**TITLE 11 – DEPARTMENT OF PUBLIC SAFETY**  
**Division 45 – Missouri Gaming Commission**  
**Chapter 5 – Conduct of Gaming**

**11 CSR 45-5.010 Presumption of the Right of Patrons to Participate in Gambling Games**

*PURPOSE: This rule establishes the general right of a patron to participate in gambling games unless such patron engages in unlawful or disruptive conduct.*

(1) Unless otherwise authorized by sections 313.800, RSMo et seq., as amended from time-to-time, and 11 CSR 45-1 et seq., as amended from time-to-time (collectively, the “Riverboat Gambling Act and Regulations”), no licensee may deny a patron the right to play a table game that involves playing cards and which is offered to the general public. A patron may be denied such right if the patron engages in unlawful or disruptive conduct. The licensee shall notify a commission agent prior to removing such patron.

**11 CSR 45-5.051 Minimum Standards for Blackjack**

*PURPOSE: This rule establishes a set of minimum standards for the game of Blackjack.*

(1) The following words and terms, when used in this rule, shall have the following meanings unless the context clearly indicates otherwise.

(A) “Bart Carter Shuffle” means the shuffling procedure whereby approximately one deck of cards is shuffled after being dealt, segregated into separate stacks and each stack is inserted into pre-marked locations within the remaining decks contained in the dealing shoe.

(B) “Determinant card” means the first card drawn for each round of play to determine from which side of the two (2)-compartment dealing shoe the cards for that hand shall be dealt.

(C) “Double shoe” means a dealing shoe that has two (2) adjacent compartments in which cards are stacked separately and which permits cards to be dealt from only one (1) compartment at any given time.

(2) A person who, without the assistance of another person or without the use of a physical aid or device of any kind, uses the ability to keep track of the value of cards played in Blackjack and uses predictions formed as a result of the tracking information in his/her playing and betting strategy shall not

be considered to be cheating.

(3) A Class B licensee may implement any of the following options at a Blackjack table provided that the casino licensee complies with the notice requirements contained in 11 CSR 45-5.060:

(A) Persons who have not made a wager on the first round of play may not enter the game on a subsequent round of play until a reshuffle of the cards has occurred;

(B) Persons who have not made a wager on the first round of play may be permitted to enter the game, but may be limited to wagering only the minimum limit posted at the table until a reshuffle of the cards has occurred;

(C) Persons who, after making a wager on a given round of play, decline to wager on any subsequent round of play may be precluded from placing any further wagers until a reshuffle of the cards has occurred;

(D) Persons who, after making a wager on a given round of play, decline to wager on any subsequent round of play may be permitted to place further wagers, but may be limited to wagering only the minimum limit posted at the table until a reshuffle of the cards has occurred; and

(E) Use a double shoe with a determinate card that selects which shoe to deal from during a particular hand.

(4) If a Class B licensee implements any of the options in section (3) of this rule, the option shall be uniformly applied to all persons at the table; provided, however that if a Class B licensee has implemented either of the options in subsection (3)(C) or (D) of this rule, an exception may be made for a patron who temporarily leaves the table if, at the time the patron leaves, the Class B licensee agrees to reserve the patron's spot until his or her return.

(5) Immediately prior to the commencement of play and after any shuffle of the cards, the dealer shall require that the cards be cut in a manner set forth in the Class B licensee's internal controls as approved by the commission. Such internal controls shall be subject to the following conditions:

(A) If the "Bart Carter Shuffle" is utilized and the cards in the discard rack exceed approximately one (1) deck in number, the dealer shall continue dealing the cards until that round of play is completed after which he shall remove the cards from the discard rack and shuffle those cards so that they are randomly intermixed. After the cards taken from the discard rack are shuffled, they shall be split into three (3) separate stacks and each stack shall be inserted into pre-marked locations within the remaining decks contained in the dealing shoe.

(6) A floor supervisor or above may direct the dealer to shuffle the cards after any round of play is completed and all wagers have been resolved.

(7) After the cards have been cut and before any cards have been dealt, a floor supervisor may require the cards to be recut if he or she determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut, at the Class B licensee's option, by the player who last cut the cards, or by the next person entitled to cut the cards, as determined by the Class B licensee's internal controls.

*AUTHORITY: section 313.004, RSMo 2000 and section 313.805, RSMo Supp. 2010.\* Original rule filed Dec. 17, 1999, effective Aug. 30, 2000. Amended: Filed Feb. 28, 2007, effective Oct. 30, 2007. Amended: Filed July 28, 2010, effective Feb. 28, 2011.*

*\*Original authority: 313.004, RSMo 1993, amended 1994; 313.805, RSMo 1991, amended 1993, 1994, 2000, 2008, 2010.*

### **11 CSR 45-5.053 Policies**

*PURPOSE: This rule details policies regarding methods of operation to be followed by licensees.*

(1) A holder of a Class B license shall comply with all federal regulations and requirements for the withholding of taxes from winnings and the filing of currency transaction reports.

(2) It is the policy of the commission to require that all excursion gambling boats and gaming conducted on excursion gambling boats be operated in a manner suitable to protect the public health, safety, morals, good order, and general welfare of Missouri. Responsibility for the employment and maintenance of suitable methods of operation rests with the holder of a operator's license and willful or persistent use or toleration of methods of operation deemed unsuitable will constitute grounds for disciplinary action, up to and including license revocation.

(3) The holder of a Class A or B license is expressly prohibited from the following activities:

(A) Failing to exercise discretion and good judgment to prevent incidents which might reflect on the repute of the state of Missouri and act as a detriment to the development of the industry, including allowing lewd entertainment on a boat;

(B) Permitting persons who are visibly intoxicated to participate in gaming activity;

(C) Failing to conduct advertising and public relations activities in accordance with decency, dignity, good taste, and honest and fair representation;

(D) Failing to comply with or make provision for compliance with all federal, state, and local laws and regulations pertaining to the operation of a license, including paying license fees, withholding payroll taxes, and violating alcoholic beverage laws or rules;

(E) Permitting to remain in, or upon any licensed premises, any associated gambling equipment (primarily, but not limited to, cards or dice), which may have in any manner been marked, tampered with, or otherwise placed in a condition or operated in a manner which might affect the game and its payouts;

(F) Permitting, if the licensee was aware or should have been aware of, any cheating whatsoever;

(G) Permitting to remain in or upon any licensed premises, any cheating device whatsoever; or conducting, carrying on, operating, or dealing any cheating or thieving game or device on the premises;

(H) Permitting to remain in or upon any licensed premises, if the licensee was aware, or should have been aware of, any gambling device which tends to alter the normal random selection of criteria which determines the results of the game or deceives the public in any way;

(I) Failing to conduct gaming operations in accordance with proper standards of custom, decorum, and decency; or to permit any type of conduct on the excursion gambling boat which reflects negatively on the repute of the state of Missouri or acts as a detriment to the gaming industry;

(J) Denying a commissioner or commission agent access to, for inspection purposes, any portion or aspect of the excursion gambling boat or attendant shore facilities;

(K) Denying a commissioner or commission agent information concerning any aspect of the excursion gambling

boat operation; and

(L) Failing to report to the commission known or suspected violations of commission rules and applicable law.

(4) No person shall use, or possess with the intent to use, any calculator, computer, or other electronic, electrical, or mechanical device at any table game that –

(A) Assists in projecting the outcome of a game;

(B) Keeps track of cards that have been dealt;

(C) Keeps track of changing probabilities; or

(D) Keeps track of playing strategies being utilized, except as permitted by the commission.

(5) Wagers may only be made –

(A) By a person present on a licensed gambling boat;

(B) By persons twenty-one (21) years of age or older; and

(C) At the times allowed by the commission.

### 11 CSR 45-5.056 Ethical Restrictions

*PURPOSE: This rule establishes ethical restrictions for gambling licensees.*

(1) For purposes of this rule –

(A) “Affiliate” shall be defined as any entity with a parent company that is a holder of or applicant for a Class A or Supplier’s license, or any entity that shares a common parent company with a holder of or applicant for a Class A or Supplier license;

(B) “Appointed official” shall be defined as any employee or agent of a governmental entity who holds a position with discretionary authority to take or vote on the following actions:

1. Promulgation of ordinances, rules, or regulations with the effect of law that are applicable to the operations of a holder of or applicant for a Class A, Class B, or Supplier license;

2. Granting of governmental approvals, licenses, or certifications to a holder of or applicant for a Class A, Class B, or Supplier license;

3. Enforcement of statutes or of ordinances, rules, or regulations with the effect of law against a holder of or applicant for a Class A, Class B, or Supplier license; provided that, in the case of law enforcement personnel, such person must –

A. Actually exercise such authority;

B. Be specifically assigned by the governmental entity to exercise such authority; or

C. Hold the power to assign such personnel to exercise

such authority; and

4. Entering into any contract or agreement between the governmental entity and a holder of or applicant for a Class A, Class B, or Supplier license;

(C) “Commission representative” shall be defined as any member, employee or agent of the commission or any employee of the state highway patrol designated by the superintendent of the highway patrol to have direct regulatory authority related to excursion gambling boats or any employee of the state attorney general’s office designated by the state attorney general to have direct regulatory authority related to excursion gambling boats;

(D) “Direct gaming activity” shall be defined as the management of a casino, the operation of gambling games, the receipt of wagers as part of such games, the payment of winnings to wagerers involved in such games, and the providing of gaming equipment or supplies;

(E) “Direct ownership interest” shall be defined as any financial interest, equitable interest, beneficial interest, or ownership control held by the government official, or such person’s family member related within the second degree of consanguinity or affinity, in an excursion gambling boat operation; in any holder of or applicant for a Class A, Class B, or Supplier license; or in any holding company or affiliate company of a holder of or applicant for a Class A, Class B, or Supplier license; provided that a direct ownership interest shall not include any equity interest purchased at fair market value, or equity interest received as consideration for goods and services provided at fair market value, of less than one percent (1%) of the total outstanding shares of stock of any publicly traded corporation or certificates of partnership of any limited partnership which is listed on a regulated stock exchange or automated quotation system;

(F) “Direct regulatory authority” shall be defined as any role in the enforcement of the Riverboat Gambling Act and the regulations promulgated thereunder;

(G) “Employ” shall be defined as any of the following:

1. Hiring a person as an employee;

2. Engaging the services of a person with knowledge or reason to believe that the person’s employer provides consideration to the person that is derived from or contingent upon consideration paid to that employer for the services provided; or

3. Engaging the services of an entity controlled by a person with knowledge or reason to believe that the person will receive consideration that is derived from or contingent upon consideration paid to the entity for the services provided, in which case the controlling person is “employed”;

(H) “*Ex parte* communication” shall be defined as direct or indirect communication by any holder of or applicant for a Class A, Class B, or Supplier license, or any representative or agent of such license holder or applicant, with any commission member regarding any matters under the jurisdiction of the commission related to the respective holder of or applicant for a Class A, Class B, or Supplier license, unless such communications take place during an official commission or commission committee meeting, or, if written, are provided to all other commission members within five (5) days of the initial communication and prior to any commission action on the matter. The following shall not be defined as *ex parte* communication:

1. Any written communication addressed and sent to all commission members;

2. Any communication taking place at a meeting of a governmental entity subject to the Missouri Open Meetings

Act, including but not limited to meetings of the commission or any committee of the commission;

3. Any communication with employees or agents of the commission who are not commission members, including any such communication that may also involve a commission member as a participant, provided that, if a commission member does participate in such communication, this exemption shall apply only if the holder of or applicant for a Class A, Class B, or Supplier license summarizes, reduces to writing, and distributes such writing, to all commission members within five (5) days of the communication and prior to any commission action on the matter; and

4. Any communication between a commission member and a government official;

(I) "Government official" shall be defined as any of the following:

1. A commission representative;
2. A member of the General Assembly; or
3. An elected official or an appointed official of the state of Missouri or of any Missouri city or county in which the licensing of excursion gambling boats has been approved in either the city or county or both;

(J) "Parent company" shall be defined as a holding company defined in 11 CSR 45-10.040 or as any other entity which, directly or indirectly through one or more intermediaries, possesses the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract or otherwise; and

(K) "Representative or agent" of a license holder or applicant shall be defined as a key person or occupational licensee employee of the license holder or applicant or any individual who acts as a common law agent on behalf of the license holder or applicant before the commission, such as an attorney, accountant, or lobbyist.

(2) No holder of or applicant for a Class A, Class B, or Supplier license may have a contractual relationship involving, as a party or agent of a party, a person who is a government official at the time of the relationship or who has been a government official within (2) two years prior to the relationship, if such contractual relationship is one in which any aspect of direct gaming activity is included in the duties or obligations of the government official, former government official, or the party for which he or she acts as an agent.

(3) No holder of or applicant for a Class A, Class B, or Supplier license, or any representative or agent of such license holder or applicant, may enter into any contractual relationship with any commission representative in which the commission representative receives consideration that is above fair market value.

(4) No holder of or applicant for a Class A, Class B, or Supplier license may employ or offer to employ a person, or the spouse or dependent child of such a person, who is a government official at the time of such employment or offer, or who has been a government official within two (2) years prior to such employment or offer.

(5) No holder of or applicant for a Class A, Class B, or Supplier license, or any representative or agent of such license holder or applicant, may attempt to influence any official action of a government official by reason of offering to employ any person, provided that this section shall not prohibit offering employment to any person who has been recommended

for employment by a government official, if the offer of employment is not an attempt to influence a specific official action of that government official.

(6) No representative or agent of a holder of or applicant for a Class A, Class B, or Supplier license may employ or offer employment to any commission representative.

(7) No holder of or applicant for a Class A, Class B, or Supplier license may knowingly offer a direct ownership interest to or allow a direct ownership interest to be held by a person who is a government official at the time of holding such direct ownership interest or who has been a government official within two (2) years prior to holding such direct ownership interest, provided that knowledge of a broker or transfer agent for a publicly traded license holder or applicant shall not be imputed to such license holder or applicant for purposes of this rule.

(8) No holder of or applicant for a Class A, Class B, or Supplier license, or any representative or agent of such license holder or applicant, may offer any gift to any commission representative or to any peace officer of any city or county which has approved gambling games on excursion gambling boats.

(9) No holder of or applicant for a Class A, Class B, or Supplier license, or any representative or agent of such license holder or applicant, may knowingly engage in *ex parte* communication with any commission member.

(10) No holder of or applicant for a license or any representative or agent of such license holder or applicant may offer, promise, or give anything of value or benefit to a person who is connected with a licensee including but not limited to an officer or employee of a licensee or holder of an occupational license, pursuant to an agreement or arrangement or with the intent that the promise or thing of value or benefit will influence the actions of the person to whom the offer, promise, or gift was made in order to affect or attempt to affect the outcome of a gambling game, or to influence official action of a member of the commission.

(11) No holder of or applicant for a license or any representative or agent of such license holder or applicant may solicit or knowingly accept or receive a promise of anything of value or benefit while the person is connected with an excursion gambling boat including but not limited to an officer or employee of a licensee or holder of an occupational license, pursuant to an agreement or arrangement or with the intent that the promise or thing of value or benefit will influence the actions of the person to affect or attempt to affect the outcome of a gambling game, or to influence official action of a member of the commission.

(12) No holder of or applicant for a Class A, Class B, or Supplier license or any representative or agent of such license holder or applicant may solicit, suggest, request, or recommend to any individual or entity the appointment of any commission representative to any office, place, position, or employment.

(13) No holder of or applicant for a Class A, Class B, or Supplier license or any representative or agent of such license holder or applicant may hire or utilize the services of a commission representative or a person who has been a commission representative within the previous two (2) years as a representative or agent of the holder of or applicant for a Class

A, Class B, or Supplier license.

(14) No holder of or applicant for a Class A, Class B, or Supplier license may enter into any scheme or arrangement through which one (1) or more of the relationships, transactions, or activities prohibited by this rule is knowingly effected through an affiliate or parent company of the applicant or license holder in an attempt to circumvent the provisions of this rule.

(15) Notwithstanding sections (1) through (14), this rule shall not prohibit any applicant or licensee from –

(A) Allowing any person to engage in legal gaming activity as a patron of a casino;

(B) Charging an admission fee to any person to enter a gaming establishment; or

(C) Entering into an agreement with the state, any political subdivision of the state or any other governmental entity that is otherwise legal and that has been disclosed to the commission within ten (10) days of consummation; including, but not limited to, agreements for the reimbursement of expenses incurred by a governmental entity for services of agents or employees of that entity acting in their official capacities.

#### **11 CSR 45-5.060 Publication of Rules and Payoff Schedules for All Permitted Games**

*PURPOSE: This rule establishes procedures for publication of rules and payoff schedules for all permitted games.*

(1) A holder of a Class B license shall provide in printed form, to all patrons who request one, the rules and accurate payoff schedules for each game in the area in which the game is played. The license holder(s) shall make payment in strict accordance with the published payoff schedules. Payoff schedules must accurately state actual payoffs applicable to a particular game or device and shall not be worded in a manner so as to mislead the public. Maintenance of any misleading or deceptive matter on any payoff schedule or failure on the part of a Class B licensee to make payment in strict accordance with the published payoff schedules may be deemed an unsuitable method of operation. This form shall be posted in a conspicuous position on the boat.

#### **11 CSR 45-5.065 Patrons Unlawfully on Excursion Gambling Boat – Not Eligible for Gambling Game Winnings**

*PURPOSE: This rule establishes a procedure for denying a patron that is unlawfully on the casino floor from claiming winnings from a gambling game.*

(1) As used in this rule, “gambling game payout” means any money, merchandise or thing of value that, according to the rules of the gambling game that have been approved by the commission, is to be paid to a patron because of a specific combination(s) of characters or symbols on an electronic gaming device or a specific result in a table game.

(2) Patrons that are excluded from excursion gambling boats pursuant to 11 CSR 45-15 et seq., 11 CSR 45-17 et seq., and patrons who are under twenty-one (21) years of age are not eligible to claim gambling game payouts.

(3) If, prior to awarding a gambling game payout, a licensee learns that the patron attempting to claim the winnings fits the criteria in section (2) of this rule, the licensee shall immediately notify a commission agent. The commission agent shall require the patron to produce positive photo identification. If the commission agent determines that the patron fits the criteria set forth in section (2) of this rule, he shall order the licensee to return the wager to the patron and deny the patron the proceeds of the gambling game payout. The agent shall then escort the patron off the excursion gambling boat and shall take enforcement action as deemed appropriate or as mandated by law. For accounting purposes, the proceeds of the gambling game payout shall be treated as though the wager had not been made.

#### **11 CSR 45-5.070 Payout Percentage for Electronic Gaming Devices**

*PURPOSE: This rule requires the payout percentage for electronic gaming devices to be posted.*

(1) A holder of a Class B license shall, by the tenth day of each calendar month, display signage containing the actual aggregate payout percentage to the nearest one-tenth percent (0.1%) of all the electronic gaming devices in operation during the previous month and the following statement “For more information on payout percentages by denomination visit [www.mgc.dps.mo.gov](http://www.mgc.dps.mo.gov).” The signs shall be conspicuously placed so they can be readily seen by patrons at each patron entrance to the gaming floor and at each cashier cage that redeems tickets.

**11 CSR 45-5.075 Payout Percentage for Table Games and Progressive Table Games**

*PURPOSE: This rule establishes minimum payout percentages for progressive wagers on table games.*

(1) Table games shall have a minimum theoretical return to players of seventy percent (70%) of the total amount wagered and a maximum theoretical hold distributed to the Class B licensee of thirty percent (30%). The computation of the theoretical return to player and hold shall be based on the optimum player strategy for the game and use generally accepted mathematical analysis techniques.

(2) Table games progressive wagers shall have a minimum theoretical return to players of seventy percent (70%) of the amount wagered and a maximum theoretical hold distributed to the Class B licensee of thirty percent (30%). Table games that include progressive jackpots shall include a progressive meter, visible to the public. If any part of the distribution to the progressive jackpot(s) is being used to fund a secondary jackpot, visible signage informing players of this supplemental distribution must be placed in the immediate area of the table. The existence of progressive jackpots and the distributions to those jackpots shall be set forth in the “rules of the game” within a licensee’s internal controls for each game having a progressive jackpot(s).

(3) Any table game not meeting these distribution requirements shall be deemed an unauthorized gambling game.

**11 CSR 45-5.090 Submission of Chips for Review and Approval**

*PURPOSE: This rule establishes process for submission of chips for review and approval.*

(1) Each holder of a Class B license shall submit to the commission for approval a sample of each denomination of primary and secondary value chips and a sample of each color of primary and reserve nonvalue chips. The Class B licensee shall not utilize these chips for gaming purposes until approved in writing by the commission.

(A) In requesting approval of these chips, a holder of a Class B license prior to having the chips manufactured, shall first submit to the commission a detailed schematic of its proposed chips, and a sample chip, which shall show the front, back, and edge of each denomination of value chip and each nonvalue chip and the design and wording to be contained on the chip, all of which shall be depicted on the schematic or chip as they will appear, both as to size and location, on the actual chip. Once the design schematics or chip is approved by the commission, no value or nonvalue chip shall be issued or utilized unless and until a sample of each denomination of value chip and each color of nonvalue chip is also submitted to and approved by the commission.

(B) The name and address of the manufacturer shall be provided to the commission.

(C) No holder of a Class B license or other person licensed by the commission shall manufacture for, sell to, distribute to, or use in any casino outside of Missouri, any value or nonvalue chips having the same edge design as those approved for use in Missouri.

**11 CSR 45-5.100 Chip Specifications**

*PURPOSE: This rule establishes chip specifications.*

(1) Value Chips.

(A) Each chip issued by a holder of a Class B license shall be round in shape, have clearly and permanently impressed, engraved, or imprinted on both sides of the chip the name of the excursion gambling boat and the specific value of the chip, and, on at least one (1) side of the chip, the city or other locality and the state where the establishment is located and the manufacturer’s name or a distinctive logo or other mark identifying the manufacturer. Chips with a value contained on them shall be known as value chips and chips without a value

contained on them shall be known as nonvalue chips.

(B) Unless otherwise authorized by the commission, value chips may be issued by Class B licensees in denominations of fifty cents, one, two, two and one-half, five, twenty-five, one hundred, five hundred, one thousand, five thousand, and ten thousand dollars (50¢, \$1, \$2, \$2.50, \$5, \$25, \$100, \$500, \$1,000, \$5,000, and \$10,000). The licensees shall have the discretion to determine the denominations to be utilized and the amount of each denomination necessary for the conduct of gaming operations.

(C) Each denomination of value chip shall have a different primary color from every other denomination of value chip. Unless otherwise approved by the commission, value chips shall fall within the colors set forth in this subsection when the chips are viewed both in daylight and under incandescent light. In conjunction with these primary colors, each holder of a Class B license shall utilize contrasting secondary colors for the edge spots on each denomination of value chip. Unless otherwise approved by the commission, no holder of a Class B license shall use a secondary color on a specific denomination of chip identical to the secondary color used by another holder of a Class B license on that same denomination of value chip. The primary color to be utilized by each holder of a Class B license for each denomination of value chip shall be –

1.	50¢	Pink
2.	\$ 1	White
3.	\$ 2	Beige
4.	\$2.50	Blue
5.	\$ 5	Red
6.	\$ 25	Green
7.	\$100	Black
8.	\$500	Fire Orange
9.	\$1,000	Purple
10.	\$5,000	Gray
11.	\$10,000	Yellow

(D) Each denomination of value chip utilized by a holder of a Class B license, unless otherwise authorized by the commission, shall –

1. Have its center portion impressed, engraved, or imprinted with the value of the chip and the excursion gambling boat issuing it and utilize a different center shape for each denomination;

2. Be designed so as to be able to determine on surveillance closed circuit television the specific denomination of a chip when placed in a stack of chips of other denominations; and

3. Be designed, manufactured, and constructed so as to prevent, to the greatest extent possible, the counterfeiting of value chips.

(2) Nonvalue Chips.

(A) Each nonvalue chip utilized by an excursion gambling boat shall be issued solely for the purpose of gaming at roulette. The nonvalue chip(s) at each roulette table shall –

1. Be round in shape;

2. Have the name of the excursion gambling boat issuing it clearly and permanently impressed, engraved, or printed into its center on both sides of the chip;

3. Contain a design, insert, or symbol differentiating it from the nonvalue chips being used at every other roulette table in the excursion gambling boat's gaming operation;

4. Have "Roulette" clearly and permanently impressed, engraved, or printed on both sides; and

5. Be designed, manufactured, and constructed so as to prevent, to the greatest extent possible, the counterfeiting of these chips.

(B) Nonvalue chips issued at a roulette table shall only be used for gaming at that table and shall not be used for gaming at any other table in the excursion gambling boat's gaming operation, nor shall any holder of a Class B license or its employees allow any patron to remove nonvalue chips permanently from the table from which they were issued.

(C) No person at a roulette table shall be issued or permitted to game with nonvalue chips that are identical in color and design to value chips or to nonvalue chips being used by another person at the same table. When a patron purchases nonvalue chips, a nonvalue chip of the same color shall be placed in a slot or receptacle attached to the outer rim of the roulette wheel. At that time, a marker denoting the value of a stack of twenty (20) chips of that color shall be placed in the slot or receptacle.

(D) Nonvalue chips shall only be presented for redemption at the table from which they were issued and shall not be redeemed or exchanged at any other location in the excursion gambling boat's gaming operation. When so presented, the dealer at the issuing table shall exchange them for an equivalent amount of value chips which may then be used by the patron in gaming or redeemed as any other value chips.

(E) Each holder of a Class B license shall have the discretion to permit, limit or prohibit the use of value chips in gaming at roulette provided, however, that it shall be the responsibility of the licensee to keep an accurate account of the wagers being made at roulette with value chips so that the wagers made by one player are not confused with those made by another player at the table.

### 11 CSR 45-5.110 Primary, Secondary, and Reserve Sets of Gaming Chips

*PURPOSE: This rule establishes the requirement for having primary, secondary, and reserve sets of gaming chips.*

(1) Unless otherwise authorized by the commission, each Class B licensee shall have a primary set of value chips, a primary set of nonvalue chips, a separate secondary set of value chips, and a separate reserve set of nonvalue chips which shall conform to the color and design specifications set forth in 11 CSR 45-5.100. An approved secondary set of value chips or reserve nonvalue chips shall be placed into active play whenever the primary set is removed.

(A) The secondary set of value chips shall have different secondary colors than the primary set and shall be required for all denominations.

(B) Each holder of a Class B license shall have a reserve set of nonvalue chips for each color utilized with a design insert

or symbol different from those nonvalue chips comprising the primary set.

(C) The holder of a Class B license shall remove the primary set of gaming chips from active play whenever –

1. A determination is made by the licensee that its gaming operation is taking on a significant number of counterfeit chips;

2. Any other impropriety or defect in the utilization of the primary set of chips makes removal of the primary set necessary; or

3. The director so directs.

(D) Whenever the primary set of chips is removed from active play, the licensee shall immediately notify a representative of the commission as to the reason for this occurrence.

### **11 CSR 45-5.120 Issuance and Use of Tokens for Gaming in Electronic Gaming Devices**

*PURPOSE: This rule establishes design requirements, approval procedures, and issuance standards for tokens used in electronic gaming devices.*

(1) No holder of a Class B license shall issue or cause to be utilized in its gaming operation any tokens for gaming in electronic gaming devices unless the tokens are approved by the commission. In requesting approval of the tokens, the licensee shall first submit to the commission a detailed schematic of its proposed token which shall show its front, back, and edge; its diameter and thickness; and any logo, design, or wording to be contained on it; all of which shall be depicted on the schematic as they will appear, both as to size and location, on the actual token. Once the design schematics are approved by the commission, no token shall be issued or utilized until a sample of the token is also submitted and approved by the commission.

(2) A holder of a Class B license with the approval of the commission, shall issue metal tokens designed for gaming in its electronic gaming devices. These tokens shall –

(A) Be round in shape, have clearly and permanently impressed, engraved or imprinted on them the name of the casino and the specific value of the token, and at least on one (1) side of the token, the city or other locality and the state where the establishment is located and the manufacturer's name or a distinctive logo or other mark identifying the manufacturer;

(B) Contain the statement – “Not Legal Tender”;

(C) Not be deceptively similar to any current or past coin of the United States or a foreign country;

(D) Not be of a size or shape or have other characteristics which will physically present their use to activate lawful

vending machines or other machines designed to be operated by coins of the United States; and

(E) Not be manufactured from a ferromagnetic material or from a three (3)-layered material consisting of a copper-nickel alloy clad on both sides of a pure copper core or from a copper-based alloy, except if the total zinc, nickel, aluminum, magnesium and other alloying metal exceeds twenty-five percent (25%) of the token's weight.

(3) Tokens approved for issuance by a holder of a Class B license shall be –

(A) Issued to a patron upon payment for a token or in accordance with a complimentary distribution program;

(B) Capable of insertion into designated electronic gaming devices operated by the holder of a Class B license for the purpose of activating play;

(C) Available as a payout from the hopper of the electronic gaming devices; and

(D) Redeemable by the patron in accordance with the Act.

### **11 CSR 45-5.130 Exchange of Chips and Tokens**

*PURPOSE: This rule establishes the process for exchange of chips and tokens.*

(1) Chips shall be issued to a person only at the request of that person and shall not be given as change in any other transaction. Chips shall be issued to excursion gambling boat patrons at cashier's cages, at the live gaming devices, or at stations adjacent to the gaming area if approved by the commission. Chips may be redeemed at cashier's cages.

(2) Tokens shall only be issued upon the request of a patron from a cashier's cage or from employees of the holder of a Class B license at the electronic gaming devices area. Tokens may be redeemed at a cashier's cage.

(3) Chips or tokens shall only be redeemed by a holder of a Class B license for its patrons and shall not be knowingly redeemed from any nonpatron source, provided, however, that nongaming employees of the excursion gambling boat may redeem chips or tokens they have received as gratuities.

(4) Value chips may be accepted from patrons as payment at face value for food or beverages purchased on the gaming floor. Any change due back to the patron shall be provided in cash or U.S. coin. All value chips accepted as payment for food or beverages shall be exchanged for cash at the cage or main bank during the same shift they were accepted as payment. Non-value (roulette) and tournament chips shall not be used for purposes other than wagering on approved gambling

games. Currency transaction reporting requirements shall apply to any qualifying dollar value exchanges of value chips for products or services.

(5) Each excursion gambling boat shall promptly redeem its own chips and tokens by cash or by check dated the day of the redemption on an account of the excursion gambling boat as requested by the patron, except when the chips and tokens were obtained or used unlawfully.

(6) Each excursion gambling boat may demand the redemption of its chips or tokens from any person in possession of them and that person shall redeem the chips or tokens upon presentation of an equivalent amount of cash by the excursion gambling boat.

(7) No excursion gambling boat shall knowingly accept, exchange, use, or redeem gaming chips or tokens issued by another excursion gambling boat.

(8) Each excursion gambling boat shall cause to be posted and remain posted in a prominent place –

(A) On the front of a cashier's cage, a sign that reads as follows – "Gaming chips issued by another riverboat may not be used, exchanged or redeemed on this riverboat";

(B) On electronic gaming device token redemption booths, a sign that reads – "Tokens issued by another riverboat may not be used, exchanged or redeemed on this riverboat"; and

(C) Near each entrance to the casino floor, a sign that reads – "State law prohibits the use of gaming chips for purchases off the gaming floor."

#### 11 CSR 45-5.140 Receipt of Gaming Chips or Tokens from Manufacturer

*PURPOSE: This rule establishes the process for receipt of gaming chips and tokens from manufacturers.*

(1) When chips or tokens are received from the manufacturer, they shall be opened and checked by at least two (2) employees from different departments of the holder of a Class B license. Any deviation between the invoice accompanying the chips or tokens and the actual chips or tokens received or any defects found in the chips or tokens shall be reported promptly to the commission. An agent of the commission will be notified both by the supplier and the casino manager of the time of delivery of any chips or tokens to the holder of a Class B license.

(2) After checking the chips or tokens received, the holder of a Class B license shall cause to be reported in a chip and token

inventory ledger – the denomination of the chips or tokens received, the number of each denomination of chip or token received, the number and description of all nonvalue chips received, and the date of receipt. The individuals who check the chips or tokens shall sign the chip and token inventory ledger or the supporting documentation.

(3) If any of the chips received are to be held in reserve and not utilized they shall be stored in a separate locked compartment either in the vault, main bank, or in a cashier's cage and shall be recorded in the chip and token inventory ledger as reserve chips.

(4) Any chips received that are part of the secondary set of chips of the excursion gambling boat shall be recorded in the chip and token inventory ledger as such and shall be stored in a locked compartment in the vault, main bank, or in a cashier's cage separate from the reserve chips.

#### 11 CSR 45-5.150 Storage and Inventory of Chips and Tokens

*PURPOSE: This rule establishes the process for the storage and inventory of chips and tokens and the computation of unredeemed liability.*

(1) In the presence of at least two (2) individuals, chips shall be taken from or returned to either the reserve chip inventory or the secondary set of chips. The denominations, number and amount of chips taken or returned shall be recorded in the chip and token inventory ledger together with the date and signatures of the individuals carrying out this process.

(2) Each holder of a Class B license, on a monthly basis, shall compute and record the unredeemed liability for each denomination of chips and tokens and cause to be made an inventory of chips and tokens in circulation and cause the result of this inventory to be recorded in the chip and token inventory ledger. On a monthly basis, each holder of a Class B license shall cause an inventory of chips in reserve to be made and cause the result of this inventory to be recorded in the chip and token inventory ledger. The procedures to be utilized to compute the unredeemed liability and to inventory chips and tokens in circulation and reserve shall be submitted to the commission for approval. If the inventory procedures incorporate the sealing of the locked compartment, a physical inventory of chips in reserve shall be required within three hundred sixty-five (365) days of the seal being placed.

(3) During nongaming hours, all primary chips and tokens in the possession of the excursion gambling boat shall be stored in the main bank, or in a locked compartment in a cashier's

cage or poker cage, or in a locked transparent compartment on gaming tables on the gaming floor.

(4) All tournament chips, secondary chips, reserve chips, and non-value chips shall be stored in the main bank, a locked compartment in a cashier's cage, or a locked compartment in another commission-approved location.

(5) A physical inventory of tournament chips shall be completed following each use. If tournament chips are not used for a period of three hundred sixty-five (365) days, an inventory shall be conducted within seven (7) calendar days.

#### **11 CSR 45-5.160 Destruction of Chips and Tokens**

*PURPOSE: This rule establishes the procedures for the destruction of chips and tokens.*

(1) Prior to the destruction of chips or tokens, the holder of a Class B license shall notify the commission, in writing, of the date and the location at which the destruction will be performed; the denomination, number, and amount of value chips or tokens to be destroyed; the description and number of nonvalue chips to be destroyed; and a detailed explanation of the method of destruction. Unless otherwise authorized by the director, the destruction of chips or tokens shall be carried out in the presence of at least two (2) individuals, one (1) of whom shall be an agent of the commission. The denomination, number, and amount of value chips or tokens or, in the case of nonvalue chips, the description and number so destroyed, shall be recorded in the chip and token inventory ledger together with the signatures of the individuals carrying out the destruction and the date on which destruction took place.

#### **11 CSR 45-5.170 Destruction of Counterfeit Chips and Tokens**

*PURPOSE: This rule establishes the process for the destruction of*

*counterfeit chips and tokens.*

(1) As used in this rule, counterfeit chips or tokens means any chip- or token-like objects that have not been approved pursuant to this chapter, including objects commonly referred to as slugs, but not including coins of the United States or any other nation.

(2) Unless a peace officer instructs or a court of competent jurisdiction orders otherwise in a particular case, licensees shall destroy or otherwise dispose of counterfeit chips and tokens discovered at their establishments in a manner as their internal controls specify.

(3) Each licensee shall record, in addition to other information that the commission may require the number and denominations, actual and purported, of the coins and counterfeit chips and tokens destroyed or otherwise disposed of pursuant to this rule.

(4) A holder of a Class B license shall maintain each record required by this rule for at least five (5) years, unless the commission approves or requires otherwise.

#### **11 CSR 45-5.180 Tournament Chips and Tournaments**

*PURPOSE: This rule establishes the process for offering tournaments for play and the use of tournament chips.*

(1) As used in this rule, tournament chip means a chip issued by a licensee for use in tournaments at the licensee's gaming establishment.

(2) Tournament chips shall be designed, manufactured, approved, and used in accordance with the provisions of rules in this chapter applicable to chips, except as follows:

(A) Tournament chips shall be of a shape and size and have such other specifications so as to be distinguishable from other chips used in the Class B licensee's gaming operation;

(B) Each side of each tournament chip shall conspicuously bear the inscription – "No Cash Value";

(C) Tournament chips shall not be used, and licensees shall not permit their use in transactions other than the tournaments for which they are issued; and

(D) The provisions of 11 CSR 45-5.170 shall not apply to tournament chips.

(3) As used in this rule, entry fees shall be defined as the total amount paid by patrons for participation in a tournament and any amounts awarded by the Class B licensee to patrons from previous tournament play for participation in that tournament. A tournament is a contest offered and sponsored by a Class B licensee in which patrons may be assessed an entry fee or be required to meet some other criteria to compete against one

another in a gambling game or series of gambling games in which winning patrons receive a portion or all of the entry fees, if any, which may be increased with cash or non-cash prizes from the Class B licensee. Class B licensees may conduct tournaments provided –

(A) The licensee shall notify the gaming agent in charge at that property and the commission tax section of the planned tournament at least ten (10) calendar days before the first day of the event;

(B) A copy of the tournament rules shall be submitted to the gaming agent in charge at that property and the commission tax section at least ten (10) calendar days before the first day of the event;

(C) The licensee shall conduct the tournament in compliance with all applicable rules, regulations, and laws;

(D) The licensee shall maintain written, dated rules governing the event, and the rules shall be immediately available to the public and the commission upon request. Tournament rules shall at a minimum include:

1. The date, time, and type of tournament to be held;
2. The amount of the entry fee, if any;
3. The minimum and maximum number of participants;
4. A description of the tournament structure, i.e., number of rounds, time period, players per table, and criteria for determining winner(s);
5. The prize structure, including amounts and/or percentages for prize levels; and
6. Procedures for the timely notification of entrants and the gaming agent in charge at the property and the refunding of entry fees in the event of cancellation;

(E) No false or misleading statements, written or oral, shall be made by a licensee or its employees or agents regarding any aspect of the tournament, and all prizes offered in the tournament shall be awarded according to the Class B licensee's rules governing the event. Tournaments shall not be structured or conducted in a manner that reflects negatively on the licensee, the commission, or the integrity of gaming in Missouri;

(F) The Class B licensee's accounting department shall keep a complete record of the rules of the event and all amendments thereto, including criteria for entry and winning, names of all entrants, all prizes awarded and prize winners, source documentation evidencing the payout amounts which shall be signed by the prize winners, for a minimum of two (2) years from the last date of the tournament and shall be made readily available to the commission upon request;

(G) Entry fees shall be subject to the adjusted gross receipts tax pursuant to section 313.822, RSMo. At least eighty percent (80%) of all entry fees must be returned to tournament participants as winnings;

(H) The total entry fees shall be reported as adjusted gross receipts for a tournament and no portion shall be held in abeyance to be applied to a future tournament or another tournament in the same series of tournaments; and

(I) Cash and non-cash winnings paid in a tournament shall be deductible from adjusted gross revenue, but any such deduction shall not exceed the total entry fees received for the tournament and non-cash winnings shall be deductible only to the dollar value thereof actually invoiced to and paid by the licensee.

(4) Free tournaments are considered tournaments and promotional activities as defined in 11 CSR 45-5.181 and shall comply with both 11 CSR 45-5.180 and 11 CSR 45-5.181.

### 11 CSR 45-5.181 Promotional Activities

*PURPOSE: This rule defines and clarifies the requirements for approval of giveaways and promotions.*

(1) For the purposes of this rule, the following words are defined as:

(A) Promotional giveaway – a promotional gift or item given by a licensee to any person meeting the licensee's promotional criteria, where the person provides no consideration and there is no chance or skill involved in the awarding of the promotional gift or item, and all persons meeting the criteria receive the same promotional gift or item;

(B) Patron – any person present on the premises of a Class B licensee that is not employed by such Class B licensee or the commission and is not on the premises as a vendor of the Class B licensee;

(C) Promotional coupon – any instrument offering any person something of value and issued by a Class B licensee to entice the person to come to the Class B licensee's premises or for use in or related to licensed gambling games at a licensee's gaming establishment;

(D) Promotional game – a drawing, event, contest or game in which patrons of a Class B licensee may, without giving consideration, participate or compete for the chance to win a prize or prizes of different values; and

(E) Player reward program – a promotional activity that provides redeemable player reward points to patrons as a result of wagering regardless of game outcome and based on predetermined formulas.

(2) Class B licensees may provide promotional activities such as promotional giveaways, promotional coupons, promotional games, player reward programs, or similar activities for patrons without the prior approval of the commission, provided the promotional activity is not structured or conducted in a manner that reflects negatively on the licensee, the commission, or the integrity of gaming in Missouri and complies with the following:

(A) No false or misleading statements, written or oral, shall be made by a licensee or its employees or agents regarding any aspect of any promotional activity;

(B) The promotional activity shall comply with all applicable laws and regulations and shall not constitute illegal gambling under federal or state law;

(C) The Class B licensee shall create dated, written rules governing the promotional activity, which rules shall be immediately available to the public and the commission upon

request. The licensee shall maintain the rules of the event and all amendments thereto, including criteria for entry and winning, prizes awarded, and prize winners, for a minimum of two (2) years from the last day of the event;

(D) All prizes offered in the promotional activity shall be awarded according to the Class B licensee's rules governing the event;

(E) The licensee's employees shall not be permitted to participate as a player in any gambling game as defined in section 313.800, RSMo, including games for which there is no cost to participate;

(F) The Class B licensee shall designate in its internal control system an employee position acceptable to the commission that shall be responsible for ensuring adherence to the rules set forth in this section; and

(G) These standards do not apply to promotional activities exclusively related to food, concerts, hotels, and other non-gaming establishments.

(3) Documentation of any change or cancellation of a promotional activity shall be maintained on file for two (2) years.

(4) Payouts from promotional activities are not winnings paid to wagerers under section 313.800.1(1), RSMo, and as such shall not be deductible when calculating adjusted gross receipts.

(5) Promotional coupons shall contain the following information preprinted on the coupon:

- (A) The name of the gaming facility;
- (B) The city or other locality and state where the gaming facility is located;
- (C) Specific value of any monetary coupon stated in U.S. dollars;
- (D) Sequential identification numbers, player tracking numbers with unique numbers added to them, or other similar means of unique identification of each coupon for complete, accurate tracking and accounting purposes;
- (E) A specific expiration date or condition; and
- (F) All conditions required to redeem the coupon.

(6) Class B licensees may use mass media to provide promotional coupon offers to prospective patrons; however, such offers may only be redeemed for a preprinted coupon that contains all of the information required for a promotional coupon in section (5) of this rule.

(7) Class B licensees offering promotional coupons shall track the issuance and redemption of each promotional coupon. Documentation of the promotional coupon tracking shall be maintained on file for two (2) years and made readily available to the commission upon request. The inventory of unissued promotional coupons must be maintained in a reasonable manner that prevents theft or fraud.

(8) Promotional coupons shall be cancelled at the time they are redeemed in a manner that will prevent multiple redemptions of the same coupon.

**11 CSR 45-5.183 Table Game and Poker Cards – Specifications**

*PURPOSE: This rule establishes minimum standards for cards used for gambling games.*

(1) Unless otherwise approved by the commission, all cards used for gambling games must meet the following specifications:

(A) Cards used to play table games and poker shall be in standard decks of fifty-two (52) cards each with each card identical in size and shape to every other card in such deck or as otherwise approved by the commission;

(B) Each standard deck shall be composed of four (4) suits: diamonds, spades, clubs, and hearts;

(C) Each suit shall be composed of thirteen (13) cards: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3, 2. The face of the ace, king, queen, jack, and 10 value cards may contain an additional marking, as approved by the commission, which will permit a dealer, prior to exposing his/her hole card at the game of blackjack, to determine the value of that hole card;

(D) The backs of each card in the deck shall be identical and no card shall contain any marking, symbol, or design that will enable a person to know the identity of any element printed on the face of the card or that will in any way differentiate the back of that card from any other card in the deck;

(E) The backs of all cards in the deck shall be designed so as to diminish as far as possible the ability of any person to place concealed markings thereon;

(F) The design to be placed on the backs of cards used by licensees shall contain the name or trade name of the Class B licensee where the cards are to be used and shall be submitted to the commission for approval prior to use of such cards in gaming activity;

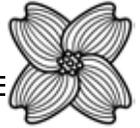

(G) Each deck of cards for use in table games as defined in this section shall be boxed separately or boxed in sets of two (2) or more manufacturer pre-shuffled decks and wrapped with cellophane or shrink wrap or other similar material as approved by the commission and such packaging shall have a tamper resistant destructive security seal and a tear band. Each deck of poker cards shall be boxed in sets of two (2) decks and wrapped with cellophane or shrink wrap or other similar material as approved by the commission and have a tamper resistant destructive security seal and a tear band;

(H) Nothing in this section shall prohibit decks of cards with one (1) or more jokers contained therein; provided, however, such jokers shall be used by the Class B licensee only in the play of any games approved by the commission for that manner of play; and

(I) In addition to satisfying the requirements of this section, the cards used by a Class B licensee in any poker room game must –

- 1. Be visually distinguishable from the cards used by that Class B licensee to play any table games;
- 2. Be made of plastic; and
- 3. Each set of poker cards shall have two (2) decks with visually distinguishable card backings. These card backings may be distinguished, without limitation, by different logos, different colors, or different design patterns.

### 11 CSR 45-5.184 Table Game Cards – Receipt, Storage, Inspections, and Removal from Use

*PURPOSE: This rule establishes procedures for the handling of table game cards within the gaming operation.*

(1) When decks of table game cards are received for use in the facility from a licensed supplier, the boxes shall be promptly inspected and the decks shall be stored in a primary or secondary storage area by at least (2) employees, one (1) of whom shall be from the table games department and the other from the security department. The primary card storage area shall be located in a secure place, the location and physical characteristics of which shall be approved by the commission. Secondary storage areas, if needed, shall be used for the storage of surplus cards. Cards maintained in secondary storage areas shall be transferred to the primary card storage area before being distributed to the pits or tables. All secondary storage areas shall be located in secure areas, the location and physical characteristics of which shall be approved by the commission.

(2) All primary and secondary storage areas shall have two (2) separate locks. The security department shall be the authorized user of one (1) key and the pit manager, poker room manager, or supervisor thereof in the organizational hierarchy shall be the authorized user of the other key.

(3) Immediately prior to the commencement of each gaming day and at other times as may be necessary, the pit manager, poker room manager, or supervisor thereof, in the presence of a security officer, shall remove the appropriate number of decks of table games cards from the primary card storage area for that gaming day.

(4) Once removed from the primary card storage area, the pit manager, poker room manager, or supervisor thereof, in the presence of a security officer, shall take the decks to the pit(s) and distribute the decks to the floor supervisor(s) for distribution to the dealer at each table.

(5) The pit manager, poker room manager, or supervisor thereof, shall place extra decks into a single locked compartment of a pit stand located within the pit(s). The floor supervisor or above shall have access to the extra decks of cards to be used for that gaming day.

(6) Cards will not be moved outside of the enclosed or encircled area without a security escort and notification to surveillance except when being collected by security.

(7) Prior to being placed into play, all decks shall be inspected by the dealer, and the entire inspection observed by a floor supervisor or above. Card inspection at the gaming table shall require each deck to either be sorted into sequence and into suit or processed through an automated shuffler or similar device capable of reading the card faces to ensure that all cards are in the deck. For decks that may be used more than once, the inspection shall also require the dealer to check the back of

each card to ensure that it is not flawed, scratched, or marked in any way. Card inspection for games may be conducted at an alternate table in the same pit or at an alternate table in a closed pit. In these instances, the floor supervisor or above shall notify surveillance and surveillance shall record on the surveillance shift log both the table number where the card inspection is conducted and the table number at which the cards are to be placed into play.

(A) If, after checking the cards, the dealer finds that a card is unsuitable for use, a floor supervisor or above shall bring a replacement card from the replacement deck or replace the entire deck.

(B) The unsuitable card(s) shall be placed in a transparent sealed envelope or container, identified by the table number, date, and time removed from the table and shall be signed by the dealer and floor supervisor assigned to that table. The floor supervisor or above shall maintain the envelope or container in a secure place within the pit until collected by a security officer.

(8) When cards are placed in play, the Class B licensee shall record on each deck/multi-deck box the table number, the date, and the time the cards were placed on the table for use.

(9) All envelopes and containers used to hold or transport cards collected by security shall be transparent.

(A) The envelopes or containers and the method used to seal them shall be designed or constructed so that any tampering shall be evident.

(B) The envelopes or containers and seals shall be approved by the commission.

(10) Any cards which have been opened and placed on a gaming table shall be changed at least once every twenty-four (24) hours. In addition –

(A) Cards opened for use on games in which dealing procedures require the cards to be dealt only once (e.g., baccarat) shall be changed upon the completion of each shoe; and

(B) Cards opened for use on any table game in which the cards are handled by the players shall be changed at least every six (6) hours.

(11) Card(s) damaged during the course of play shall be replaced by the dealer who shall request a floor supervisor or above to bring a replacement card(s) or deck/multi-deck from the pit stand.

(A) The damaged card(s) shall be placed in a sealed envelope, identified by table number, date, and time removed from the table and shall be signed by the dealer and the floor supervisor or above who brought the replacement card to the table.

(B) The floor supervisor or above shall maintain the envelope or container in a secure place within the pit until collected by a security officer.

(12) At the end of the gaming day or, in the alternative, at least once each gaming day at the same time each day, as designated by the licensee and approved by the commission, and at other times as may be necessary, the floor supervisor or above shall collect all used cards.

(A) These cards shall be counted down manually by the dealer or by an automated shuffler and placed in the original deck/multi-deck boxes. The time the decks were removed from the table and an indication as to whether or not the cards were handheld shall be recorded on the deck/multi-deck boxes. The

boxes shall be placed in a sealed envelope or container. For games in which dealing procedures require cards to be dealt only once, the sealed envelopes or containers shall be easily distinguishable from those used for all other table games. The bags will be conspicuously labeled as containing single-use cards.

(B) A label shall be attached to each envelope or container which identifies the table number, date, and time and shall be signed by the dealer and floor supervisor assigned to the table.

(C) The floor supervisor or above shall maintain the envelopes or containers in a secure place within the pit until collected by a security officer.

(13) The licensee shall remove any cards from use any time there is indication of tampering, flaws, scratches, marks, or other defects that might affect the integrity or fairness of the game, or at the request of the commission.

(14) At the end of each gaming day or, in the alternative, at least once each gaming day, as designated by the licensee in the internal controls and approved by the commission, and at other times as may be necessary, a table game supervisor or above shall collect all extra decks of cards. All extra decks with broken seals shall be placed in a sealed envelope or container, with a label attached to each envelope or container which identifies the date and time and is signed by the floor supervisor and the pit manager or above.

(15) At the end of the gaming day or, in the alternative, at least once each gaming day at the same time each day, as designated by the licensee in the internal controls and approved by the commission, and at other times as may be necessary, a security officer shall collect all decks in the pit(s), including sealed decks, sealed envelopes or containers with damaged cards, decks used during the gaming day, and decks with broken seals. The collection shall be recorded on the Card and Dice Collection Log. All sealed decks shall be returned directly to the primary storage area. The security officer shall return the envelopes or containers and the log to the card inspection room.

(16) When the envelopes or containers of used cards and reserve cards with broken seals are returned to the security department, they shall be inspected within forty-eight (48) hours by a member of the security department who has been trained in proper card inspection procedures. The cards will be inspected for tampering, marks, alterations, missing or additional cards, or anything that might indicate unfair play.

(A) With the exception of cards which are changed upon the completion of each shoe and dealt only once, all cards used in table games in which the cards are handled by the player shall be inspected. Cards that are changed upon completion of each shoe and are dealt only once shall be recorded separately on the Card Inspection Log and are not required to be inspected.

(B) In other table games, if less than three hundred (300) decks are used in the gaming day, at least ten percent (10%) of those decks will be selected at random to be inspected. If three hundred (300) or more decks are used that gaming day, at least five percent (5%) of those decks but no fewer than thirty (30) decks will be selected at random to be inspected.

(C) The licensee shall also inspect –

1. Any cards which the commission requests the licensee to remove for the purpose of inspection; and

2. Any cards the licensee removed for indication of tampering.

(D) The procedures for inspecting all decks required to be inspected under this subsection shall, at a minimum, include:

1. The sorting of cards sequentially by suit or using an automated deck checking device to establish all cards are present;

2. The inspection of the backs of the cards with an ultraviolet light; and

3. The inspection of the sides of the cards for crimps, bends, cuts, and shaving.

(E) The individuals performing said inspection shall complete the Card Inspection Log which shall detail the procedures performed and list the tables from which the cards were removed and the results of the inspection. The individual shall sign the form upon completion of the inspection procedures.

(F) Evidence of tampering, marks, alterations, missing, or additional cards, or anything that might indicate unfair play discovered at this time, or at any other time, shall be reported to the commission by the completion and delivery of a Card Discrepancy Report. All Card/Dice Discrepancy Reports generated for the cards for each gaming day shall be delivered prior to or immediately following the inspection process for that gaming day.

1. The report shall accompany the card(s) when delivered to the commission.

2. Security shall maintain the second part of the discrepancy report.

(17) The Class B licensee shall –

(A) Maintain a card inventory ledger for each primary and secondary storage location, which shall document the following:

1. Balance of decks on hand;

2. Decks removed from storage;

3. Decks returned to storage or received from the manufacturer;

4. Date of the transaction; and

5. Signatures of the security officer and the pit manager or poker room manager conducting the transaction;

(B) Verify on a daily basis the number of decks stored, distributed, destroyed or cancelled, and returned to the storage area; and

(C) Perform an independent inventory of the cards at least once each calendar quarter.

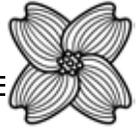

1. This inventory shall be performed by an employee from the compliance or accounting department and shall be verified to the balance of decks on hand as recorded on the inventory ledger.

2. The employee conducting this inventory shall make an entry and sign the Cards/Dice Inventory Ledger in a manner that clearly distinguishes this count as the independent inventory.

3. Any discrepancies shall immediately be reported to the commission agent on duty.

(18) Where cards in an envelope or container are inspected and found to be without any indication of tampering marks, alterations, missing, or additional cards, or anything that might indicate unfair play, those cards shall be destroyed or cancelled. Once released by the commission, the cards submitted as evidence shall be destroyed or cancelled. Cards shall be destroyed or cancelled prior to removal from inventory. The destruction/cancellation shall be recorded on the Card and Dice Cancellation/Destruction Log.

(A) Destruction shall occur by shredding or other method approved by the commission.

(B) Cancellation shall occur by drilling a circular hole of at least one-fourth of one inch (1/4") in diameter through the center of each card in the deck, or by removing at least one-fourth of an inch (1/4") from at least one (1) corner of each card, or other method approved by the commission.

(C) The destruction and cancellation of cards shall take place in a secure place, the location and physical characteristics of which shall be approved by the commission, and shall be performed by a member of the security department specifically trained in proper procedures.

(19) The Class B licensee shall not allow players to handle cards except as permitted by the Class B licensee's internal control system Rules of the Game.

### 11 CSR 45-5.185 Poker Cards – Receipt, Storage, Inspections, and Removal from Use

*PURPOSE: This rule establishes procedures for the handling of poker cards within the gaming operation.*

(1) Only plastic cards that have been approved by the commission shall be used for poker.

(2) When decks of poker cards are received for use in the facility from a licensed supplier, the decks shall be placed for storage in a primary or secondary storage area by at least two (2) employees, one (1) of whom shall be from the table games department and the other from the security department. The primary storage area shall be located in a secure place, the location and physical characteristics of which shall be approved by the commission. Secondary storage areas, if needed, shall be used for the storage of surplus poker cards. Cards maintained in secondary storage areas shall be transferred to the primary card storage area before being distributed to the poker room or tables. All secondary storage areas shall be located in secure areas, the location and physical characteristics of which shall be approved by the commission.

(3) All primary and secondary card storage areas shall have two (2) separate locks. The security department shall maintain one (1) key and the table games department shall maintain the other key; provided, however, that no person employed by the table games department below the pit manager or poker room manager in the organizational hierarchy shall have access to the table games department key for the primary and secondary card storage areas.

(4) Evidence of tampering, marks, alterations, missing or additional cards or anything that might indicate unfair play discovered at any time shall be reported to the commission by the completion and delivery of a Card Discrepancy Report.

(A) The report shall accompany the card(s) when delivered to the commission.

(B) The card(s) shall be retained for further inspection by the commission.

(C) The commission agent receiving the report shall sign the Card Discrepancy Report and retain the original at the commission office.

### 11 CSR 45-5.190 Minimum Standards for Electronic Gaming Devices (EGDs)

*PURPOSE: This rule establishes the minimum standards for EGDs.*

(1) EGDs shall not be programmed to pay out less than eighty percent (80%) of all wagers, including bonus games, for ten (10) million handle pulls using the volatility index calculated at a ninety-five percent (95%) confidence level. The minimum payout percentage requirement shall be met regardless of the amount wagered per game.

(2) EGDs that may be affected by player skill must meet the minimum payout percentage requirement even when the skill of the player provides the lowest possible return to the player from the skill portion of the game.

(3) Any advertised payout on an EGD shall occur, statistically, at least once in fifty (50) million games.

(4) EGDs shall –

(A) Be subject to testing prior to implementation within the state and at any time thereafter by the commission or an independent testing laboratory (ITL) licensed by the commission, and subject to review and approval by the commission for adherence to the regulations and technical standards;

(B) Be controlled by a microprocessor or the equivalent in such a manner that the game outcome is completely controlled by the microprocessor or equivalent device as approved by the commission;

(C) Utilize an industry standard communication protocol approved by the commission that is compatible with and interfaces with the communication protocol used by all slot accounting systems approved by the commission for use at an excursion gambling boat. Any new EGDs and any new slot machine interface board (SMIB), including the device's or board's communication software, shall, prior to approval for use within the state, be tested for interoperability with all slot accounting systems utilized in Missouri excursion gambling boats, by a licensed ITL, to ensure compliance with this chapter. Once approved, modifications to said EGDs, SMIBs, or the device's or board's communication software shall be further tested for interoperability to ensure compliance with this chapter, unless otherwise approved by the commission;

(D) Have a logic area in a separate locked internal enclosure within the device which houses electronic components that have the potential to significantly influence the operation of the gaming device. Electronic components required to be housed within the logic area include computer processor units

(CPUs) and all critical program storage media;

(E) Clearly and accurately display, via Attendant Menu, the identification number and version, as applicable, of all software and firmware contained within the EGD and its top box which are involved in game communication or the operation and calculation of game play, game display, or game result determination;

(F) Be able to recover to the state the gaming devices were in immediately prior to the occurrence of a program interruption or power loss and continue a game with no data loss. Upon program resumption, the following procedures must be performed:

1. Any communications to an external device shall not begin until the program resumption routine, including self-tests, is completed successfully;

2. Gaming device control programs test themselves for possible corruption due to failure of the program storage media; and

3. The integrity of all critical memory is checked;

(G) Have game data recall capable of providing all information required to fully reconstruct at least the last ten (10) games, retrievable upon the operation of an external key-switch or other secure method not available to the player. The ten- (10-) game recall shall reflect bonus rounds in their entirety. For bonus rounds that may have a variable number of free spins, there shall be a minimum of fifty (50) recallable spins for each bonus round;

(H) Have a random selection process that must not produce detectable patterns of game elements or detectable dependency upon any previous game outcome, the amount wagered, or upon the style or method of play; however, the commission may allow a game with a game feature or play mechanic with a detectable dependency if a white paper for the game feature or play mechanic is submitted to and approved by the commission prior to testing by an ITL. The commission reserves the right to require the removal of the program if it determines, in its sole discretion, that removal is in the best interest of the state of Missouri;

(I) Clearly and accurately display applicable rules of play and the award that will be paid to the player when the player obtains a specific win, including mystery awards. The displays shall clearly indicate whether awards are designated in denominational units, currency, credits, or some other unit. All payable information must be able to be accessed by a player prior to the player committing to a wager. Pay glass and its corresponding artwork for mechanical displays must be submitted to an ITL designated by the commission for review and approval prior to implementation within the state;

(J) Display an accurate representation of each game outcome. After selection of the game outcome, the EGD must not make a variable secondary decision which affects the result shown to the player;

(K) Have a complete set of nonvolatile meters including coin in, coin out, bills in, tickets in, tickets out, coupons in, cashable electronic promotion in (CEP In), cashable electronic promotion out (CEP Out), non-cashable electronic promotion in (NCEP In), non-cashable electronic promotion out (NCEP Out), attendant paid external bonus payout, machine paid external bonus payout, wagering account transfer in (WAT In), wagering account transfer out (WAT Out), number of games played, attendant paid progressive, machine paid progressive, attendant paid cancel credits, and attendant paid jackpots, or their equivalent as approved by the commission;

(L) Have available for random selection at the initiation of each play based upon the selected wager, each possible

permutation or combination of game elements which produce winning or losing game outcomes for that wager; however, the commission may allow a game with a game feature or play mechanic that does not offer each possible winning or losing game outcome if a white paper for the game feature or play mechanic is submitted to and approved by the commission prior to testing by an ITL. The commission reserves the right to require the removal of the program if it determines, in its sole discretion, that removal is in the best interest of the state of Missouri; and

(M) Not automatically alter paytables or any function of the EGD based on internal computation of the hold percentage.

(5) For games which utilize physical reel strips, the EGD shall have the capability to perform a reel strip and payable test for each award, which allows the Class B licensee to verify the combination and payout listed on the pay glass/pay screen matches the reel strip combination and the award credits displayed.

(6) EGDs shall not display the highest advertised award following a random access memory (RAM) clear or when exiting a tilt condition, except when returning to the last known play state.

(7) When an EGD is unable to automatically provide payment of jackpots requiring the payment to be made by the excursion gambling boat, jackpot slips must be prepared either by the slot accounting system or manually by casino personnel.

(8) An EGD and its associated equipment or associated system shall not display a payout to the patron that is not achievable on that EGD.

(9) In addition to the requirements of this rule, all licensees shall comply with Chapter E of the Minimum Internal Control Standards as authorized by 11 CSR 45-9.105.

**11 CSR 45-5.192 Electronic Gaming Device (EGD) Authentication**

*PURPOSE: This rule establishes the minimum standards for authenticating critical program storage media (CPSM).*

(1) EGD platforms submitted for approval shall provide the following support for authenticating CPSM:

(A) A verification mechanism, approved by the commission, which authenticates all CPSM. The verification mechanism shall –

1. Be accessible via a communication port and protocol approved by the commission;
  2. Possess an approved communication port located within the locked EGD cabinet and be accessible without requiring access to the locked logic compartment;
  3. Provide on-demand authentication of each EGD CPSM. This function shall not require the EGD power to be cycled and the execution time shall not exceed twenty (20) minutes;
  4. Generate a unique signature for each CPSM utilizing Secure Hashing Algorithm-1 (SHA-1) with Hash-Based Message Authentication Code (HMAC), as defined by the National Institute of Standards and Technology (NIST). Hashing methodologies will be continually reevaluated by the commission; and
  5. Provide support for escrowing verification results. Verification results shall be preserved and retrievable pending a subsequent verification request or a loss of power; and
- (B) A means for the use of third-party authentication tools approved by the commission.

(2) Legacy EGD platforms which do not offer a communication port are excluded from the requirements in subsection (1)(A).

(3) All EGDs shall be designed to permit a copy of random access memory (RAM) to be extracted utilizing tools and procedures approved by the commission and which shall be provided by the EGD supplier.

(4) All licensees are required to submit a request to the commission for authorization of installation and use of any diagnostic data collection device on the gaming floor. The request shall contain the following:

- (A) The licensee making the request;
- (B) Description of the device;
- (C) Installation date and time;
- (D) Expected duration of use;
- (E) Personnel performing the installation; and
- (F) A technical description as to why the device is needed.

**11 CSR 45-5.193 Statistical Performance of Electronic Gaming Devices (EGDs)**

*PURPOSE: This rule establishes the standards for EGD statistical performance.*

- (1) Gaming equipment suppliers shall –
- (A) Provide the volatility index (VI) on all Probability Accounting Report (PAR) sheets. The volatility index shall be calculated at ninety-five percent (95%) confidence level and at one- (1-) line played, or the EGD minimum bet where applicable. For EGDs with non-linear paytables, the bet with the lowest payout shall be used. The calculations shall be accomplished by utilizing the below formulas:

$$VI = \kappa\sigma$$

Where  $\kappa$  equals the z score for the required confidence level and  $\sigma$  is the standard deviation for the game. The standard deviation is calculated as follows:

$$\sigma = \sqrt{\sum_{i=1}^n ((Net\ Pay_i - E.V.)^2 \times probability_i)}$$

Net Pay<sub>i</sub> = the amount of each individual pay divided by the number of credits wagered or the total win amount of one wagered game, including all wins in any bonus rounds, divided by the number of credits wagered  
 E.V. = the payback percentage for the game  
 Probability<sub>i</sub> = probability of each Net Pay<sub>i</sub>

(B) Calculate PAR sheets utilizing theoretical analysis where feasible. When the Return To Player (RTP) percentage cannot be feasibly computed using theoretical analysis, the RTP percentage shall be computed such that the half-width of the ninety-five percent (95%) confidence interval is not more than .01%;

(C) Obtain written authorization from the commission prior to submitting any EGDs that support features which introduce independent VIs, separate from the base game VI, to an independent testing laboratory (ITL);

(D) Ensure each EGD payout that is calculated into the PAR sheet’s RTP for the game increments the appropriate coin-out, attendant-paid jackpot, attendant-paid progressive payout, or machine-paid progressive payout meter to allow for the analysis of game performance for all EGD software submitted for approval after January 1, 2014. Any features not calculated into the PAR sheet’s RTP of the game shall not increment these meters, unless otherwise approved by the commission;

(E) Ensure all base game, bonus, and progressive winnings from a wager are aggregated to determine whether the EGD payout is a reportable and/or taxable event requiring the EGD to lock up, allowing for the preparation of a W-2G and state withholdings as required by section 313.826, RSMo;

(F) Provide to the commission and Class B licensees a PAR sheet for each game theme and any additional products which utilize a random number generator (RNG) to determine game outcome. PAR sheets shall list the software identification number of the product for which the PAR sheet applies and each payable shall include –

1. The minimum and maximum theoretical RTP;
2. An explanation of how the expected theoretical RTP was calculated for games of skill/strategy;
3. Identification of each winning combination and its award value;
4. Volatility Index; and
5. Standard confidence intervals at a confidence level of ninety-five percent (95%) with each interval showing 10,000, 100,000, 1,000,000, 10,000,000, and 100,000,000 games played;

(G) Provide to the commission the following supporting documentation for each game theme and any additional products which utilize an RNG to determine game outcome:

1. Identification of available and valid configuration options, including payline options, denominations supported, maximum bets supported, bet per line options, mandatory feature or bonus bets, and optional feature or bonus bets;
2. Progressive awards, if offered, including –
  - A. Identification of each progressive supported;
  - B. The recommendation or required reset value;

- C. The default incrementation rate; and
- D. The odds of winning each progressive;
- 3. List of symbols as placed on each reel strip, including actual reel stop positions for each symbol;
- 4. Identification of the base game top award and the odds of winning the base game top award; and
- 5. Identification of and frequency of obtaining all features and bonuses; and
- (H) Calculate the theoretical payout percentage of strategy card games such as video poker using optimal strategy.

(2) ITLs shall –

- (A) Independently verify the VI and RTP percentage, then detail the findings in the certification letter;
- (B) Provide standard confidence intervals at a confidence level of ninety-nine percent (99%) in the certification letters using this formula –

$$\text{Percent Payback} \pm \frac{VI}{\sqrt{\text{number of games played}}}$$

with the number of games played for each interval being 10,000, 100,000, 1,000,000, 10,000,000, and 100,000,000; and

- (C) Calculate the theoretical payout percentage of strategy card games such as video poker using optimal strategy.

**11 CSR 45-5.194 Operator Content Delivery Systems**

*PURPOSE: This rule establishes the minimum standards for operator content delivery systems (OCDSs). The OCDSs technology authorizes video mixing technology which is displayed on the Electronic Gaming Device (EGD) monitor(s). The OCDS is limited to activities involving promotional and service windows.*

- (1) For the purposes of this rule, the following words are defined as –
  - (A) Content – All images, graphics, text, and messages displayed on the electronic gaming device (EGD) game monitor(s);
  - (B) Game monitor(s) – The video display(s) used by an EGD;
  - (C) Gaming window – A window that contains the underlying content which is produced, controlled, and transmitted by the EGD critical program storage media (CPSM), displayed on the EGD game monitor(s);
  - (D) System window – A window that contains the underlying content, which is produced, controlled, and transmitted by a source independent of the EGD CPSM, displayed on the EGD game monitor(s); and
  - (E) Operator content delivery systems (OCDSs) – Hardware and software which is responsible for providing content to the system window.
- (2) The supplier of any OCDSs which include functionality to

introduce communication messages between an EGD or its host slot accounting system, as referenced in 11 CSR 45-5.220, shall obtain a Supplier license as outlined in 11 CSR 45-4.

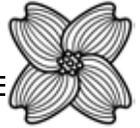

- (3) OCDSs shall be subject to testing by the commission or a commission licensed independent testing laboratory.
- (4) A system window being displayed during game play shall not, unless otherwise approved in writing –
  - (A) Overwrite, overlap, or otherwise obscure content in the gaming window; and
  - (B) Exceed thirty percent (30%) of the game monitor.
- (5) An OCDS system window being displayed while an EGD has credits shall not obstruct the view of the credit meter.
- (6) The OCDS shall –
  - (A) Accurately remap and/or reproduce the content and equipment functionality associated with the original gaming window;
  - (B) Be designed in a manner which logically separates critical files from noncritical files;
  - (C) Be designed to permit an on-demand, independent integrity check of all files which are deemed critical to the proper operation of the OCDS by a commission licensed independent testing laboratory. The integrity check (i.e., authentication process) shall be accomplished by utilizing a commission-approved, external third-party verification tool; and
  - (D) Perform an integrity check of all critical memory, including a self-test before any communication is established to an external device.
- (7) An OCDS system window may be displayed at any time provided the window does not interfere with or impede the EGD from displaying information required by the Missouri Code of State Regulations (CSR) and Minimum Internal Control Standards (MICS).

(8) Any OCDS which interfaces with an EGD must do so in such a manner that does not adversely impact the requirements set forth by 11 CSR 45-5.270, the play of the game, operation of peripheral hardware or software on the EGD, or any slot accounting system meters.

(9) EGDs connected to an OCDS shall include a mechanism, approved by the commission, which permits the patron to close the system window, on demand, and return to the original gaming window.

(10) OCDSs shall be prohibited from delivering content which is considered a gambling game as defined in Chapter 572, RSMo, or which is otherwise prohibited by commission rules. The use of promotional giveaway credits and player reward credits as consideration in order to participate in any type of promotional activity with a chance of winning something of value would be considered a gambling game and hence prohibited. The Class B licensees shall be responsible for all content displayed in the system window.

### 11 CSR 45-5.200 Progressive Electronic Gaming Devices (EGDs)

*PURPOSE: This rule establishes the requirements for progressive EGDs.*

(1) A meter that shows the accurate amount of the progressive jackpot must be conspicuously displayed at or near the EGDs to which the jackpot applies.

(2) Suppliers shall have progressive reconciliation instructions and a method to adjust the current progressive award value(s) displayed, including hidden meters, for each progressive EGD, provide them to the Class B licensee, and make the instructions immediately available to the commission upon request.

(3) A licensee may impose a limit on the jackpot of a progressive EGD if the limit imposed is greater than the possible maximum jackpot payout on the EGD at the time the limit is imposed. The licensee must inform the public with a prominently posted notice of progressive EGDs that have limits. Such notice shall clearly state the amount of the limits and must be approved by the commission.

(4) A licensee shall not reduce the amount displayed on a progressive jackpot meter or otherwise reduce or eliminate a progressive jackpot unless –

(A) A player wins the jackpot;

(B) The licensee adjusts the progressive jackpot meter to correct a malfunction or to prevent the display of an amount greater than a limit imposed pursuant to section (3) of this rule and the licensee documents the adjustment and the reasons for it;

(C) The licensee's gaming operations at the establishment cease for any reason other than a temporary closure where the same licensee resumes gaming operations at the same establishment within a month;

(D) The licensee distributes the incremental amount to another progressive jackpot that does not require a larger wager on a single play to win the jackpot; or

(E) The commission for good cause approves in writing a reduction, elimination, or distribution that does not meet the requirements in this rule.

(5) If the incremental amount of a progressive jackpot is moved to another EGD, the distribution shall be documented and shall occur within thirty (30) days of the jackpot being removed.

(6) Licensees shall preserve the records required by this rule for at least five (5) years after they are made.

(7) During the normal mode of progressive EGDs, the progressive controller or other approved device shall continuously monitor each EGD on the link for amounts inserted and shall multiply the accepted amounts by the rate of progression and denomination in order to determine the correct amounts to apply to the progressive jackpot. The progressive display shall be constantly updated, in a manner approved by the commission, as play on the link is continued.

(8) The expected value of winning a progressive award shall be the same within five thousandths percent (0.005%), across wagers for all themes, paytables, and denominations, as calculated by the reset value divided by the wager divided by the odds.

(9) If this rule prescribes multiple items of information to be displayed on an EGD, it is sufficient to have the information displayed in an alternating fashion.

(10) In addition to the metering requirements provided for in the Minimum Internal Control Standards (MICS), each EGD attached to one (1) or more progressive EGD meters must have a separate software meter that counts the number of times each primary progressive meter is activated.

(11) Each EGD must have a separate key and key switch to reset the progressive meter or meters or another reset mechanism approved in writing by the commission.

(12) Unless the commission has approved the payment of prizes by installments, a licensee who has a progressive EGD must maintain minimum cash reserves in accordance with 11 CSR 45-8.150. The commission must approve all such cash reserves. Notwithstanding the provisions of 11 CSR 45-5.240 to the contrary, the commission shall require that the licensee authorized to provide a wide-area progressive system –

(A) Maintain in a restricted account a reserve consisting of cash, United States Government Treasury Securities, United States Government Agency Securities, surety bonds, or Missouri state debt instruments of not less than the sum of the following amounts:

1. The present value of the aggregate remaining balances owed on all jackpots previously won by patrons through the wide-area progressive system; and

2. An amount sufficient to fully fund the present value of all amounts currently reflected on the progressive meters of the wide-area progressive systems; and

(B) In addition, the licensee authorized to provide the wide-area system shall at all times satisfy and be in compliance with the following ratios and tests:

1. An interest coverage ratio of not less than three to one (3:1);

2. Debt to EBITDA (earnings before interest, taxes, depreciation, and amortization) of not more than four to one (4:1); and

3. Satisfaction of one (1) of the following ratios and tests:

A. A current ratio of not less than two to one (2:1);

B. Working capital that is greater than twenty percent (20%) of the licensee's total jackpot liability; or

C. Working capital in excess of one hundred (100) million dollars and a credit rating from at least two (2) of the following credit rating organizations equal to or higher than the following:

(I) Standard & Poor's Corporate BBB–;

(II) Moody's Long-Term Baa3; or

(III) Fitch Corporate BBB–.

(13) The operation of wide-area progressive EGDs is allowed only within the state of Missouri subject to compliance with all other requirements of this rule, in addition to the following conditions:

(A) The wide-area system must have the ability to monitor entry into the main door of each networked EGD as well as the logic area of each networked EGD and report it to the central

system immediately;

(B) The licensee authorized to provide a wide-area progressive system shall perform a weekly reconciliation for each system provided by such licensee to ensure the jackpot amount(s) is accurate;

(C) A licensee utilizing a wide-area progressive system must suspend play on the system if a communication failure in the system cannot be corrected within a period of time approved by the commission prior to the commencement of play on the wide-area progressive system. If a communication failure occurs in a wide-area progressive system, the licensee authorized to provide the system must take a reading during the time the system is down to make sure that the jackpot amount is the same at all excursion gambling boats connected to the system before bringing the system that failed back online;

(D) The licensee authorized to provide a wide-area system must keep a log of all events for a period of at least sixty (60) days;

(E) Jackpot verification procedures must include the following:

1. When a jackpot is won, the licensee authorized to provide the wide-area system may inspect the EGD when accompanied by a gaming agent. The inspection shall include examining the critical program storage media, the error events received by the central system, and any other data which could reasonably be used to ascertain the validity of the jackpot;

2. The central system shall produce reports that will clearly demonstrate the method of arriving at the payoff amount. This shall include the amount contributed beginning at the polling cycle or data transfer immediately following the previous jackpot and will include all amounts contributed up to and including the polling cycle or data transfer, which includes the jackpot signal. Amounts contributed to the system before the jackpot message is received will be deemed to have been contributed to the progressive amount prior to the current jackpot. Amounts contributed to the system subsequent to the jackpot message being received will be deemed to have been contributed to the progressive amount of the next jackpot; and

3. The jackpot may be paid in installments as long as each EGD clearly displays the fact that the jackpot will be paid in installments. In addition, the number of installments and time between installments must be clearly displayed on the face of the EGD in a non-misleading manner that is approved by the commission;

(F) Approval by the commission of any wide-area progressive system shall occur in two (2) phases –

1. The “initial approval” stage, wherein the underlying gaming devices and any associated device or system, including all hardware and software, shall be subject to testing by the commission or an independent testing laboratory designated by the commission; and review and approval by the commission. Testing shall include examination for adherence to the regulatory and technical standards adopted by the commission; and

2. The “on-site testing” phase, wherein a field inspection is conducted at the central computer site as well as multiple field sites to ensure compliance with these rules. Operation of the system will be authorized only after the commission is satisfied that the system meets both the Phase I and Phase II testing requirements, as well as any other requirements that the commission may impose to assure the integrity, security, and legal operation of the wide-area progressive system;

(G) Any licensee authorized to provide a wide-area progressive system must supply reports to the commission which support and verify the economic activity on the system;

(H) Any licensee authorized to provide a wide-area progressive system must supply, as requested, reports and information to the commission indicating the amount of and basis for the current jackpot amount (the amount currently in play). Such reports shall include an “aggregate report” and a “detail report.” The “aggregate report” shall show only the balancing of the system with regard to system-wide totals. The “detail report” shall be in such form as to indicate for each EGD, summarized by location, the amount-in and amount-out totals as such terms are commonly understood in the industry. In addition, upon the invoicing of any licensee participating in a wide-area progressive system, each such licensee must be given a print-out of each EGD at that licensee’s establishment linked to the system, the amount contributed by each EGD to the jackpot for the period for which an invoice is remitted, and any other information required by the commission to confirm the validity of the licensee’s contributions to the jackpot amount;

(I) The licensee authorized to provide a wide-area progressive system must obtain approval from the commission as to the methods of funding the progressive prize pool and calculating and receiving payments from participating licensees for the provision of equipment and services associated with the wide-area progressive system;

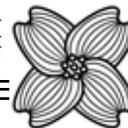

(J) In calculating adjusted gross receipts, a licensee may deduct its pro rata share of the present value of any progressive jackpots awarded during the month. The deducted amount shall be listed on the detailed accounting records provided by the licensee authorized to provide the wide-area progressive system. A licensee’s contribution is based on the amount-in from EGDs at that licensee’s gaming establishment which are on the wide-area progressive system, compared to the total amount-in on the whole system for the time period(s) between jackpot(s) awarded;

(K) The right to receive the jackpot payments may not be encumbered, assigned, or otherwise transferred in any way by any winner, estate, or heir(s) of a deceased winner, except to the estate or heir(s) of such person upon his or her death and that any attempt to make a prohibited transfer may result in such person forfeiting the right to receive future payments;

(L) In the event a licensee ceases operations and a progressive jackpot is awarded subsequent to the last day of the final month of operation, the licensee may not file an amended tax return or make claim for a gaming tax refund based on its contributions to that particular progressive prize pool;

(M) The central monitoring system for the wide-area progressive system must be in a location approved by the commission. The office containing the central monitoring system shall be secure and shall have surveillance coverage that has been approved by the commission. The central monitoring system shall employ online data redundancy that permits a complete and prompt recovery of all information in the event of any malfunction and utilize environmental controls such as uninterruptible power supplies and fireproof and waterproof materials to protect critical hardware and software from natural disasters. The licensee authorized to provide a wide-area progressive system shall be required to keep and maintain an entry and exit log for the office in a manner approved by the commission. The commission shall at all times have the right to immediate access to the office containing the central monitoring system and the system itself. If the licensee operating the central monitoring system proposes to locate the system outside the state of Missouri, the licensee shall reimburse the commission for all reasonable and necessary expenses incurred by its agents –

1. To travel to the site to inspect the system’s configuration

and operation prior to authorizing use of the system;

2. To otherwise inspect the system location in connection with investigations concerning failures of the system or its operation; or

3. For such other reasons as the commission deems appropriate;

(N) The provider of the wide-area progressive system may not allow any agent or employee to work on any component of the system until that person has obtained a level II occupational license from the commission; however, the commission may require any agent or employee of the licensee to obtain a level I occupation license;

(O) The licensee authorized to provide a wide-area progressive system must maintain a copy of all lease and contractual agreements relating to the wide-area progressive system and supply a copy to the commission upon request;

(P) The licensee authorized to provide a wide-area progressive system shall ensure the wide-area progressive system prize fund (the amount of money contributed by the participating licensees) is audited, in accordance with generally accepted auditing standards, on the fiscal year-end of the licensee, by an independent certified public accountant licensed by the Missouri State Board of Accountancy pursuant to Chapter 326, RSMo. Two (2) copies of this report must be submitted to the commission upon issuance of the audit report or ninety (90) days after the conclusion of the licensee's fiscal year, whichever occurs first. The cost of the audit shall be paid by the licensee providing the wide-area progressive system; and

(Q) Each progressive controller linking one (1) or more wide-area progressive EGDs must be housed in a double-keyed compartment. A gaming agent must be in possession of one (1) of the keys and no person may have access to the controller without the presence of a gaming agent. Wide-area progressive controllers on the Class B licensee's premises shall not be accessed remotely and access shall only be permitted by an authorized licensee through entrance to the controller's secured location. The progressive controller critical program storage media (CPSM) shall have a unique signature that allows verification by an agent of the commission through use of a commission-approved verification device. After verification, the CPSM shall be secured in the controller with a commission security seal. The security seal must be affixed by and may only be broken and removed by an authorized commission agent.

### 11 CSR 45-5.210 Integrity of Electronic Gaming Devices (EGDs)

*PURPOSE: This rule establishes the standards for the integrity of EGDs.*

(1) EGDs shall –

(A) As authorized by the commission, accept only electronic cards, tickets, coupons, credits, currency, or tokens as wagers;

(B) Be electronic in design and operation and not be electromechanical or mechanical in operation;

(C) Not subject a player to physical hazards;

(D) Have a secure and dedicated data protocol link to any slot accounting system, which shall be a closed system inaccessible to unauthorized communication with any other computer, device, or mode of telecommunications unless otherwise approved by the commission;

(E) Have an on/off switch that controls the electrical current used in the operation of the EGD and any associated equipment, which shall be located in an accessible place within its interior;

(F) Be designed so that it shall not be adversely affected by magnetic, electromagnetic, electrostatic, or radio frequency interference;

(G) If designed to accept physical tokens, have at least one (1) electronic token acceptor. Token acceptors must be designed to accept designated tokens and reject others. The token acceptor on an EGD must be designed to prevent the use of cheating methods such as slugging, stringing, spooning, the insertion of foreign objects, and other manipulation. All token acceptors are subject to approval by the commission. Tokens deemed invalid by the acceptor shall be rejected to the coin tray and shall not be counted as credits. The EGD control program must be capable of handling rapidly fed tokens or simultaneously fed tokens so that occurrences of inappropriate token-ins are prevented. Gaming devices shall have sensors capable of determining the direction and speed of token travel in the receiver and any improper direction or coin traveling at too slow of a speed shall result in the EGD going into an error condition;

(H) Be designed so the internal space of the EGD is not readily accessible when the front door is both closed and locked;

(I) Have a hopper contained in a locked area within the EGD if designed to dispense tokens. The EGD control program shall ensure the diverter directs tokens to the hopper or, in the alternative, to the drop compartment when the token level in the hopper makes contact with the diverter's hopper-full sensor probe. Hopperless gaming devices shall always divert tokens to the drop compartment;

(J) Contain no hardware or software switches that alter the paytables or payout percentages in its operation, other than as approved by the commission and which require access to a locked logic area;

(K) Conspicuously display an identification plate with the following information securely affixed by the manufacturer to the exterior of the EGD cabinet:

1. Manufacturer;
2. Serial number;
3. Model number; and
4. Date of manufacturer;

(L) Contain the rules of play for each EGD displayed on the face or screen. Rules shall be complete, clear, and easily understood. Each EGD must also display the credits wagered and the credits awarded for the occurrence of each possible winning combination based on the number of credits wagered. All information required by this subsection must be kept

under glass or another transparent substance and at no time may stickers or other removable items be placed over this information. Additionally –

1. If the game contains a bonus feature including a game within a game, the following rules shall be met:

A. The game shall display clearly to the player which game rules apply to the current game state;

B. If the game requires obtaining several events or symbols toward a bonus feature, the number of events or symbols needed to trigger the bonus feature shall be indicated along with the number of events or symbols collected at any point;

C. The game shall not adjust the likelihood of a bonus feature occurring based on the history of prizes obtained in previous games; however, the commission may allow the likelihood to be adjusted if a white paper is submitted to and approved by the commission prior to testing by an independent testing laboratory;

D. If a bonus game is triggered after accruing a certain number of events or symbols or combination of events or symbols of a different kind, the probability of obtaining like events or symbols shall not decrease as the game progresses; and

E. The game display shall make it clear to the player that the game is in a bonus mode;

2. If a bonus feature requires extra credits to be wagered and the game accumulates all winnings to a temporary win meter, the game shall –

A. Provide a means where winnings on the temporary meter can be bet to allow for instances where the player has an insufficient credit meter balance to complete the feature;

B. Transfer all credits on the temporary meter to the credit meter upon completion of the feature; and

C. Provide the player an opportunity not to participate; and

3. If the game offers a menu of games to a player –

A. The methodology employed by a player to select and discard a particular game for play shall be clearly displayed on the gaming device and easily followed;

B. The gaming device shall be able to clearly display to the player, at the player's request, all games, game rules and paytables before the player must commit to playing any game;

C. The player shall at all times be made aware of which game has been selected for play and is being played, as applicable;

D. The player shall not be forced to play a game just by selecting that game. The player shall be able to return to the main menu;

E. It shall not be possible to start a new game before the current play is completed and all game meters have been updated;

F. The set of games offered to the player for selection or the payable can be changed only by a secure method approved by the commission, which includes turning on and off games available for play through a video screen interface; and

G. No changes to the set of games offered to the player for selection or to the payable are permitted while there are credits on the player's credit meter or while a game is in progress;

(M) Be capable of continuing the current game with all current game features after a malfunction is cleared. This rule does not apply if an EGD is rendered totally inoperable;

(N) If designed to accept tokens, have attached a drop bucket housed within a locked compartment separate from any other

compartment of the EGD to collect and retain all tokens, diverted to the drop compartment;

(O) Be capable of detecting and displaying the following error conditions which an attendant must clear:

1. Token-in jam;

2. Token-out jam;

3. Hopper empty or time-out;

4. Program error;

5. Hopper runaway or extra token paid out;

6. Reverse token-in;

7. Reel error; and

8. Door open;

(P) Use a data communication protocol which ensures that erroneous data or signals will not adversely affect the operation of the EGD;

(Q) Display a Missouri Gaming Commission registration number permanently imprinted, affixed or impressed on the outside of each EGD;

(R) Have the capacity to display on the front of each EGD its rules of play, character combinations requiring payouts, and the amount of the related payouts. In addition, the Class B licensee shall display on each EGD either –

1. A clear description of any merchandise or thing of value offered as a payout, including the cash equivalent value of the merchandise or thing of value offered, the dates the merchandise or thing of value will be offered if the Class B licensee establishes a time limit upon initially offering the merchandise or thing of value and the availability or unavailability to the patron of the optional cash equivalent value; or

2. The name or a brief description of the merchandise or thing of value offered, provided, however, a sign containing the information specified in paragraph (1)(R)1. of this subsection shall be displayed in a prominent location approved by the commission near the EGD;

(S) Have a mechanical, electromechanical, or electronic device that automatically precludes a player from operating the EGD after a jackpot;

(T) Be designed in such a manner that the microprocessor or equivalent which operates the EGD is assigned a unique identification code, and that the critical program storage media (CPSM) is subject to authentication via an external third-party verification tool approved by the commission;

(U) If designed to accept currency, tickets, or coupons, have a bill validator into which a patron may insert such items in exchange for an equal value of EGD credits. EGDs containing a bill validator –

1. May accept any single denomination or combination of denominations of the following United States currency:

A. One dollar (\$1) bills;

B. Five dollar (\$5) bills;

C. Ten dollar (\$10) bills;

D. Twenty dollar (\$20) bills;

E. Fifty dollar (\$50) bills; and

F. One hundred dollar (\$100) bills;

2. May accept tickets and coupons in compliance with established commission regulations;

3. Shall have software programs that enable the bill validator to differentiate between genuine and counterfeit bills to a high degree of accuracy;

4. Shall be equipped with a bill validator drop box to collect the currency, tickets, and/or coupons inserted and accepted by the bill validator. The bill validator drop box shall –

A. Be housed in a locked compartment separate from any other compartment of the EGD;

B. Be accessible by a key that will access only the bill validator drop box and no other area of the EGD;

C. Have a slot opening through which currency, tickets, or coupons can be inserted;

D. Be readily identifiable to the EGD from which it was removed; and

E. Have a separate lock to secure access to the contents of the drop box, the key to which shall not access any other area of the EGD; and

5. Shall maintain sufficient electronic metering to report the –

A. Total monetary value of all items accepted;

B. Total number of all items accepted;

C. Number of bills accepted for each bill denomination;

D. Number of items accepted for each item type; and

E. The last five (5) items accepted;

(V) Have a tower light or candle located conspicuously on top of the gaming device that automatically illuminates when a player has won an amount or is redeeming credits the device cannot automatically pay, an error condition has occurred, or a call attendant condition has been initiated by the player. This requirement may be substituted for an audible alarm for bar-top style devices;

(W) Not contain or display the following content:

1. The performance of acts or simulated acts of sexual intercourse, masturbation, sodomy, bestiality, oral copulation, flagellation, or any sexual acts which are prohibited by law;

2. Any portion of the areola of the female breast;

3. The actual or simulated touching, caressing, or fondling of another person's breast, anus, or genitals;

4. The actual or simulated displaying of the pubic hair, anus, vulva, or genitals;

5. Obscene language; or

6. Any other content deemed inappropriate by the commission;

(X) Not be capable of reproducing or reprinting gaming tickets; and

(Y) Transfer ticket information to the database or other secured component(s) of the validation system before the ticket information is removed from memory.

(2) EGD CPSM shall not execute any functionality not intended for normal game play or tournament play, such as demonstration software or show mode features.

(3) Any EGD manufacturer holding a supplier license under the provisions of 11 CSR 45-4 et seq. shall notify the commission of any malfunction or anomaly affecting the integrity or operation of devices or systems provided under the scope of such license regardless of the gaming jurisdiction in which the malfunction or anomaly occurred or was discovered. The notification shall occur within forty-eight (48) hours of the supplier licensee being apprised of the malfunction or anomaly and shall be in a format approved by the commission.

(4) The commission shall be provided, free of charge, forensic tools which permit the recovery of non-volatile memory of EGDs approved for use. Such recovery techniques shall be satisfactory to the commission.

### 11 CSR 45-5.215 Cashless, Promotional, and Bonusing Systems

*PURPOSE: This rule establishes requirements for cashless, promotional, and bonusing systems. This rule also moves requirements that were incorporated by reference in 11 CSR 45-9.121 to this rule to clarify these requirements apply to suppliers.*

(1) All files which are deemed to be critical for the proper operation of cashless, promotional, and/or bonusing functionality shall be designed to permit an on-demand, independent integrity check. The integrity check (i.e., authentication process) shall be accomplished utilizing a commission approved, external third-party verification tool.

(2) Cashless and promotional systems shall perform the following minimum functions:

(A) Prohibit monetary transfers between patron accounts;

(B) Ensure all patron accounts are solely owned and accessed by one (1) account number and one (1) unique identifier per patron;

(C) Prohibit the ability to place a wager directly at a gaming device by the means of an external electronic funds transfer (EFT) to a gaming device through the use of a credit card or other external debit instrument(s);

(D) Possess the ability to flag accounts to identify Disassociated Persons and Excluded Persons;

(E) Ability to lock the patron's account after three (3) failed personal identification number (PIN) entry attempts;

(F) Validate the identity of those devices from which a transmission is received;

(G) Monitor data for complete and accurate transmission; and

(H) Detect the presence of corrupt or lost data packets and, as necessary, reject the transmission.

(3) If a player's mobile device is used in lieu of a physical player's card to card into a game, the wireless connection to the electronic gaming device (EGD) shall register as a card in and the break in connection shall be registered in the slot accounting system as a card out.

(4) Electronic gaming devices (EGDs) participating in the cashless system shall, at the EGD level, display the relevant informational message whenever any patron-initiated cashless transaction occurs. During the transaction, the EGD shall possess bi-directional communication and "lock" until the transfer is confirmed.

(5) Wagering account and digital wallet transfers to the EGD shall be metered using the wagering account transfer in (WAT In) meter and transfers out shall be metered using the wagering account transfer out (WAT Out) meter.

(6) Cashable credits electronically transferred from promotional accounts to the EGD shall be metered using the cashable electronic promotion in (CEP In) meter and transfers out shall be metered using the cashable electronic promotion out (CEP Out) meter.

(7) Noncashable credits electronically transferred from promotional accounts to the EGD shall be metered using the non-cashable electronic promotion in (NCEP In) meter and transfers out shall be metered using the non-cashable electronic promotion out (NCEP Out) meter.

(8) If NCEP credits are co-mingled with cashable credits on one credit meter at an EGD, the EGD shall wager the NCEP funds first.

(9) Cashless systems shall be designed to upload to the patron's promotional account any non-wagered NCEP credits upon card out.

(10) EGDs participating in the cashless environment shall possess a combined one hundred- (100-) event log by transaction type which provides an audit trail for WAT In, WAT Out, CEP In, CEP Out, NCEP In and NCEP Out or provide a twenty-five- (25-) event log for all cashless transfers that increment the aforementioned in-meters and a twenty-five- (25-) event log for all cashless transfers that increment the aforementioned out-meters. The EGD shall provide the following information by transaction, accessible through the attendant menu:

- (A) The type of transaction;
- (B) The monetary value of the transaction;
- (C) The time and date of the transaction; and
- (D) A unique transaction number, which shall be utilized to authenticate the source of funds.

(11) If online access is provided for patrons to view their account balances or transaction histories from the cashless and/or promotional system, physical or logical restrictions shall exist to provide independent operation from the cashless system.

(12) Cashless systems.

(A) Any supplier of a cashless system, or any portion thereof, shall be licensed by the commission.

(B) Cashless systems shall be designed to upload to the patron's wagering account or digital wallet all non-wagered credits upon a card out or a break in connection between the player's mobile device and the EGD.

(C) All cashless wagering transactions from a patron's wagering account or digital wallet shall be initiated or authorized by the patron, except for adjustments made to correct errors.

(D) Self-limiting options shall be available for patrons who use wagering accounts and digital wallets.

(13) Bonusing systems.

(A) EGDs participating in the bonusing system shall, at the EGD level, display a clear message indicating a bonus has been won. During the transaction, the EGD shall possess bi-directional communication until the system bonus is confirmed.

(B) EGDs participating in the bonusing system shall possess a log history for the last twenty-five (25) events for monetary transactions received from the external bonus system or possess a single one hundred- (100-) event log for bonus and cashless transfers. System bonuses shall increment the machine paid

external bonus payout or attendant paid external bonus payout meters. The EGD shall provide the following information by transaction, accessible through the attendant menu:

1. The type of transaction;
2. The monetary value of the transaction; and
3. The time and date of the transaction.

(14) Digital wallets.

(A) Digital wallet central servers shall possess sufficient high availability features and employ redundancy techniques to prevent loss of data.

(B) The supplier licensee offering digital wallets shall establish "terms and/or conditions" (notice) for accounts prior to activating the digital wallet. Patrons participating in the digital wallet shall receive a copy of the notice upon the establishment or activation of a digital wallet, and upon request. The notice, at a minimum, as applicable, shall include the disclosures as required by federal law and procedures for disposition of the patron's funds in the event the patron is placed on the List of Disassociated Persons or the Exclusion List.

(C) A digital wallet shall be established by the patron online. The process shall require the patron to access his/her player reward account online and provide, at a minimum, his/her –

1. Legal name;
2. Date of birth;
3. Email address;
4. Physical address;
5. Social Security number/tax ID number; and
6. Phone number.

(D) The supplier licensee shall use an independent third-party identity verification service provider when creating a digital wallet.

(E) The licensee who holds the patron's digital wallet shall maintain liability for the funds until the patron's digital wallet has a zero (0) balance. A patron's digital wallet shall not be allowed to have a negative balance.

(F) The supplier of a digital wallet shall provide upon patron request with proper identification or login, his/her last thirty (30) days of digital wallet transactions. If the patron requests additional transaction history beyond the thirty (30) days, the supplier shall provide the information within seven (7) calendar days.

(G) Digital wallet providers shall retain a record of all transactions for at least five (5) years.

### **11 CSR 45-5.220 Computer Monitoring Requirements of Electronic Gaming Devices (EGDs)**

*PURPOSE: This rule establishes computer monitoring requirements of EGDs.*

(1) The Class B licensee must have a computer connected to all EGDs in the excursion gambling boat to record and monitor the activities of these devices. Unless otherwise approved by the commission, EGDs shall be operated online and in communications with a slot accounting system approved by

the commission. This slot accounting system shall provide online, real-time monitoring and data acquisition capability in the format and media approved by the commission.

(2) The computer required by section (1) of this rule shall be designed and operated to automatically perform and report functions relating to EGD meters and other event codes and reports including –

- (A) Coin in (credits wagered);
- (B) Bills in, tickets in, cashable electronic promotion in (CEP In), non-cashable electronic promotion in (NCEP In), and wagering account transfer in (WAT In);
- (C) Coin out (credits won);
- (D) Tickets out, cashable electronic promotion out (CEP Out), non-cashable electronic promotion out (NCEP Out), machine paid external bonus payout, wagering account transfer out (WAT Out), and machine paid progressive payout;
- (E) Attendant paid external bonus payout, attendant paid progressive, attendant paid cancel credits, and attendant paid jackpots; and
- (F) Number of games played.

(3) The computer required by section (1) of this rule shall be designed and operated to –

- (A) Have an online computer alert and alarm monitoring capability to ensure direct scrutiny of any device malfunction, tampering, or any open door to the EGD; and
- (B) Identify any EGD taken offline or placed online with the slot accounting system, including the date, time, and EGD identification number.

(4) The holder of an operator's license shall store, in machine-readable format, all information required by section (2) of this rule for the period of five (5) years. The holder of an operator's license shall store all information in a secure area and certify that this information is complete and unaltered. This information shall be available in the format and media approved by the commission.

(5) The commission surveillance room for the sole accessibility of commission personnel provided in accordance with these rules shall house a secured dedicated computer monitoring line which provides computer accessibility to commission personnel to review, monitor, and record data identical to that specified in this rule.

### 11 CSR 45-5.225 Request for Approval of Gaming Devices, Equipment, and Systems

*PURPOSE: This rule establishes the process for requesting approval of gaming devices, equipment, and systems for use in Missouri. This rule also addresses new technology and field trials associated with new technology.*

(1) Prior to any new technology being certified for use in Missouri, the licensee shall consult with the commission to ensure such new technology would be compliant with Missouri rules, regulations, and statutes.

(2) Prior to any associated system being certified for use in Missouri, the licensee shall submit a document to the commission listing all applicable regulations and how the system complies with each. The document shall be updated with any applicable rule changes or system modifications and submitted to the commission.

(3) The commission is the sole approval authority for all gaming devices, associated equipment, associated systems, bill validators, ticket printers, shufflers, and progressive controllers. After submitting a request for approval, the licensee must receive an authorization letter from the commission before such gaming devices, associated equipment, associated systems, bill validators, ticket printers, shufflers, and progressive controllers are considered "approved" for use in the state of Missouri.

(4) Gaming devices, associated equipment, associated systems, bill validators, ticket printers, shufflers, and progressive controllers shall be tested and certified by a licensed independent testing laboratory (ITL) prior to submitting a request for approval as required in this rule. Gaming devices, associated equipment, associated systems, bill validators, ticket printers, shufflers, and progressive controllers shall comply with the applicable Missouri statutes, regulations, and Minimum Internal Control Standards.

(5) The licensee submitting a request for approval of a gaming device, associated equipment, associated system, bill validator, ticket printer, shuffler, or progressive controller shall do so through the commission's electronic portal.

(A) All information in the request shall be complete and accurate. If any information is later determined to be inaccurate, the licensee shall immediately notify the commission. The request shall include the following:

- 1. ITL's certification documentation;
- 2. A complete list of hardware and software modifications requested for approval;
- 3. Test Script version number used by the ITL for testing;
- 4. Probability Accounting Report (PAR) sheets, if applicable;
- 5. Documentation describing the installation, configuration, and operating procedures;
- 6. The applicable functionality being requested; and
- 7. Any additional supplemental documentation clarifying the technology requested for approval (e.g., white paper).

(B) Additional information may be requested by the commission at any time, including the digital image(s) (critical executable files) of the production version of the device or system.

(C) The submitting licensee shall digitally sign a statement that the product meets all regulatory requirements.

(6) The commission may make a preliminary, nonbinding

determination whether any new gaming device, associated equipment, associated system, bill validator, ticket printer, shuffler, or progressive controller meets the Missouri rules, regulations, and statutes. At the commission's sole discretion, the commission may require any new gaming device, associated equipment, associated system, bill validator, ticket printer, shuffler, or progressive controller to be tested in a field trial environment(s) at a licensed gaming establishment(s). Each field trial shall be conducted for at least thirty (30) calendar days and no more than one hundred eighty (180) calendar days under terms and conditions that the commission may approve or require. The supplier shall submit a report to the commission every thirty (30) days detailing the performance of the product being tested, exception reports outlining any exception codes triggered, a list of customer complaints and inquiries regarding the performance, and other items as determined by the commission. A field trial may be terminated at any time, in which case the new gaming device, associated equipment, associated system, bill validator, ticket printer, shuffler, or progressive controller will not be approved as a result of such field trial.

(7) The licensee manufacturing or offering any new gaming device, associated equipment, associated system, bill validator, ticket printer, shuffler, or progressive controller shall be responsible for providing, in a format acceptable to the commission, electronic training modules denoting interrelationships between approved gaming devices and associated hardware/software and the systems. Subject-matter expert(s) may be requested for training as determined necessary by the commission. All costs associated with providing personnel and equipment shall be borne by the licensee.

(8) The testing, review, and approval shall be required prior to the implementation of any new gaming device, associated equipment, associated system, bill validator, ticket printer, shuffler, or progressive controller. Once implemented, testing, review, and approval shall be required prior to any changes. Testing, review, and approval may be required at any other time the commission deems appropriate.

### **11 CSR 45-5.230 Approval and Registration of Electronic Gaming Devices (EGDs)**

*PURPOSE: This rule establishes requirements regarding the approval and registration of EGDs.*

(1) The commission will review all EGDs for proper mechanical and electronic functioning. Before approval of an EGD, the commission may employ the services of an independent testing laboratory (ITL) to evaluate the device.

(2) After completing evaluations of the EGD, the commission may approve the EGD for registration.

(3) The Class B licensee shall not operate any EGD unless it is currently registered with the commission and has a commission registration number affixed to it.

(4) The Class B licensee shall not alter the operation of registered EGDs and shall maintain the EGDs in a suitable condition. Each Class B licensee shall keep a written list in the Machine Entry Authorization Log of any repairs made to an EGD offered for play to the public. Repairs include, without limitation, replacement of parts that may affect the game's outcome. The Class B licensee shall make the list available for inspection by the commission upon request.

(5) The Class B licensee shall keep an EGD log, including the date of receipt; the serial number; the commission registration number; and effective July 30, 2025, the date of disposal for each EGD.

(6) The Class B licensee shall not dispose of any EGD without prior written approval of the commission.

### **11 CSR 45-5.235 Analysis of Questioned Electronic Gaming Devices (EGDs)**

*PURPOSE: This rule establishes the process for the analysis of questioned EGDs.*

(1) If the operation of any EGD is questioned due to an unexplainable game event or graphic anomaly by any Class B licensee, patron, or commission agent, the questioned device shall be examined in the presence of a commission agent and a representative of the Class B licensee. If the question cannot be resolved, the EGD shall be evaluated as determined by the commission.

(2) If the evaluation is inconclusive, a commission agent may require the EGD be removed from service and secured in a locked area to preserve its forensic integrity. The EGD may then be transported to a licensed independent testing laboratory (ITL) where the device will be fully analyzed to determine the status and cause of the malfunction. All costs for transportation and analysis shall be borne by the Class B licensee.

### 11 CSR 45-5.237 Shipping of Electronic Gaming Devices, Gaming Equipment, or Supplies

*PURPOSE: This rule requires licensees to obtain Missouri Gaming Commission approval prior to shipping electronic gaming devices into, out of, or within the state.*

(1) Licensees shipping electronic gaming devices or gaming equipment/supplies as defined in 11 CSR 45-1.090, with the exception of critical program storage media and progressive controllers as defined in 11 CSR 45-1.090, into, out of, or within Missouri, must file a request at least five (5) calendar days prior to such shipment. The request shall include the following information, if applicable:

- (A) Shipper's Name;
- (B) Shipper's Address;
- (C) Shipper's License Number;
- (D) Submission Date;
- (E) Shipping Date;
- (F) Shipper's Contact Information;
- (G) Recipient's Name;
- (H) Recipient's License Number;
- (I) Item Type and Description (i.e. color, artwork number, size, finish, card type, cabinet/hardware, part number, model number, serial number, manufacturer);
- (J) Invoice/Sales Order Number;
- (K) Destination Name;
- (L) Destination Address;
- (M) Destination Contact Information;
- (N) Quantity of Each Item; and
- (O) Estimated Arrival Date.

(2) The licensee shall receive MGC approval of the request prior to shipping the listed items.

(3) Critical program storage media shall be approved for use in the state prior to shipment.

### 11 CSR 45-5.240 Periodic Payments

*PURPOSE: This rule establishes the process of periodic payments.*

(1) Except as provided in this rule, a holder of a Class B license shall remit the total winnings and noncash prizes awarded to a patron as the result of any licensed game, tournament, contest, or promotional activity upon validation of the win.

(2) For the purpose of this rule, the following words have the following meanings:

- (A) Independent financial institution means –

1. A financial institution licensed by Missouri or a national institution with an office in Missouri; or

2. An insurance company admitted to transact insurance in Missouri with an A.M. Best Insurance rating of A or another equivalent rating; and

3. One which is not affiliated through common ownership with a gaming licensee;

(B) Periodic payments means a series of payments that are paid at least annually; and

(C) Trust means an irrevocable fiduciary relationship in which one (1) person is the holder of the title to property subject to an equitable obligation to keep or use the property for the benefit of another.

(3) Periodic payments of winnings and noncash prizes awarded to a patron as a result of any licensed game, tournament, contest, or promotional activity may be made if the method of funding the periodic payments provides these payments to a winning patron by establishing –

(A) An irrevocable surety bond or an irrevocable letter of credit with an independent financial institution which provides periodic payments to a winner should the licensee default for any reason. The written agreement establishing an irrevocable surety bond or the irrevocable letter of credit shall be submitted to the commission for approval;

(B) An irrevocable trust with an independent financial institution in accordance with a written trust agreement approved by the commission, which provides periodic payments from an unallocated pool of assets to winning patrons which must expressly prohibit the winners from encumbering, assigning or otherwise transferring in any way their rights to receive the deferred portion of the winnings except to their estates. The assets of the trust must consist of federal government securities including but not limited to treasury bills, treasury bonds, savings bonds or other federally guaranteed securities in an amount sufficient to meet the periodic payment(s) as required; or

(C) Another irrevocable method of providing the periodic payments to a winning patron consistent with the purpose of this rule and which is approved by the commission.

(4) The funding of the periodic payments must be completed within thirty (30) days of the date the patron wins or is awarded a prize.

(5) Periodic payments must not be used for winnings of or noncash prizes worth one hundred thousand dollars (\$100,000) or less. Periodic payments for total amounts won greater than one hundred thousand dollars (\$100,000) shall be paid as follows:

(A) For amounts won greater than one hundred thousand dollars (\$100,000), but less than two hundred thousand dollars (\$200,000), payments must be at least ten thousand dollars (\$10,000) annually;

(B) For amounts won of two hundred thousand dollars (\$200,000) or more, payments must be no less than one-twentieth (1/20) of the total amount annually; and

(C) The first payment must be made upon validation of the win.

(6) Periodic payments of noncash prizes may only be offered if the patron shall have the right to elect whether to receive the noncash prize or cash equivalent of the noncash prize each time a periodic payment is to be made. The cash equivalent shall be the actual cost to the licensee of the noncash prize on

the day the prize is won. The amount of the periodic payments to be funded shall be determined by the present value of the cash equivalent of the noncash prize.

(7) For any licensed game, tournament, contest or promotional activity for which periodic payments are utilized, the licensee must display signs on each gaming device or, if no gaming device is used, then the licensee must display signs in each gaming, promotional, tournament, or contest area specifically setting forth either the amount or terms of the payment to be made each time a periodic payment is to be made. The licensee must include in all radio, television, or print advertising regarding the activities set forth in this section, the fact that periodic payments are utilized for total amounts offered as a prize to a patron.

(8) Whenever there is an award of winnings to be made by periodic payments, and the Class B licensee fails to fund the periodic payments as required by this rule, the licensee shall immediately notify the commission in writing and shall immediately cease offering any licensed game, tournament, contest, or promotional activity for which periodic payments are utilized.

**11 CSR 45-5.260 Dice Specifications**

*PURPOSE: The purpose of this rule is to establish minimum standards for dice used for gambling games.*

(1) Except as otherwise provided in section (2), each die used in gaming shall –

(A) Be formed in the shape of a perfect cube and of a size no smaller than .750 of an inch (.750") on each side nor any larger than .775 of an inch (.775") on each side;

(B) Be transparent and made exclusively of cellulose except for the spots, name or trade name of the Class B licensee and serial numbers or letters contained thereon;

(C) Have the surface of each of its sides perfectly flat and the spots contained in each side perfectly flush with the area surrounding them;

(D) Have all edges and corners perfectly square and forming

perfect ninety degree (90°) angles;

(E) Have the texture and finish of each side exactly identical to the texture and finish of all other sides;

(F) Have its weight equally distributed throughout the cube and no side of the cube heavier or lighter than any other side of the cube;

(G) Have its six (6) sides bearing white circular spots from one to six (1)–(6) respectively with the diameter of each spot equal to the diameter of every other spot on the die;

(H) Have spots arranged so that the side containing one (1) spot is directly opposite the side containing six (6) spots, the side containing two (2) spots is directly opposite the side containing five (5) spots and the side containing three (3) spots is directly opposite the side containing four (4) spots; each spot shall be placed on the die by drilling into the surface of the cube and filling the drilled out portion with a compound which is equal in weight to the weight of the cellulose drilled out and which forms a permanent bond with the cellulose cube, and shall extend into the cube exactly the same distance as every other spot extends into the cube to an accuracy tolerance of .0004 of an inch (.0004"); and

(I) Have the name or trade name of the Class B licensee in which the die is being used imprinted or impressed thereon.

(2) Each die used in gaming at pai gow poker shall comply with the requirements of section (1) except as follows:

(A) Each die shall be formed in the shape of a perfect cube not larger than .8 of an inch (.8") on each side;

(B) Instead of the name or trade name of the Class B licensee, the commission may approve an identifying mark or logo to be imprinted or impressed on each die;

(C) The spots on each die do not have to be equal in diameter;

(D) Edges and corners may be beveled so long as beveling is similar on each edge and each corner; and

(E) Tolerances required by subsection (1)(H) of this regulation as applied to pai gow poker dice shall require accuracy of only .004 of an inch (.004").

(3) Dice designs shall be submitted by the Class B licensee to the commission and must be approved by the commission prior to use.

**11 CSR 45-5.265 Dice – Receipt, Storage, Inspections, and Removal from Use**

*PURPOSE: The purpose of this rule is to establish procedures for the handling of dice within the gambling operation other than dice used in pai gow poker.*

(1) When dice are received for use in the facility from a licensed supplier, the boxes shall be promptly inspected and the dice shall be stored in a primary or secondary storage area by at least two (2) employees, one (1) of whom shall be from the table games department and the other from the security

department. The primary storage area shall be located in a secure place, the location and physical characteristics of which shall be approved by the commission. Secondary storage areas, if needed, shall be used for the storage of surplus dice. Dice maintained in secondary storage areas shall be transferred to the primary storage area before being distributed to the pits or tables. All secondary storage areas shall be located in secure areas, the location and physical characteristics of which shall be approved by the commission.

(2) All primary and secondary storage areas shall have two (2) separate locks. The security department shall maintain one (1) key and the table games department shall maintain the other key; provided, however, that no person employed by the table games department below the pit manager or poker room manager in the organizational hierarchy shall have access to the table games department key for the primary and secondary storage areas.

(3) Immediately prior to the commencement of each gaming day and at other times as may be necessary, the pit manager, poker room manager, or supervisor thereof, in the presence of a security officer, shall remove the appropriate number of dice from the primary storage area for that gaming day.

(4) Once removed from the primary storage area, the pit manager, poker room manager, or supervisor thereof, in the presence of a security officer, shall take the dice to the pit(s) and distribute the dice to the floor supervisor(s) or directly to the boxperson at each table.

(A) At any time prior to being introduced into play and in the presence of the floor supervisor, a boxperson at each craps table or another floor supervisor shall inspect the dice on a flat surface at the craps table or pit stand with a micrometer or any other approved instrument approved by the commission which performs the same function, a balancing caliper, a steel set square and a magnet to ensure that the dice are in a condition to ensure fair play and otherwise conform to sections 313.800 to 313.850, RSMo and the rules of the commission. These instruments shall be kept in a compartment at a craps table or pit stand and shall be at all times readily available for use by the commission upon request.

(B) Following this inspection the boxperson shall in the presence of the floor supervisor place the dice in a cup on the table for use in gaming, and at all times while the dice are at the table, they shall never be left unattended. If the dice are inspected by a floor supervisor for future use that gaming day, the floor supervisor shall, in the presence of another floor supervisor, place the inspected dice in a single locked compartment in the pit stand.

(C) The pit manager shall place extra dice for dice reserve in a single locked compartment in the pit stand separate from any pre-inspected dice. The floor supervisor or above shall have access to the extra dice to be used for that gaming day.

(D) No dice taken from the reserve shall be used for actual gaming unless the dice are inspected in accordance with this rule.

(5) The Class B licensee shall remove any dice from use any time there is any indication of tampering, flaws, or other defects that might affect the integrity or fairness of the game, or at the request of the commission.

(6) At the end of each gaming day and at such other times as may be necessary, a floor supervisor, other than the person

who originally inspected the dice shall visually inspect each die for evidence of tampering. Such evidence discovered at this time or at any other time shall be immediately reported to the commission.

(A) Any die showing evidence of tampering shall be placed in a sealed envelope or container in a secure place within the pit until collected by a security officer.

1. A label shall be attached to each envelope or container which shall identify the table number, date, and time and shall be signed by the boxperson and floor supervisor.

2. A Card/Dice Discrepancy Report shall be completed. The Card/Dice Discrepancy Report and the damaged die shall be maintained in a secure place within the pit until collected by a security officer. The Card/Dice Discrepancy Report shall be delivered to the MGC agent on duty for signature. Once completed, security shall retain one (1) copy of the report.

(B) All other dice shall be put into envelopes or containers at the end of each gaming day.

1. A label shall be attached to each envelope or container which shall identify the table number, date, and time and shall be signed by the boxperson and floor supervisor.

2. The envelope or container shall be appropriately sealed and maintained in a secure place within the pit until collected by a security officer.

(7) At the end of each gaming day or, in the alternative, at least once each gaming day at the same time each day, as designated by the Class B licensee and approved by the commission, and at such other times as may be necessary, a table games supervisor or above shall collect all extra dice in dice reserve.

(A) All extra dice in dice reserve that are to be destroyed or cancelled shall be placed in a sealed envelope or container, with a label attached to each envelope or container which identifies the date and time and is signed by the table games supervisor or above.

(B) All extra dice in dice reserve that are not to be destroyed or cancelled shall be returned to primary storage.

(8) At the end of each gaming day or, in the alternative, at least once each gaming day at the same time each day, as designated by the Class B licensee and approved by the commission, and at such other times as may be necessary, a security officer shall collect –

(A) All envelopes or containers of used dice and any dice in dice reserve that are to be destroyed or cancelled and shall transport them to the card and dice inspection room for cancellation or destruction;

(B) All extra dice in dice reserve that are not to be destroyed or cancelled and shall transport them to primary storage; and

(C) All copies of Card/Dice Discrepancy Reports.

(9) No dice that have been placed in a cup for use in gaming shall remain on a table for more than twenty-four (24) hours.

(10) The Class B licensee shall submit to the commission for approval procedures for –

(A) A dice inventory system which shall include, at a minimum, the recordation of the following:

1. The balance of dice on hand;

2. The dice removed from storage;

3. The dice returned to storage or received from the manufacturer;

4. The date of the transaction; and

5. The signatures of the individuals involved.

(B) A reconciliation on a daily basis of the dice distributed,

the dice destroyed and cancelled, the dice returned to the primary storage area; and

(C) A physical inventory of the dice at least once each calendar quarter.

1. This inventory shall be performed by an employee from the compliance or accounting department and shall be verified to the balance of dice on hand as recorded on the inventory ledger.

2. The employee conducting this inventory shall make an entry and sign the Cards/Dice Inventory Ledgers in a manner that clearly distinguishes this count as the independent inventory.

3. Any discrepancies shall immediately be reported to the commission.

(11) Dice placed on a gaming table shall be cancelled and/or destroyed within a week.

(A) Cancellation shall occur by drilling a circular hole of at least three-sixteenths of one inch (3/16") in diameter through the center of each die or other method approved by the commission.

(B) Destruction shall occur by shredding or other method approved by the commission.

(C) The destruction and cancellation of dice shall take place in a secure place, the location and physical characteristics of which shall be approved by the commission.

(12) This rule shall not apply to pai gow poker dice.

**11 CSR 45-5.270 Safety Standards for Electronic Gaming Devices (EGDs)**

*PURPOSE: This rule establishes safety standards for EGDs.*

(1) All Supplier licensees shall ensure that all EGDs meet the following safety requirements:

(A) Electrical and mechanical parts and the design of the EGD must not subject a player to physical hazards;

(B) Spilling a conductive liquid on the EGD must not create a safety hazard or alter the integrity of the EGD's performance;

(C) The power supply used in an EGD must be designed to allow minimum leakage of current in the event of an intentional or inadvertent disconnection of the alternating current power ground; and

(D) EGDs shall have an Underwriters Laboratories certification or an equivalent certification.

(2) Each Class B licensee shall ensure that a surge protector is installed on each EGD that is in operation on the excursion gambling boat. Surge protection can be internal to the power supply or external.

(3) A battery backup device must be installed and capable of maintaining accurate electronic meter information after

power is discontinued from the EGD. The device must be kept within the locked or sealed logic board compartment and be capable of sustaining stored information for one hundred eighty (180) days.

**11 CSR 45-5.290 Bingo Games**

*PURPOSE: This rule prohibits casinos from conducting bingo games on excursion gambling boats.*

(1) The following words and terms, when used in this rule, shall have the following meanings:

(A) "Bingo games," all games commonly known as bingo as defined in section 313.005(1), RSMo, and any variation thereof, including but not limited to electronic bingo games, bingo games played on electronic gaming devices, and promotional bingo games;

(B) "Promotional bingo games," all bingo games offered by a Class B licensee to their patrons in order to directly or indirectly promote the licensee's gambling games, whether or not the licensee receives consideration from the patrons playing the bingo games.

(2) Notwithstanding any other provision of this chapter to the contrary, no Class B licensee may conduct bingo games on an excursion gambling boat.

**11 CSR 45-5.300 Progressive Table Games**

*PURPOSE: This rule establishes the requirements for offering progressive table games.*

(1) A meter that shows the accurate amount of the progressive

jackpot must be conspicuously visible to the players at each table game to which the jackpot applies.

(2) A licensee shall not reduce the amount displayed on a progressive jackpot meter or otherwise reduce or eliminate a progressive jackpot unless –

(A) A player wins the jackpot;

(B) The licensee adjusts the progressive jackpot meter to correct a malfunction and the licensee documents the adjustment and the reasons for it;

(C) The licensee's gaming operations at the establishment cease for any reason other than a temporary closure where the same licensee resumes gaming operations at the same establishment within a month;

(D) The licensee distributes the incremental amount to another table game progressive jackpot as approved in writing by the commission and –

1. The licensee documents the distribution;

2. Any table game offering the jackpot to which the licensee distributes the incremental amount does not require that more money be played on a single play to win the jackpot than the table game from which the incremental amount is distributed; and

3. The distribution is completed within thirty (30) days after the progressive jackpot is removed from play or within a longer period as the commission for good cause may approve; or

(E) The commission for good cause approves in writing a reduction, elimination, distribution, or procedure not otherwise described in this section.

(3) Licensees shall preserve the records required by this rule for at least five (5) years after they are made unless the commission approves otherwise in writing. The records should be stored in a location acceptable to the commission.

(4) During the normal mode of progressive table games, the progressive controller, or other approved device, must continuously monitor each table gaming position on the link for the progressive amounts wagered and must multiply the accepted amounts by the rate of progression in order to determine the correct amounts to apply to the progressive jackpot. The progressive display must be constantly updated, in a manner approved in writing by the commission, as play on the link is continued.

(5) Progressive games shall not be used across multiple table games unless –

(A) The progressive monitoring system separately and accurately accounts for the total number of progressive wagers for each table game and all games offered for play contribute to the progressive jackpot;

(B) The odds of attaining the winning combination are the same for each game; and

(C) Each game requires the same wager amount to win the progressive jackpot.

(6) The odds of winning a progressive jackpot shall not be greater than one in fifty million (1:50,000,000) unless specifically approved in writing by the commission.

(7) Each progressive controller must be housed in a secure, locked location which allows only authorized accessibility and which contains an EGD Machine Entry Access Log (MEAL Book) that is completed by any person gaining access to

the secured location. Both the location housing progressive controllers and the form on which entry is logged shall be approved by the commission prior to use. The storage medium that contains the progressive controller program shall have a unique signature that allows program verification by an agent of the commission through use of a commission-approved verification device. After verification the storage medium shall be secured in the controller with a commission security seal. The security seal must be affixed by and may only be broken and removed by an authorized commission agent. Normal operation of progressive gaming devices notwithstanding, communication to a progressive controller shall be permitted only by authorized personnel through access to the controller's secured location and who document such access and the purpose therefore on the MEAL Book.

(8) Each type of progressive game must have a unique key used to reset the progressive meter(s) or another reset mechanism approved in writing by the commission.

(9) Unless the commission has approved the payment of prizes by installments, a licensee who has a progressive table game must maintain minimum cash reserves in accordance with 11 CSR 45-8.150. The commission must approve all such cash reserves.

(10) Progressive jackpots shall not be shared between multiple Class B licensees.
