing rate, even if the timeline is extended due to a water utility's failure to timely provide sufficient responses to discovery, and a refund is due to the customers. The interest shall be calculated on a monthly basis in the same manner as described in subsection (5)(A) of this rule.

(8) Disclosure on Customers' Bills. Any amounts charged under an ECAM approved by the commission shall be separately disclosed on each customer's bill. Proposed language regarding this disclosure shall be submitted to the commission for the commission's approval.

(9) Submission of Surveillance Monitoring Reports. Each water utility, with more than eight thousand (8,000) customers, with an approved ECAM shall submit to staff, OPC and parties approved by the commission in the previous general rate proceeding granting an ECAM a Surveillance Monitoring Report in the form and having the content provided for by 4 CSR 240-3.162(6).

(A) The Surveillance Monitoring Report shall be submitted within fifteen (15) days after the water utility's next scheduled United States Securities and Exchange Commission (SEC) 10-Q or 10-K filing following the effective date of the commission order establishing the ECAM and within fifteen (15) days after each subsequent SEC 10-Q or 10-K filing.

(B) Upon a finding that a utility has knowingly or recklessly provided materially false or inaccurate information to the commission regarding the surveillance data prescribed in 4 CSR 240-3.162(6), after notice and an opportunity for a hearing, the commission may suspend an ECAM or order other appropriate remedies as provided by law.

(10) Pre-Existing Adjustment Mechanisms, Tariffs, and Regulatory Plans. The provisions of this rule shall not affect the following:

(A) Any adjustment mechanism, rate schedule, tariff, incentive plan, or other ratemaking mechanism that was approved by the commission and in effect prior to the effective date of this rule; and

(B) Any experimental regulatory plan that was approved by the commission and in effect prior to the effective date of this rule.

(11) Nothing in this rule shall preclude a complaint case from being filed, as provided by law, on the grounds that a utility is earning more than a fair return on equity due to an approved ECAM, nor shall a water utility be permitted to use the existence of its ECAM as a defense to a complaint case based upon an allegation that it is earning more than a fair return on equity. If a complaint is filed on the grounds that a utility is earning more than a fair return on equity, the commission shall issue a procedural schedule that includes a clear delineation of the case timeline no later than sixty (60) days from the date the complaint is filed.

(12) Waiver of Provisions of this Rule. Provisions of this rule may be waived by the commission for good cause shown after an opportunity for hearing.

SUMMARY: This notice publishes MoDOT's receipt of applications for the issuance of Skill Performance Evaluation (SPE) Certificates from individuals who do not meet the physical qualification requirements in the Federal Motor Carrier Safety Regulations for drivers of commercial motor vehicles in Missouri intrastate commerce because of impaired vision or an established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control. If granted, the SPE Certificates will authorize these individuals to qualify as drivers of commercial motor vehicles (CMVs), in intrastate commerce only, without meeting the vision standard prescribed in 49 CFR 391.41(b)(10), if applicable, or the diabetes standard prescribed in 49 CFR 391.41(b)(3).

If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard.

Background

The individuals listed in this notice have recently filed applications requesting MoDOT to issue SPE Certificates to exempt them from the physical qualification requirements relating to vision in 49 CFR 391.41(b)(10), or to diabetes in 49 CFR 391.41(b)(3), which otherwise apply to drivers of CMVs in Missouri intrastate commerce.

Under section 622.555, RSMo Supp. 2012, MoDOT may issue a SPE Certificate, for not more than a two- (2-) year period, if it finds that the applicant has the ability, while operating CMVs, to maintain a level of safety that is equivalent to or greater than the driver qualification standards of 49 CFR 391.41. Upon application, MoDOT may renew an exemption upon expiration.

Accordingly, the agency will evaluate the qualifications of each applicant to determine whether issuing a SPE Certificate will comply with the statutory requirements and will achieve the required level of safety. If granted, the SPE Certificate is only applicable to intrastate transportation wholly within Missouri.
