20 CSR 2150-3.201 Continuing Education Requirements

PURPOSE: This rule details the minimum continuing education requirements for renewal or reinstatement of a physical therapy and/or physical therapist assistant license, and specifies the period of time in which documentation of continuing education hours must be maintained by the licensee.

(1) All licensed physical therapists and physical therapist assistants shall biennially, on even-numbered years, complete and report at least thirty (30) hours of acceptable continuing education as specified in rule 20 CSR 2150-3.203. The renewal of a license which has lapsed shall not be issued unless and until the licensee submits documentation confirming completion of all continuing education hours as would have been necessary and applicable during the period the license was not current. The continuing education hours must qualify as acceptable continuing education activity as specified in rule 20 CSR 2150-3.203.

(2) The period for completion of the continuing education requirements shall be the twenty-four (24)-month period beginning January 1 and ending December 31 of each reporting period. Continuing education hours can not be carried over into another or the next reporting period. A licensee who fails to obtain and report, in a timely fashion, the required thirty (30) hours of continuing education shall not engage in practice as a physical therapist and/or physical therapist assistant unless an extension is requested and granted pursuant to 20 CSR 2150-3.202.

(3) All licensees shall certify by attestation, on the licensure registration renewal form, under oath and penalty of perjury, that the licensee completed the required thirty (30) hours of continuing education, and that the continuing education obtained meets the acceptable continuing education criteria specified in 20 CSR 2150-3.203.

(4) All licensed physical therapists and physical therapist assistants shall retain records documenting attendance and completion of the required thirty (30) hours of continuing education for a minimum of four (4) years after the reporting period in which the continuing education was obtained. The records shall document the titles of the continuing education activity completed including the date, location and course sponsors and number of hours earned. The board may conduct an audit of licenses to verify compliance with the continuing education requirement. Licensees shall assist in this audit by providing timely and complete responses upon board request for such information and documentation.

(5) Violation of any provision of this rule shall constitute misconduct, fraud, misrepresentation, dishonesty, unethical conduct, or unprofessional conduct in the performance of the functions and duties of a physical therapist and/or physical therapist assistant. In addition, a licensee who fails to complete and report in a timely fashion the required thirty (30) hours of continuing education and engages in active practice as a physical therapist and/or physical therapist assistant without the expressed written authority of the board shall be deemed to have engaged in the unauthorized practice of physical therapy and/or unauthorized practice as a physical therapist assistant consistent with the provisions of sections 334.510, 334.610, and 334.650, RSMo; furthermore such action may be deemed grounds for disciplinary action pursuant to section 334.100, RSMo.

(6) Examination applicants who hold temporary licenses are exempt from obtaining continuing education hours until such time as the temporary licensee successfully passes the licensing examination and is approved and issued licensure pursuant to the provisions of section 334.530, RSMo, as applicable to physical therapists; or pursuant to the provisions of section 334.655, RSMo, as applicable to physical therapist assistants.

(7) Reinstatement applicants who hold temporary licenses are exempt from obtaining continuing education hours until such time as

the temporary licensee successfully completes the one (1) year of supervised active practice.

(8) Physical therapists and/or physical therapist assistants are exempt from one-half (1/2) of the total continuing education hours (thirty (30) hours required, one-half (1/2) is defined as fifteen (15) hours) for the year in which the licensee graduated from a program of physical therapy and/or physical therapist assistant education (respective of type of degree received and type of licensure requested) as accredited by the commission on accreditation of physical therapy education.

20 CSR 2150-3.202 Continuing Education Extensions

PURPOSE: This rule details the requirements for licensed physical therapists and/or licensed physical therapist assistants requesting an extension of time to complete the required thirty (30) hours of continuing education mandated for licensure renewal pursuant to section 334.507, RSMo Supp. 1998 and as specified in rules 4 CSR 150-3.201 and 4 CSR 150-3.203.

(1) A licensee who cannot complete the required thirty (30) hours of continuing education due to personal illness or other circumstances beyond the licensee's control which the board and advisory commission deem sufficient to impose an insurmountable hardship to such an extent as to prevent or preclude the licensee from obtaining continuing education hours, may apply for an extension of time to complete the continuing education requirements specified in section 345.507, RSMo. Requests for an extension of time to complete the continuing education requirements will be granted solely in the discretion of the board with recommendation

from the advisory commission for physical therapists. Licensees requesting an extension of time to complete the required continuing education hours shall submit a statement requesting such extension prior to the December 31 deadline for completion. Requests for an extension of time to complete the continuing education requirement shall be accompanied with the processing fee specified in rule 20 CSR 2150-3.080. All licensees shall further provide sufficient documentation and justification for such request from the appropriate source(s) supporting the reason(s), which prevented the licensee from completing the required continuing education hours. A licensee who requests an extension of time to complete the required thirty (30) hours of continuing education hours shall not engage in active practice as a physical therapist and/or physical therapist assistant until the licensee receives written authorization from the board approving the extension request and specifically authorizing the licensee to continue practicing in the interim.

(A) Licensees in the military will be granted an extension of time to complete the continuing education requirements if they are called to active duty under competent orders for any period of thirty (30) days or more during the reporting period in accordance with section 41.950(10), RSMo. If the licensee is called to active duty for a majority of the reporting period, they will be exempt from obtaining continuing education. The licensee must submit written documentation from the appropriate military authorities verifying the licensee's military service commitment.

(B) Illness extensions may be granted only to a licensee who has or is suffering from a personal illness and/or personal disability of a nature which prevents or prevented the licensee from engaging in active practice as a physical therapist and/or physical therapist assistant for at least a majority of the reporting period. At a minimum, the licensee shall instruct their treating physician(s) to provide written documentation to the board specifying the nature of the illness or disability, the duration of the illness and/or disability and any limitations on the licensee's activities which resulted or will result from this illness and/or disability. The licensee shall also submit written documentation and evidence as to the number of continuing education hours earned during the reporting period as well as the licensee's plan for completing the balance of the required continuing education hours.

(C) The board, solely in its discretion, with recommendation from the advisory commission for physical therapists, may grant a licensee an extension of time to complete

the continuing education hours due to unforeseeable circumstances determined to be beyond the licensee's control and justifiable as to have imposed an insurmountable hardship to such a degree as to have precluded the licensee from obtaining the required continuing education hours. At a minimum, the licensee shall submit written documentation explaining specifically and in detail the nature of the circumstance(s), why the circumstance(s) were unforeseeable and beyond the licensee's control, and the period of time in which the circumstance(s) were in existence. This documentation shall include evidence confirming the number of continuing education hours the licensee earned in the reporting period and the licensee's plan for completing the balance of the required continuing education. The board, solely in its discretion, with recommendation from the advisory commission for physical therapists, shall determine if the licensee's situation constitutes unforeseeable circumstances beyond the licensee's control to such a degree as to have imposed an insurmountable hardship preventing and/or precluding the licensee from obtaining the required continuing education hours.

(2) A licensee who is granted an extension of time to complete the required continuing education hours shall complete the balance of the continuing education requirements no later than February 28 immediately following the end of the reporting period for which the extension was sought and approved by the board. The licensee shall submit written documentation evidencing completion of the required continuing education hours no later than March 10 immediately following the end of the reporting period for which the extension was approved by the board. The failure of a licensee to complete the continuing education requirements on or before February 28; or the failure of a licensee to submit documentation evidencing completion of the required continuing education hours to the board on or before March 10 shall constitute a violation of section 334.507, RSMo and this rule; and further such action may be deemed grounds for disciplinary action pursuant to the provisions of section 334.100, RSMo.

(3) Violation of any provision of this rule shall constitute misconduct, fraud, misrepresentation, dishonesty, unethical conduct or unprofessional conduct in the performance of the functions or duties of a physical therapist and/or physical therapist assistant.

PURPOSE: This rule defines acceptable continuing educational courses and activities as required for physical therapists and physical therapist assistants to qualify for licensure renewal; and to specify the documentation necessary as proof of compliance with the continuing education requirement; and the time frame licensees must maintain such documentation of compliance.

(1) NOTICE: The Missouri State Board of Registration for the Healing Arts and/or the Missouri Advisory Commission for Physical Therapists will *not* preapprove continuing educational courses and/or activities. (2) All licensed physical therapists and physical therapist assistants shall accumulate thirty (30) hours of continuing education (i.e., three (3) continuing education units) every two (2) years to be eligible for licensure renewal. The licensee shall document adherence to this requirement on even-numbered years. For courses where participants are given an allotted maximum time in which to complete the coursework, the licensee shall be credited with the maximum allowed time.

(3) For the purpose of this rule, acceptable continuing education shall be defined as education obtained for the purpose of maintaining, expanding, and/or developing new and/or improved skills and knowledge as directly related to the practice of physical therapy, which contributes to the professional competence of the licensee.

(4) The following criteria are necessary to qualify as acceptable continuing education:

(A) Activity and courses documented to be an organized program of learning, with specified goals and objectives; and
