Title 3—DEPARTMENT OF CONSERVATION
Division 10—Conservation Commission
Chapter 11—Wildlife Code: Special Regulations for Department Areas

3 CSR 10-11.105 Title; Authority

PURPOSE: This rule defines which department areas these regulations apply to and how exceptions to the regulations are made.

The special regulations in this chapter apply on lands and waters (referred to as department areas) owned or leased by the Department of Conservation. The director may issue temporary written exceptions to rules and provisions of this chapter for emergencies, special events and other compatible uses.

3 CSR 10-11.110 General Provisions

PURPOSE: This rule establishes restricted activities on department areas.

(1) Department areas may be used only as authorized by this chapter, except these rules shall not restrict department employees or their designees when conducting official events or activities. Department areas may be used only in accordance with the following:

(A) Department areas designated as open to the public may be accessed and used for hiking, sightseeing, and nature observation. The locations and times when department areas may be entered, remained on, or used for these activities may be further restricted by this chapter, signs, or area maps;

(B) The following activities are allowed on department areas as further authorized by this chapter:

1. Entering or remaining on department areas, or designated portions of department areas (See 3 CSR 10-11.115);
2. Possession of pets and hunting dogs (See 3 CSR 10-11.120);
3. Field Trials (See 3 CSR 10-11.125);
4. Use of vehicles, bicycles, horses, and horseback riding (See 3 CSR 10-11.130);

Special use permits may be issued only by the area manager or their designee. Issuance of a special use permit is at the discretion of the department. Application for a special use permit does not guarantee that one will be issued. All persons entering, remaining on, or using a department area pursuant to a special use permit shall abide by the specific conditions stated on the permit;

(E) Signs, posted regulations, or area maps may further restrict activities in accordance with this chapter, including designating portions of department areas as open or closed to public use. Area managers may temporarily close or change regulations on department areas through posting to protect the public from hazardous conditions and threats to public safety, to protect fish and wildlife resources, and for special events or resource management activities where public use conflicts are likely to occur. 3 CSR 10-11.111 Commercial Use

PURPOSE: This rule establishes requirements and conditions for allowing commercial use on department areas.

(1) Certain commercial uses are permitted on department areas and require a commercial use permit or a special use permit as provided...
in this chapter. Commercial use is defined as any activity that directly or indirectly results in financial benefit or gain, or where money is exchanged in connection with the activity.

(2) Permits for commercial use of department areas may be obtained only upon satisfaction of all requirements imposed by this Code, including payment of fees when required. Permits for commercial use of department areas are non-transferable and no permit may be loaned, falsified, altered, or misrepresented in any manner.

(3) Annual commercial use permits are valid from July 1 through June 30 of the prescribed permit year. All other permits for commercial use of department areas are valid only for the dates listed on the permit. The acceptance of a permit authorizing commercial use of department areas shall constitute an acknowledgement of the duty to comply with the provisions of this Code. Failure to comply with the conditions of any permit authorizing commercial use of department areas shall be sufficient cause for the department to revoke the current permit and deny applications for future permits. The commission may suspend, revoke, or deny a permit or privilege for cause, but not until an opportunity has been afforded for a hearing before the commission or its authorized representative. The hearings under this section shall be a contested case pursuant to Chapter 536, RSMo, and any person aggrieved by a final decision shall be entitled to judicial review as provided in Chapter 536, RSMo.

(4) Photography/Videography. A commercial use permit is required for any person or entity engaged in commercial photography or videography, such as professional photography, commercials, advertising, promotional, television, or documentaries. No commercial use permit is required for news agencies. A permit may be denied if the use is determined to be incompatible with the department’s mission, in conflict with other uses, or potentially harmful to persons or property. Permit fees may be waived for conservation-related organizations where the project will promote or benefit conservation interests. A separate approval is required when using an unmanned aerial system (UAS) or drone for photography or videography. Liability insurance may be required for any commercial photography or videography permit.

This note applies only to the reference material. The entire text of the rule is provided here.
