PURPOSE: This rule clarifies the process by which an individual may apply for a permit to practice as a hearing instrument specialist in training, and defines time limit and supervision requirements for the temporary permit holder.

(1) Any individual seeking to develop the skills and training necessary to obtain a license under section 346.075, RSMo, shall register supervision and apply for a temporary permit to engage in the practice of fitting hearing instruments as defined by section 346.010(11), RSMo. An application for registration of supervision shall be made on a form provided by the board and must be accompanied by the appropriate fee as prescribed in 20 CSR 2165-1.020. The application shall not be considered proper and final until qualifications of the supervisor match the criteria as prescribed in 20 CSR 2165-2.020.

(2) An approved temporary permit shall entitle the hearing instrument specialist in training to engage in the practice of fitting hearing instruments as defined by section 346.010(11), RSMo, for a period of one (1) year.

(A) If a person holding a permit has not passed the examination within the one (1)-year period, the hearing instrument specialist in training may renew the permit once for a period of six (6) months upon payment of the applicable fee as prescribed in 20 CSR 2165-1.020.

(B) The six (6)-month renewal term shall commence immediately following the expiration of the temporary permit, regardless of when the renewal application is received by the board, such that a hearing instrument specialist in training shall not hold a temporary permit beyond eighteen (18) months from the date the temporary permit was originally issued.

(3) The hearing instrument specialist in training shall accrue no less than one hundred (100) hours of supervision from a licensed hearing instrument specialist registered as a supervisor pursuant to 20 CSR 2165-2.020 prior to becoming eligible for licensure by examination.

(4) If the hearing instrument specialist in training ceases to practice under an approved supervisor and/or changes supervision, s/he shall notify the board by filing a change of supervision form and paying the change of supervision fee as defined in 20 CSR 2165-1.020. The change of supervision is subject to review pursuant to 20 CSR 2165-2.010(2).

(5) Each applicant for a hearing instrument specialist in training permit as provided in section 346.075, RSMo, must indicate on the application form the name, business address and license number of the registered supervisor.

(6) The practice of fitting hearing instruments by a hearing instrument specialist in training shall be performed according to the registered supervisor's order, control, guidance, and professional responsibility.

(7) A hearing instrument specialist in training shall be trained in the following procedures during his/her training period:

(A) Air conduction thresholds, with masking where appropriate;

(B) Bone conduction thresholds, with masking where appropriate;

(C) Speech reception thresholds, with masking where appropriate, utilizing test equipment with a calibrated circuit;

(D) Word recognition scores, with masking where appropriate, utilizing test equipment with a calibrated circuit;

(E) A verification of hearing instrument benefit;

(F) Ear impressions; and

(G) Visual otoscopy.

(8) As a part of the training of a hearing instrument specialist in training, s/he shall attend classes that would be approved for a licensee to renew his/her license under 20 CSR 2165-2.050.

(A) Three (3) hours of such training shall be completed every six (6) months.

(B) A person in training less than six (6) months need not complete such training.

(C) Proof of completion of such training shall be attached to the attestation form completed by the registered supervisor.

(9) Upon completion of any registered supervised experience, the hearing instrument specialist in training shall request an attestation form from the board to be completed by the registered supervisor and returned to the board.

(10) The hearing instrument specialist in training must be identified by a temporary permit number and use one of the following

titles: "hearing instrument specialist in training," "trainee," or "temporary permit holder" in any sales contract or other documents available to the consumer, and referring to the temporary permit holder. Initials or acronyms representing these titles shall not be used.

(11) A temporary permit is not required for students attending a hearing sciences program at an accredited college or university that are participating in a practicum to complete that program. The student must be under the direct supervision of a registered supervisor. Direct supervision shall mean the licensed hearing instrument specialist is on the premises where the patient is being treated and is quickly and easily available and the patient has been examined by a licensed hearing instrument specialist at such times as acceptable hearing instrument specialist practice requires. (2) Applicants with special needs addressed by the Americans with Disabilities Act must notify the board office or its approved vendor at least thirty (30) days prior to the examination to ensure that reasonable accommodations are made. Equipment shall be in good working order as evidenced by a receipt of annual calibration of the audiometer. Failure to have the necessary

If the applicant wishes to take the next scheduled practical portion of the examination, the applicant must reapply and pay the practical examination fee; and

(B) The practical portion of the examination may be conducted at the discretion of the board or its approved vendor either using simulators or live subjects for all or part of the examination, except that all persons taking the examination on a specific date shall be tested in the same manner. A time limit may be imposed for any part of the practical portion of the examination provided that: 1) this time limit is established by the board or its approved vendor prior to the examination; and 2) that it is applied uniformly.

(7) Requirements for Passing the Written Examination.

(A) The board or its approved vendor shall determine the passing score according to the standards of the examination.

(B) If the applicant fails the written portion of the examination, the applicant shall retake the entire written examination.

(8) If the applicant fails one (1) or more portions of the practical examination, the applicant shall retake the entire practical examination upon payment of the practical examination fee.

(9) An applicant who fails the practical examination and two (2) subsequent re-examinations shall be disqualified from retaking the examination a fourth time, until meeting with the board, presenting a written plan for passing the examination, and obtaining the board's approval for retaking the examination. 20 CSR 2165-2.070 Public Complaint Handling and Disposition Procedure

PURPOSE: This rule establishes a procedure for the receipt, handling, and disposition of public complaints by the board.

(1) The office will receive and process each complaint made against any licensee or hearing instrument specialist in training when a complaint alleges certain acts or practices which may constitute one (1) or more violations of the provisions of Chapter 346, RSMo. Any member of the public or the profession,

or any federal, state, or local official may make and file a complaint with the department. Complaints from sources outside Missouri will be received and processed in the same manner as those originating within Missouri. No member of the board shall file a complaint with this division while they hold that office, unless the member excuses him/herself from further board deliberations or activity concerning matters alleged within that complaint. Any executive director or any staff member within the division may file a complaint pursuant to this rule in the same manner as any member of the public.

(2) Complaints should be sent to the board at: Board of Examiners for Hearing Instrument Specialists, PO Box 1335, Jefferson City, MO, 65102-1335 or behis@pr.mo.gov. Complaints may be made based upon personal knowledge or upon information and belief reciting information received from other sources.

(3) All complaints shall be made in writing and fully identify the complainant by name and address. Complaints shall be made on forms provided by the board. Oral or telephone communication will not be considered or processed as complaints. However, the person making this communication will be provided with a complaint form and requested to complete it in writing and return it to the office.

(4) Each complaint received under this rule shall be acknowledged in writing. The licensee or subject of the complaint shall be informed as to whether the complaint is being investigated. Both the licensee and the complainant shall be notified of the ultimate disposition of the complaint, excluding judicial appeals and be provided with copies of the ultimate disposition (if any) of the Administrative Hearing Commission and the board. The provisions of this section shall not apply to complaints filed by staff members of the board based on information and belief, acting in reliance on third-party information received by the division.

(5) Both the complaint and any information obtained as a result of the investigation shall be considered a closed record and not be available for inspection by the general public. However, a copy of the complaint and any attachments shall be provided to any licensee who is the subject of that complaint or their legal counsel.

(6) This rule shall not be deemed to limit the board's authority to file a complaint with the

Administrative Hearing Commission charging a licensee or hearing instrument specialist in training with any actionable conduct or violation, whether or not any public complaint has been filed with the board.
