Chapter 4—Licensing of Speech-Language Pathologists and Audiologists

20 CSR 2150-4.010 Applications for Licensure

PURPOSE: This rule outlines the procedures for application for licensure as a speech-language pathologist, audiologist, or both.

(1) Applications for licensure must be made on forms prepared by the Advisory Commission for Speech-Language Pathologists and Audiologists. Application forms may be obtained by writing the Advisory Commission for Speech-Language Pathologists and Audiologists, 3605 Missouri Boulevard, P.O. Box 4, Jefferson City, MO 65102, (573) 751-0098.

(2) An application will not be considered as officially submitted unless completely filled out, properly attested and the application fee has been submitted and received by the commission. The application fee must be submitted in the form of a cashier’s check, bank draft, post office or express money order payable to the Missouri Board of Healing Arts, drawn on a United States bank or firm in United States currency.

(3) The completed application, including all documents, supporting material and official transcripts required by the commission, must be received at least thirty (30) days before the next regularly scheduled commission meeting. Applications completed fewer than thirty (30) days before the next regularly scheduled meeting may be scheduled for the following regularly scheduled meeting.

(4) Verification of all professional licenses, registrations or certifications held by the applicant to practice as a speech-language pathologist or audiologist, and any other profession in any state(s) or territories shall be submitted to the board directly from the issuing agency. This verification must document the status of such license, registration or certification, the type of license and effective dates.

(5) An applicant shall present with the application a recent, unmounted, identifiable photograph not larger than three and one-half inches by five inches (3 1/2” × 5”) nor smaller than two inches by three inches (2” × 3”).

(6) Following the commission’s review, the applicant will be informed by letter either that the application has been approved or that it has been rejected. Any rejection letter will outline, with as much specificity as practicable, the reasons for rejection.

20 CSR 2150-4.020 Examinations

PURPOSE: This rule outlines the requirements and procedures for obtaining a speech-language pathology or audiology license, or both, by examination.

(1) The examination given pursuant to section 345.050.1(4), RSMo shall be the National Examination for Speech-Language Pathology and Audiology.

(2) The candidate shall submit the applicable nonrefundable licensing application fee to the commission and shall meet the requirements of section 345.050.1(1)-345.050.1(3), RSMo prior to taking the examination. If the commission finds that the applicant has met these qualifications, it then shall be the responsibility of the candidate to contact the National Teachers Examination Program Policy Council, Praxis Series at Post Office Box 6051 in Princeton, NJ 08541-6051; or its successor, to sit for the examination.

(3) The candidate shall have the Praxis Series of the National Teachers Examination Program Policy Council; or its successor, notify the commission of the candidate’s test result(s), in writing.

(4) The passing score required for licensure must meet the minimum score required for the certificate of clinical competence as set by the American Speech-Language-Hearing Association.

(5) A candidate approved by the commission for an examination shall take that examination within one (1) year from the date of the initial commission approval. If the candidate has not taken the examination by the end of the one (1)-year period the candidate must resubmit an application form and the application fee for commission consideration.

(6) Following the commission’s review, the applicant will be informed by letter either that the application has been approved or that it has been rejected. Any rejection letter will outline, with as much specificity as practicable, the reasons for rejection.

20 CSR 2150-4.030 Reexamination

PURPOSE: This rule outlines the requirements and procedures for retaking the licensure examination for speech-language pathologists or audiologists, or both.

(1) A candidate whose license has lapsed for more than three (3) years, pursuant to section 345.055(1), RSMo, must submit a new application (see 20 CSR 2150-4.010) pursuant to 20 CSR 2150-4.010 and 20 CSR 2150-4.020. The board may require such applicants to be reexamined pursuant to section 345.055(1), RSMo.

(2) A candidate who is reexamined because of a lapsed license and who fails the reexamination is disqualified from retaking the examination until the applicant satisfies requirements of the commission. This requires the applicant to meet with the commission, for the commission to specify further education and experience needed and for the applicant to document that these requirements have been satisfied.

(3) All other candidates may retake the examination two (2) subsequent times. Both of the two (2) subsequent reexaminations must be
retaken within three (3) years of the date of the approval of the candidate’s application. A candidate who fails the initial examination and fails two (2) subsequent reexaminations shall be disqualified until the applicant satisfies requirements of the commission. This requires the applicant to meet with the commission, for the commission to specify further education and experience needed and for the applicant to document that these requirements have been satisfied before being allowed to take the examination for the final time.

(4) If the candidate has not taken the subsequent two (2) reexaminations by the end of the three (3)-year period prescribed in this rule, the initial commission approval to sit for the examinations shall then become invalid and in order to be considered for further reexamination, the applicant shall file a complete new application including the nonrefundable application fee with the commission.

**20 CSR 2150-4.040 Internationally Trained Applicants**

**PURPOSE:** This rule outlines the requirements and procedures for internationally trained applicants applying for a speech-language pathology or audiology license, or both.

(1) All internationally trained applicants applying for a license to practice shall complete the requirements specified in rules 20 CSR 2150-4.010 and 20 CSR 2150-4.020 and submit the nonrefundable application fee.

(2) An internationally trained applicant graduating from a college or university which is not approved and accredited by the American Speech-Language and Hearing Association shall be required to obtain a credential evaluation verifying that the applicant’s professional degree is the equivalent of a Speech-Language Pathology or Audiology degree obtained from an institution accredited by the Council on Academic Accreditation of the American Speech-Language Hearing Association. The credential evaluation service must be approved by the commission.

**20 CSR 2150-4.050 Renewal of License**

**PURPOSE:** This rule provides information to speech-language pathologists and audiologists in Missouri regarding renewal of licensure.

(1) A license may be renewed on or before the expiration of the license by submitting the signed renewal notice and fee to the commission.

(2) The commission shall mail an application for renewal to each person licensed in this state at the last known mailing address. The failure to mail the application or the failure to receive it does not, however, relieve any person of the duty to renew and to pay the fee required nor provide exemption from the penalties provided for failure to renew. Renewal forms postmarked by the post office February 1 or after will be considered delinquent. Should January 31 fall on a Saturday, Sunday or legal holiday, renewal forms postmarked by the post office on the next business day will not be considered delinquent.

(3) Any person practicing any of the acts as set forth in section 345.015, RSMo with an expired license shall be subject to discipline under sections 345.065 and 345.075, RSMo.

(4) Effective February 1, 2001, all licenses, except provisional licenses, issued pursuant to Chapter 345, RSMo shall expire biennially in odd-numbered years, with the first renewal cycle beginning February 1, 2001 and ending January 31, 2003.

**20 CSR 2150-4.051 Definitions**

**PURPOSE:** This rule defines the terms used throughout this chapter.

(1) For the purpose of this chapter, the following definitions shall apply:

(A) Commission—means the Advisory Commission for Speech-Language Pathologists and Audiologists;

(B) Board—means the Missouri State Board of Registration for the Healing Arts;

(C) Licensee—means any person licensed to practice speech-language pathology and/or audiology in the state of Missouri;

(D) Hour of continuing education—means a minimum of fifty (50) minutes and up to a maximum of sixty (60) minutes spent in actual attendance at and/or completion of an approved continuing education activity; continuing education units (CEUs) are rounded down to the nearest hour; and

(E) One (1) continuing education unit (CEU)—is equivalent to ten (10) clock hours of approved continuing education (i.e. ten (10) clock hours = 1.0 CEU, one (1) clock hour = 0.1 CEU).

**20 CSR 2150-4.052 Continuing Education Requirements**

**PURPOSE:** This rule details the board’s minimum continuing education requirement for renewal or reinstatement of a speech-language pathology and/or audiology license, and specifies the record documentation requirements.

(1) Each licensee shall biennially complete and report at least thirty (30) hours of
continuing education. A person holding licensure in both speech-language pathology and audiology shall biennially collect and report at least thirty (30) hours of continuing education in speech-language pathology and at least thirty (30) hours in audiology. The board shall not issue a renewal of a licensee’s certificate of registration unless the licensee documents completion of thirty (30) hours of continuing education in the immediately preceding reporting period.

(2) The period for completion of the continuing education requirements shall be the twenty-four (24)-month period beginning January 1 and ending December 31 of each reporting period. Continuing education hours cannot be carried over into the next reporting period. A licensee who has failed to obtain and report, in a timely fashion, the required thirty (30) hours of continuing education shall not engage in the practice of speech-language pathology and/or audiology unless an extension is obtained and approved pursuant to rule 20 CSR 2150-4.054.

(3) Each licensee shall certify by attestation, on his/her licensure renewal form, under penalty of perjury, that he/she has completed the required thirty (30) hours of continuing education, and that the continuing education obtained meets the qualifying criteria specified in rule 20 CSR 2150-4.053.

(4) Each licensee shall retain records documenting his/her attendance at and completion of the required hours of continuing education for a minimum of three (3) years after the reporting period in which the continuing education was completed. The records shall document the titles of the courses taken, dates, locations, course sponsors, category of hours earned, and number of hours earned. The board may conduct an audit of licensees to verify compliance with the continuing education requirement. Licensees shall assist the board in its audit by providing timely and complete responses to the board’s inquiries.

(5) Reinstatement.

(A) To reinstate the license of a speech-language pathologist and/or audiologist whose license has been in a noncurrent state for any reason, for a period of three (3) years or less, that licensee shall submit, in addition to any other requirements of law, thirty (30) hours of continuing education completed in the two (2)-year period preceding the reinstatement of the license, as defined in rule 20 CSR 2150-4.053; or

(B) To reinstate a license which has been noncurrent for any reason, for more than three (3) years, that licensee shall submit sixty (60) hours of continuing education completed within the last four (4) years as defined in rule 20 CSR 2150-4.053 or comply with rule 20 CSR 2150-4.030 and any other requirements of law. No license shall be reinstated unless and until all required continuing education is obtained and reported to the board and all other requirements of law have been satisfied.

(6) Violation of any provision of this rule shall constitute misconduct, fraud, misrepresentation, dishonesty, unethical conduct or unprofessional conduct in the performance of the functions or duties of a speech-language pathologist and/or audiologist depending on the licensee’s conduct. In addition, a licensee who has failed to complete and report in a timely fashion the required hours of continuing education and engages in the active practice of speech-language pathology and/or audiology without the express written authority of the board shall be deemed to have engaged in the unauthorized practice of speech-language pathology and/or audiology and punishable as such under section 345.075, RSMo.

(7) Provisional licensees are exempt from obtaining continuing education until such time as a permanent license is issued.

20 CSR 2150-4.053 Acceptable Continuing Education

PURPOSE: This rule defines acceptable continuing education activity, and details the documentation necessary as proof of compliance with the continuing education requirement.

(1) A minimum of twenty (20) hours of the required thirty (30) hours of continuing education must be obtained as follows:

(A) Activity/Provider approved by the American Speech-Language-Hearing Association (ASHA), the American Academy of Audiology (AAA), the American Medical Association (AMA), the National Center for Hearing Assessment and Management, the Centers for Disease Control, the National Institute on Deafness and other Communication Disorders, the American Academy of Otolaryngology-Head and Neck Surgery, the American Academy of Pediatrics, and the American Academy of Neurology; or courses sponsored by the Missouri Speech-Language-Hearing Association (MSHA) or the Missouri Academy of Audiology (MAA), the Department of Elementary and Secondary Education (DESE), or the Council for Exceptional Children (CEC); and/or

(B) A maximum of ten (10) hours of the required thirty (30) hours of continuing education may be obtained from entities other than those specified in subsection (1)(A), as follows:

(A) Activity that can be documented by the licensee as an organized program of learning;

(B) Is conducted by individuals who have education, training, or experience by reason of which said individuals may be considered qualified to present the subject matter of the program;

(C) Contributes to the professional competence of the licensee; and

(D) Pertains to subject matters which integrally relate to the practice of speech-language pathology, audiology, or both, which is described as—

1. Basic communication processes—information (beyond the basic certification requirements) applicable to the normal development and use of speech, language, and hearing, i.e., anatomic and physiologic bases for the normal development and use of speech, language, and hearing; physical bases and processes of the production and perception of speech, language, and hearing; linguistic and psycholinguistic variables related to normal development and use of speech, language, and hearing; and technological, biomechanical, engineering, and instrumentation information which would enable expansion of knowledge in the basic communication processes. Any computer course used for continuing education must involve the actual application to the communicatively impaired population;

2. Professional areas—information pertaining to disorders of speech, language, and hearing, i.e., various types of disorders of communication, their manifestations, classification, and causes; evaluation skills, including procedures, techniques, and instrumentation for assessment; and management procedures and principles in habilitation and rehabilitation of communication disorders. The
board shall accept dysphagia courses provided by qualified instructors; and

3. Related areas—study pertaining to the understanding of human behavior, both normal and abnormal, as well as services available from related professions which apply to the contemporary practice of speech-language pathology/audiology, e.g., theories of learning and behavior; services available from related professions that also deal with persons who have disorders of communications; information from these professions about the sensory, physical, emotional, social, or intellectual states of child or adult; and other areas such as general principles of program and business management, professional ethics, clinical supervision, counseling, and interviewing.

(3) For the purpose of this rule, thirty (30) days spent in a clinical fellowship during a reporting period shall satisfy the required continuing education requirement for that reporting period.

(4) Documentation of continuing education compliance shall be evidenced by—

(A) A Continuing Education Registry Form from the American Speech-Language-Hearing Association (ASHA), Missouri Speech-Language-Hearing Association (MSHA), American Medical Association (AMA), American Academy of Audiology (AAA) or the Missouri Academy of Audiology (MAA), the Department of Elementary and Secondary Education (DESE), or the Council for Exceptional Children (CEC); specifically listing the continuing education obtained by the licensee and the dates of obtaining; or

(B) A certificate of attendance provided by a sponsor which contains the date of program, the program title and presenter(s), program site, number of clock hours attended, name of sponsor, and name of licensee; or

(C) A personal letter to the licensee which contains the date of the program, the program title and presenter(s), program site, number of clock hours attended, name of sponsor, name of licensee and is signed by a program official; or

(D) An official transcript, from a regionally accredited college or university, indicating successful completion of academic coursework in appropriate subject matter as specified in subsection (2)(D) of this rule. One (1) semester hour of coursework is equivalent to fifteen (15) hours of continuing education and one-quarter (1/4) hour of coursework is equivalent to ten (10) hours of continuing education.

20 CSR 2150-4.054 Continuing Education Extensions

PURPOSE: This rule details the requirements for licensed speech-language pathologists and audiologists requesting an extension of time to complete the required continuing education hours necessary for licensure renewal.

(1) A licensee who cannot complete the required hours of continuing education because of personal illness, military service or other circumstances beyond the licensee's control which the board deems to be sufficient to impose an insurmountable hardship may apply for an extension of time to complete the continuing education requirements. Any extension of time to complete the continuing education requirements will be granted solely in the discretion of the board. The licensee must make a written application for extension of time prior to the December 31 deadline for completion of the continuing education requirement. The application for extension shall be accompanied by a processing fee as specified in rule 20 CSR 2150-4.060, together with the application for extension. The licensee shall provide full and complete written documentation of the grounds supporting the reasons for which an extension is sought. A licensee who requests an extension of time to complete the required hours of continuing education shall not engage in active practice of speech-language pathology and/or audiology until the board grants the licensee's request for extension and the licensee receives express written authorization to do so.

(A) Military service extensions may be granted only to a licensee who was absent from the United States for at least a majority of the reporting period due to his/her military service commitment under combat circumstances or pursuant to a state of national emergency. At a minimum, the licensee must submit written documentation from the appropriate military authorities verifying the licensee's military service commitment and the periods during which the commitment was being fulfilled under a combat or national emergency status; the number of hours earned during the reporting period and a plan for completing the balance of the required continuing education.

(B) Illness extensions may be granted only to a licensee who has suffered a personal illness or personal disability of a nature as to prevent him/her from engaging in the active practice of speech-language pathology and/or audiology for at least a majority of the reporting period. At a minimum, the licensee shall provide the board with written documentation from the licensee's treating physician stating the nature of the illness or disability, the period of the illness or disability, any limitations on the licensee's activities which resulted from the illness or disability; and a statement from the licensee reporting the number of hours earned in the reporting period and a plan for completing the balance of the required continuing education.

(C) The board, solely in its discretion, may grant an extension on unforeseeable circumstances beyond the licensee's control which impose an insurmountable hardship precluding the licensee from obtaining the required continuing education. At a minimum, the licensee must provide written documentation explaining specifically and in detail the nature of the circumstances, why the circumstances were unforeseeable and beyond the licensee's control, the period during which the circumstances were in existence, the number of continuing education hours earned in the reporting period and the licensee's plan for completing the balance of the required continuing education. The board, in its discretion, shall determine if the situation described in the licensee's application constitutes unforeseeable circumstances beyond the licensee's control which impose an insurmountable hardship precluding the licensee from obtaining the required continuing education.

(2) A licensee who is granted an extension of time shall complete the balance of his/her continuing education requirements no later than February 28 immediately following the end of the reporting period for which an extension was sought and shall provide the board with written documentation of his/her completion of the continuing education requirements no later than March 10 immediately following the end of the reporting period for which an extension was sought. Failure to complete the continuing education requirements by February 28 or to file the documentation with the board by March 10 shall constitute a violation of section 345.051, RSMo and this rule.
(3) An extension of time shall not be granted to any licensee who obtained an extension in the immediately preceding reporting period in which the licensee held an active license, except in the case of a licensee who is unable to complete the requirements due to military service commitment pursuant to a combat or national emergency assignment.

(4) Violation of any provision of this rule shall constitute misconduct, fraud, misrepresentation, dishonesty, unethical conduct or unprofessional conduct in the performance of the functions or duties of a speech-language pathologist and/or audiologist depending on the licensee’s conduct. In addition, a licensee who has failed to complete and report in a timely fashion the required hours of continuing education and engages in the active practice of speech-language pathology and/or audiology without the express written authority of the board shall be deemed to have engaged in the unauthorized practice of speech-language pathology and/or audiology and punishable as such under section 345.075, RSMo.

20 CSR 2150-4.055 Applicants for Provisional Licensure

PURPOSE: This rule provides the requirements for speech-language pathology and audiology provisional licensure pursuant to section 345.022, RSMo.

(A) Proof of receipt of a master’s or doctoral degree from an institution accredited by the American Speech-Language-Hearing Association accrediting body, in the area for which licensure is sought. Documentation shall be provided on the board-prescribed form and submitted directly to the board from the program director of the accredited institution;

(B) Applicants shall provide, on forms prescribed by the board, a plan for completion of the supervised postgraduate professional experience. This form must be signed by a supervisor holding current permanent Missouri licensure, in the area in which the applicant seeks licensure. The plan shall consist of at least thirty-six (36) weeks of full-time professional experience. A minimum of thirty-five (35) hours of work per week constitutes full-time employment. If the applicant works twenty-nine to thirty-four (29–34) hours per week, the length of the experience must be at least forty-eight (48) weeks. If the applicant works twenty-two to twenty-eight (22–28) hours per week, the length of the experience must be at least sixty (60) weeks. If the applicant works fifteen to twenty-one (15–21) hours per week, the length of the experience must be at least seventy-two (72) weeks;

(C) At the conclusion of the supervised postgraduate experience period, the supervisor and the provisional licensee shall sign and submit a board prescribed report which documents completion of the experience; and

(D) Verification of licensure or registration to practice in another state or territory shall be submitted to the board directly from the licensing/registration agency.

(7) Provisional licensees who change their clinical fellowship site, clinical fellowship supervisor, or the number of hours worked per week, must submit, on forms prescribed by the board, the revised plan for completion of the supervised postgraduate professional experience, no later than four (4) weeks after initiating the change. The change must be approved by the board in order to receive credit.

(8) Applicants seeking provisional licensure in both speech-language pathology and audiology shall meet the qualifications and submit the required documentation as stated above for both professions.

(9) The provisional license is valid for one (1) year. The license may be renewed one (1) time with board approval. Applicants may apply for provisional licensure renewal pursuant to 20 CSR 2150-4.056.

(10) When an applicant has filed his/her application and the appropriate fee for provisional licensure, and the application is denied by the board or subsequently withdrawn by the applicant, the fee will be retained by the board as a service charge.

(11) An applicant may withdraw his/her application for provisional licensure anytime prior to the board’s vote on his/her candidacy for licensure.

PURPOSE: This rule provides the requirements for speech-language pathology and audiology provisional licensure renewal pursuant to section 345.022, RSMo.

(1) Upon submission of a properly completed renewal application and fee, a provisional license may be renewed, only once, making a provisional license valid for a maximum lifetime of two (2) years.

(2) The fee for provisional licensure shall be an appropriate fee, to be established by the board.
(3) Applicants for provisional licensure renewal must submit the following documentation if not provided with initial application:
   (A) Proof of receipt of a master’s or doctoral degree from an institution accredited by the American Speech-Language-Hearing Association accrediting body, in the area for which licensure is sought.
