The instruction regarding USPAP principles should include, at a minimum, discussion regarding the scope of work, the type of report used (self-contained, summary, restricted-use, or oral), and the other specific methods and techniques required in the report. Other appraisal report preparation issues that shall be discussed in the course include report format (narrative or form), grammar and syntax issues, quality control, and details relating to pertinent addendum for the type of property or report. The instructor or other approved USPAP reviewer shall be available to answer questions from and provide input to the students as to the deficiencies in the submitted appraisal report(s).

The class may visit the courthouse, use data accessible via the Internet (multiple listing service (MLS), sales/listings, public information, demographic websites, etc.), and other sources, to collect the necessary data to perform the appraisal. To obtain experience credit from the course, an applicant for certification or licensure shall write a USPAP compliant appraisal report(s) reviewed and found acceptable by the course instructor or other approved USPAP reviewer. The provider will notify the student of any deficiencies noted in the appraisal report. The student shall correct all deficiencies to the satisfaction of the instructor or other approved USPAP reviewer.

(H) All audio or visual teaching aids used in the course shall be used under the personal supervision of the instructor approved to conduct the course and may not exceed twenty percent (20%) of the total presentation.
