TITLE 9 — DEPARTMENT OF MENTAL HEALTH
Division 30 — Certification Standards
Chapter 3 — Substance Use Disorder Prevention and Treatment Programs

9 CSR 30-3.010 Definitions
(Rescinded October 30, 2001)

9 CSR 30-3.020 Procedures to Obtain Certification
(Rescinded October 30, 2001)

9 CSR 30-3.022 Transition to Enhanced Standards of Care
(Rescinded July 30, 2018)

9 CSR 30-3.030 Governing Authority
(Rescinded October 30, 2001)

9 CSR 30-3.032 Certification of Substance Use Disorder Prevention and Treatment Programs

PURPOSE: This rule identifies the types of substance use disorder prevention and treatment programs and services eligible for certification from the department and the applicable requirements.

(1) Types of Programs and Services. Certification from the department is available for the following types of programs and services:
(A) Comprehensive Substance Treatment and Rehabilitation (CSTAR), including specialized programs for adolescents, women and children, adult general population, and opioid use disorders;
(B) Gambling disorder treatment;
(C) Institutional treatment center;
(D) Opioid treatment;
(E) Outpatient treatment;
(F) Prevention;
(G) Recovery support;
(H) Required Educational Assessment and Community Treatment (REACT);
(I) Residential treatment;
(J) Substance Awareness Traffic Offender Program (SATOP); and
(K) Withdrawal management.

(2) Applicable Program Regulations. The organization must comply with the regulations applicable to each program and/or service for which certification is being sought.

(3) Other Regulations. In addition to the regulations for specific programs and services as specified in 9 CSR 30-3, the organization must comply with other applicable regulations as follows:
(A) 9 CSR 10-7.010 to 9 CSR 10-7.140, Core Rules for Psychiatric and Substance Use Disorder Treatment Programs;
(B) 9 CSR 10-5.190 Background Screening Requirements;
(C) 9 CSR 10-5.200 Report of Complaints of Abuse, Neglect, and Misuse of Funds/Property;
(D) 9 CSR 10-5.206 Report of Events; and

(4) Approval of Programs and Sites. The department must authorize and approve each proposed program/service and site prior to the delivery of services.
(A) Organizations requesting certification must comply with 9 CSR 10-7.130, Procedures to Obtain Certification, by submitting a fully completed application to the department.
(B) Notice of any change in program location, service array, or administration must be submitted to the department for approval prior to the change to ensure the program meets all applicable requirements, which may include an on-site review of the physical environment and safety practices.
(C) All opioid treatment programs shall meet the program and/or site approval requirements of this rule, as well as the requirements specified under 9 CSR 30-3.132.

9 CSR 30-3.040 Client Rights
(Rescinded October 30, 2001)

9 CSR 30-3.050 Planning and Evaluation
(Rescinded October 30, 2001)

9 CSR 30-3.060 Environment
(Rescinded October 30, 2001)

9 CSR 30-3.070 Fiscal Management
(Rescinded October 30, 2001)

9 CSR 30-3.080 Personnel
(Rescinded October 30, 2001)

9 CSR 30-3.100 General Requirements for Substance Use Disorder Treatment Programs

PURPOSE: This rule describes general requirements applicable to all certified/deemed certified substance use disorder treatment programs as well as specific requirements that pertain to organizations that are funded by and/or have a contractual relationship with the department for the provision of services.

PUBLISHER’S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(1) Screening and Assessment. All individuals shall be screened and assessed as specified in 9 CSR 10-7.030 Service Delivery Process and Documentation, and in accordance with program-specific requirements included in these regulations.

(2) Diagnosis. Eligibility for services shall include a diagnosis of a substance use disorder by a licensed diagnostician in accordance with the Diagnostic and Statistical Manual of Mental Disorders Fifth Edition (DSM-5), 2013, incorporated by reference and made a part of this rule as published by the American Psychiatric Association, 1000 Wilson Boulevard, Suite 1825, Arlington, VA 22209-3901. This rule does not incorporate any subsequent amendments or additions to this publication.

(A) The following mental health professionals are approved to render diagnoses in accordance with the DSM-5:

1. Physicians/Psychiatrists;
2. Psychologists (licensed or provisionally licensed);
3. Advanced Practice Registered Nurses;
4. Professional Counselors (licensed or provisionally licensed);
5. Marital and Family Therapists (licensed or provisionally licensed);
6. Licensed Clinical Social Workers;
7. Licensed Master Social Workers who are under registered supervision with the Missouri Division of Professional Registration for licensure as a Clinical Social Worker. LMSWs not under registered supervision for their LCSW credential cannot render a diagnosis.

(B) Signatures can be obtained by a face-to-face meeting with a licensed diagnostician or a face-to-face meeting with a master’s level Qualified Addiction Professional (QAP) or a Qualified Mental Health Professional (QMHP) followed by sign off by a licensed diagnostician. Signature stamps shall not be used.

(C) The diagnosis is not considered complete until the diagnostician’s signature is obtained. The licensed diagnostician is accountable for the stated diagnoses.

(D) A licensed supervisor must sign off on assessments and diagnoses completed by provisionally licensed providers.

(3) Treatment Plan. All individuals shall participate in the development of an individual treatment plan and regular plan reviews and updates as specified in 9 CSR 10-7.030 Service Delivery Process and Documentation, and in accordance with program-specific requirements included in these regulations.

(4) Services to Family Members. Family therapy and family conference shall be available to family members of persons participating in substance use disorder treatment.

(A) Family members shall be routinely informed of available services and the program shall demonstrate the ability to effectively engage family members in the recovery process.

(B) A separate record for a family member is not required if group rehabilitative support is the only service provided by a program that is funded by/contracted with the department. Documentation of group rehabilitative support sessions and the participating family member(s) shall be maintained.

(5) Peer Support and Social Networks. Services shall be designed and organized to engage individuals and their family members/natural supports in peer support services, social networks, and resources in the community.

(6) Services to Women. An organization that lacks certification to provide women and children’s CSTAR services must meet the following requirements in order to provide services to women:

(A) Offer gender-specific groups which address therapeutic issues relevant to women;

(B) Have staff with experience and training in the delivery of services for women with substance use disorders, including co-occurring disorders and trauma-related services and supports;

(C) Women who are pregnant shall be referred to a women and children’s CSTAR program unless it is documented in the clinical record the program can meet the individual’s treatment needs, or the program cannot immediately make arrangements for admission to a women and children’s CSTAR program.

1. If temporary admission to the program is necessary, arrangements for transfer to a women and children’s CSTAR program shall be completed as soon as possible, with efforts documented in the clinical record; and

(D) If the program is unable to refer a woman who is pregnant to a women and children’s CSTAR program or immediately assess and admit her to provide interim services, staff shall...
contact designated department staff to make arrangements for immediate admission to treatment with another provider.

(7) Services to Adolescents. An organization that lacks certification to provide adolescent CSTAR services must meet the following requirements in order to provide services to adolescents:
   (A) Offer groups specifically for adolescents; and
   (B) Have staff with experience and training in the provision of services for adolescents with substance use disorders.

(8) Program Schedule. A current schedule of groups and other structured program activities shall be maintained.
   (A) Each person shall actively participate in program activities, with individualized scheduling and services based on his/her treatment goals and needs and physical and behavioral health status.

(9) Priority Populations. Individuals who will be receiving department-funded/contracted services shall be appropriately screened at the point of first contact to determine if a crisis situation exists and whether they meet eligibility criteria as a priority population.
   (A) The following populations shall receive priority assessment and admission to appropriate services:
      1. Women who are pregnant and inject drugs;
      2. Women who are pregnant;
      3. Individuals who have injected drugs in the past thirty (30) days;
      4. Civil involuntary commitments – ninety-six (96) hour commitments must be admitted to withdrawal management services, and thirty (30) day commitments must be admitted to withdrawal management services or residential treatment;
      5. Individuals determined to be high risk who are referred by the Department of Corrections’ institutions and Division of Probation and Parole via the designated referral form and protocol;
      6. Applicants for and recipients of Temporary Assistance for Needy Families (TANF) referred by the Department of Social Services, Family Support Division, via electronic referral and protocol;
      7. Children/youth and families served through the Children’s System of Care; and
      8. Other populations specified by the department.
         (A) Women who are pregnant and individuals who are involuntarily committed must receive immediate admission.
         (B) High-risk referrals from correctional institutions and probation and parole shall be assessed and admitted to appropriate services within five (5) business days of initial contact or scheduled release date.
         (C) Other priority populations shall be assessed and admitted to appropriate services within seventy-two (72) hours of initial contact.

(10) Referrals and Interim Services. If an individual who will be receiving department-funded/contracted services has been determined to have injected drugs within the past thirty (30) days, and he/she cannot be assessed and admitted to the program within forty-eight (48) hours of receiving such a request, staff shall:
   (A) Refer the individual to an alternative substance use disorder treatment program that has sufficient capacity to admit him/her within forty-eight (48) hours; or
   (B) Provide interim substance use services within forty-eight (48) hours of the initial request and admit him/her to treatment within one hundred twenty (120) days of the initial request.

   (C) Interim services shall be provided until the individual is enrolled in an episode of care. Interim services are intended to maintain engagement and help the individual recognize the harmful consequences of substance use, reduce the adverse health effects of substance use, and reduce the likelihood of detrimental or unlawful behavior.

1. An assessment is not required for individuals receiving interim services.
2. Interim services may be delivered on an individual or group basis.
3. Documentation must be included in the individual record for those who miss a scheduled session or refuse interim services, including efforts to reengage.
4. Interim services must include, but are not limited to:
   (A) Counseling and education about HIV, tuberculosis (TB), and hepatitis;
   (B) Counseling and education about the risks of sharing needles;
   (C) Counseling and education about the risks of transmission of infectious diseases to sexual partners and infants and measures to ensure such transmission does not occur;
   (D) Referral for HIV, TB, or hepatitis treatment services, if necessary;
   (E) Group rehabilitative support focusing on reducing the adverse health effects of substance use or other aspects of treatment and recovery; and
   (F) Referral to recovery support programs or self-help (mutual support) groups that offer social, emotional, and informational support for individuals seeking treatment and educational materials that will increase understanding about addiction and recovery, including other local resources available.

5. Interim services may include services such as motivational interviewing to establish a therapeutic partnership and support engagement in treatment when the program has the capacity to admit the individual into an appropriate episode of care.

(11) Waiting Lists. The department may require organizations that receive federal block grant funds to maintain a waiting list for specific populations to meet block grant reporting requirements. When a waiting list is required, the organization shall:
   (A) Document the individual’s date of placement on the list, including identified needs;
   (B) Implement a process for maintaining contact with individuals who meet criteria as a priority population and are awaiting admission to treatment;
   (C) Maintain the list through ongoing review and updates;
   (D) Identify procedures for referring individuals who are in crisis or are a priority population to necessary care or interim services;
   (E) Document all contacts with individuals on the waiting list; and
   (F) Respond to long-term waiting lists through strategic or community-based planning, involvement of support services, and referral to available services/supports.

(12) Discharge. Each individual’s length of engagement in services shall be based on his/her needs and progress in achieving treatment goals.
   (A) Criteria to consider in determining successful completion and discharge from treatment includes, but is not limited to, the individual’s ability to—
1. Recognize and understand his/her substance use disorder and its resulting impact on family members/natural supports, impairments on health and social functioning, and other societal consequences;
2. Demonstrate absence of an immediate or a recurring crisis that poses a substantial risk for a return to use of substances;
3. Stabilize emotional problems, when applicable, such as not experiencing serious psychiatric symptoms and taking medication as prescribed;
4. Demonstrate independent living skills;
5. Implement a plan to prevent return to use of substances; and
6. Develop family and/or social networks which support recovery/resiliency and a continuing recovery plan.

(B) Discharges prior to an individual accomplishing his/her treatment goals shall be documented in the individual record, including the rationale for discharge.

*Council's rule filing notice, 2/28/23.
**Pursuant to Executive Order 21-07, 9 CSR 30-3.110, paragraph (6)(A)2. was suspended from April 23, 2020 through August 31, 2021.

9 CSR 30-3.110 Service Definitions, Staff Qualifications, and Documentation Requirements for Substance Use Disorder Treatment Programs

PURPOSE: This rule defines and describes services, staff qualifications, and documentation requirements for certified/deemed certified substance use disorder treatment programs.

(I) Service Definitions and Staff Qualifications. Services shall be provided as defined in this rule, in accordance with the organization’s certification and contractual status with the department.

(A) Case management – links the individual and family members with needed services and supports. Key service functions include, but are not limited to:
1. Arranging for or referring individuals/family members to appropriate services/supports and resources;
2. Communicating with referral sources and coordinating services with other entities including, but not limited to, physical and behavioral healthcare providers, the criminal justice system, and social service agencies; and
3. Assisting individuals in resolving a crisis situation.
4. Services shall be provided by –
   A. A qualified addiction professional (QAP);
   B. An associate addiction counselor (AAC); or
   C. A staff person with a bachelor’s degree in social work, psychology, nursing, or a closely related field from an accredited college or university. Equivalent experience may be substituted on the basis of one (1) year for each year of required educational training.

(B) Collateral independent counseling (individual and group) – face-to-face, goal-oriented therapeutic interaction with an individual, or a group of individuals, to address dysfunctional behaviors and life patterns associated with being a family member of an individual who has a substance use disorder and is currently participating in treatment. Group sessions shall not exceed twelve (12) family members, which may involve multiple individuals engaged in treatment.

1. This service shall only be provided to family members of the individual in treatment when the services are for the direct benefit of the individual in accordance with his/her needs and goals identified in the treatment plan, and for assisting in the individual’s recovery.

2. The individual being served in treatment shall not participate in collateral dependent counseling sessions.

3. Key service functions include, but are not limited to:
   A. Exploration of substance use disorders and its impact on the family member’s functioning;
   B. Development of coping skills and personal responsibility for changing one’s own dysfunctional patterns in relationships;
   C. Examination of attitudes, feelings, and long-term consequences of living with a person with a substance use disorder;
   D. Identification and consideration of alternatives and structured problem-solving;
   E. Productive and functional decision-making; and
   F. Development of motivation and action by group members through peer support, structured confrontation, and constructive feedback.

4. Counseling for family members age five (5) and younger shall only be provided when the child is shown to have the requisite social and verbal skills to participate in and benefit from the service.

5. This service shall be provided by a Marital and Family Therapist or QAP practicing within his/her current competence.

6. Group services for children under age twelve (12) shall be provided by a graduate of an accredited college or university with a bachelor’s degree in counseling, psychology, social work, or a closely related field.

(C) Communicable disease counseling – assists individuals in understanding how to reduce the behaviors that interfere with their ability to lead healthy, safe lives and help them achieve optimal functioning and desired personal potential. Topics may include, but are not limited to, disclosing human immunodeficiency virus (HIV), sexually transmitted infections (STI), tuberculosis (TB) status, and/or substance use to family members/natural supports, addressing stigma in accessing services, maximizing healthcare service interactions, reducing substance use and avoiding overdose, and addressing anxiety, anger, and depressive episodes.

1. The program shall have a working relationship with the local health department, a physician, or other qualified healthcare practitioner to provide individuals with necessary testing for HIV, TB, STIs, and hepatitis.

2. Prior to an individual being tested for HIV, counseling shall be provided by a staff person who is knowledgeable about communicable diseases including HIV, STIs, and TB through training and/or previous employment experience.

3. The program shall make referrals and cooperate with appropriate entities to ensure coordinated treatment is provided for individuals with positive test results.

4. Post-test counseling may be provided for individuals who test positive for HIV or TB. Program staff providing post-test counseling must be knowledgeable about additional services and care coordination available through the Department of Health and Senior Services.

5. Program staff shall arrange and coordinate post-test follow-up for individuals who test positive for a STI or hepatitis.

6. This service shall be provided by a licensed mental health professional, QAP, or AAC who is knowledgeable about
needs and how they can restore functionality; assist individuals in understanding their individual recovery needs; and help individuals to apply and practice healthy skills, decision-making, and be prepared to use medically necessary services that are structured by a qualified mental health professional (QMHP) or QAP. Non-licensed or non-credentialed staff providing this service must have immediate, twenty-four (24) hour telephone access to consultation with a licensed physician/psychiatrist, licensed physician assistant, licensed assistant physician, or advanced practice registered nurse (APRN).

(F) Day treatment—combines group rehabilitative support with medically necessary services that are structured and therapeutic and focus on providing opportunities for individuals to apply and practice healthy skills, decision-making, and appropriate expression of thoughts and feelings. Day treatment shall be provided in a group setting.

1. Services shall be designed to assist individuals with compensating for or eliminating functional deficits and interpersonal and/or environmental barriers associated with a substance use disorder. Services are intended to restore individuals to being active and productive members of their family, community, and/or culture to the fullest extent possible.

2. Services shall be designed to assist individuals with compensating for or eliminating functional deficits and interpersonal and/or environmental barriers associated with a substance use disorder. Services are intended to restore individuals to being active and productive members of their family, community, and/or culture to the fullest extent possible.

3. Services must be provided by a qualified mental health professional (QMHP) or QAP. Non-licensed or non-credentialed staff providing this service must have immediate, twenty-four (24) hour telephone access to consultation with a licensed physician/psychiatrist, licensed physician assistant, licensed assistant physician, or advanced practice registered nurse (APRN).

(E) Crisis prevention and intervention—face-to-face emergency or telephone intervention available twenty-four (24) hours per day, on an unscheduled basis, to assist individuals in resolving a crisis and providing support and assistance to promote a return to routine, adaptive functioning.

1. Minimum service functions shall include, but are not limited to:
   A. Interacting with the identified individual and his or her family members/natural supports, legal guardian, or a combination of these;
   B. Specifying factors that led to the individual’s crisis state, when known;
   C. Identifying maladaptive reactions exhibited by the individual;
   D. Evaluating potential for rapid regression;
   E. Attempting to resolve the crisis; and
   F. Referring the individual for treatment in an alternative setting when indicated.

2. Documentation must include—
   A. A description of the precipitating event(s)/situation when known;
   B. A description of the individual’s mental status;
   C. The intervention(s) initiated to resolve the individual’s crisis state;
   D. The individual’s response to the intervention(s);
   E. The individual’s disposition; and
   F. Planned follow-up by staff.

3. Services must be provided by a qualified mental health professional (QMHP) or QAP. Non-licensed or non-credentialed staff providing this service must have immediate, twenty-four (24) hour telephone access to consultation with a licensed physician/psychiatrist, licensed physician assistant, licensed assistant physician, or advanced practice registered nurse (APRN).

(D) Community support—as specified in 9 CSR 30-3.157;

(E) Crisis prevention and intervention—face-to-face emergency or telephone intervention available twenty-four (24) hours per day, on an unscheduled basis, to assist individuals in resolving a crisis and providing support and assistance to promote a return to routine, adaptive functioning.

1. Minimum service functions shall include, but are not limited to:
   A. Interacting with the identified individual and his or her family members/natural supports, legal guardian, or a combination of these;
   B. Specifying factors that led to the individual’s crisis state, when known;
   C. Identifying maladaptive reactions exhibited by the individual;
   D. Evaluating potential for rapid regression;
   E. Attempting to resolve the crisis; and
   F. Referring the individual for treatment in an alternative setting when indicated.

2. Documentation must include—
   A. A description of the precipitating event(s)/situation when known;
   B. A description of the individual’s mental status;
   C. The intervention(s) initiated to resolve the individual’s crisis state;
   D. The individual’s response to the intervention(s);
   E. The individual’s disposition; and
   F. Planned follow-up by staff.

3. Services must be provided by a qualified mental health professional (QMHP) or QAP. Non-licensed or non-credentialed staff providing this service must have immediate, twenty-four (24) hour telephone access to consultation with a licensed physician/psychiatrist, licensed physician assistant, licensed assistant physician, or advanced practice registered nurse (APRN).

(F) Day treatment—combines group rehabilitative support with medically necessary services that are structured and therapeutic and focus on providing opportunities for individuals to apply and practice healthy skills, decision-making, and appropriate expression of thoughts and feelings. Day treatment shall be provided in a group setting.

2. Services shall be designed to assist individuals with compensating for or eliminating functional deficits and interpersonal and/or environmental barriers associated with a substance use disorder. Services are intended to restore individuals to being active and productive members of their family, community, and/or culture to the fullest extent possible.

3. Key service functions include, but are not limited to:
   A. Promoting an understanding of the relevance of the nature, course, and treatment of substance use disorders to assist individuals in understanding their individual recovery needs and how they can restore functionality;
   B. Assisting in the development and implementation of lifestyle changes needed to cope with the side effects of addiction, use of prescribed psychotropic medications, and/or promote recovery from the disabilities, negative symptoms, and/or functional delays associated with a substance use disorder; and
   C. Assisting with the restoration of skills and use of resources to address symptoms that interfere with activities of daily living and community integration.

4. Services shall be provided by a team consisting of Group Rehabilitation Support Specialists and Day Treatment Technicians.

(G) Drug testing—conducted to determine and detect an individual’s use of alcohol or other drugs and/or monitor compliance with a prescribed medication regimen as a necessary support and adjunct to treatment.

1. Drug testing may be of greater importance for individuals—
   A. With known or suspected diversion of medication for substance use disorders;
   B. Who present in person to the program with symptoms and signs of intoxication or withdrawal;
   C. With a self-reported or otherwise identified overdose; and
   D. With significantly unstable opioid and/or other substance use disorders.

2. Test results shall be discussed with persons served in order to intervene with substance use behavior, including updates to the treatment plan based on test results.

3. Test results and actions taken shall be documented in the individual record, including the category or type of test (on-site or laboratory), the number of panels, types of drugs tested for, and the test results.

4. Drug testing may be performed on-site or sent to a laboratory. A laboratory which analyzes specimens must meet all applicable state and federal laws and regulations.

5. Written policies and procedures regarding the collection and handling of specimens shall be implemented. Urine or other specimens shall be collected in a manner that communicates respect for persons served, while taking reasonable steps to prevent falsification of samples.

6. The program shall implement written policies and procedures outlining the interpretation of results and actions to be taken when the presence of alcohol or other drugs has been determined.

(H) Family conference—intervention that enlists the assistance of the individual’s support system through meeting with family members, referral sources, and other natural supports about the individual’s treatment plan, continuing recovery plan, and discharge plan. The service must include the individual served and be for his/her direct benefit in accordance with needs and goals identified in the treatment plan and to assist in his/her recovery.

1. Key service functions include, but are not limited to:
   A. Communicating about issues in the individual’s home that are barriers to achieving his/her treatment goals;
   B. Identifying relapse triggers and establishing a continuing recovery plan;
   C. Assessing the need for family therapy or other referrals to support the family system; and
   D. Participating in continuing recovery and discharge planning conferences.

2. Services shall be provided by a QAP or AAC.

3. Documentation must indicate the relationship of the family members and/or other participants to the individual in treatment.

(I) Family therapy—face-to-face counseling or family-based therapeutic interventions (such as role playing or educational discussions) for the individual served and/or one (1) or more of his/her family members/natural supports. Services must be for the direct benefit of the individual served in accordance with his/her treatment needs and goals and to assist in their...
1. Services shall address and resolve patterns of dysfunctional communication and interactions that have become persistent over time, particularly as they relate to alcohol and/or other drug use.

2. Services may be offered to members of a single family or members of multiple families dealing with similar issues.

3. Services may be provided in an office setting or the individual’s home, depending on those involved.

4. Key service functions include, but are not limited to:
   A. Facilitating family participation in family self-help recovery groups;
   B. Examining family interaction styles, confronting patterns of dysfunctional behavior, and strengthening communication patterns that promote healthy family function;
   C. Facilitating family participation in family self-help recovery groups;
   D. Developing and applying skills and strategies for improving family functioning; and
   E. Promoting healthy family interactions independent of formal helping systems.

5. Documentation must indicate the relationship of the family members/natural supports to the individual engaged in treatment.

6. In any calendar month, for fifty percent (50%) of family therapy sessions, the individual engaged in treatment must be present, in addition to one (1) or more of his/her family members/natural supports. Family members younger than age twelve (12) can be counted as one (1) of the required family members when the child is shown to have the requisite social and verbal skills to participate in and benefit from the service.

7. Services shall be provided by a professional who—
   A. Is licensed or provisionally licensed in Missouri as a marital and family therapist; or
   B. Has a degree in marriage and family therapy, psychology, social work, or counseling and—
      (I) Has at least one (1) year of supervised experience in family therapy and has specialized training in family therapy; or
      (II) Receives close supervision from a professional who meets the requirements of subparagraph (I)(A) and B of this rule; or
   C. A QAP who receives close supervision from an individual who meets the requirements of subparagraphs (I)(A) and B of this rule.

(J) Group counseling—face-to-face, goal-oriented therapeutic interaction between a counselor and two (2) or more individuals based on needs and goals specified in their treatment plans. Services shall be designed to promote individual functioning and recovery through personal disclosure and interpersonal interaction among group members.

1. This service can include trauma-related symptoms and co-occurring behavioral health and substance use disorders.

2. Evidence-based practices, such as motivational interviewing and cognitive behavioral therapy, shall be utilized by appropriately trained staff.

3. Some scheduled group sessions may not be applicable to or appropriate for all individuals, therefore, participation shall be on a designated or selective basis. Examples of designated or selective groups include, but are not limited to, parenting skills, budgeting, anger management, domestic violence, co-occurring disorders, life skills, and trauma.

4. Key service functions include, but are not limited to:
   A. Facilitating individual disclosure of addiction-related issues which permits generalization of the issues to the larger group;
   B. Promoting recognition of addictive thinking and behaviors and teaching strategies that support non-use of alcohol and/or other drugs that interfere with the individual’s functioning;
   C. Preparing individuals to cope with physical, cognitive, and emotional symptoms of craving alcohol and/or other drugs;
   D. Encouraging and modeling productive and positive interpersonal communication; and
   E. Developing motivation and action by group members through peer influence, structured confrontation, and constructive feedback.

5. Services shall be provided by a QAP, QMHP, AAC, or an intern/practicum student as specified in 9 CSR 10-7.110(5).

6. The usual and customary group size is twelve (12) individuals. The size of group counseling sessions shall not exceed an average of twelve (12) individuals during a calendar month, per facilitator, per group.

7. A group log or documentation in the individual record (paper or electronic format) shall be maintained for each session documenting the type of service, summary of the service, date, actual beginning and ending time of the group, each individual’s in and out time, and the signature and title of the staff member providing the service. Signature stamps shall not be used.

(K) Group rehabilitative support—facilitated group discussions based on individual needs and treatment plan goals to promote an understanding of the relevance of the nature, course, and treatment of substance use disorders to assist individuals in understanding their recovery needs and how they can restore functionality.

1. Key service functions include, but are not limited to:
   A. Classroom style didactic lecture to present information about a topic and its relationship to substance use;
   B. Presentation of audio-visual materials that are educational in nature with required follow-up discussion. Instructional aids shall be incorporated into education sessions to enhance understanding and promote discussion and interaction among individuals. Aids may include, but are not limited to, DVDs or other electronic media, worksheets, and informational handouts and shall not comprise more than twenty percent (20%) of group rehabilitative support sessions;
   C. Promotion of discussion and questions about the topic presented to the individuals in attendance; and
   D. Generalization of the information and demonstration of its relevance to recovery and enhanced functioning.

2. The program shall develop a schedule and curriculum for delivery of group rehabilitative support that addresses topics and issues relevant to the individuals served. Individuals shall attend group sessions that are relevant to their needs and goals based on the assessment and interventions recommended in their individual treatment plan.

3. Services shall be provided by a group rehabilitation support specialist who is present throughout the session and—
   A. Is suited by education, background, or experience to present the information being discussed;
   B. Demonstrates competency and skill in facilitating group discussions; and
   C. Has knowledge of the topic(s) being taught.

4. Group size shall not exceed an average of thirty (30) individuals during a calendar month, per facilitator, per group session.

5. A group log or documentation in the individual record (paper or electronic format) shall be maintained for each
session documenting the type of service, summary of the service, date, actual beginning and ending time of the group, each individual's in and out time, and the signature and title of the staff member providing the service. Signature stamps shall not be used.

1. Evidence-based interventions including, but not limited to, motivational interviewing, cognitive behavioral therapy, and trauma-informed care shall be utilized, when appropriate.

2. Key service functions shall include, but are not limited to:
   A. Exploration of an identified problem and its impact on the individual's functioning;
   B. Examination of attitudes, feelings, and behaviors that promote recovery and improved functioning;
   C. Identification and consideration of alternatives and structured problem-solving;
   D. Discussion of skills to aid in making positive decisions;
   E. Application of information presented in the program to the individual's life situation to promote recovery and improved functioning.

3. Services shall be provided by a QAP, QMHP, AAC, or an intern/practicum student as specified in 9 CSR 10-7.110(5).

4. Individual counseling, trauma—individual, face-to-face, structured and goal-oriented therapeutic counseling designed to identify and resolve issues related to substance use and co-occurring mental illness functioning.

   1. This service must be provided by—
      A. A licensed or provisionally licensed qualified mental health professional (QMHP);
      B. An individual holding the Co-Occurring Disorders Professional or Co-Occurring Disorders Professional/Diplomate credential from the Missouri Credentialing Board;
      C. A non-licensed QMHP who meets the co-occurring counselor competency requirements established by the department; or
      D. A QAP who meets the co-occurring counselor competency requirements established by the department.

   2. Key service functions include, but are not limited to:
      A. Planning in a person-centered manner to promote the development of self-advocacy skills;
      B. Empowering the individual to take a proactive role in developing, updating, and implementing his/her person-centered treatment plan;
      C. Providing crisis support;
      D. Assisting the individual and his/her family and other natural supports in the use of positive self-management techniques, problem-solving skills, coping mechanisms, symptom management, and communication strategies identified in the treatment plan, so the individual remains in the least restrictive setting, achieves recovery and resiliency goals, self-advocates for quality physical and behavioral health services, and has access to strength-based behavioral health and physical health services in the community;
      E. Assisting individuals and their family members/natural supports in identifying strengths and personal/family resources to aid recovery, promote resilience, and recognize their capacity for recovery/resilience;
      F. Serving as an advocate, mentor, or facilitator for resolution of issues and skills necessary to enhance and improve the health of a child/youth with a substance use and/or co-occurring disorder; and
      G. Providing information and support to the parent(s)/caregiver(s) of a child who has a serious emotional disorder so they have a better understanding of the child's needs, the importance of his/her voice in the development and implementation of the individual treatment plan, the roles of the various service/support providers and the importance of the team approach, and assisting in the exploration of options to be considered as part of treatment.

3. Services shall be provided by a certified peer specialist or family support provider.
(R) Withdrawal management/detoxification, as defined in 9 CSR 30-3.120.

(2) Ratio of Qualified Addiction Professionals. A majority of the program’s staff who provide individual and group counseling shall be Qualified Addiction Professionals (QAP).

(3) Supervision of Associate Counselors. If an AAC provides individual or group counseling, he/she shall meet the requirements of the Missouri Credentialing Board or the appropriate board of professional registration within the Department of Commerce and Insurance. All counselor functions performed by an AAC shall be performed pursuant to the supervisor’s authority, oversight, guidance, and full professional responsibility.

(A) The supervisor shall review and countersign documentation in individual records made by the AAC.

(B) Documentation which must be countersigned includes the initial treatment plan, treatment plan updates, and discharge summaries.

(C) A training plan must be in place for each AAC and be available for review by department staff or other authorized representatives.

(4) Credentials for Supervisor of Counselors. Unless otherwise required by these rules, supervision of counselors must be provided by a QAP who has—

(A) A degree from an accredited college in an approved field of study; or

(B) Four (4) or more years of employment experience in the treatment and rehabilitation of persons with substance use disorders.

AUTHORITY: sections 630.050, 630.655, and 631.010, RSMo 2016.*

9 CSR 30-3.120 Detoxification

PURPOSE: This rule describes the goals, eligibility and discharge criteria, levels of care, and performance indicators for detoxification programs.

(1) Goals. Detoxification is the process of withdrawing a person from alcohol, other drugs or both in a safe, humane, and effective manner. The goals of detoxification services are to help persons become—

(A) Alcohol and drug-free in a safe manner without suffering severe physical consequences of withdrawal. Medical services shall be provided or arranged, when clinically indicated; and

(B) Involved in continuing treatment. Each person shall be oriented to treatment resources and recovery concepts and shall be assisted in making arrangements for continuing treatment.

(2) Screening. Upon initial contact, a person shall be screened by a trained staff member and assigned to a level of care based on the signs and symptoms of intoxication, impairment or withdrawal, as well as factors related to health and safety.

(A) A screening protocol approved by a physician shall be used to evaluate the person’s physical and mental condition and to guide the level of care decision. The department may require, at its option, the use of a standardized screening protocol for those services funded by the department or provided through a service network authorized by the department.

(B) The assigned level of care shall have the ability to effectively address the person’s physical and mental condition.

(3) Eligibility Criteria. In order to be eligible for detoxification services, a person must present symptoms of intoxication, impairment or withdrawal and also must require supervision and monitoring of their physical and mental status to ensure safety. A person qualifies for detoxification services on a residential basis if one or more of the following additional criteria are met:

(A) Demonstrates a current inability to minimally care for oneself;

(B) Lacks a supportive, safe place to go and demonstrates a likelihood of continued use of alcohol or other drugs if free to do so;

(C) Requires ongoing observation and monitoring of vital signs due to a prior history of physical complications associated with withdrawal or the severity of current symptoms of intoxication, impairment or withdrawal; or

(D) Presents a likelihood of harm to self or others as a result of intoxication, impairment or withdrawal.

(4) Certified Levels of Care. A person shall be assigned to one (1) of the following levels of detoxification service in accordance with the screening protocol and admission criteria. An agency may offer and be certified for one (1) or more of the following levels of detoxification service:

(A) Social Setting Detoxification. This level of care is offered by trained staff in a residential setting with services and admission available twenty-four (24) hours per day, seven (7) days per week.

1. Medical personnel are not available on-site to prescribe, dispense or administer medications or to diagnosis and treat health problems.

2. A person, who is admitted to social setting detoxification with medication for an established physical or mental health condition, may continue to self-administer his or her medication;

(B) Modified Medical Detoxification. This level of care is offered by medical staff in a non-hospital setting with services and admission available twenty-four (24) hours per day, seven (7) days per week.

1. Routine medical services are provided, and medications are used, when clinically indicated, to alleviate symptoms of intoxication, impairment or withdrawal.

2. A registered or licensed nurse is on duty at all times. Licensed nursing staff receive clinical supervision by a registered nurse.

3. There is on call at all times a physician or an advanced practice nurse licensed and authorized to title and practice as an advanced practice nurse pursuant to section 335.016, RSMo and who is engaged in a written collaborative practice arrangement as defined by law.

(C) Medical Detoxification. This level of care is offered by medical staff in a licensed hospital with services and admission available twenty-four (24) hours per day, seven (7) days per week. Emergency and non-emergency medical services are provided, and medications are used, when clinically indicated, to alleviate symptoms of impairment or withdrawal.
(5) Safety and Supervision. All detoxification services shall be provided in a humane manner and shall ensure the safety and well-being of persons served.

(A) There shall be monitoring and assessment of the person’s physical and emotional status during the detoxification process.

1. Vital signs shall be taken on a regular basis, with the frequency determined by client need based on a standardized assessment instrument.

2. Blood alcohol concentration may be monitored upon admission and thereafter as indicated. Further testing of urine or blood may be conducted by qualified personnel.

(B) Staff coverage in residential settings shall ensure the continuous supervision and safety of clients.

1. Two (2) staff members shall be on-site at all times, and additional staff may be required, as warranted by the size of the program and the responsibilities and duties of staff members.

2. Staff providing direct supervision and monitoring of clients shall demonstrate competency in recognizing symptoms of intoxication, impairment and withdrawal; monitoring vital signs; and understanding basic principles and resources for substance abuse treatment.

3. Clients shall be supervised at all times by a staff member with current certification in first aid and cardiopulmonary resuscitation.

(6) Continuing Treatment. Detoxification services shall actively encourage each person to address substance abuse issues and to make arrangements for continuing treatment. There shall be documentation of services delivered and arrangements for continuing treatment. A comprehensive assessment and master treatment plan are not required during detoxification.

(A) Information and education shall be given to each person regarding substance abuse issues.

(B) Individual and group sessions shall be provided, and each person shall be expected to participate in these sessions, to the extent warranted by their physical and mental status.

(C) Each person shall be encouraged to make plans for continuing treatment.

1. Staff shall assist in making referrals and other arrangements, as needed.

2. Any client refusal of treatment services or referrals shall be documented.

(D) A qualified substance abuse professional shall be available and involved in providing individual and group sessions and making arrangements for continuing treatment.

(7) Discharge Criteria. A person shall be successfully discharged or transferred from the detoxification service when they are physically and mentally able to function without the supervision, monitoring and support of this service.

(8) The program handles applications for civil detention of intoxicated persons in accordance with sections 631.115, 631.120 and 631.125, RSMo 2000 unless a waiver is granted in writing by the department.

AUTHORITY: sections 630.050, 630.655 and 631.010, RSMo 2000.*

A person may enter treatment at any level of care in accordance with eligibility criteria.

A person can move from one level of care to another over time in accordance with symptoms, progress, outcomes and other clinical factors.

1. The duration of each level of care shall be time-limited and tailored to the individual's needs.
2. A person may be transferred to a more intensive level of care if there is a continuing inability to make progress toward treatment and rehabilitation goals.

Community-Based Primary Treatment. This level of care is the most structured, intensive, and short-term service delivery option. Structured services shall be offered at least five (5) days per week and should approximate the service intensity of residential treatment.

Eligibility for primary treatment shall be based on –
1. Evidence that the person cannot achieve abstinence without close monitoring and structured support; and
2. Need for frequent, almost daily services and supervision.

Expected outcomes for primary treatment are to –
1. Interrupt a significant pattern of substance abuse;
2. Achieve a period of abstinence;
3. Enhance motivation for recovery; and
4. Stabilize emotional and behavioral functioning.

The program shall offer an intensive array of services each week.
1. Each person shall participate in at least twenty-five (25) hours of service per week, unless contraindicated by the individual’s medical, emotional, legal, and/or family circumstances, and unless residential support is provided.
2. Where residential support is provided, each person shall be offered additional structured therapeutic activities in accordance with residential treatment standards.
3. Each person shall participate in at least one (1) hour per week of individual counseling. Additional individual counseling shall be provided, in accordance with the individual’s needs.
4. For community-based primary treatment that is funded by the department or provided through a service network authorized by the department, day treatment may be specified as the applicable service for this level of care.

Intensive Outpatient Rehabilitation. This level of care offers an intermediate intensity and duration of treatment. Services should be offered on multiple occasions during each week.

Eligibility for intensive outpatient rehabilitation shall be based on –
1. Ability to limit substance use and remain abstinent without close monitoring and structured support;
2. Absence of crisis that cannot be resolved by community support services;
3. Evidence of willingness to participate in the program, keep appointments, participate in self-help, etc.; and
4. Willingness, as clinically appropriate, to involve significant others in the treatment process, such as family, employer, probation officer, etc.

Expected outcomes for intensive outpatient rehabilitation are to –
1. Establish and/or maintain sobriety;
2. Improve emotional and behavioral functioning; and
3. Develop recovery supports in the family and community.

The program shall offer at least ten (10) hours of service per week.
1. Each person shall be expected to participate in at least ten (10) hours of service per week, unless contraindicated by the individual’s medical, emotional, legal, and/or family circumstances.
2. Each person shall participate in at least one (1) hour per week of individual counseling.

Supported Recovery. This level of care offers treatment on a regularly scheduled basis, while allowing for a temporary increase in services to address a crisis, relapse, or imminent risk of relapse. Services should be offered on approximately a weekly basis, unless other scheduling is clinically indicated.

Eligibility for supported recovery shall be based on –
1. Lack of need for structured or intensive treatment;
2. Presence of adequate resources to support oneself in the community;
3. Absence of crisis that cannot be resolved by community support services;
4. Willingness to participate in the program, keep appointments, participate in self-help, etc.;
5. Evidence of a desire to maintain a drug-free lifestyle;
6. Involvement in the community, such as family, church, employer, etc.; and
7. Presence of recovery supports in the family and/or community.

Expected outcomes for supported recovery are to –
1. Maintain sobriety and minimize the risk of relapse;
2. Improve family and social relationships;
3. Promote vocational/educational functioning; and
4. Further develop recovery supports in the community.

The program shall offer at least three (3) hours of service per week. Each person shall be expected to participate in any combination of services determined to be clinically necessary.

Continued Services. The treatment episode or level of care shall be reviewed for the appropriateness of continued services if the person presents repeated relapse incidents, a pattern of noncompliance or poor attendance, threats or aggression toward staff or other clients, or failure to comply with basic program rules.

Discharge Criteria. Each person's length of stay in outpatient services shall be individualized, based on the person's needs and progress in achieving treatment goals.

An individual should be considered for successful completion and discharge from outpatient services upon –
1. Recognizing and understanding his/her substance abuse problem and its impacts;
2. Achieving a continuous period of sobriety;
3. Absence of immediate or recurring crisis that poses a substantial risk of relapse;
4. Stabilizing emotional problems, when applicable (for example, not experiencing serious psychiatric symptoms, taking psychotropic medication as prescribed, etc.);
5. Demonstrating independent living skills;
6. Implementing a relapse prevention plan; and
7. Developing family and/or social networks which support recovery and a continuing recovery plan.

A person may be discharged from outpatient services before accomplishing these goals if –
1. Commitment to continuing services is not demonstrated by the client; or
2. No further progress is imminent or likely to occur.

AUTHORITY: sections 630.050, 630.655 and 631.010, RSMO 2000.
9 CSR 30-3.132 Opioid Treatment Programs

PURPOSE: This rule describes the specific functions, policies, and practices required for certified opioid treatment programs.

PUBLISHER’S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(1) Certification Requirements. Prior to delivering services, the organization must be certified as an opioid treatment program (OTP) by the department.

(A) The program shall comply with applicable federal, state, and local laws and regulations, including those under the jurisdiction of the U.S. Food and Drug Administration (FDA), U.S. Drug Enforcement Administration (DEA), Department of Health and Human Services, Substance Abuse and Mental Health Services Administration (HHS/SAMHSA), and the Department of Health and Senior Services, Bureau of Narcotics and Dangerous Drugs (DHSS/BNDD).

(B) The organization shall comply with 9 CSR 10-5 General Program Procedures, 9 CSR 10-7 Core Rules for Psychiatric and Substance Use Disorder Treatment Programs, and 9 CSR 30-3 Substance Use Disorder Prevention and Treatment Programs, as applicable.

(2) Medication Administration, Dispensing, and Use. OTPs shall only utilize medications approved by the FDA for the treatment of opioid use disorder.

(A) Opioid agonist, partial agonist, and antagonist treatment medications shall be administered and dispensed by a practitioner licensed in Missouri and registered under the appropriate state and federal laws to administer or dispense opioid drugs.

(B) Written policies and procedures shall be maintained to ensure the following dosage form and initial dosing requirements are met:

1. Methadone is prescribed by a qualified prescriber, administered and dispensed only in oral form, and formulated in a manner to reduce its potential for parenteral abuse; and

2. For newly admitted individuals, the initial dose of methadone does not exceed thirty (30) milligrams and the total dose for the first day does not exceed forty (40) milligrams, unless the program physician documents in the individual record that forty (40) milligrams did not suppress opioid abstinence symptoms; and

3. Each opioid agonist medication is administered and dispensed in accordance with its approved product labeling. Dosing and administration decisions shall be made by a qualified prescriber familiar with the most up-to-date product labeling. These procedures must ensure any significant deviations from the approved labeling, including deviations with regard to dose, frequency, or the conditions of use described in the approved labeling, are specifically documented in the individual record.

(C) If a prescription drug monitoring program (PDMP) is available, the program physician and other staff, as permitted, shall register and utilize the PDMP in accordance with federal, state, and local regulations. Policies and procedures shall be maintained regarding use of the PDMP information for diversion control planning.

(D) Individuals admitted to an OTP may be provided with naloxone or, if insured, a prescription for naloxone.

(3) Program Administration. The OTP shall have a program sponsor and a medical director.

(A) The program sponsor shall be responsible for the general establishment, certification, accreditation, and operation of the program, ensuring it is in continuous compliance with all federal, state, and local laws and regulations related to the use of opioid agonist and partial agonist treatment medications in the treatment of opioid use disorder.

(B) The medical director must be a physician licensed in Missouri and is responsible for overseeing all medical services provided by the OTP, performing them directly or by delegating specific responsibilities to an authorized program physician and healthcare professionals functioning under his/her direct supervision. The medical director shall ensure all medical, psychiatric, nursing, pharmacy, toxicology, and other services offered by the OTP are conducted in compliance with federal, state, and local regulations at all times. Other responsibilities of the medical director include, but are not limited to:

1. Ensuring individuals meet admission criteria and receive the required physical examination(s) and laboratory testing;

2. Prescribing methadone and other FDA-approved medications with the individual’s input, ensuring the prescribed dosage of medication is appropriate to his/her needs;

3. Reviewing and signing each individual’s initial treatment plan and reviewing and updating the plan based on his/her needs; and

4. Coordinating care and consulting with each individual’s clinical treatment team on a regular basis.

(4) Service Delivery Requirements. A range of treatment and rehabilitation services shall be provided to address the therapeutic needs of persons served. All medications approved by the FDA for treatment of opioid use disorder shall be available to meet individual needs.

(A) At a minimum, the following services as defined in 9 CSR 30-3.110 or as specified in another regulation, must be available to all individuals based on needs and treatment goals:

1. Communicable disease counseling;

2. Community support;

3. Continuing recovery and discharge planning, as defined in 9 CSR 10-7.030(8);

4. Crisis prevention and intervention;

5. Drug testing;

6. Family conference;

7. Family therapy;

8. Group counseling, including trauma and co-occurring disorders;

9. Group rehabilitative support;

10. Individual counseling, including trauma and co-occurring disorders;

11. Medication services;

12. Medication services support; and

13. Medical evaluations, as specified in this rule.

(B) The services must be available at the OTP’s primary location or through a documented collaborative referral.
arrangement with another qualified service provider. Services shall be offered at least six (6) days per week. Medical and psychosocial services shall be available during the early morning and/or evening to ensure individuals have access to services.

(C) All medical services shall be offered and occur simultaneously with clinical therapy, education, development of positive social supports, and ongoing treatment and rehabilitation for substance use disorders and related life problems.

(D) OTPs shall directly provide, or make available through referral to adequate and reasonably accessible community resources, other support services including, but not limited to, rehabilitation, education, and employment for individuals who request such services or have been determined by program staff to be in need of these services.

(E) Information and education shall be provided in areas such as community resources, substance use disorders, and behavioral health disorders.

(F) Services may be provided via telehealth to enhance accessibility for individuals served.

(5) Admission Criteria. Individuals shall be admitted to maintenance treatment by qualified staff who use accepted medical criteria, such as those listed in the Diagnostic and Statistical Manual for Mental Disorders (DSM-5), 2013, to determine the person is currently addicted to an opioid drug and he/she became addicted at least one (1) year before admission for treatment. The DSM-5 is hereby incorporated by reference and made a part of this rule, as published by the American Psychiatric Association, 1000 Wilson Boulevard, Suite 1825, Arlington VA 22209-3901. This rule does not incorporate any subsequent amendments or additions to this publication.

(A) The program physician shall ensure each individual voluntarily chooses maintenance treatment, all relevant facts concerning the use of the opioid drug are clearly and adequately explained to him/her, and each individual provides informed, written consent to treatment.

(B) Documentation in the individual record must indicate clinical signs and symptoms of opioid use disorder.

(C) Decisions regarding the most appropriate medication shall be individualized, based on personal needs and goals, throughout the individual's engagement in treatment.

(D) If clinically appropriate, the program physician may waive the requirement of a one- (1-) year history of addiction for—

1. Women who are pregnant;
2. Individuals released from a correctional facility with a documented history of opioid use disorder, within six (6) months after release; and
3. Individuals who have been previously treated, up to two (2) years after discharge.

(E) Individuals under the age of eighteen (18) are required to have had two (2) documented unsuccessful attempts at short-term medical withdrawal (detoxification) or drug-free treatment within a twelve- (12-) month period to be eligible for methadone maintenance treatment.

1. Individuals under the age of eighteen (18) shall not be admitted to maintenance treatment unless a parent/guardian or responsible adult designated by the relevant state authority consents in writing to such treatment. This requirement is applicable to methadone and does not pertain to buprenorphine.

(6) Admission for Priority Populations. OTPs that have a contract with the department shall ensure priority admission for—

(A) Women who are pregnant and use intravenous drugs;
(B) Women who are pregnant or postpartum, up to one (1) year after delivery;
(C) Individuals who use intravenous drugs;
(D) Women who have children and are at risk of losing custody or are attempting to regain custody;
(E) Individuals who test positive for the human immunodeficiency virus (HIV);
(F) Individuals determined to be high risk and are referred for treatment by Department of Corrections’ institutions and the Division of Probation and Parole via the designated referral form and protocol, as well as individuals referred from federal correctional institutions;
(G) Individuals who are applying for or receiving Temporary Assistance for Needy Families (TANF) and are referred for treatment by the Department of Social Services, Family Support Division, via the designated electronic referral process and protocol.

1. Women who are pregnant shall receive immediate admission.

2. High-risk referrals from correctional institutions and probation and parole shall be assessed and admitted within five (5) working days of initial contact or scheduled release date, including weekends and holidays.

3. If the OTP is unable to assess and admit an individual who uses intravenous drugs within forty-eight (48) hours of receiving such a request, interim services shall be available in accordance with department contract requirements.

(H) Interim maintenance treatment, as defined in section (16) of this rule, shall be available for individuals who are eligible for treatment but cannot be immediately admitted to the OTP where services are being sought or through referral arrangements with another OTP; and

(I) Individuals seeking treatment who are participants in the MO HealthNet program and do not meet priority population criteria shall be given an appointment in a timely manner and shall not be placed on a wait list.

(7) Admission Protocol. Prior to admission, staff shall verify and document the individual seeking services is not currently enrolled in another opioid treatment program utilizing a central registry, if available, or other client enrollment/admission database, such as the department’s Customer Information, Management, Outcomes, and Reporting (CIMOR) system, for verification purposes.

(A) An individual currently enrolled in an OTP shall not be permitted to obtain treatment in any other OTP except in exceptional circumstances.

1. If the medical director or program physician of the OTP where the individual is currently enrolled determines exceptional circumstances exist, the individual may be granted permission to seek treatment at another OTP. Justification for the exceptional circumstances must be included in the individual record at both program locations.

(B) Each individual shall undergo a complete and fully documented physical evaluation prior to admission by a program physician, primary care physician, or authorized healthcare professional working under the supervision of a program physician. The full physical examination, including the results of serology and other tests, must be completed within fourteen (14) days following admission.

1. Women should have a pregnancy test as deemed clinically appropriate.
(C) Screening shall determine the risk of undiagnosed conditions such as hepatitis C, HIV, sexually transmitted infections, cardiopulmonary disease, and sleep apnea to determine if further diagnostic testing such as laboratory analysis, a cardiology, or others are needed.

   1. Positive screening results or disease risks should have a care coordination plan that is seen through to completion, regardless of whether this is accomplished via services provided directly by the OTP or through referral to another provider.

   (D) A complete medical history, physical examination, and laboratory testing shall not be required for an individual who has had such medical evaluation within the prior thirty (30) days. The program shall have documentation of the medical evaluation and any significant findings in the individual record.

(8) Pregnant and Postpartum Women. Written policies and procedures shall be maintained and implemented to address the needs of women who are pregnant and postpartum. Prenatal care and other gender-specific services for women who are pregnant must be provided by the OTP or by referral to an appropriate healthcare provider.

   (A) For pregnant women who are receiving methadone or buprenorphine, the program shall have written policies and procedures in place to ensure—

   1. The initial dose of medication for a newly admitted woman who is pregnant, and the subsequent induction and maintenance dosing strategy, reflect the same effective dosing protocols used for all other individuals;

   2. The methadone dose is carefully monitored, especially during the third (3rd) trimester when pregnancy induces changes such as the rate at which methadone is metabolized or eliminated from the system, potentially necessitating either an increased or a split dose; and

   3. Women who become pregnant during treatment are maintained at their pre-pregnancy dosage, if effective, and are managed with the same dosing principles used with women who are not pregnant.

   (B) Women who are pregnant are eligible to receive ongoing maintenance treatment up to one (1) year postpartum, including evaluation of their current dose to determine if an adjustment is needed during the postpartum period. Women shall be offered education about signs and symptoms of oversedation which may occur after delivery.

   (C) Medically supervised withdrawal after pregnancy shall occur as clinically indicated and documented, or is requested by the individual.

   (D) When a planned discharge occurs, OTP staff shall document the contact information of the physician or other authorized healthcare professional to whom the individual has been referred, including the reason for discharge.

   (E) Mothers shall be educated about neonatal abstinence syndrome, its symptoms, potential effects on their infant, and need for treatment if it occurs.

(9) Safety and Health. The program shall implement written policies, procedures, and practices which ensure access to services and address the safety and health of individuals served. The provider shall—

   (A) Ensure continued opioid treatment for individuals in the event of an emergency, pandemic, or natural disaster by cooperating with other OTPs, including those in surrounding states, to develop and maintain medication dosing arrangements;

   (B) Utilize a central registry, if available, or other client enrollment/admission system such as the department’s CIMOR system, to coordinate services;

   (C) Ensure treatment to persons regardless of serostatus, HIV-related conditions, tuberculosis (TB), or hepatitis C;

   (D) Provide information and education to individuals on prevention and transmission of HIV-related conditions;

   (E) Provide or arrange HIV testing and pre- and post-test counseling for individuals;

   (F) Provide or arrange testing for TB, hepatitis C, and sexually transmitted infections upon admission and at least annually thereafter;

   (G) Provide medical evaluations to individuals upon admission and at least annually thereafter, including cardiac risk assessment;

   (H) Utilize infection control procedures in accordance with federal, state, and local regulations; and

   (I) Arrange medical care for women during pregnancy, if necessary, and document the arrangements made and action taken by the individual.

(10) Staff Training. All direct service staff and medical staff shall complete four (4) clock hours of training relevant to service delivery in an opioid treatment setting during a two- (2-) year period. This training applies to the required thirty-six (36) clock hours of training during a two- (2-) year period specified in 9 CSR 10-7.110(2)(F)(1).

(11) Testing and Screening for Drug Use. The program shall use drug testing as a clinical tool for purposes such as diagnosis and treatment planning.

   (A) Each individual shall have an initial toxicsology test as part of the admission process. At a minimum, admission samples shall be analyzed for opiates, methadone, marijuana, cocaine, barbiturates, benzodiazepines, buprenorphine, amphetamines, fentanyl, and alcohol.

   (B) If there is a history of misuse of prescription opioid analgesics, an expanded toxicsology panel that includes these opioids shall be administered. Additional testing shall be based on individual needs and local drug use patterns and trends.

   (C) Random drug testing of each individual in maintenance treatment shall be conducted at least eight (8) times during a twelve- (12-) month period.

   (D) Individuals engaged in long-term detoxification treatment (medical withdrawal) shall receive an initial drug test and a monthly random test.

   (E) Individuals engaged in short-term detoxification treatment (medical withdrawal) shall have at least one (1) initial drug test.

(12) Unsupervised Approved Use (Take-Home) of Medication. The medical director shall ensure policies and procedures for approval of take-home methadone do not create barriers to individuals in maintenance treatment. The dispensing restrictions set forth in this section of this rule do not apply to buprenorphine and buprenorphine products.

   (A) Any individual in comprehensive maintenance treatment may receive a single take-home dose of methadone for a day the program is closed for business, including Sundays and state and federal holidays.

   (B) Decisions on dispensing methadone to individuals for unsupervised use, beyond that set forth in this rule, shall be determined by the medical director. In determining which individuals may be approved for unsupervised use, the medical director shall consider the following:
1. Absence of recent misuse of drugs (opioid or non-narcotic), including alcohol;
2. Regularity of program attendance;
3. Absence of serious behavioral issues at the program;
4. Absence of known recent involvement in the justice system, such as drug dealing;
5. Stability of the individual’s home environment and social relationships;
6. Length of time in comprehensive maintenance treatment;
7. Assurance that take-home medication can be safely stored within the individual’s home; and
8. Whether the rehabilitative benefit the individual derives from decreasing the frequency of program attendance outweighs the potential risks of diversion.

(C) Determinations for unsupervised use of methadone and the basis for such determinations, consistent with the criteria outlined in paragraphs (12)(B)1. to 8. of this rule, shall be documented in the individual record.

(D) Take-home doses dispensed to individuals beyond that specified in subsection (12)(A) of this rule, shall be subject to the following:
1. During the first ninety (90) days of treatment, the take-home supply is limited to one (1) dose each week and the individual must ingest all other doses under appropriate supervision at the program;
2. In the second ninety (90) days of treatment, the take-home supply is limited to two (2) doses per week;
3. In the third ninety (90) days of treatment, the take-home supply is limited to three (3) doses per week;
4. In the remaining months of the first year of treatment, the individual is limited to a maximum six- (6-) day supply of take-home medication;
5. After one (1) year of continuous treatment, the individual may receive a maximum two- (2-) week supply of take-home medication; and
6. After two (2) years of continuous treatment, the individual may receive a maximum one- (1-) month supply of take-home medication and he/she must make monthly visits to the program.

(E) Individuals in short-term detoxification treatment or interim maintenance treatment shall not receive methadone for unsupervised or take-home use.

(F) OTPs must implement written procedures to identify theft or diversion of take-home medications, including labeling containers with the OTP’s name, address, and telephone number. Programs must also ensure take-home supplies are packaged in a manner designed to reduce the risk of accidental ingestion, including use of child-proof containers.

(G) Program staff shall educate individuals about safe transportation and storage of methadone, as well as emergency procedures in case of accidental ingestion.

(H) Individuals approved for take-home doses of methadone must have a lock box for safe transportation and home storage.

(I) OTPs shall implement written policies and procedures that address the responsibilities of individuals who are approved for take-home doses of methadone, including methods to assure appropriate use and storage of the medication.

(J) Staff shall regularly monitor each individual’s use of take-home medication to ensure security of the medication and prevent diversion. When determined necessary, the medical director and staff may review an individual’s unsupervised use and may deny or rescind take-home privileges. Such action shall be documented in the individual record, including the rationale for denial or rescission of unsupervised use.

(K) The time in treatment requirements outlined in paragraphs (12)(D)1. to 6. of this rule are minimum reference points after which an individual may be considered for take-home medication privileges. The time references do not mean an individual in treatment for a particular time has a specific right for approval of take-home medication.

(L) Any deviation from the regulations for unsupervised use of methadone as specified in this rule requires prior approval from the state opioid treatment authority (SOTA), or his/her designee, and/or SAMHSA.

1. The Exception Request and Record of Justification form SMA-168 must be submitted to the SOTA/designee and/or SAMHSA as specified in section (24) of this rule. Justification for an exception may include, but is not limited to, transportation hardships, employment, vacation, medical or family emergencies, or other unexpected circumstances.

(13) Guest Medication. Individuals who travel, but do not meet the criteria for take-home medication as specified in section (12) of this rule, should be considered for guest medication in accordance with the 2020 Guidelines for Guest Medications hereby incorporated by reference and made a part of this rule, as published by the American Association for the Treatment of Opioid Dependence, 225 Varick St., Suite 402, New York, NY 10014, (212) 566-5555. This rule does not incorporate any subsequent amendments or additions to this publication.

(A) Guest medication provides a mechanism for individuals to travel from their home program for business, pleasure, or family emergencies. It also provides an option for individuals who need to travel for a period of time that exceeds the amount of eligible take-home doses to do so within regulatory requirements.

(B) Individuals shall be on a stable dose of methadone and not be scheduled for a dose increase or decrease during guest medication.

(C) Individuals approved for guest medication must be medically and psychiatrically stable.

(14) Continuity of Care. The program shall implement written policies and procedures to address continuity of care for individuals who are unable to participate in regularly scheduled visits for observed ingestion of medication due to illness, pregnancy, participation in residential treatment, incarceration, lack of transportation, or other situations.

(A) A chain-of-custody process shall be implemented to document the transportation, delivery, administration, and observation of medication when an individual is unable to report to the program as required.

(15) Diversion Control. OTPs shall maintain and implement a written diversion control plan as part of its performance improvement process. The plan shall contain specific measures to reduce the possibility of diversion of controlled substances from legitimate treatment use. Medical and administrative staff of the program shall be assigned to implement the diversion control measures and functions described in the diversion control plan.

(16) Interim Maintenance Treatment. The program sponsor of a public or private OTP may place an individual who is eligible for admission to comprehensive maintenance treatment into interim maintenance treatment, if he/she cannot be placed in a public or nonprofit private comprehensive OTP within a reasonable geographic area within fourteen (14) days of the individual’s application for admission to comprehensive
relapse prevention services that includes counseling, naloxone, who voluntarily choose this treatment option.

informed written consent shall be obtained from individuals withdrawal from maintenance therapy shall be provided, and medication, if needed. Review of the risks and benefits of plan shall include a strategy to transition to another form of maintenance treatment.

(C) Interim maintenance treatment shall be provided in a manner consistent with all applicable federal and state laws, including sections 1923, 1927(a), and 1976 of the Public Health Service Act (21 U.S.C. 300x-23, 300x-27(a), and 300y-11).

(D) The program shall notify the SOTA when an individual begins interim maintenance treatment, when he/she leaves interim maintenance treatment, and before the date of mandatory transfer to comprehensive maintenance treatment, documenting all notifications in the individual record.

(E) SAMHSA may revoke the interim maintenance authorization for a program that fails to comply with the provisions of this section of this rule.

(F) SAMHSA will consider revoking the interim maintenance authorization of a program if the state in which the program operates is not in compliance with the provisions of 42 CFR section 8.11(g).

(G) All requirements for comprehensive maintenance treatment apply to interim maintenance treatment with the following exceptions:

1. The opioid agonist treatment medication is required to be administered daily under observation;
2. Unsupervised (take-home) use is not allowed;
3. An initial treatment plan and periodic treatment plan reviews are not required;
4. A primary counselor is not required to be assigned to the individual;
5. Interim maintenance treatment shall not be provided for longer than one hundred twenty (120) days in any twelve- (12-) month period; and
6. The rehabilitative, educational, and other counseling services specified in section (4) of this rule are not required to be provided to the individual.

(17) Medically Supervised Withdrawal. The program shall maintain and implement written policies and procedures to ensure individuals are admitted to short- or long-term detoxification treatment (as defined in 42 CFR section 8.2.) by qualified staff, such as the program physician, who determines such treatment is appropriate by applying established diagnostic criteria. Medically supervised withdrawal may be voluntary or involuntary, as specified in sections (18) and (20) of this rule.

(A) The individual’s treatment plan and continuing recovery plan shall include a strategy to transition to another form of medication, if needed. Review of the risks and benefits of withdrawal from maintenance therapy shall be provided, and informed written consent shall be obtained from individuals who voluntarily choose this treatment option.

(B) Individuals shall be educated about the risks of a recurrence of symptoms and potential for fatal overdose following medically supervised withdrawal, and be offered relapse prevention services that includes counseling, naloxone, and opioid antagonist therapy.

(C) OTPs shall offer a variety of supportive options as part of the transition from opioid agonist therapy, such as increased counseling sessions prior to discharge, and individuals shall be encouraged to attend a twelve- (12-) step or other mutual-help program sensitive to the needs of individuals receiving treatment with medication.

(D) Individuals with two (2) or more unsuccessful detoxification episodes within a twelve- (12-) month period must be assessed by the program physician for other forms of treatment. A program shall not admit an individual for more than two (2) detoxification episodes in one (1) year.

(18) Voluntary Medically Supervised Withdrawal. Voluntary medically supervised withdrawal may be initiated by the person served or the program physician in collaboration with the individual as part of individualized treatment planning.

(A) As deemed clinically appropriate, women shall have a pregnancy test and the results reviewed prior to initiation of medically supervised withdrawal.

(B) For women who are pregnant, the physician shall not initiate withdrawal before fourteen (14) weeks or after thirty-two (32) weeks of pregnancy.

(C) If an individual experiences intolerable withdrawal symptoms or actual or potential return to use, the physician shall consider stopping the withdrawal process and restoring the individual to a previously effective dose. In collaboration with the individual served, the physician shall determine if an additional period of maintenance is necessary before further medically supervised withdrawal is attempted.

(D) Regardless of whether medically supervised withdrawal is conducted with or against medical advice (AMA), careful review of the risks and benefits of withdrawal from maintenance treatment must be provided to the individual and informed written consent obtained from those who choose to initiate medically supervised withdrawal.

(19) Withdrawal Against Medical Advice (AMA). Individuals who request voluntary medically supervised withdrawal from medication treatment AMA of the physician or program staff, may receive it. Individuals have the right to leave treatment when they choose to do so.

(A) The same services that are available to individuals engaged in voluntary medically supervised withdrawal shall be offered to individuals choosing medically supervised withdrawal AMA.

(B) The program must fully document the issue(s) that caused the individual to seek discharge, steps taken to avoid discharge, and the circumstances of readmission, as applicable.

(C) In the case of a woman who is pregnant, the program must keep the physician or agency providing prenatal care informed, consistent with the privacy standards of 42 CFR section 2.

(20) Involuntary Withdrawal from Treatment (Administrative Withdrawal). Individuals shall be retained in treatment for as long as they can benefit from it and express a desire to continue treatment. Administrative withdrawal is typically involuntary and shall be used only when all other therapeutic options have been exhausted by program staff. OTPs may refer or transfer individuals to a suitable alternative treatment program, as clinically indicated.

(A) Missing scheduled appointments and/or continued drug use shall not be the sole reason for initiating involuntary withdrawal for an individual being served.
(B) If involuntary withdrawal is initiated for an individual, the program shall follow the criteria included in the January, 2015 Federal Guidelines for Opioid Treatment Programs incorporated by reference and made a part of this rule as published by SAMHSA, Center for Substance Abuse Treatment, 1 Cherokee Rd., Rockville, MD 20857, (877) 726-4727, publication number (SMA) PEP15-FEDGUIDEOTP. This rule does not incorporate any subsequent amendments or additions to this publication.

(21) Medication Storage and Security. The program shall ensure the security of its medication supply and shall account for all medications kept on site at all times.

(A) The program shall meet the requirements of the DEA and BND.

(B) The program shall maintain an acceptable security system, and the system shall be checked on a quarterly basis to ensure continued safe operation.

(C) The program shall physically separate the narcotic storage and dispensing area from other parts of the facility used by individuals.

(D) The program shall implement written policies and procedures to ensure positive identification of all individuals before any medication is administered. Verification shall include a minimum of two (2) forms of identification.

(E) The program shall implement written policies and procedures for recording each individual’s medication intake and maintaining a daily medication inventory.

(22) Medication Units. Certified OTPs may establish medication units that are authorized to dispense opioid agonist treatment medications for observed ingestion. Services provided at the medication unit must comply with 42 CFR section 8.12.

(A) Prior to establishing a medication unit, the OTP must notify and receive prior approval from the SOTA/designee and SAMHSA by submitting form SMA-162. The required documents include, but are not limited to:

1. A description of how the medication unit will receive its medication supply;
2. An affirmative statement that the medication unit is limited to administering and dispensing the narcotic treatment drug and collecting samples for drug testing or analysis;
3. An affirmative statement that the program sponsor agrees to retain responsibility for individual treatment and care;
4. A diagram and description of the facility to be used as a medication unit;
5. Total number of individuals to be served by the primary OTP and medication unit;
6. Total number of individuals that will be served only at the medication unit;
7. A justification for the need to establish a medication unit; and
8. The name and address of any other active medication unit(s) attached to the primary OTP.

(B) A DEA inspection and approval must be obtained prior to opening a medication unit. A medication unit must have a separate and unique DEA registration.

(C) The OTP must comply with the provisions of 21 CFR part 1300 prior to establishing a medication unit.

(D) Medication units are not required to be free-standing entities and may be located at a hospital or community pharmacy, for example.

(E) The certified OTP shall be responsible for all operations of an approved medication unit.

(23) Mobile Units. A mobile unit, for the purpose of dispensing opioid agonist treatment medications to individuals for observed ingestion, may be established if approval is granted by the DEA allowing such units to be considered a coincidental activity of the registered OTP. OTPs shall follow all federal, state, and local regulations regarding the operation of a mobile unit.

(24) Exception Requests and Records of Justification. Any deviation from these regulations requires prior approval from the SOTA/designee and/or SAMHSA. Requests must be submitted on the Exception Request and Record of Justification form (SMA-168), SAMHSA, 5600 Fishers Ln., Rockville, MD 20857, (240) 276-2710.

(A) OTPs shall follow department requirements for submitting form SMA-168 to the SOTA/designee and or/SAMHSA. Failure to submit the completed form and obtain prior approval from the SOTA/designee and/or SAMHSA constitutes a regulatory violation which may jeopardize the OTP’s accreditation and certification status.

(B) SAMHSA and the SOTA/designee must be notified of any change to the OTP sponsor or medical director within three (3) weeks of the change by submitting SAMHSA form SMA-162 in accordance with established procedures.

9 CSR 30-3.134 Gambling Disorder Treatment

PURPOSE: This rule describes the specific service delivery requirements for gambling disorder treatment.

PUBLISHER’S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(I) Service Functions. The key functions of gambling disorder treatment and rehabilitation services shall include:

(A) Utilizing evidence-based treatment principles to promote positive changes in gambling behavior and lifestyle;
(B) Exploring the gambling behavior and its impact on self, marriages, partnerships, and families;
(C) Helping the person to better understand his/her needs and how to constructively meet them;
(D) Teaching effective methods to deal with urges to gamble to include use of medication assisted treatment as indicated;
(E) Enhancing motivation and creative problem-solving for the individual and his/her family and other natural supports;
(F) Addressing financial problems incurred as a result of the gambling behavior with appropriate referrals, as needed; and
(G) Determining suicide risk and the presence of co-occurring behavioral health factors to determine the need for ancillary treatment services.

(2) Treatment Goals and Performance Outcomes. Indicators of a positive treatment outcome include the reduction or cessation of gambling behavior, as well as improvements and/or involvement in family and other natural support relationships, leisure and social activities, educational/vocational functioning, legal status, psychological functioning, and financial situation.

(3) Eligibility Criteria. Eligibility for gambling disorder treatment shall be based on criteria for persistent and recurrent problematic gambling behavior as defined in the 5th edition of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association, 800 Maine Avenue, S.W., Suite 900, Washington, DC 20024, www.psychiatry.org and does not include any later amendments or additions. There must be documentation in the individual record of the specific behaviors and circumstances demonstrating how the person meets treatment criteria. The department may require the use of designated instruments for the admission and eligibility determination processes for individuals receiving services funded by the department. The referenced guide does not include any later amendments or additions.

(4) Available Services. Gambling disorder treatment services shall be offered on an individual, family, and group basis in an outpatient setting. Available services include individual counseling, group education and counseling, family therapy, and collateral relationship counseling.

(A) Each individual shall be oriented to and encouraged to participate in mutual support groups, if available.
(B) Family members and other natural supports of persons with a gambling disorder shall be encouraged to participate in treatment. Such participation does not include counseling sessions for family members and other natural supports on an ongoing basis to resolve other personal problems or other behavioral health disorders.
(C) The treatment provider shall arrange other services and make referrals to address other problems the individual or the family may have such as, financial problems, substance use, or other behavioral health disorders.

(5) Clinical Review and Data Reporting. Services are subject to clinical review by the department in accordance with 9 CSR 10-7.030. Providers shall comply with data reporting requirements established by the department for individuals whose services are funded by the department.

(6) Certified Gambling Disorder Counselor. A certified gambling disorder counselor demonstrates substantial knowledge and skill in the treatment of individuals with persistent and recurrent problematic gambling behavior by having completed a designated training program sponsored or approved by the Missouri Credentialing Board, and being either—

(A) A counselor, clinical social worker, psychologist, or physician licensed in Missouri by the Division of Professional Registration; or
(B) Possess a qualifying certified level credential as designated by the Missouri Credentialing Board.

(7) Credentialing of Gambling Disorder Counselors. The Missouri Credentialing Board designates the credential of a gambling disorder counselor to individuals who meet the qualifications specified in this rule. This credential is a requirement for providing gambling disorder counseling services eligible for funding by the department.

(A) A person may request an application for the Gambling Disorder Counselor credential from the Missouri Credentialing Board, 428 E. Capitol Avenue, 2nd Floor, Jefferson City, MO 65101, (573) 616-2300, www.missouricb.com.

(B) The credential is issued for a period of time coinciding with the period of licensure or certification otherwise required of the applicant, up to a maximum period of two (2) years.

(C) The credential may be renewed upon further application and verification that the counselor continues to meet all qualifications. For renewal, the applicant must have received during the past two (2) years at least fourteen (14) hours of training sponsored or approved by the Missouri Credentialing Board that is directly related to the treatment of gambling disorders.

(D) Credentialled counselors shall adhere to the code of ethics for their profession in providing services for individuals with gambling disorders.

1. Any complaint or grievance received by the department regarding a counselor providing services to individuals for a gambling disorder shall be forwarded to the applicable licensure or certification body.

2. Any sanction arising from a code of ethics violation shall be deemed as applying equally to the gambling disorder credential.

AUTHORITY: sections 313.842, 630.050, and 630.655, RSMo 2016.*

9 CSR 30-3.140 Residential Treatment

PURPOSE: This rule describes the goals, eligibility and discharge criteria, available services, and performance indicators for residential treatment.

(I) Treatment Goals. Residential treatment shall offer an intensive set of services in a structured alcohol- and drug-free setting. Services shall be organized and directed toward the primary goals of—

(A) Stabilizing a crisis situation, where applicable;
(B) Interrupting a pattern of extensive or severe substance abuse;
(C) Restoring physical, mental and emotional functioning;
(D) Promoting the individual’s recognition of a substance abuse problem and its effects on his/her life;
(E) Developing recovery skills, including an action plan for continuing sobriety and recovery; and
(F) Promoting the individual’s support systems and community reintegration.
(2) Eligibility Criteria. In order to fully participate in and benefit from the intensive set of services offered in residential treatment, a person must meet the following admission and eligibility criteria:

(A) Does not demonstrate symptoms of intoxication, impairment or withdrawal that would hinder or prohibit full participation in treatment services. A screening instrument, that includes vital signs, must be used with all respective clients to identify symptoms of intoxication, impairment, or withdrawal and, when indicated, detoxification services must be provided or arranged;

(B) Needs an alternative, supervised living environment to ensure safety and protection from harm;

(C) Meets the general treatment eligibility requirement of a current diagnosis of substance abuse or dependence and, in addition, demonstrates one or more of the following—
   1. Recent patterns of extensive or severe substance abuse;
   2. Inability to establish a period of sobriety without continuous supervision and structure;
   3. Presence of significant resistance or denial of an identified substance abuse problem; or
   4. Limited recovery skills and/or support system; and

(D) A client may qualify for transfer from outpatient to residential treatment if the person—
   1. Has been unable to establish a period of sobriety despite active participation in the most intensive set of services available on an outpatient basis; or
   2. Presents imminent risk of serious consequences associated with substance abuse.

(3) Safety and Supervision. The residential setting shall ensure the safety and well-being of persons served.

(A) Staff coverage shall ensure the continuous supervision and safety of clients.

1. There shall be an adequate number of paid staff on duty (awake and dressed) at all times. At least two (2) staff shall be on duty, unless otherwise stipulated in these rules or authorized in writing by the department through the exceptions process. Additional staff shall be required, if warranted by the size of the program and the responsibilities and duties of the staff members.

2. Clients shall be supervised at all times by a staff member with current certification in first aid and cardiopulmonary resuscitation.

(B) The program shall immediately and effectively address any untoward or critical incident including, but not limited to, any incident of alcohol or drug use by a client on its premises.

(4) Intensive Services with Individualized Scheduling. Services shall be responsive to the needs of persons served.

(A) There shall be a current schedule of program activities that offers a minimum of fifty (50) hours of structured, therapeutic activity per week.

1. Therapeutic activities shall be provided seven (7) days per week.

2. Group education and group counseling must constitute at least twenty (20) of the required hours of therapeutic activity per week.

(B) At least one (1) hour of individual counseling per week shall be provided to each client. Additional individual counseling shall be provided, in accordance with the individual's needs.

(5) Discharge Criteria. Each client's length of stay in residential treatment shall be individualized, based on the person's needs and progress in achieving treatment goals.

(A) To qualify for successful completion and discharge from residential treatment, the person should—
   1. Demonstrate a recognition and understanding of his/her substance abuse problem and its impacts;
   2. Achieve an initial period of sobriety and accept the need for continued care;
   3. Develop a plan for continuing sobriety and recovery;
   4. Take initial steps to mobilize supports in the community for continuing recovery.

(B) A person may be discharged before accomplishing these goals if maximum benefit has been achieved and—
   1. No further progress is imminent or likely to occur;
   2. Clinically appropriate therapeutic efforts have been made by staff; and
   3. Commitment to continuing care and recovery is not demonstrated by the client.

(6) The program handles applications for continued civil detention in accordance with sections 631.140, 631.145 and 631.150, RSMo 2000.
(1) Waivers shall be temporary and time limited.
(A) Initial granting and renewal of clinical privileges shall be based on—
1. Well-defined written criteria for qualifications, clinical competence, and ethical practice related to the goals and objectives of the program;
2. Verified licensure, certification, or registration, if applicable;
3. Verified training and experience;
4. Recommendations from the agency’s program, department service, or all of these, in which the practitioner will be or has been providing service;
5. Evidence of current competence;
6. Evidence of health status related to the practitioner’s ability to discharge his/her responsibility, if indicated; and
7. A statement signed by the practitioner that he/she has read and agrees to be bound by the policies and procedures established by the provider and governing body.

(D) Renewal or revision of clinical privileges shall also be based on—
1. Relevant findings from the CSTAR program’s quality assurance activities; and
2. The practitioner’s adherence to the policies and procedures established by the CSTAR program and its governing body.

(E) As part of the privileging process, the CSTAR program shall establish procedures to—
1. Afford a practitioner an opportunity to be heard, upon request, when denial, curtailment, or revocation of clinical privileges is planned;
2. Grant temporary privileges on a time-limited basis; and
3. Ensure that non-privileged staff receive close and documented supervision from privileged practitioners until training and experience are adequate to meet privilege requirements.

(4) Training and Staff Competencies. Direct care staff and staff providing supervision to direct care staff shall complete training in the service competency areas listed below.

(A) Competent staff shall—
1. Operate from person-centered, person-driven, recovery-oriented, and stage-wise service delivery approaches that promote health and wellness;
2. Develop cultural competence that results in the ability to understand, communicate with, and effectively interact with people across cultures;
3. Deliver services according to key service functions that are evidence-based and best practices;
4. Practice in a manner that demonstrates respect and understanding of the unique needs of persons served;
5. Use effective strategies for engagement, re-engagement, relationship-building, and communication; and
6. Be knowledgeable of mandated reporting requirements for abuse and neglect of children and reporting requirements related to abuse, neglect, or financial exploitation of senior citizens and individuals who are disabled.

(B) Staff providing supervision to community support specialists must have additional training or experience in order to be knowledgeable in the supervision competency areas listed below. Competent supervisors—
1. Practice in a manner that demonstrates use of management strategies that focus on individual outcomes, care coordination, collaboration, and communication with other service providers both within and external to the organization;
2. Ensure new and existing staff are competent by providing training/supervision, guidance and feedback, field mentoring, and oversight of services to individuals served by the team;
3. Ensure processes exist for tracking and review of data such as missed appointments, hospitalization and follow-up care, crisis responsiveness and follow-up, timeliness and quality of documentation, and need for outreach and engagement; and
4. Monitor and review services, interventions, and contacts with individuals served to ensure services are implemented according to individualized treatment plans or crisis prevention plans, evaluate the effectiveness and appropriateness of services in achieving recovery/resiliency outcomes in areas such as housing, employment, education, leisure activities, and family, peer, and social relationships.

(C) New staff shall job shadow their supervisor and/or experienced staff in a position equivalent to their qualifications and skill level.

(D) Staff shall receive ongoing and regular clinical supervision.

(E) A written plan shall be developed indicating how competencies will be measured and ensured for all staff providing direct services and staff providing supervision including, but not limited to, some combination of the following:
1. Testing;
2. Observation/field supervision;
3. Clinical supervision/case discussion;
4. Quality review of case documentation;
5. Use of relevant findings from quality assurance activities;
6. Satisfaction with services as conveyed by individuals served and family members/natural supports;
7. Stakeholder/interagency satisfaction with services; and
8. Treatment outcomes for individuals and family members/natural supports.

(F) Demonstrated competency must be documented within the first six (6) months of employment with the CSTAR program.

(G) Staff shall participate in at least thirty-six (36) clock hours of relevant training during any two (2) year period. A minimum of twelve (12) clock hours of training must be completed annually.

(H) Documentation of all orientation, training, job shadowing, and supervision activities must be maintained and available for review by department staff or other authorized representatives.

(I) Documentation of training must include the topic, date(s) and length, skills targeted/objective of skill, certification/continuing education units (as applicable), location, and name, title, and credentials of instructor(s).

AUTHORITY: sections 630.050, 630.655, and 631.010, RSMo 2016.*

9 CSR 30-3.157 Community Support in Comprehensive Substance Treatment and Rehabilitation (CSTAR) Programs

PURPOSE: This rule establishes the requirements for community support services provided in CSTAR programs.

(I) Service Delivery. The CSTAR program shall establish an identifiable unit which coordinates and provides community support services for children, youth, families, and/or adults. The unit shall be organized to perform functions within the scope of community support services, including critical interventions.

(2) Policies and Procedures. The CSTAR program shall implement policies and procedures to provide adequate, appropriate, and effective community support services to individuals. Policies and procedures shall include:

(A) A mechanism to assure the provision of all needed substance use disorder treatment services, as indicated in the individual’s current treatment plan;

(B) A mechanism to assure the provision of all needed services in addition to those provided by the CSTAR program, as indicated in the individual’s current treatment plan;
(C) A method for assigning individuals to a community support specialist or team, including:

1. Procedures to assure each individual is afforded an opportunity to express preferences in the selection of a community support specialist; and

2. A mechanism to assure all individuals admitted who need community support are assigned to an active caseload of a community support specialist;

(D) A process to assure an effective transfer and follow-up of an individual between or among community support specialists or community support teams. Staff shall document the rationale for the transfer, the individual's acceptance, and follow-up by the community support specialist in the clinical record;

(E) A process for determining overall increase or decrease in the level of functioning for individuals served through ongoing performance improvement activities;

(F) A method to assure staff providing community support services in the CSTAR program have the opportunity to participate and contribute to the agency's performance improvement process;

(G) Development of suitable revisions to treatment goal(s) as indicated by growth or deterioration of individual functioning and/or condition; and

(H) Program and aggregate evaluation activities to determine effectiveness of services delivered.

(3) Staff Requirements. The CSTAR program shall ensure an adequate number of appropriately qualified staff are available to provide community support services and functions.

(A) Qualified staff includes:

1. A qualified addiction professional (QAP) as defined in 9 CSR 10-7.140;

2. A qualified mental health professional (QMHP) as defined in 9 CSR 10-7.140;

3. An individual with a bachelor's degree in a human services field which includes social work, psychology, nursing, education, criminal justice, recreational therapy, human development and family studies, counseling, child development, gerontology, sociology, human services, behavioral science, and rehabilitation counseling;

4. An individual with any four (4) year combination of higher education and qualifying experience;

5. An individual with any four (4) year degree and two (2) years of qualifying experience;

6. An individual with an Associate of Applied Science in Behavioral Health Support degree from an approved institution; or

7. An individual with four (4) years of qualifying experience.

(B) Qualifying experience must include delivery of services to individuals with mental illness, substance use disorders, or developmental disabilities. Experience must include some combination of the following:

1. Providing one-on-one or group services with a rehabilitation/habilitation and recovery/resiliency focus;

2. Teaching and modeling for individuals how to cope and manage psychiatric, developmental, or substance use disorder issues while encouraging the use of natural resources;

3. Supporting individuals in their efforts to find and maintain employment and/or to function appropriately in family, school, and community settings; and

4. Assisting individuals to achieve the goals and objectives in their individual treatment plan.

(C) It is the responsibility of the CSTAR program to document how staff meet the qualifications based on the criteria in subsections (3)(A) and (3)(B) of this rule.

(D) Community support specialists must also complete orientation and training required by the department.

(E) Community support specialists must be supervised by –

1. A qualified addiction professional (QAP);

2. A qualified mental health professional (QMHP);

3. Staff possessing a Master's degree in a behavioral health or related field who has completed a practicum or has one (1) year of experience in a behavioral health field; or

4. Staff who meet the qualifications of a community support specialist with at least three (3) years of population-specific experience providing community support services in accordance with the key service functions specified in paragraphs (5)(B)1. to 8. of this rule.

(F) Community support supervisors who are not a QAP or QMHP must be supervised by a QAP or QMHP.

(4) Monitoring. To the extent the individual is able to participate, periodic observation and monitoring shall take place in his/her home or other community location as stipulated in the individual treatment plan.

(A) Observation and monitoring shall be documented including, but not limited to:

1. Assessment of the individual's mental health status and/or substance use;

2. Safety and home care; and

3. Functional abilities and skill transference related to activities of daily living including educating, demonstrating, observing, and practicing skills in his/her environment.

(B) Observation and monitoring shall take place in any

1. Procedures to assure each individual is afforded an opportunity to express preferences in the selection of a community support specialist;

2. A mechanism to assure all individuals admitted who need community support are assigned to an active caseload of a community support specialist;

3. Observation and monitoring shall be documented including, but not limited to:

4. Monitoring. To the extent the individual is able to participate, periodic observation and monitoring shall take place in his/her home or other community location as stipulated in the individual treatment plan.

(A) Observation and monitoring shall be documented including, but not limited to:

1. Assessment of the individual's mental health status and/or substance use;

2. Safety and home care; and

3. Functional abilities and skill transference related to activities of daily living including educating, demonstrating, observing, and practicing skills in his/her environment.

(B) Observation and monitoring shall take place in any

1. Procedures to assure each individual is afforded an opportunity to express preferences in the selection of a community support specialist;

2. A mechanism to assure all individuals admitted who need community support are assigned to an active caseload of a community support specialist;

3. Observation and monitoring shall be documented including, but not limited to:

4. Monitoring. To the extent the individual is able to participate, periodic observation and monitoring shall take place in his/her home or other community location as stipulated in the individual treatment plan.

(A) Observation and monitoring shall be documented including, but not limited to:

1. Assessment of the individual's mental health status and/or substance use;

2. Safety and home care; and

3. Functional abilities and skill transference related to activities of daily living including educating, demonstrating, observing, and practicing skills in his/her environment.

(B) Observation and monitoring shall take place in any
directions and carry out school assignments, appropriate study habits, and identifying and addressing behaviors that interfere with school performance; and

C. Obtaining and maintaining housing in the least restrictive setting including, but not limited to, issues related to nutrition, meal preparation, and personal responsibility;

3. Supporting and assisting individuals in a crisis to access needed treatment services to resolve the crisis;

4. Continuing recovery planning and discharge planning with individuals who are hospitalized for a medical or behavioral health condition;

5. Assisting individuals, other natural supports, and referral sources in identifying risk factors related to relapse in mental illness and/or substance use disorders, developing strategies to prevent relapse, and advising and otherwise assisting individuals in implementing those strategies;

6. Promoting the development of positive support systems by providing information to family members/natural supports, as appropriate, regarding mental illness, emotional disorders, and/or substance use disorders and ways they can be of support to their family member's recovery. Such activities must be directed toward the primary well-being and benefit of the individual served;

7. Developing and advising individuals on implementing lifestyle changes needed to cope with the side effects of psychotropic medications and/or to promote recovery/resiliency from the disabilities, negative symptoms, and/or functional deficits associated with a mental illness, emotional disorder, and/or substance use disorder; and

8. Advising individuals on maintaining a healthy lifestyle including, but not limited to, recognizing the physical and psychological signs of stress, creating a self-defined daily routine that includes adequate sleep and rest, walking or exercise and appropriate levels of activity and productivity, involvement in creative or structured activities that counteract negative stress responses, learning to assume personal responsibility and care for minor illnesses, and knowing when professional medical attention is needed.

(6) Documentation. Documentation must be maintained in the individual record for each community support session, service, or activity in accordance with 9 CSR 10-7.030(13). The following must also be documented:

(A) Phone contacts; and/or

(B) Pertinent/significant information reported by family members/natural supports regarding a change in the individual's condition and/or an unusual or unexpected occurrence in his/her life.

9 CSR 30-3.160 Institutional Treatment Centers

PURPOSE: This rule describes the certification requirements, service delivery process, and staff qualifications for substance use disorder treatment programs within Department of Corrections' (DOC) institutions, referred to in this rule as Institutional Treatment Centers (ITCs).

(I) Definitions. The following definitions apply to terms used in this rule.

(A) Behavior contract – therapeutic intervention consisting of a written, time limited specific plan of behavior to be followed by the offender that is designed to assist him/her in modifying inappropriate behavior.

(B) Cardinal Rules – prohibitions that maintain the integrity of the treatment community or unit, protect against dangers to the community or unit, and ensure physical and psychological safety for all offenders and staff. Cardinal Rules include: all DOC major conduct rules 1-9 and minor assault; possession/use of an intoxicating substance/threats; sexual misconduct; theft; fighting; gambling; destroying property; and any written or verbal acts of discrimination to include race, creed, or gender.

(C) Clinical Director – staff member responsible for supervising the clinical services and/or programs of a DOC substance use disorders treatment center or ITC.

(D) Counseling services – address offender needs in an individual or group setting, provided by staff employed as treatment professionals who are supervised by experienced and/or credentialed supervisors. Counseling services involve processing of information in a collaborative fashion.

(E) Group counseling – face-to-face, goal-oriented therapeutic interaction between a treatment professional and no fewer than three (3), and no more than fifteen (15) offenders.

(F) Individual counseling – structured, goal-oriented therapeutic process in which the offender interacts on a face-to-face basis with a treatment professional to address problems identified on their individual treatment plan.

(G) Individual treatment plan – structured and individualized plan that directs an offender's treatment. The plan includes assessment information and the offender’s needs, program areas, and concerns to develop goals, objectives, and interventions to address the areas identified.

(H) Lack of therapeutic gain – an offender’s consistent or serious failure to apply reasonable effort and attainment of therapeutic goals as documented by the substance use disorders treatment team. An offender must show a continued pattern of negative behavior in areas such as therapeutic programming engagement, program expectations, and/or institutional rule violations. All levels of therapeutic intervention are utilized prior to an unsuccessful exit for lack of therapeutic gain.

(I) Offender Management Team (OMT) – therapeutic in nature and utilized to address an offender’s problematic actions in an attempt to re-direct the offender towards appropriate behavior so he/she can be successful in treatment. The team consists of at least two (2) staff members, one (1) of which is a treatment staff member, and one (1) from classification, probation and parole, or custody.

(J) Program Review Committee (PRC) – committee that evaluates an offender’s progress in treatment and recommends continuation or exit from the program. The committee consists of at least three (3) staff members from the following areas: treatment, classification, custody, and/or probation and parole, as available. At least one (1) treatment staff member must be present. The chairperson is a substance use disorders unit supervisor, a functional unit manager, or a DOC (non-contracted) clinical director. A PRC is therapeutic in nature and addresses an offender's behavior and progress in the program. The PRC can be utilized to reengage an offender in the program, or to remove an offender via a no-fault or unsuccessful exit, if reengagement is determined not to be an option.

(K) Progress notes – entries by appropriate treatment staff documenting the offender’s activities, progress toward achievement of the substance use disorders treatment plan goals, treatment contacts, significant events, services delivered, and future follow up.
(L) Recovery-oriented therapeutic class—didactic presentation of
general information regarding substance use disorders,
criminality and related topics, and the practical application
of the information through group discussion, and as directed
by the offender's treatment plan. The number of participants
shall not exceed the comfort and safety level of the room
utilized.

(M) Recovery support groups—voluntary associations of
people who share a common desire to overcome a substance
use disorder. Different groups use different methods, and the
approaches range from completely secular to explicitly spiritual.
In an ITC, abstinence from substance use is a requirement and
expectation. Programs that provide spiritually-based groups
such as Alcoholics Anonymous and Narcotics Anonymous must
provide secular options as well.

(N) Structured recreational activity—scheduled and organized
recreational activities that do not include a classroom/process
component.

(O) Substance use disorders education—a therapeutic service
designed to provide information on topics regarding substance
use, addictions, and recovery. The information is provided to
offenders through didactic and interactive educational methods
and may be reinforced through homework assignments.

(P) Substance use disorders treatment file—the record of
information established by assigned treatment staff pertaining
to an offender's progress during participation in a substance
use disorders treatment program.

(Q) Substance use disorders treatment plan—document
recording each offender's individualized treatment goals and
objectives, interventions to address the objectives, and his/her
progress in the ITC.

(R) Substance use disorders treatment team—a group of
professionals comprised of contracted treatment staff, DOC
treatment staff, and other DOC staff who work collaboratively
to guide the offender's progress on his/her substance use
disorders treatment plan and within the ITC.

(S) Therapeutic community—residential substance use
disorders treatment model in which participants are designated
as families and/or communities. Staff members are considered
rational authorities and the community itself is considered the
primary agent of change.

(T) Therapeutic family—the institutional therapeutic
community participants.

(U) Therapeutic gain—achievement of therapeutic goals
and objectives established by the treatment plan, and
growth toward responsible behavior as indicated by active
participation, following rules, and personal application of ITC
principles and concepts.

(V) Therapeutic interventions—tools for bringing negative
or positive behaviors and attitudes to the awareness of an
offender's therapeutic family to assist him/her in achieving and/or reinforcing therapeutic goals and growth toward
responsible behaviors.

(W) Therapeutic services—have defined therapeutic benefit,
are led or facilitated primarily by treatment staff, and may be
provided in collaboration with other DOC or contracted staff.

(X) Treatment plan review—documented discussion between
a treatment professional and the offender regarding specific
treatment plan goals and objectives and progress made toward
the goals and objectives. Written changes to the treatment plan
are considered treatment plan updates. This is a component of
each one-on-one (individual) counseling contact.

(Y) Treatment plan update—occurs in the course of a
treatment plan review with the offender when a change to
the plan is appropriate, such as the addition of new goals or
objectives and closing of completed goals and objectives.

(2) Program Certification and Applicable Regulations.
Institutional Treatment Centers (ITCs) applying for program
certification from the Department of Mental Health
(department) shall comply with requirements set forth in 9 CSR
10-7.130. Other department regulations applicable to certified
ITCs, in full or in part, are specified in this rule.

(A) ITCs shall comply with the following department
regulations without modification:
1. 9 CSR 10-7.030; and
2. 9 CSR 10-7.140.

(B) ITCs shall comply with the following department
regulations as specified:
1. 9 CSR 10-7.010, with the exception of subsection (6)(B);
2. 9 CSR 10-7.020, with the exception of paragraphs (3)
(A)10., (3)(B)5., and (4)(C)1.;
3. 9 CSR 10-7.040, with the exception of subsection (2)(A);
4. 9 CSR 10-7.110, with the exception of subsection (2)(C),
paragraph (2)(F)1., and section (4); and
5. 9 CSR 30-3.032, subject to the modifications specified in
this rule.

(C) The following department regulations are waived for ITCs
unless it is determined a specific requirement is applicable due
to the unique circumstances and service delivery methods of
a particular ITC:
1. 9 CSR 10-5.190;
2. 9 CSR 10-5.200;
3. 9 CSR 10-7.035;
4. 9 CSR 10-7.050;
5. 9 CSR 10-7.060;
6. 9 CSR 10-7.070;
7. 9 CSR 10-7.080, the application for program certification
must include documentation verifying the ITC's dietary staff,
services, and facility comply with applicable DOC dietary
requirements;
8. 9 CSR 10-7.090;
9. 9 CSR 10-7.100;
10. 9 CSR 10-7.120, the application for program certification
must include documentation verifying the ITC complies
with DOC safety requirements including fire, emergency
preparation, security, cleanliness, and comfort; and
11. 9 CSR 30-3.100.

(3) ITC Services. Services delivered within an ITC shall provide
a structured array of therapeutic processes and interventions
to affect cognitive and behavioral changes for individuals
who are incarcerated. Services shall address the individual's
substance use disorder(s) and/or addiction and criminality.

(A) A treatment week for each individual in the program
consists of a minimum of twenty-five (25) hours of treatment
services, regardless of program length, and includes, at a
minimum:
1. Two (2) hours of group counseling provided to groups
of offenders, in addition to the individual counseling contact
specified in paragraph (3)(B)5. of this rule;
2. Eighteen (18) hours of therapeutic services; and
3. Five (5) hours of adjunctive services.

(B) Counseling services identify individual needs and group
needs of offenders. Services are provided by staff employed as
treatment professionals who are supervised by experienced
and/or credentialed supervisors as specified in section (8)
of this rule. Regardless of program length, counseling services for
each offender shall include:
1. An initial individual counseling contact within seven (7)
calendar days of program admission;
2. An assessment and assessment interview within ten (10) calendar days of program admission;
3. Treatment planning and treatment planning follow-up sessions. The initial treatment plan must be completed within ten (10) calendar days of program admission, and treatment plan reviews shall occur at forty-five (45) day intervals at a minimum;
4. A minimum of two (2) hours of group counseling per week, and the maximum group size is fifteen (15) individuals;
5. A minimum of one (1) contact hour of individual counseling per month; and
6. Mental health counseling and group counseling, as applicable.

(4) Therapeutic Services. Therapeutic services have defined therapeutic benefit and are led or facilitated primarily by treatment professionals. Services may be provided in collaboration with other DOC staff or contracted staff.

(A) Therapeutic services include—
1. Recovery-oriented therapeutic classes, a minimum of four (4) hours per week, to be counted toward the therapeutic activities allowance;
2. Education classes or classroom videos related to substance use disorders with clarifying discussions and/or assignments, with no more than eight (8) hours per week to be counted toward the therapeutic activities allowance;
3. Therapeutic community groups with treatment staff physically present;
4. Impact of Crime on Victims Classes (IC/VC) with interdisciplinary facilitation;
5. Anger management with interdisciplinary facilitation;
6. DOC-approved cognitive skills program with interdisciplinary facilitation;
7. Employment skills and/or life-skills classes;
8. Waysafe and/or other health-related HIV/hepatitis classes;
9. Recovery support groups facilitated by staff or an approved DOC volunteer;
10. Case management for release planning;
11. Reentry services and groups;
12. Work release hours, if accompanied by journaling and/or homework assignments;
13. Institutional jobs, if accompanied by journaling and/or homework assignments;
14. Therapeutic community job assignment at or above coordinator level;
15. High School Equivalency (HSE), Adult Education Literacy (AEL), and/or vocational classes, if accompanied by journaling and/or homework assignments;
16. Structured recreational activities with staff supervision; and
17. Graduation/program completion ceremony.

(B) Exit from an ITC program may occur based on the following:
1. Successful program exit—indicated when an offender has met program expectations by remaining in the treatment program for the duration of the assigned treatment episode as defined by governing laws and policies, and has successfully completed the objectives on their individualized treatment plan. The quality of the completion is to be described in the offender's exit/discharge summary and in any report initiated by the treatment provider to probation and parole and/or to the court;
2. No fault program exit/transfer—indicated when an offender's continued participation in the program is no longer feasible due to factors out of his/her control. Examples of no fault program exit/transfer include protective custody needs, increases in classification scores, or a need for federally-mandated services such as medical, mental health, and special education that exceed the capability of institutional staff to provide; and
3. Unsuccessful program exit—indicated when an offender poses a true threat to other offenders and/or staff, endangers the security of the treatment unit, causes significant and repeated disruptions, and/or endangers the program success of other offenders. Due to the important role of treatment in recovery from substance use disorders and criminal behavior, unsuccessful program exits should be held to a minimum.

A. Due to the significant consequences that may follow an offender’s unsuccessful exit from an ITC, the minimal efforts, guidelines, and protocols explained in section (14) of this rule shall be followed and documented.

B. When determined necessary, offenders enrolled in an ITC may receive an unsuccessful program exit in accordance with DOC policies and procedures.

(7) Service Delivery and Documentation Requirements. All services provided for offenders shall be delivered and documented as specified in this rule.

(A) An assessment must be completed within ten (10) calendar days of the offender's admission to the ITC. If an assessment was completed within the twelve (12) months prior to the individual's admittance to the ITC and it is obtained for the treatment file, a new assessment may not be necessary. Documentation of the assessment must be included in the treatment and classification file (record) of each offender and
include verification that the assessment report was reviewed with the individual. Documentation remains the same regardless of when the assessment was completed or obtained. The assessment shall include, but is not limited to:

1. Demographic and identifying information for the offender;
2. Statement of needs, goals, and treatment expectations from the offender;
3. Presenting situation/problem and referral source;
4. History of previous psychiatric and/or substance use disorders treatment, including number and type of admissions;
5. Alcohol and drug use for the thirty (30) days prior to current incarceration, during incarceration, and substance use history including duration, patterns, and consequences of use;
6. Current psychiatric symptoms;
7. Family, social, legal, vocational/educational status, and functioning, including history, if appropriate;
8. Personal and social resources and strengths, including the availability and use of family, social, peer, and other natural supports;
9. Stage of motivation; and
10. Screening using a DOC-approved instrument.

(B) An individualized treatment plan shall be developed based on the results of the offender's assessment. The plan is developed in collaboration with the offender within ten (10) working days of his/her admission to treatment. The treatment plan must reflect the offender’s unique needs and goals. Documentation of the treatment plan interview shall be made in each offender's treatment record and include his/her involvement in the treatment planning process. The treatment plan shall be signed by the staff person and the offender and shall include, but is not limited to:

1. Goals and measurable objectives;
2. Interventions to accomplish each objective—documentation includes specific supports, actions, and services, and identifies the staff member responsible for providing the services/supports and action steps of the offender and members of his/her support system (such as family, social, peer, and other natural supports);
3. Involvement of family, when possible;
4. Service needs beyond the scope of ITC staff that are provided or assisted by other disciplines within the institution or through referral to other community resources and organizations, as applicable;
5. Projected time frame for the completion of each objective; and
6. Estimated program completion/exit date.

(C) Review of the treatment plan, objectives, and program progress shall be conducted and documented in the offender's treatment file a minimum of every forty-five (45) days. Each offender shall actively participate in the review of his/her treatment plan. The plan and objectives shall be updated, as appropriate, to reflect individual needs, accomplishments, and progress.

(D) A discharge summary shall be completed and entered in the treatment file within three (3) working days of an offender's transfer or exit from the ITC. The discharge summary shall include, but is not limited to:

1. ITC admission and exit dates;
2. Reason for admission and referral source;
3. Assessment summary;
4. Statement of the problem;
5. Description of treatment services provided and progress achieved;
6. Continuing care recommendations;
7. Reason and type of treatment program exit;
8. Known medical and/or mental health needs that may require ongoing support services, if available; and
9. Other service needs, if applicable.

(E) A relapse prevention/continuing care plan shall be completed with the offender and specific resources provided to him/her prior to exit from the ITC. The plan shall identify services, designated provider(s) of support services, and other planned activities designed to promote continuing recovery.

(F) Individual counseling contacts shall be documented in progress notes and include, at a minimum:

1. Description of the specific service provided;
2. The date and actual time (beginning and ending times) the contact was rendered;
3. Name and title of the treatment professional who rendered the service;
4. Reference to specific objectives addressed within the individualized treatment plan;
5. Description of the individual’s response to services provided; and
6. Planned follow-up by the treatment professional and the offender.

(G) Individual treatment records shall be maintained by staff of the ITC and delivery of services must be recorded in a timely manner, as follows:

1. All entries are legible, clear, complete, and accurate;
2. All entries are dated and authenticated by the treatment professional providing the service, including name, title, and credential(s), as applicable;
3. Errors are indicated in the paper copy by the staff member marking through the error with a single line, initialing, and dating the correction;
4. Language is clear and concise, so it is readily understood by anyone reading the document, even if they are not familiar with the environment, profession, or discipline of substance use disorders or corrections; and
5. Acronyms, abbreviations, professional slang, or jargon is not used.

(H) All required documentation and forms shall be signed and dated by staff and the offender, as indicated. Documentation in the offender’s record shall include, but is not limited to, the following:

1. Forms related to program orientation, with signed acknowledgement of receipt by the offender, including:
   A. Consent to treatment;
   B. Rights and responsibilities;
   C. Institutional treatment contract;
   D. Authorization for disclosure of medical/health information;
   E. Grievance process;
   F. Handbook;
   G. Receipt of orientation; and
   H. Verification of program options for self-help groups and information about the availability of self-help groups and related materials;
2. Assessment summary, with offender’s signature;
3. Individualized treatment plan, with offender’s signature;
4. Treatment plan reviews, with offender’s signature;
5. Services delivered;
6. Treatment progress and any development, crisis, or significant incident occurring during the treatment episode;
7. Referrals, if made while the offender is in the ITC, including applicable release of information, as needed, and any known outcomes;
8. Missed appointments and efforts to reengage;
9. Behavior contract, effort, and outcomes;
10. Conduct violation reports and applied sanctions;
11. Offender Management Team (OMT), Program Review Committee (PRC), and all significant therapeutic staffing; and
12. Discharge summary, with plan for continuing recovery to address ongoing needs, as identified.

(I) A schedule of program services, groups, and other structured activities shall be maintained by the ITC and be readily available to offenders on site.

A program log shall be maintained to record any cancelled sessions, including the name, time, date, and reason for the cancellation.

A supervisor or program manager shall review the program log on a monthly basis, at a minimum.

A record of small process groups shall be maintained indicating beginning and ending times, individuals in attendance, and the name of the staff member providing the service. This record may be retained electronically.

8) Staff Requirements. This section identifies the qualifications, ratios, and training requirements for staff employed as treatment professionals in an ITC.

(A) All staff who have direct contact with offenders must be at least eighteen (18) years of age and, at the time of their application for employment with DOC, verify and document they meet the qualifications of their respective profession and the specific requirements of DOC.

1. Interns and volunteers must be approved in accordance with DOC policies and procedures.

(B) At a minimum, staff must meet Missouri Office of Administration (OA) requirements for a position specified in subsection (C) of this section or as designated by contract.
OA requirements are available online at: http://oa.mo.gov/personnel/classification-specifications.

(C) ITC staff positions are designated as follows:
1. Addiction Counselor I (AC I);
2. Addiction Counselor II (AC II);
3. Addiction Counselor III (AC III);
4. Treatment Unit Supervisor (TUS);
5. Corrections Manager Band I;
6. Corrections Manager Band II; and
7. Interns and volunteers, as defined in DOC policy.

(D) Organizations that are contracted by DOC to provide services in an ITC shall ensure staff are qualified in accordance with the positions identified in subsection (C) of this section.

(E) Group counseling shall be provided by treatment professionals trained in substance use disorders treatment. Newly employed treatment staff shall be observed by and receive instructive feedback from an experienced facilitator for no less than eight (8) hours prior to facilitating group sessions.

(F) Substance use disorders education and recovery-oriented therapeutic classes shall be provided by staff who possess the education, background, or experience to deliver the information, demonstrate competency and skill in educational techniques, and are knowledgeable about the topic being presented, and are present with offenders throughout the education process.

(G) Staff providing direct clinical services for offenders shall have a staff-to-offender ratio not to exceed one (1) staff person per twenty-five (25) offenders, or as specified by contract. Interns and volunteers may be used to provide rehabilitation services, but cannot be included in the required staff-to-offender ratio.

(H) All staff providing services in an ITC must receive training to ensure services are provided ethically and effectively in a competent, safe, and secure manner.

1. At a minimum, newly hired staff must receive a program orientation specific to the job function(s) for which he/she was hired. When possible, a staff mentor shall be provided to new staff for guidance and to answer job-related questions.

2. A clinical training plan shall be developed for each ITC staff position. The plan shall be maintained in the staff person’s training file and be updated yearly to reflect completion of the ITC training requirements.

3. All staff having direct contact with offenders shall complete a minimum of twenty (20) hours of in-service training per year. At least ten (10) of those hours must relate to substance use disorders treatment services and skills. Required annual training shall include:

   A. Ethics and professional boundaries; and
   B. Documentation.

4. Training related to substance use disorders treatment or job-related skills may include, but is not limited to:

   A. Non-adversarial confrontation;
   B. Group counseling;
   C. Individual counseling;
   D. Motivational interviewing;
   E. Co-occurring substance use and mental health disorders;
   F. Avoiding job burnout, re-energizing, and self-wellness;
   G. The four (4) domains—screening, assessment, and engagement; treatment planning, collaboration, and referral; counseling; and professional and ethical responsibility;
   H. Therapeutic continuum of intervention; and
   I. Medication.

(J) All staff must attend Basic Training at the DOC Training Academy as required by DOC policy. Staff must also attend any required introductory level counseling skills training within the first six (6) months of employment, or otherwise specified in contract, or as directed by training plans recommended by the Assistant Division Director, Division of Offender Rehabilitation Services, Substance Use and Recovery Services or his/her designee.

(J) A training record that is separate from the personnel file must be maintained for all staff who deliver substance use disorders treatment services in an ITC. The training record must contain a complete record of all training completed and the employee’s credentials. At a minimum, the record shall include documentation of the employee’s—

1. Education, current and valid credentials/licensure, as applicable;
2. Completion of DOC Basic Training;
3. Completion of facility and program orientation;
4. Training and development plan (non-certified or non-licensed counselors);
5. In-service and outside training;
6. Completion of cognitive skills facilitation training, as required by DOC;
7. Completion of Prison Rape Elimination Act training;
8. Completion of cyber-security training;
9. Completion of annual discrimination, harassment, and retaliation training; and
10. Completion of any other training required by DOC.

9) Staff Supervision Requirements. This section includes the staff supervision requirements for ITCs.

(A) Treatment professionals providing any ITC service must receive continuous supervision from a trained treatment professional supervisor(s), preferably an individual who is a credentialed or licensed professional.
(B) All treatment professional functions shall be performed with the knowledge, oversight, guidance, and full professional responsibility of the supervisor(s). The treatment supervisor shall maintain a record of their supervision activities. Supervisors, or a credentialed designee, must countersign specified documentation in the offender treatment file when it is entered by a non-credentialed addiction counselor, including, but not limited to:
1. Assessments;
2. Treatment plans and treatment plan updates;
3. Discharge summaries;
4. Behavioral contracts; and
5. Case evaluations/short-term treatment center reviews.

(C) Treatment supervisors shall maintain the appropriate credential(s) and/or license(s) for their respective position. Supervisors shall conduct and document regularly scheduled supervision sessions and ongoing direct observation of treatment professionals delivering services in the ITC.

(D) Supervision of staff who are seeking credentials must follow the supervision guidelines established by the specific credentialing body. Supervision must be tailored to the knowledge base, skills, and experience of each staff member in order to promote professional development and proficiency in substance use disorders counseling competencies.

(E) Non-credentialed and unlicensed staff of the ITC shall have access to their supervisor as frequently as possible to address immediate, brief questions. The supervisor shall meet with non-credentialed and unlicensed staff on a weekly basis and provide assistance with setting clear goals. All supervisory sessions with staff shall be recorded, including the date and time, personal goals, and notation of progress being made toward goals.

(F) Process quality assurance measures must include, but are limited to:
1. Assessments;
2. Treatment plans and treatment plan updates;
3. Discharge summaries;
4. Behavioral contracts; and
5. Case evaluations/short-term treatment center reviews.

(G) Each non-licensed or non-credentialed treatment professional's group performance shall be observed directly by a treatment professional supervisor at least one (1) time per month. Feedback shall be provided orally by the treatment professional supervisor to the non-licensed or non-credentialed treatment professional and documented in the performance log. If the ratio of direct treatment professional supervisors to treatment professionals does not allow monthly review by the direct treatment professional supervisor(s), another member of the clinical management team shall assist in this review. Credentialed and/or licensed treatment professionals shall be reviewed on a quarterly basis, at a minimum.

(H) Ongoing reviews of fidelity to the practices and curricula being utilized in the ITC shall be conducted and documented by ITC staff.

(I) Each ITC shall establish and monitor multidisciplinary indicators to measure maintenance of a therapeutic environment. The indicators will be reviewed quarterly by DOC custody, classification, and treatment supervisors. Reviews shall include, but are not limited to:
1. OMTs and PRCS;
2. Conduct violations;
3. Informal resolution requests;
4. Grievances;
5. Unsuccessful program exits;
6. Offender satisfaction surveys;
7. Number of in-service trainings;
8. Sentinel events;
9. Temporary administrative segregation confinement or disciplinary segregation;
10. Staff turnover;
11. Other program exits; and
12. ITC Exit Evaluations.

(J) Quality Assurance and Program Evaluation. This section includes the quality assurance and program evaluation requirements for ITCs.

(A) Each ITC must submit a quality assurance plan to the DOC Office of Substance Use and Recovery Services in accordance with established timelines. Plans must include the intended process by which internal measurement and/or program auditing will occur to ensure compliance with the quality assurance plan. Plans must be updated as specified by DOC.

(B) Plans will be returned to the ITC by the designated DOC staff person in accordance with established timelines indicating: approved as submitted; approved with modifications needed; or not approved. Plans needing revisions must be resubmitted by the ITC to designated DOC staff in accordance with established timelines.

(C) ITCs shall implement the quality assurance plan in accordance with timelines established by DOC.

(D) Quality assurance measures shall be reviewed and updated on a quarterly basis by staff of the ITC and submitted in the form of a written report to the DOC designee.

(E) Each ITC shall establish specific compliance indicators consisting of process quality assurance measures and outcome quality assurance measures.

(F) Process quality assurance measures must include, but are not limited to:
1. Review of clinical records of offenders in the ITC; and
2. A monthly, in-depth review of a random sample of one (1) clinical record maintained by each primary treatment professional of the ITC using a pre-defined criteria checklist. The review shall be conducted by a designated treatment professional supervisor(s), the clinical director, program manager, or other clinical administrative staff of the ITC.

Results of the review determine whether the program is meeting ninety percent (90%) or more of the criteria pertaining to satisfactory quality in-chart documentation.

(G) Each non-licensed or non-credentialed treatment professional’s group performance shall be observed directly by a treatment professional supervisor at least one (1) time per month. Feedback shall be provided orally by the treatment professional supervisor to the non-licensed or non-credentialed treatment professional and documented in the performance log. If the ratio of direct treatment professional supervisors to treatment professionals does not allow monthly review by the direct treatment professional supervisor(s), another member of the clinical management team shall assist in this review. Credentialed and/or licensed treatment professionals shall be reviewed on a quarterly basis, at a minimum.

(H) Ongoing reviews of fidelity to the practices and curricula being utilized in the ITC shall be conducted and documented by ITC staff.

(I) Each ITC shall establish and monitor multidisciplinary indicators to measure maintenance of a therapeutic environment. The indicators will be reviewed quarterly by DOC custody, classification, and treatment supervisors. Reviews shall include, but are not limited to:
1. OMTs and PRCS;
2. Conduct violations;
3. Informal resolution requests;
4. Grievances;
5. Unsuccessful program exits;
6. Offender satisfaction surveys;
7. Number of in-service trainings;
8. Sentinel events;
9. Temporary administrative segregation confinement or disciplinary segregation;
10. Staff turnover;
11. Other program exits; and
12. ITC Exit Evaluations.

(J) Maintenance of Records. Each ITC shall maintain an organized record system as specified in this rule.

(A) All records shall be maintained in accordance with all state and federal laws and regulations related to the confidentiality of records and release of information.

(B) Electronic records must conform to federal and state regulations, and there must be a backup system to safeguard records in the event of operator or equipment failure and to ensure security from inadvertent or unauthorized access.

(C) Individual records shall be retained for at least six (6) years, or until all litigation, adverse audit findings, or both, are resolved.

(D) The ITC shall assure timely access to records by authorized staff and other authorized parties, including DOC staff.

(E) Ongoing reviews of fidelity to the practices and curricula being utilized in the ITC shall be conducted and documented by ITC staff.

(F) Each ITC shall establish specific compliance indicators consisting of process quality assurance measures and outcome quality assurance measures.

(G) Process quality assurance measures must include, but are not limited to:
1. Review of clinical records of offenders in the ITC; and
2. A monthly, in-depth review of a random sample of one (1) clinical record maintained by each primary treatment professional of the ITC using a pre-defined criteria checklist. The review shall be conducted by a designated treatment professional supervisor(s), the clinical director, program manager, or other clinical administrative staff of the ITC.

Results of the review determine whether the program is meeting ninety percent (90%) or more of the criteria pertaining to satisfactory quality in-chart documentation.

(G) Each non-licensed or non-credentialed treatment professional’s group performance shall be observed directly by a treatment professional supervisor at least one (1) time per month. Feedback shall be provided orally by the treatment professional supervisor to the non-licensed or non-credentialed treatment professional and documented in the performance log. If the ratio of direct treatment professional supervisors to treatment professionals does not allow monthly review by the direct treatment professional supervisor(s), another member of the clinical management team shall assist in this review. Credentialed and/or licensed treatment professionals shall be reviewed on a quarterly basis, at a minimum.

(H) Ongoing reviews of fidelity to the practices and curricula being utilized in the ITC shall be conducted and documented by ITC staff.

(I) Each ITC shall establish and monitor multidisciplinary indicators to measure maintenance of a therapeutic environment. The indicators will be reviewed quarterly by DOC custody, classification, and treatment supervisors. Reviews shall include, but are not limited to:
1. OMTs and PRCS;
2. Conduct violations;
3. Informal resolution requests;
4. Grievances;
5. Unsuccessful program exits;
6. Offender satisfaction surveys;
7. Number of in-service trainings;
8. Sentinel events;
9. Temporary administrative segregation confinement or disciplinary segregation;
10. Staff turnover;
11. Other program exits; and
12. ITC Exit Evaluations.

(J) Maintenance of Records. Each ITC shall maintain an organized record system as specified in this rule.

(A) All records shall be maintained in accordance with all state and federal laws and regulations related to the confidentiality of records and release of information.

(B) Electronic records must conform to federal and state regulations, and there must be a backup system to safeguard records in the event of operator or equipment failure and to ensure security from inadvertent or unauthorized access.

(C) Individual records shall be retained for at least six (6) years, or until all litigation, adverse audit findings, or both, are resolved.

(D) The ITC shall assure timely access to records by authorized staff and other authorized parties, including DOC staff.

(E) Ongoing reviews of fidelity to the practices and curricula being utilized in the ITC shall be conducted and documented by ITC staff.

(F) Each ITC shall establish specific compliance indicators consisting of process quality assurance measures and outcome quality assurance measures.

(G) Process quality assurance measures must include, but are not limited to:
1. Review of clinical records of offenders in the ITC; and
2. A monthly, in-depth review of a random sample of one (1) clinical record maintained by each primary treatment professional of the ITC using a pre-defined criteria checklist. The review shall be conducted by a designated treatment professional supervisor(s), the clinical director, program manager, or other clinical administrative staff of the ITC.

Results of the review determine whether the program is meeting ninety percent (90%) or more of the criteria pertaining to satisfactory quality in-chart documentation.

(G) Each non-licensed or non-credentialed treatment professional’s group performance shall be observed directly by a treatment professional supervisor at least one (1) time per month. Feedback shall be provided orally by the treatment professional supervisor to the non-licensed or non-credentialed treatment professional and documented in the performance log. If the ratio of direct treatment professional supervisors to treatment professionals does not allow monthly review by the direct treatment professional supervisor(s), another member of the clinical management team shall assist in this review. Credentialed and/or licensed treatment professionals shall be reviewed on a quarterly basis, at a minimum.

(H) Ongoing reviews of fidelity to the practices and curricula being utilized in the ITC shall be conducted and documented by ITC staff.

(I) Each ITC shall establish and monitor multidisciplinary indicators to measure maintenance of a therapeutic environment. The indicators will be reviewed quarterly by DOC custody, classification, and treatment supervisors. Reviews shall include, but are not limited to:
1. OMTs and PRCS;
2. Conduct violations;
3. Informal resolution requests;
4. Grievances;
5. Unsuccessful program exits;
6. Offender satisfaction surveys;
7. Number of in-service trainings;
8. Sentinel events;
9. Temporary administrative segregation confinement or disciplinary segregation;
10. Staff turnover;
11. Other program exits; and
12. ITC Exit Evaluations.

(J) Maintenance of Records. Each ITC shall maintain an organized record system as specified in this rule.

(A) All records shall be maintained in accordance with all state and federal laws and regulations related to the confidentiality of records and release of information.

(B) Electronic records must conform to federal and state regulations, and there must be a backup system to safeguard records in the event of operator or equipment failure and to ensure security from inadvertent or unauthorized access.

(C) Individual records shall be retained for at least six (6) years, or until all litigation, adverse audit findings, or both, are resolved.

(D) The ITC shall assure timely access to records by authorized staff and other authorized parties, including DOC staff.

(E) Ongoing reviews of fidelity to the practices and curricula being utilized in the ITC shall be conducted and documented by ITC staff.

(F) Each ITC shall establish specific compliance indicators consisting of process quality assurance measures and outcome quality assurance measures.

(G) Process quality assurance measures must include, but are not limited to:
1. Review of clinical records of offenders in the ITC; and
2. A monthly, in-depth review of a random sample of one (1) clinical record maintained by each primary treatment professional of the ITC using a pre-defined criteria checklist. The review shall be conducted by a designated treatment professional supervisor(s), the clinical director, program manager, or other clinical administrative staff of the ITC.
in cooperation with the designated mental health service provider of the institution;
2. Physical well-being or medical needs, in cooperation with the designated medical services provider of the institution;
3. Educational needs, in cooperation with the designated educational services provider of the institution;
4. Spiritual needs, in cooperation with the on-site chaplain;
5. Institutional adjustment and functioning, in cooperation with the designated DOC classification staff at each location;
6. Behaviors, safety, and security of offenders, in cooperation with the appropriate DOC custody staff; and
7. Criminal cases, sentencing, and release, in cooperation with the designated institutional probation and parole staff.
(C) Documentation of referrals related to the needs of offenders and/or collaboration with other agencies shall be maintained in the individual's treatment record.
(D) ITCs shall hold regularly scheduled quality assurance meetings with collaborative service providers. Documentation of quality assurance meetings must be maintained in the form of minutes, identifying all individuals in attendance. Representation at these meetings shall include, but is not limited to, the following agencies and/or disciplines:
1. DOC custody;
2. DOC classification;
3. DOC administration;
4. Medical;
5. Education;
6. Probation and parole;
7. Chaplain;
8. Recreation officers; and
9. ITC staff.
(13) Exceptions Process. The primary treatment supervisor of the ITC may request the department to waive any of the requirements in these rules by submitting a request in accordance with 9 CSR 10-5.210, Exceptions Committee Procedures.

(14) Disciplinary Guidance. This section provides guidance to staff of the ITC for taking disciplinary or corrective action with offenders who fail to comply with program expectations or rules and directives.

(A) Offenders admitted to an ITC are referred as the result of self-defeating thinking patterns and problematic, anti-social behaviors that lead to commission of crimes. Program staff must focus on facilitating necessary changes in thinking and behavior over the course of treatment. Every offender is expected to diligently strive for change in their thinking and behavior, and be receptive to the guidance and redirection provided by ITC staff.

(B) Behaviors that represent a certain and severe threat to offenders, staff, or the good order of the correctional institution shall not be tolerated.
1. Such behaviors are identified under Cardinal Rules in DOC Policies. Violation of Cardinal Rules must result in referral for review by the PRC. The PRC determines the appropriate action to be taken.
2. Action may include unsuccessful exit from the ITC, if such action is deemed appropriate by the PRC.

A. Unsuccessful exit for a Cardinal Rule violation should never be the only option for consideration. Many program rules do not meet the criteria of Cardinal Rules, but may create a security risk.

(C) Offenders adapt over time to increasingly higher levels of behavioral compliance. It is reasonable to expect such adaptation to take longer for some offenders than for others. It is part of the mission of ITCs to continue to work with the offenders as they navigate the stages of change in relation to their self-defeating thinking patterns and non-compliant behaviors.

(D) Compliance with program rules and directives are important, but it is vital that offenders be allowed time to learn the skills required to move forward in their recovery, and for staff to resist the temptation to prematurely execute the unsuccessful program exit of an offender.

(E) DOC classification and DOC administrative staff are primarily responsible for responding to an offender’s behavior that results in writing a conduct violation report. ITC treatment staff may write conduct violation reports, but they shall not interfere with the due process involved in the hearing of such reports and in the adjudication of those reports.

(F) An offender’s behavior that results in a conduct violation report, or otherwise has been documented as negative behavior or behavior that is inconsistent with the rules and regulations of the ITC, shall be addressed through the therapeutic intervention continuum.

1. Depending on the seriousness or consistency of the offender’s non-compliant behavior, stages of the continuum may be superseded. Every effort shall be made to intervene at the least intensive level of intervention possible, and to proceed forward over time in intensified interventions. The continuum of therapeutic intervention shall include, but is not limited to:
   A. Non-adversarial confrontation;
   B. Non-adversarial confrontation with therapeutic assignments;
   C. Treatment plan modifications;
   D. Behavioral contracts;
   E. Referral to the OMT; and
   F. Referral to the PRC.

2. Depending on the offender’s receptiveness to a given intervention, some interventions may be repeated. Interventions repeated for different types of behavior shall be considered distinct and separate.

3. Successful interventions shall be acknowledged as such, with documentation in the offender’s record. A successful intervention is an indication of progress, even if the intervention may need to be repeated later in the offender’s treatment.

(G) Consistent non-compliance with program rules by an offender, despite documented and intensified interventions, may result in referral to the PRC due to lack of therapeutic gain.

1. Such referral must indicate documented attempts to assist the offender in understanding the need to change their behavior and challenging thinking patterns that have resulted in the non-compliance. The integrity of the therapeutic process shall be emphasized. Substantial documentation of all interventions is required to substantiate a termination based on lack of therapeutic gain.

AUTHORITY: sections 313.842, 630.050, and 630.655, RSMo 2016.*

(2/28/23) John R. Ashcroft
Secretary of State
purposes.

women, both in their etiology and the services and supports

needed for recovery.

(A) Women and children’s CSTAR programs shall ensure—

1. Emotional and physical safety of the women and

children served takes precedence over other considerations

in the delivery of services;

2. Women-only therapeutic environments are available;

3. Trauma-sensitive services and supports to increase

women’s access to care, engagement, and retention in

treatment are provided or arranged, such as community

support, transportation, and child care;

4. Women-specific service needs and topic areas are

addressed in treatment and through support services; and

5. Multiple modalities are offered to meet the needs of

women such as group and individual counseling, community

support, peer support, and opportunities for women to be in
	
treatment with their children.

(B) Staff shall possess the knowledge and expertise to engage

women with histories of trauma, recognize the presence of

trauma symptoms, understand the role of trauma in the lives of

women seeking services, and conduct themselves in ways that

are not retraumatizing to those being served. The following

trauma-informed principles shall be integrated into the

program’s service delivery practices:

1. Safety—ensuring physical and emotional safety for

individuals and staff;

2. Trustworthiness—maximizing trustworthiness through

task clarity, consistency, and maintaining appropriate

interpersonal boundaries;

3. Choice—maximizing the experience of developmentally

appropriate choice and control;

4. Collaboration—maximizing collaboration and sharing

of power between individuals and staff; and

5. Empowerment—building on individuals’ capacities,

encouraging them to have a voice and mastery of life, and

prioritizing power and growth.

(C) All women shall receive or have trauma-informed,

evidence-based services available and shall not be required to

disclose their trauma history in order to receive those services.

Women’s treatment shall incorporate universal, trauma-

informed principles into every service, regardless of whether

trauma is disclosed.

(D) The Substance Abuse and Mental Health Services

Administration (SAMHSA), Treatment Improvement Protocol

51, Substance Abuse Treatment: Addressing the Specific Needs

of Women, 2015, hereby incorporated by reference and made a

part of this rule, shall serve as a guide for the program’s service

delivery practices. This document is published by and available

from SAMHSA, 1 Choke Cherry Road, Rockville, Maryland 20857,

(877) 726-4727, www.samhsa.gov. This rule does not incorporate

any subsequent amendments or additions to this publication.

(2) Eligibility Criteria and Program Structure. The program shall

provide treatment services and other supports solely to women

and their children. Services shall be based on individual and

family needs, in accordance with admission and eligibility

criteria for CSTAR.

(A) Priority admission shall be for women who are—

1. Pregnant and inject drugs;

2. Pregnant;

3. Postpartum (up to one (1) year after delivery);

4. Have children in their care and custody, including those

at risk of losing custody or attempting to regain custody of

their children;

5. Applicants or recipients of Temporary Assistance for

Needy Families referred by the Department of Social Services,

Family Support Division; and

6. Other populations specified by the department.

(B) Women who meet priority criteria shall be immediately

admitted to the CSTAR program and receive appropriate

services.

1. If the program is unable to provide immediate admission,

staff shall facilitate referral to another women and children’s

CSTAR program that can provide immediate admission.

2. If immediate admission with an alternative women and

children’s CSTAR program is not available for a woman who is

pregnant, program staff shall contact designated department

staff to obtain assistance in facilitating arrangements for

immediate admission with another program.

3. Women shall not be denied admission based solely on

medication prescribed and monitored by a licensed physician,

physician assistant, assistant physician, or advanced practice

registered nurse (APRN) for an opioid disorder or other physical

or behavioral health disorder.

(C) Adolescents who meet priority criteria shall be admitted

if, in the staff’s clinical judgment, the adolescent can

appropriately participate in and benefit from the services and

milieu offered. Programs shall have policies and procedures

for serving adults and adolescents in the same environment.

(D) Culturally competent services shall be provided in the

context of a family-centered and family-focused treatment

model. Members of the treatment team shall be responsible for

adapting to the needs of the mother and her family. An array

of services shall be available to—

1. Assist families in functioning as a unit by establishing

and maintaining a schedule, structure, regular habits, and

healthy routines;

2. Allow for an integrated family plan that builds coherence

and prioritizes the needs of individual family members;

3. Accommodate children who accompany their mother,

in accordance with the mother’s wishes;

4. Address substance use, mental, physical and emotional

health, developmental, social, economic, and environmental

needs of women and their families;

5. Allow women to define their families and focus on

healthy relationships between parents, children, and others

identified by the mother;

6. Address evolving and changing family engagement,

recognizing everyone may not participate at the same time,

stay the same length of time, or have the same motivations; and
7. Assist women and their families in accessing other services and supports in the community.
   (E) Family oriented living arrangements, indoor recreational space for children and families, and safe, protected outdoor recreational and leisure space shall be available.
   (F) Women and their children shall have access to age-appropriate physical healthcare, including obstetric and pediatric care.

(3) Gender-Responsive Services. The program shall address therapeutic issues relevant to women and their specific needs, as identified in individual treatment plans.
   (A) Staff shall understand and recognize the distinctive characteristics and biopsychosocial issues associated with women in general, and specifically women who have substance use disorders, to provide effective treatment.
   (B) Services shall be culturally sensitive and recognize the unique characteristics of women’s initiation of substance use, effects of use, histories of trauma, co-occurring mental, developmental, and physical health disorders, and other treatment issues specific to women.
   (C) Services shall be designed to assist women in maintaining their recovery and resiliency, such as—
      1. Parenting and child development;
      2. Life skills;
      3. Family programs;
      4. Facilitation of supervised parent-child bonding;
      5. Educational remediation and support;
      6. Employment readiness services;
      7. Linkages with legal and child welfare systems, including reunification with children if applicable;
      8. Housing support efforts and referrals;
      9. Co-occurring disorder services, including access to psychological and pharmacological treatments for mental health disorders;
     10. Education and linkage to eating disorder and nutrition services;
     11. Medication services, including access to approved medication to treat substance use disorders for women who are pregnant; and
     12. Recovery support and community support services that address long-term recovery needs such as domestic violence services, career counseling, legal services, and transportation services.

(4) Child Care. The program shall ensure child care is not a barrier to engagement in services or retention in treatment by ensuring coordination or facilitation of child care when the mother is participating in services.
   (A) Programs offering on-site child care shall obtain licensure as a child care center as specified in 5 CSR 25-500.
   (B) On-site child care shall—
      1. Be designed to meet the developmental needs of the various age groups served and address cultural and other identified needs;
      2. Provide each child with a variety of easily accessible, developmentally appropriate learning and play materials;
      3. Provide for a balance between free play and organized activities, between individual play and sharing experiences among children, and promote individual contact between staff and each child;
      4. Provide reasonable regularity of age-appropriate activities with allowance for a variety of special events and time for children to be outdoors daily, weather permitting;
      5. Be culturally responsive, nonjudgmental, trauma sensitive, and respectful;
      6. Take responsible precautions to ensure a safe, welcoming, and sanitary environment appropriate for children;
      7. Ensure no weapons are brought on to the premises;
      8. Provide privacy (such as use of bathroom, sleeping arrangements) for opposite sex children transitioning into school and for any children demonstrating a need for privacy; and
      9. Accommodate the needs of children with disabilities in accordance with the Americans with Disabilities Act as amended (ADAAA) or refer to another provider if the child’s needs are identified to be beyond the scope of the program.
   The ADAAA, effective January 1, 2009, is hereby incorporated by reference and made a part of this rule and is available from the U.S. Department of Justice, 950 Pennsylvania Avenue NW, Civil Rights Division, Disability Rights Section-NYA, Washington, DC 20530, (800) 514-0301 voice, (800) 514-0383 TTY. This rule does not incorporate any subsequent amendments or additions to this publication.
   (C) Child care may be arranged through a contractual agreement with a local, licensed child care center. Contracts shall comply with 9 CSR 7-7,090(6).
   (D) Child care will not be funded by the department for children who are over fourteen (14) years of age, unless specific authorization has been granted by department staff.

(5) Supervision of Children. The program shall ensure children in child care are supervised in accordance with Department of Elementary and Secondary Education staff/child ratios as specified in 5 CSR 25-500.
   (A) The parent/guardian shall be responsible for providing supervision when the child is not attending child care or participating in other scheduled program activities.
   (B) Program staff shall assist the parent in providing age-appropriate activities, training, and guidance.

(6) Education for Children. The program shall assist the parent/guardian as necessary to ensure educational opportunities for school-age children in accordance with the requirements of the Department of Elementary and Secondary Education.

(7) Assessing Children’s Needs and Documenting Services. Program staff shall inform women of the services available for children and educate them about involving their children in treatment while respecting the mother’s wishes.
   (A) When the mother chooses to involve her children in treatment, a trained staff member shall complete an initial screening utilizing an age-appropriate, validated instrument to determine specific service needs beyond child care and community support. The screening shall include an interview with at least one (1) parent and the child, whenever appropriate.
   (B) If the need for a clinical assessment is indicated by the screening, a qualified staff member shall complete an assessment utilizing an age-appropriate, validated instrument. The assessment must be completed prior to delivery of services beyond child care and community support.
   (C) An individual plan shall be developed based on the needs of the mother and child, with the results of the assessment serving as a guide. The child’s consent for treatment must be signed by the legal guardian.
   (D) Services provided for children, including child care and community support, shall be documented in a separate clinical record for the child. The record shall include the child’s developmental, physical, emotional, social, educational, and family background and current status.
Services for Children. The program shall ensure trauma-informed services are available to address therapeutic issues relevant to children, based on the needs of individuals being served at those locations.

Developmentally appropriate activities and services shall be offered to meet the social, emotional, and behavioral needs of children to—
1. Build self-esteem and self-awareness;
2. Learn to identify and express feelings;
3. Build positive family relationships;
4. Learn healthy social engagement, peer relationships, social pressure skills, and teamwork;
5. Develop decision-making skills;
6. Learn self-management (impulse control, stress management, and goal-setting);
7. Understand substance use disorders and its effects on the family;
8. Learn and practice nonviolent ways to resolve conflict;
9. Learn safety practices such as personal space, boundaries, and personal safety;
10. Address developmental needs; and
11. Provide education on preventing alcohol, tobacco, and other drug use.

Services for children shall address the issues and needs identified by the mother and her children, as documented in the individual plan, utilizing structured and unstructured therapeutic activity.

Specialized services shall be provided including, but not limited to, children with high risk of sexual abuse, sexual acting-out behaviors, suicide risk, and the service needs of infants, toddlers, and preschoolers.

Services for children from birth to three (3) years of age shall include, at a minimum, developmentally appropriate parent-child interactive bonding activities and developmentally appropriate structured activities that promote and nurture the growth and well-being of the infant.

Qualified and Competent Staff. The program shall maintain a core workforce (employed or contracted) that is appropriately qualified and determined to be competent to adequately address the needs of women and children and deliver the behavioral health services the program is certified to provide.

The program shall document that staff providing services for women and/or children have training in the following areas:
1. Trauma knowledge, trauma-informed treatment, identification of signs and symptoms of domestic violence, spousal or partner abuse, and child abuse and neglect, with special emphasis on failure to thrive and sexual abuse of children;
2. Child development and age-appropriate behaviors;
3. Parenting attachment styles and skills appropriate to infants, toddlers, preschool, and school-age children; and
4. The impact of substance use and substance use disorders on parenting and family units.

The program shall document that staff working with children have ongoing training and demonstrate job-appropriate functional comprehension in the following areas:
1. The impact of prenatal drug and alcohol exposure on child development;
2. The effect of substance use disorders on parenting children and families;
3. Trauma knowledge, trauma’s impact on child brain development, and long-term impact of adverse childhood experiences;
4. Parenting attachment styles and skills appropriate to infants, toddlers, preschool, and school-age children;
5. Appropriate play activities according to developmental stage;
6. Common children’s behavioral and developmental problems;
7. Recognition of sexual acting-out behavior; and
8. The substance use disorder recovery process, especially as it relates to family units.

Health Promotion. The program shall maintain a safe, healthy environment that is responsive to the physical, behavioral, and emotional health needs of women and children.

A full-time licensed nurse shall be accessible to women and children to provide trauma-informed medical and other consultative services necessary to monitor and manage health issues.

Services performed by a licensed practical nurse (LPN) must fall within their scope of practice and shall be supervised by a licensed physician (including psychiatrist), licensed physician assistant, licensed assistant physician, APRN, or registered nurse (RN).

Key service functions of the nurse(s) shall include, but are not limited to—
1. Obtaining initial medical histories and vital signs of individuals admitted to the program;
2. Monitoring general health needs and meeting with individuals about medical concerns;
3. Providing disease prevention, risk reduction, and reproductive health education;
4. Reviewing medication requirements and educating individuals about the benefits of taking medications as prescribed and monitoring medication compliance; and
5. Monitoring lab levels, including consultation with the individual served, her physician, and the treatment team.

The program shall employ staff in sufficient numbers and with appropriate training to respond to emergency situations and provide cardiopulmonary resuscitation (CPR) when necessary.

At least one (1) staff member who has current training in First Aid and CPR for infants, children, and adults shall be on duty seven (7) days per week, twenty-four (24) hours per day.

Staff must maintain current First Aid and CPR certification for healthcare providers through training that includes hands-on practice and in-person skills assessment. Online-only training is not acceptable.

The program shall demonstrate effective working relationship(s) with a licensed physician, hospital, and/or clinic to provide access to emergency services and/or ongoing medical care for women, including pregnant and postpartum women, and their children.

The program shall ensure an evaluation of medical need for each woman and child and shall ensure that each woman and child is medically stable to safely and adequately participate in services. For women, the evaluation of medical need shall include:
1. Current physical status, including vital signs; and
2. Symptoms of intoxication, impairment, or withdrawal.

The program shall ensure that recommendations related to an individual’s behavioral or physical health from a licensed physician (including psychiatrist), licensed physician assistant, licensed assistant physician, or APRN are encouraged and coordinated regularly by their primary health care provider.

Health-related services may include but are not limited
36 CODE OF STATE REGULATIONS

to—
1. Nutritional counseling;
2. Education about reproductive health;
3. Wellness programs;
4. Education on sleep and dental hygiene;
5. Education about trauma and long-term physical health risks and conditions;
6. Education about sexually transmitted infections and infectious diseases, such as viral hepatitis and HIV/AIDS; and
7. Preventive healthcare education.

(H) If a specialized program for women and children provides withdrawal management/detoxification services, the program shall comply with applicable standards under 9 CSR 30-3.120. A specialized program for women and children shall not be required to accept applications for ninety-six- (96-) hour civil detention of intoxicated persons due to the presence of children within the program.

AUTHORITY: sections 630.050, 630.655, and 631.010, RSMo 2016.*

9 CSR 30-3.192 Specialized Program for Adolescents

PURPOSE: This rule establishes requirements relative to specialized substance abuse programs for adolescents.

(1) Age Criteria for Adolescents. The program shall provide treatment, rehabilitation, and other services solely to clients between the ages of twelve through seventeen (12–17) years inclusive and their families. Exceptions to these age requirements may be authorized through clinical utilization review for those individuals in which there is justification and documentation of behavior and experience appropriate for the services available.

(2) Other Eligibility Criteria. The level of care and treatment setting for adolescent services shall be based on problem severity ratings in the following domains:

(A) Substance Abuse Patterns/Withdrawal Risk. This includes factors such as recent use patterns (substances used, frequency, amount, method of administration), consequences of use, progression, tolerance, and withdrawal risk;

(B) Physical Health. This includes physical health conditions that require ongoing care and that may be a factor in treatment planning;

(C) Emotional/Behavioral Functioning. This includes factors such as suicidal ideation or plans, aggressiveness, severe conflict with others, recent running away from home; co-occurring psychiatric disorders, and need for continuous supervision;

(D) Acceptance/Resistance. This includes factors such as blaming others, willingness to acknowledge problems, and attempts to stop or cut back substance use;

(E) Abstinence Potential. This includes factors such as substance use in the past thirty (30) days, longest period of abstinence in the past six (6) months, impulsiveness, general ability to follow through with appointments and responsibilities;

(F) Recovery Environment. This includes factors such as non-using friends, involvement in non-using activities, school attendance and performance, geographic access to treatment services, and involvement of other persons or agencies to support recovery; and

(G) Family/Caregiver Functioning. This includes factors such as appropriateness of rules and consequences, availability of supervision, presence of others in the household with active substance abuse, emotional and psychiatric functioning of caregivers, ability and willingness to participate in the treatment and recovery process.

(3) Treatment Principles and Therapeutic Issues Relevant to Adolescents. The program shall address therapeutic issues relevant to adolescents and shall address their specific needs. The following principles and methods shall be reflected in services delivered to adolescents:

(A) Adolescents are best treated in settings that are programatically and physically separate from treatment services for adults;

(B) Services shall maintain youth in the family and community setting, whenever clinically feasible;

(C) Services shall support the family and engage the family in a recovery and change process, whenever appropriate. If the parent(s) are not an available and appropriate resource, program staff shall assist in developing alternate social and family support systems for the adolescent;

(D) Services to the family shall be directed to understanding and supporting the youth’s recovery process, identifying and intervening with parental substance abuse problems, improving parenting skills and communication skills within the family, and assisting the family in improving its level of functioning;

(E) A cooperative team approach shall be utilized in order to provide a consistent environment and therapeutic milieu;

(F) Cooperation with other youth-serving agencies shall be demonstrated in order to ensure that needs of youth in treatment are met and that services are coordinated. Coordination of service needs are critical with youth due to their involvement with other community agencies and reliance on the family, as well as the fact that substance abuse affects multiple life areas; and

(G) Service delivery shall address—

1. Recovery issues such as peer relationships, use of leisure time, and abuse and neglect;
2. Skill development such as decision-making and study skills; and
3. Information and education regarding adolescent developmental issues and sexuality.

(4) Living Arrangements. Adolescents may be served from a variety of living arrangements including, but not limited to, the following:

(A) Home of the parent/guardian;

(B) Foster home;

(C) Residential settings operated by the program;

(D) Juvenile detention;

(E) Other supervised living arrangements; or

(F) Independent living.

(5) Family Involvement. Each adolescent’s living arrangement and family situation shall be reviewed by program staff in order to identify needs and to develop treatment goals and recovery supports for the adolescent and the family.

(A) This review shall be done by a family therapist.

(B) Refusal by the family for an in-home assessment shall not constitute automatic denial of treatment services for adolescents.
(C) The program shall actively involve family members in the treatment process, unless contraindicated for legal or clinical reasons which are documented in the client record.

(D) Staff shall orient the parent or legal guardian regarding—

1. Treatment philosophy and design;
2. Discipline and any behavioral management techniques used by the program;
3. Availability of staff to conduct home-based treatment and community support services;
4. Emergency medical procedures; and
5. Expectations about ongoing family participation.

(E) Staff shall seek family participation in treatment planning, service delivery and continuing recovery planning.

1. Services may include family participation in educational and counseling sessions.
2. Family participation in treatment planning shall be documented in the client record. In the event that the family does not participate, then staff shall document efforts to involve the family and reasons why the family did not participate.

(6) Educational and Vocational Opportunities. The program shall assist the adolescent and parent/guardian as necessary to ensure educational and/or vocational opportunities during treatment.

(7) Privilege System. Any system used by the program to modify behavior by requiring certain behaviors to earn privileges or restricting privileges (that is, step-down program) for failure to comply with requirements shall be defined in writing, stated in behavioral terms to the extent possible, and applied consistently to all clients.

(8) Safety and Health. The program shall maintain a safe, healthy environment which is responsive to the physical and medical needs of adolescents.

(A) Adolescents shall be prohibited from smoking on the premises, grounds and any off-site program functions.

(B) For adolescents receiving residential support, the program must provide or arrange for a history and physical examination performed by a physician licensed in Missouri or a nurse practitioner licensed and authorized to title and practice as an advanced practice nurse pursuant to 335.016, RSMo and who is engaged in a written collaborative practice arrangement as defined by law. Registered nurses may still conduct initial health screenings upon admission to a residential support setting, but this screening does not satisfy the requirement for a history and physical examination as defined above.

(C) The program shall demonstrate effective working relationship(s) with a physician, hospital, and/or clinic to provide medical care for adolescents.

(9) Staff Training and Supervision. Service delivery staff shall—

(A) Have training and demonstrate expertise regarding the treatment of both substance abuse and other disorders related to adolescents; and

(B) Receive clinical supervision by an appropriately licensed, certified, or otherwise credentialed person with experience in the treatment of adolescents.

(10) Structured Activities Available to Adolescents Living in a Residential Setting. In addition to treatment services, adolescents living in a residential setting operated by the program shall have their awake time structured in activities, such as academic education, completing assignments, attendance at self-help groups, family visits and positive leisure.

(11) Staffing Patterns in a Residential Facility. The following minimum client to staff ratios shall be maintained at all times adolescents are present in a residential facility—

(A) At a facility with six (6) residents or less, one (1) staff member must be providing supervision of clients during program hours and also during designated client sleeping hours;

(B) At a facility with seven through twelve (7–12) residents, two (2) staff members must be providing supervision of clients during program hours and also during designated client sleeping hours;

(C) At a facility with thirteen through sixteen (13–16) residents, three (3) staff members must be providing supervision of clients during program hours, with a required ratio of two (2) staff during designated client sleeping hours; and

(D) At a foster home funded by the department, a foster parent must provide or arrange for appropriate supervision of the adolescent(s) at all times.

(12) If the adolescent residential support facility serves a coed population, the staffing pattern shall include at least one (1) female and at least one (1) male staff member any time residents are present. If residential support is provided for girls only, a female staff member must be present at all times. If residential support is provided for boys only, a male staff member must be present at all times.

AUTHORITY: sections 630.050, 630.655 and 631.010, RSMo 2000.*

9 CSR 30-3.195 Outpatient Substance Use Disorder Treatment Programs

PURPOSE: This rule specifies service delivery requirements for certified/deemed certified outpatient substance use disorder treatment programs that do not have a contractual relationship with the department for the provision of services.

(I) General Requirements. Each agency that is certified/deemed certified by the department as an outpatient substance use disorder treatment program shall comply with requirements set forth in Department of Mental Health Core Rules for Psychiatric and Substance Use Disorder Treatment Programs, 9 CSR 10-7.010 through 9 CSR 10-7.140, as applicable.

(A) The agency shall have written policies and procedures defining eligibility for services, screening, admission, and clinical assessment to assist in the support of each individual.

(B) The program shall maintain reasonable hours to assure accessibility.

(2) Services. An intake screening and admission assessment shall be conducted in accordance with 9 CSR 10-7.030 (1) and (2).

(A) At a minimum, the following services as defined in 9 CSR 30-3.110, or in other regulations as indicated, shall be provided on an outpatient basis in accordance with individual needs:
1. Case management;
2. Continuing recovery planning, as defined in 9 CSR 10-7.030(8);
3. Crisis prevention and intervention;
4. Family conference;
5. Family therapy;
6. Group rehabilitative support;
7. Individual and group counseling, including trauma and co-occurring disorders;
8. Medication services;
9. Treatment planning as defined in 9 CSR 10-7.030(4) and (5); and
10. Information and education, such as community resources available, substance use disorders, and behavioral health disorders.

If the program does not directly provide all of the services specified in paragraphs (2)(A)1. to 10. of this rule, the services must be available to all individuals through coordinated and documented service delivery practices with other qualified providers within the same geographic area.

(3) Treatment Planning. Services shall be provided under the direction of an individual treatment plan as specified in 9 CSR 10-7.030(4). Each individual served or parent/guardian must provide informed, written consent to treatment prior to delivery of services, and a copy of the consent form must be retained in the individual’s record. Consent to treat shall be updated annually, as applicable.

(A) An initial treatment plan goal shall be developed at intake to address immediate needs during the admission process to the outpatient treatment program.

(B) The treatment plan shall be completed within the first three (3) outpatient visits.

1. Each individual shall participate in the development of his/her treatment plan.

(C) Treatment plans shall be reviewed and updated every ninety (90) days to reflect the individual’s progress and changes in treatment goals and services.

(D) Treatment plans must be revised and rewritten at least annually.

(E) Treatment plans shall be developed and approved by a licensed mental health professional or qualified addiction professional (QAP).

(4) Staff Requirements. Individual and group counseling must be delivered by a licensed mental health professional, QAP, or associate counselor.

(5) Records. Each agency shall maintain an organized clinical record system (electronic or paper) in accordance with 9 CSR 10-7.030(13) which ensures easily retrievable, complete, and usable records stored in a secure and confidential manner.

(A) Each agency shall implement written procedures to assure quality of individual records, including a routine review to ensure documentation requirements are being met.

9 CSR 30-3.201 Substance Awareness Traffic Offender Programs

PURPOSE: This rule identifies the Department of Mental Health as being responsible for the certification of Substance Awareness Traffic Offender Programs (SATOP) as mandated by state statute. The rule includes program purpose and mission, functions, certification requirements, and types of SATOPs certified by the department.

PUBLISHER’S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(I) Purpose and Mission. The Substance Awareness Traffic Offender Programs (SATOP) is a statewide system of comprehensive, accessible, community-based education and treatment programs for individuals referred as the result of an alcohol- or drug-related traffic offense. The department develops the standards by which SATOPs operate in Missouri and certifies programs to provide services in accordance with those standards.

(A) The mission of SATOP is to—
1. Inform and educate individuals about the dangers and consequences of alcohol- and drug-impaired driving;
2. Educate youth about the risks and consequences of alcohol and drug use and help them develop skills to make healthy choices;
3. Motivate individuals for personal change and growth; and
4. Contribute to the public health and safety of Missouri by preventing and reducing the prevalence of alcohol- and drug-impaired driving.

(B) Completion of a SATOP is a prerequisite for driver’s license reinstatement for individuals who—
1. Have pleaded guilty or have been found guilty of an alcohol- or drug-impaired driving offense;
2. Have been referred as a result of an administrative suspension or revocation of their driver’s license, court order, condition of probation, or plea bargain; or
3. Have been charged with minor in possession and zero tolerance offenses.

(2) Program Functions. SATOPs shall provide or arrange for screening, clinical assessment when indicated, education, and treatment services for individuals referred to the program.

(A) All SATOPs shall comply with the 2018 edition of the SATOP Provider Manual, Department of Mental Health, 1706 E. Elm Street, PO Box 687, Jefferson City, Missouri 65102 and incorporated herein by reference. The referenced manual does not include any later amendments or additions.

(3) Performance Indicators. The following are intended as examples of indicators that can be used by the department and the SATOP to demonstrate achievement of the program’s
(4) Types of Programs. The department certifies the following types of SATOPs:

(A) Offender Management Unit (OMU) – entry point for individuals referred to a SATOP where they are screened by a SATOP Qualified Professional (SQP) and referred to the appropriate education or treatment program;

(B) Adolescent Diversion Education Program (ADEP) – basic education for individuals under the age of twenty one (21) who have been charged with or convicted of alcohol- and drug-related driving offenses under Missouri’s Abuse and Lose, Minor in Possession, or Zero Tolerance laws;

(C) Offender Education Program (OEP) – basic education for first-time adult offenders to assist them in understanding the consequences of alcohol- and drug-impaired driving and identifying strategies to assist in changing their behavior;

(D) Weekend Intervention Program (WIP) – specialized intervention services and education for high-risk, first-time offenders and individuals with multiple driving while intoxicated or driving under the influence (DWI/DUI) offenses who are showing signs and symptoms of a substance use disorder with mild to moderate severity;

(E) Clinical Intervention Program (CIP) – intensive outpatient treatment for individuals who have multiple DWI/DUI offenses or high-risk, first-time offenders who are showing signs and symptoms of a substance use disorder with moderate severity; and

(F) Serious and Repeat Offender Program (SROP) – intensive treatment for individuals who have multiple DWI/DUI offenses and are identified through the screening process as having high-risk, high-need risk factors, and a diagnosed substance use disorder.

(5) Requirements for Program Certification. SATOPs must be located in an office, clinic, or other professional setting that allows for private, one-on-one interviews and ensures confidentiality for individuals served. The department must approve program location(s) prior to the delivery of services.

(A) All SATOPs shall comply with 9 CSR 30-3.032.

(B) CIPs and SROPs shall comply with 9 CSR 30-3.130 and fulfill department contract requirements.

(C) The following rules are waived for OMUs, OEPs, ADEPs, and WIPs unless the department determines a specific requirement is applicable due to the unique circumstances and service delivery methods of a program:

1. 9 CSR 10-7.030;
2. 9 CSR 10-7.060;
3. 9 CSR 10-7.080;
4. 9 CSR 30-3.100; and
5. 9 CSR 30-3.110.

(6) Other Requirements. In addition to the requirements listed under 9 CSR 30-3.032, the department uses the following criteria in certifying Substance Awareness Traffic Offender Programs:

(A) The department reserves the right to limit the issuance of SATOP certification in areas of the state where it cannot be determined a need exists for the service and/or it cannot be determined the proposed service will serve the best interest of individuals in that area.

1. Determination of need is at the department’s sole discretion as the designated state authority responsible for SATOP certification.

2. The determination of need is based on applicable data, such as the number of DWI/DUI arrests and the number of currently certified SATOPs within the proposed service area;

(B) The department must approve any new program site prior to the delivery of SATOP services at the site; and

(C) The department reserves the right to deny certification to any SATOP that does not provide a minimum of services for at least fifty (50) persons per year.

(7) Treatment Programs Recognized for SATOP. When the screening results indicate the need for treatment for a substance use disorder, arrangements shall be made for the person to participate in treatment services.

(A) The department recognizes the following types of treatment programs for individuals with an alcohol- and/or drug-related traffic offense whose SATOP screening indicates the need for treatment:

1. Substance use disorder treatment programs certified by the department;
2. CIPS; and
3. SROPs.

(8) Compliance. Failure to adhere to the stipulations, conditions, and requirements set forth in this rule shall be considered cause for revocation or denial of program certification.

9 CSR 30.3.202 SATOP Administration and Service Documentation

PURPOSE: This rule establishes administrative procedures and practices in the operation of Substance Awareness Traffic Offender Programs.

PUBLISHER’S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(1) Access. The program shall be accessible to the public by maintaining reasonable business hours and ready telephone access.

(2) Admission. Substance Awareness Traffic Offender Programs (SATOPs) shall accept individuals referred by a court order, condition of probation or parole, or plea bargain who have had their driver's license administratively revoked or suspended for reasons of an alcohol- or drug-related traffic offense. Individuals will be screened by a qualified staff person to determine program placement. Women who are pregnant must be referred to a department-certified women's treatment program for a clinical assessment to determine service needs.

(3) Conflict of Interest. An agency which operates probation services, court supervision programs, or counseling programs not certified by the department must keep these functions separate and distinct from SATOP.

(A) The agency must clearly communicate to individuals that completion or the failure to complete these programs will not affect the outcome of their participation in SATOP.

(B) Participants may be encouraged, but not required, to sign medication(s) as directed, or is detracting from a program due to uncooperative behavior.

(C) Readmission to a program for an individual who has justifiably been denied access or is removed from a program is not considered to have satisfactorily completed the program.

(D) Individuals who continue to actively use alcohol and/or illegal drugs, or do not take prescribed medication as directed while enrolled in a program, may be referred to more intensive services such as withdrawal management and substance use disorder treatment with residential support. In these instances, the individual may fulfill SATOP requirements by completing a comparable program.

(E) The OMU issuing a second opinion is the official OMU of record. The OMU is responsible for issuing the screening recommendation to the individual, monitoring the individual’s compliance with the recommendation, and notifying the originating OMU to close the individual’s record if he/she objects to the recommendation of the originating OMU. The notice must be in written format and signed by the individual.

(8) Screening and Referral Process. Offender Management Unit (OMUs) must have written policies and procedures for conducting individualized screenings and issuing program recommendations based on screening results.

(A) The screening recommendation is provided in writing to each individual at the completion of the screening.

(B) Each individual is informed of their right to a second opinion from an alternative OMU and right to judicial review if he/she objects to the recommendation of the originating OMU. The notice must be in written format and signed by the individual.

1. The following criteria applies to second opinions:

(A) The right to a second opinion is forfeited if the individual has enrolled in the originating OMU’s recommended program:

(B) The alternative OMU must conduct a thorough review of the individual’s original screening recommendation and obtain a copy of the SATOP Offender Assignment form from the originating OMU (release of information is not required);

(C) The alternative OMU must obtain a current driving record from the Department of Revenue or other reliable source;

(D) The individual must pay the screening fee for the second opinion but is not required to pay the supplemental fee; and

(E) The OMU issuing the second opinion is the official OMU of record. The OMU is responsible for issuing the screening recommendation to the individual, monitoring the individual’s compliance with the recommendation, and notifying the originating OMU to close the individual’s record in their program.

(9) Resources and Referrals. All SATOPs shall maintain a resource directory of area self-help groups and substance use disorder treatment programs that is readily accessible to individuals being served.

(A) Each individual who receives a recommendation for substance use disorder treatment shall be given a directory of certified treatment programs for the area in which he/she chooses to obtain services. A statement shall be signed by the individual acknowledging receipt of the directory as well as notice that he/she is not required to obtain recommended services from the same agency that conducted the screening.

(10) Program Evaluation. All persons participating in a SATOP shall be asked to complete a course evaluation. The evaluation process must assure anonymity.

(A) Participants may be encouraged, but not required, to sign the evaluation form.
(B) Evaluations shall be retained by the program for one (1) calendar year.

(11) Data Collection. The program shall cooperate with all SATOP quality assurance and data collection requirements regarding the program operation, individual demographics, or other data collection that may be required by the department.

(12) Organized Record System and Individual Records. All SATOPs must maintain an organized record system which ensures easily retrievable, complete, and usable records. Records must be stored in a secure and confidential manner in accordance with state and federal requirements.

(A) Records required by the department shall be maintained in paper form or electronic medium at the location services are provided or at the provider’s address of record with the department.

(B) Copies of records must be provided upon request by the department or its authorized representative(s), regardless of the medium in which they are maintained.

(C) Individual records must be retained for at least six (6) years or until all litigation, adverse audit findings, or both, are resolved regardless of the medium in which they are maintained.

(D) Individual records for OMUs shall include, but are not limited to:

1. Demographic information;
2. Proper signed release of information forms, as applicable;
3. Signed acknowledgement by the individual indicating receipt of—
   A. Individual rights, responsibilities, and grievance procedures;
   B. Screening recommendation;
   C. Notice of option for a second opinion and judicial review;
   D. List of referral sources; and
   E. Notice that services may be obtained from another provider;
4. Driving record check by the Department of Revenue (if another source is used, provider is responsible for ensuring its reliability);
5. Documentation of an individualized screening including date administered, name and signature of the SATOP Qualified Professional, summary of results including substance use history, and education or treatment recommendation;
6. SATOP Offender Assignment form; and
7. SATOP Completion Certificate (if program was completed).

(E) Individual records for persons enrolled in an education program shall include, but are not limited to:

1. Dates of attendance;
2. Demographic information;
3. Scored pretest(s) and posttest(s) measuring knowledge gain and attitude change;
4. Proper signed release of information forms, as applicable;
5. Signed acknowledgement by the individual indicating receipt of individual rights, responsibilities, and grievance procedures, list of referral sources, and notice that services may be obtained from another provider;
6. Results of blood alcohol content (BAC) tests, as applicable;
7. SATOP Offender Assignment form; and
8. SATOP Completion Certificate (if program was completed).

(F) Individual records for persons enrolled in the Clinical Intervention Program and Serious and Repeat Offender Program shall include, but are not limited to:

1. Consent to treatment;
9 CSR 30-3.204 SATOP Personnel

PURPOSE: This rule describes the personnel policies and staff qualifications for Substance Awareness Traffic Offender Programs and establishes specific policies and procedures for the revocation or suspension of credentialed personnel.

(1) Qualifications of Staff. Staff must have specialized training in providing services for individuals who have been arrested for an alcohol- and/or drug-related traffic offense.

(A) Staff must be credentialed by the Missouri Credentialing Board, 428 E. Capitol Avenue, 2nd Floor, Jefferson City, MO 65101, and must meet the designated requirements prior to the delivery of services. Substance Awareness Traffic Offender Programs (SATOP) credentials include:
   1. SATOP Qualified Professional (SQP); and
   2. SATOP Qualified Instructor (SQI).

(B) SATOP screenings shall be conducted by a SQP.

(C) Treatment services shall be provided by a SQP or Qualified Addiction Professional.

(D) Education services shall be provided by a SQP or SQL.

(E) Staff who administer screenings and provide education and treatment services shall—
   1. Not have a suspension or revocation of their driver’s license within the preceding two (2) years of administering screenings or providing education and treatment services. Verification of staff driving records shall be completed annually and maintained in personnel records;
   2. Not have received a citation or been charged with any state or municipal alcohol- or drug-related offense within the preceding two (2) years of administering screenings and providing education and treatment services, except when found not guilty in a court of competent jurisdiction;
   3. Not have allowed the use of alcohol, illegal drugs, or misuse of prescription medications to interfere with the conduct of their SATOP job duties;
   4. Successfully complete SATOP training offered or approved by the department; and
   5. Meet background screening requirements specified in 9 CSR 10-5.150.

(2) Reporting Requirements. Administrators and staff of a certified SATOP have the duty to report to the department the suspected failure of any individual to meet applicable program standards and requirements.

(A) Complaints or allegations which must be reported to the department include:
   1. Failure of a SATOP to meet personnel requirements under this rule;
   2. Violations of individual rights under 9 CSR 10-7.020;
   3. Fraudulent or false reporting to the department, Department of Revenue, courts, or other entity;
   4. Performance of duties for which an individual is not appropriately credentialed;
   5. Conviction, plea of guilty, or suspended imposition of sentence for any felony or alcohol- or drug-related offense;
   6. Failure to cooperate in any investigation by the department or authorized by the department;
   7. Abuse, neglect, or misuse of funds/property in accordance with 9 CSR 10-5.200; and
   8. Offenses considered disqualifying crimes under section 630.170, RSMo.

(3) Guest Speakers. A program which utilizes guest speakers shall have written policies and procedures for their recruitment, selection, training, supervision, dismissal, and compensation.

   (A) The program shall maintain a roster of all approved guest speakers and a description of the duties or tasks of each.

   (B) Guest speakers are not considered instructors for the purpose of these rules.

   (C) At no time shall a guest speaker assume sole responsibility for a class.

(4) Compliance. Failure to adhere to stipulations, conditions, and requirements set forth in this rule shall be considered cause for revocation or denial of program certification.

9 CSR 30-3.206 SATOP Structure

PURPOSE: This rule establishes basic requirements and structure for Substance Awareness Traffic Offender Programs, including the screening and referral process and fee structure.

PUBLISHER’S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(1) Assessment Process and Program Assignment. Offender Management Units (OMU) are the designated entry point for individuals referred to a Substance Awareness Traffic Offender Programs (SATOP).

(A) All OMUs must be certified by the department to provide the Offender Education Program. Substance use disorder treatment programs that are contracted by a DWI court to serve serious and repeat offenders are excluded from this requirement.

(B) All individuals are screened at the OMU by a SATOP Qualified Professional (SQP). The SQP assigns the individual to an education or treatment program based on screening results, department referral criteria, and his/her professional judgment.

(C) The OMU issues a SATOP Offender Assignment form to
each individual at the completion of the screening.

(D) Individuals are not required to fulfill their SATOP requirement with the OMU that conducted his/her screening. Individuals may request to attend a program based on circumstances such as distance, work schedule, or other factors. The originating OMU shall provide each individual with the contact information for certified SATOPs in his/her chosen location in order to select a service provider.

(E) The OMU provides a referring court or probation and parole office with a copy of the SATOP Offender Assignment form, upon request, and with proper release of information from the individual.

(2) Assessment Process. A SQP shall conduct a screening for each individual who presents to the OMU to determine his/her service needs. Screening recommendations are impartial and based solely on the needs of the individual and the welfare of society.

(A) The screening process includes, but is not limited to:

1. Collection of basic demographic information;
2. Completion of the 2013 edition of the Driver Risk Inventory-2 (DRI-2) published by and available from Behavior Data Systems, PO Box 44256, Phoenix, AZ 85064-4256. The document incorporated by reference does not include any later amendments or additions;
3. A face-to-face interview with the SQP, including information related to any previous substance use treatment;
4. A written summary of findings and program assignment;
5. Driving record report from the Department of Revenue or other reliable source;
6. Blood alcohol content (BAC) at time of arrest and/or toxicology results, if available; and
7. Completion of the SATOP Assignment Form and, when required, a narrative report to the court with release of information from the individual.

(B) Coordination with the courts, probation and parole, Department of Revenue, or other entities shall be provided, as necessary, to verify service recommendations are understood by all parties.

(C) Individuals who have a serious emotional disorder or serious mental illness which may interfere with his/her participation in SATOP shall be referred to a qualified mental health professional for an evaluation. Participation in SATOP may be delayed until the individual’s mental health needs are evaluated and necessary services are obtained.

1. The OMU shall maintain an affiliation agreement or memorandum of understanding with a certified community mental health center or a licensed mental health professional in order to promptly coordinate mental health services.

(D) Individuals shall receive written notification from the OMU that the screening is valid for six (6) months from the date of completion and payment for a second screening will be required if the six- (6-) month time period lapses prior to engagement in the assigned level of service, unless:

1. A motion for judicial review has been filed, or;
2. A second opinion from an alternate OMU is obtained prior to the end of the six- (6-) month period.

(E) Individual records may be closed after the six- (6-) month period expires unless a motion for judicial review or second opinion applies.

(3) Program Referral Guidelines. The SQP shall base program assignment on his/her professional judgment, screening results, and referral guidelines established by the department, as follows:

(A) 1st Offense—Offender Education Program (OEP) or Adolescent Diversion Education Program (ADEP) unless a more intense program is indicated by factors such as blood alcohol content at time of arrest, other alcohol- or drug-related arrests, results of the DRI-2, prior treatment for a substance use disorder, or occupational, relationship, medical, or other issues;

(B) 2nd offense—Weekend Intervention Program (WIP) unless a more intense program is indicated by factors such as blood alcohol content at the time of arrest, other alcohol- or drug-related arrests, results of the DRI-2, prior treatment for a substance use disorder, or occupational, relationship, medical, or other issues;

(C) 3rd offense—Clinical Intervention Program (CIP) unless a more intense program is indicated by factors such as blood alcohol content at the time of arrest, other alcohol- or drug-related arrests, results of the DRI-2, prior treatment for a substance use disorder, or occupational, relationship, medical, or other issues;

(D) Prior and Persistent Offender—Serious and Repeat Offender Program (SORP). Individuals who have a BAC of 0.15 or greater at time of arrest, two (2) or more arrests for driving under the influence of alcohol or drugs with administrative action by the Department of Revenue, and meet diagnostic criteria for a substance use disorder, thereby meeting the statutory definition as a prior or persistent offender, shall be referred to intensive treatment.

1. As used in these SATOP rules, the terms prior and persistent offender mean—

A. Prior offender, a person who has pleaded guilty to or has been found guilty of one (1) intoxication-related traffic offense, where such prior offense occurred within five (5) years of the occurrence of the intoxication-related traffic offense for which the person is charged;

B. Persistent offender, a person who has pleaded guilty to or has been found guilty of two (2) or more intoxication-related traffic offenses; a person who has pleaded guilty to or has been found guilty of involuntary manslaughter pursuant to section 565.024.1(2) or (3), RSMo; assault of a law enforcement officer in the second degree pursuant to section 565.060.1(4), RSMo; assault in the second degree pursuant to section 565.024.1(2), RSMo; or assault in the second degree pursuant to section 565.060.1(4), RSMo; or assault in the second degree pursuant to section 565.060.1(4), RSMo;

(E) Exceptions to these referral guidelines require prior approval from the department.

(4) OEP and ADEP Requirements. The OEP and ADEP are designated for individuals with a first-time alcohol- or drug-impaired driving offense. Educational sessions and discussions focus on helping individuals assess his/her personal responsibility related to alcohol- and drug-impaired driving.

(A) OEPs and ADEPs must maintain a contract with the department and conduct the respective program in accordance with the 2017 edition of the OEP Missouri Curriculum Guide or the 2014 edition of the ADEP Missouri Curriculum Guide produced by The Change Companies, 5221 Sigstrom Dr., Carson City, NV 89706. Prior approval from the department is required to alter the content and methods in the curriculum guides incorporated herein by reference. The referenced guides do not include any later amendments or additions.

(B) At least ten (10) hours of education and discussion must be provided to individuals over a period of at least two (2) calendar days. Sessions shall not exceed six (6) hours per day (excluding breaks) and should begin and end at times that are accessible for participants. No more than twenty percent (20%) of the educational component may consist of electronic media/ audiovisual aids.

(C) Program size must ensure the opportunity for participation
from individuals in attendance. Group sessions are limited to thirty (30) individuals. Parents, guardians, or other natural supports who attend a session or part of a session are not included in the limit of thirty (30) individuals.

(D) Prior to successful program completion, each individual must develop a personal plan of action to assist them in preventing alcohol- and drug-impaired driving behavior in the future.

(5) WIP Requirements. The WIP is designated for individuals with a second alcohol- or drug-impaired driving offense and those identified through the SATOP screening as being a high risk, first-time driving while intoxicated or driving under the influence (DWI/DUI) offender.

(A) WIPs must maintain a contract with the department and conduct the program in accordance with the 2017 edition of the WIP Missouri Curriculum Guide produced by The Change Companies, 5221 Sigstrom Dr., Carson City, NV 89706. Prior approval from the department is required to alter the content and methods in the curriculum guide incorporated herein by reference. The referenced guide does not include any later amendments or additions.

(B) The WIP is an intensive education program conducted during a forty-eight (48) hour weekend in a supervised and structured location approved by the department. Sessions shall begin and end at times that are accessible for participants.

(C) The program requires a minimum of twenty (20) hours of combined individual counseling and group education and discussion that assists individuals in assessing their personal responsibility related to alcohol- and drug-impaired driving and taking proactive steps to prevent future occurrences of impaired driving.

1. Individual counseling shall be provided by a SQP.
2. Small group discussions shall be facilitated by at least one (1) SQP or Qualified Addiction Professional (QAP) per twelve (12) participants. In the event two (2) staff co-facilitate a small group, one (1) of the staff may be a SATOP Qualified Instructor or an Associate Alcohol Drug Counselor if the group size does not exceed twenty-four (24) individuals.
3. Group education sessions shall not exceed thirty (30) individuals per staff member, including lectures and audiovisual presentations. Group education shall be conducted by a SQP or SQI.

(D) Meals and snacks shall be provided for individuals participating in the WIP at times comparable to normal meal times in the community. Preparation and management of meals and snacks must meet applicable state, county, and/or city health regulations.

(E) Instructional aids shall be incorporated into education sessions to enhance understanding and promote discussion and interaction among participants. Aids may include, but are not limited to, DVD's or other electronic media, worksheets, and informational handouts and shall not comprise more than twenty percent (20%) of group education sessions.

(F) Guest speakers may be utilized in education sessions but shall not comprise more than twenty percent (20%) of the educational component of the program.

(6) CIP Requirements. The CIP addresses the needs of high-risk first and second-time DWI/DUI offenders, third-time offenders, and individuals identified during the SATOP screening process as meeting diagnostic criteria for a substance use disorder or being at risk for a substance use disorder. Services focus on substance use disorders and the resolution of problems related to substance use and the individual’s drinking and driving behavior.

(A) CIPs must maintain a contract with the department and comply with 9 CSR 30-3.130.

(B) A SQP or QAP shall utilize a department-approved instrument to administer a comprehensive assessment for each individual admitted to the program.

1. Assessment results shall be utilized to develop an individual treatment plan. Treatment plan reviews and updates shall be conducted as specified in 9 CSR 30-7.030.

2. Family members and/or other natural supports shall be involved in the development of the individual treatment plan, as appropriate and allowable. The reason(s) for non-participation of family members/natural supports shall be documented in the individual record.

(C) Each individual admitted to a CIP must complete fifty (50) hours of therapeutic, structured activities through a combination of individual and group counseling and group education in accordance with contract requirements. Services and activities must be accessible to individuals who are employed, in school, have family/childcare responsibilities, or other obligations.

(D) The CIP is intended to be completed over a six (6) to eight (8) week time period and should not be completed in less than three (3) weeks nor extend beyond six (6) months. The actual time period for completion of the program is based on individual needs.

(E) Individual and group counseling sessions must be facilitated by a Qualified Addiction Professional or SQP. Group counseling sessions are limited to twelve (12) individuals per staff member. In order to accommodate individuals in accessing services, group size may be greater than twelve (12) individuals with approval from the department.

(F) Education sessions shall be facilitated by a SQP or SQI. Group education sessions are limited to thirty (30) individuals per staff member.

(G) A blood alcohol content (BAC) or urine test shall be conducted for each individual a minimum of one (1) time per week. Random BAC tests and/or urine tests may also be conducted. All test results shall be documented in the individual record.

(7) SROP Requirements. The SROP addresses the needs of high-risk, high-need adults who have a DWI/DUI offense and meet criteria for a moderate to severe substance use disorder with the potential for recidivism. Services focus on substance use disorders and the resolution of problems related to substance use and the individual’s drinking and driving behavior.

(A) SROPs must maintain a contract with the department and comply with 9 CSR 30-3.130.

(B) A SQP or Qualified Addiction Professional shall utilize a department-approved instrument to administer a comprehensive clinical assessment for each individual admitted to the program.

1. Assessment results shall be utilized to develop an individual treatment plan. Treatment plan reviews and updates shall be conducted as specified in 9 CSR 10-7.030.

2. Family members and/or other natural supports shall be involved in the development of the individual treatment plan, as appropriate and allowable. The reason(s) for non-participation of family members/natural supports shall be documented in the individual record.

(C) Each individual admitted to a SROP must complete a minimum of seventy-five (75) hours of therapeutic, structured activities through a combination of individual and group counseling and group education in accordance with contract
requirements. Services shall be structured to address the specific and unique needs of serious and repeat DWI/DUI offenders.

(D) Services shall include at least thirty-five (35) hours of individual and group counseling provided by a Qualified Addiction Professional or SQP. Group counseling sessions are limited to twelve (12) individuals per staff member. In order to accommodate individuals in accessing services, group size may be greater than twelve (12) individuals with approval from the department.

(E) Services shall be based on individual needs and should be completed in no less than ninety (90) days.

(8) Treatment Services for Youth. Individuals under the age of eighteen (18) whose screening results indicate the need for intensive treatment shall be referred to and successfully complete a substance use disorder treatment program for adolescents. The program must be certified by the department or nationally accredited to provide services for adolescents.

(9) Comparable Program for Missouri Residents. Missouri residents who have pled guilty or have been found guilty of an alcohol- or drug-related traffic offense may complete a comparable program in lieu of a SATOP to be eligible for license reinstatement.

(A) A comparable program is one that is state-certified and/or nationally accredited as a substance use disorder treatment program by The Joint Commission, Commission on Accreditation of Rehabilitation Facilities, Council on Accreditation, or other accrediting body recognized by the department.

(B) Individuals must receive a drug and alcohol screening, comprehensive assessment, and successfully complete the recommended treatment services from the comparable program.

1. Missouri residents must complete a minimum of one-hundred and twenty (120) hours of treatment in no less than twenty-one (21) days. Treatment hours must include a minimum of forty (40) hours of individual and group counseling. The remaining hours must include a combination of driver-related education, individual counseling, group counseling, group education, and family therapy.

(C) The provider of services shall verify the individual’s successful program completion on the SATOP Comparable Program Completion form.

1. The individual shall present the SATOP Comparable Program Completion form to an OMU where a SATOP treatment episode.

2. The OMU shall conduct a review of the individual’s current driving record to ensure there are no alcohol- or drug-related traffic offenses during or after the treatment episode.

(10) Comparable Program for Out-of-State Residents. Individuals who have had an alcohol- or drug-related traffic offense in Missouri but live in or have moved to another state must complete a SATOP or a comparable program to be eligible for license reinstatement.

(A) To complete a comparable program, the individual must have a drug and alcohol screening and complete the recommendation of the screening. The provider of the screening and provider of services must be certified/licensed by the state of residence and/or be accredited by The Joint Commission, Commission on Accreditation of Rehabilitation Facilities, Council on Accreditation, or other accrediting body recognized by the department.

1. A minimum of ten (10) hours of drug and alcohol education is required unless the screening results indicate the need for more intensive services.

2. The department shall make the final determination regarding the acceptability of the out-of-state program.

(B) A SATOP Comparable Program Completion Form and signed money order for the supplemental fee, made payable to Mental Health Earnings Fund, must be submitted to the Department of Mental Health, Controller’s Office, PO Box 596, Jefferson City, MO 65102-0596.

1. The form and instructions are available at: www.dmh.mo.gov/ada/satop/completionform.pdf or by calling the department at (573) 522-4020.

(C) Following review of the comparable program, the department will provide notification of the individual’s program completion to the Department of Revenue.

(11) Department of Corrections Treatment Programs. Substance use disorder treatment programs completed by individuals who are incarcerated in a Missouri Department of Corrections facility may be recognized as a SATOP comparable program. Individuals must contact the Department of Corrections to obtain information on approved programs.

(12) SATOP Costs and Fees. The costs for the screening, education, and treatment programs are established by the department and reviewed periodically. Costs shall not be greater than relative costs indicate. Programs shall not establish costs or fees that are not specified in this rule unless prior authorization from the department is granted. All fees are to be paid by the individual being served.

(A) The screening fee includes monitoring the individual’s progress in the assigned education or treatment program and case coordination with the department, courts, probation and parole, Department of Revenue, and other entities as necessary.

(B) The cost for treatment in a department-certified and contracted substance use disorder treatment program is based on actual services provided.

(C) All individuals referred to a SATOP, including those participating in a comparable program as outlined in this rule, are required to pay a supplemental fee as specified in 9 CSR 30-3.208. The supplemental fee is in addition to the cost of the screening, education, and treatment services.

(D) Costs for individuals participating in a WIP, CIP, SROP, or a department-certified and contracted substance use disorder treatment program may be partially offset in accordance with 9 CSR 10-31.011.

(13) Successful Program Completion. Successful completion of a SATOP requires that the individual—

(A) Is free from alcohol or illegal drug use when participating in services and, as applicable, uses prescription medication as prescribed during program participation;

(B) Attends all sessions on time;

(C) Attends sessions in their proper sequence unless the instructor approves an alternate sequence;

(D) Completes all assignments and cooperatively participates in all class activities;

(E) Pays all fees prior to program completion; and

(F) Completes and signs all required forms.

(14) Completion Certificate. A SATOP Completion Certificate
is issued to each individual within seven (7) calendar days of his/her successful completion of an education or treatment program.

(A) The OMU that completed the screening and issued the program recommendation is responsible for issuing the SATOP Completion Certificate to the individual. The Department of Revenue receives automatic notification of each individual’s successful program completion via the department’s automated processing system.

(B) If an individual fulfills their SATOP requirement with a provider other than the OMU that completed the screening and issued the program recommendation, the provider of services notifies the originating OMU of the individual’s successful program completion. Notification must be provided to the originating OMU in a timely manner to ensure the SATOP Completion Certificate is issued to the individual within seven (7) calendar days of successful program completion.

(C) If an individual completes a comparable program, an OMU must create the SATOP Completion Certificate and indicate that a comparable program was completed. Automated notification of the individual’s successful program completion is provided to the department through the department’s automated processing system.

(15) Compliance. Failure to adhere to the stipulations, conditions, and requirements set forth in this rule shall be considered cause for revocation or denial of program certification.

9 CSR 30-3.208 SATOP Supplemental Fee

PURPOSE: This rule establishes a supplemental fee which shall be collected by all certified Substance Awareness Traffic Offender Programs as required by state statute and outlines the procedures for submitting supplemental fees to the department.

(1) Supplemental Fee. All Substance Awareness Traffic Offender Programs shall collect a supplemental fee from each individual admitted to the program in accordance with section 302.540, RSMo.

(A) The supplemental fee is determined by the department and is in addition to any other costs associated with the program.

(B) The supplement fee is collected one (1) time per offense, regardless of the level of service the individual receives.

(2) Remittance of Supplemental Fees. On or before the fifteenth day of each month, program administrators shall remit the total of all supplemental fees collected during the prior calendar month, less two percent (2%) which, by law, may be retained by the program to offset collection and remittance costs.

(A) Remittance shall be mailed to: Mental Health Earnings Fund, Controller's Office, Department of Mental Health, 1706 East Elm Street, PO Box 596, Jefferson City, MO 65102.

(B) Transfer of supplemental fees from the program to the Mental Health Earnings Fund shall be in the form of a single check made payable to the Mental Health Earnings Fund. The payment shall include the SATOP Supplemental Fee Remittance Summary and Agency Tally Sheet.

(C) Failure to remit supplemental fees to the department on a timely basis will be considered cause for revocation of program certification.

1. If supplemental fees, including interest and penalties, are not remitted to the department within six (6) months of the due date, the Attorney General of the state of Missouri shall initiate appropriate action for collection of the fees.

(3) Documentation of Supplemental Fee Transactions. Each program shall maintain, at its principal administrative center, a single record of all supplemental fee transactions which is separate from all other program records. This separate record will facilitate audits conducted by the department or the State Auditor’s Office. A separate program record of supplemental fee transactions shall include copies of monthly remittance forms, copies of checks forwarded to the Mental Health Earnings Fund, and receipts issued by the department.

(4) Acceptance of Supplemental Fees. The department will only accept supplemental fee remittances from certified SATOPs. If an agency’s certification is revoked, the department will accept the supplemental fees owed prior to the date of revocation. The agency shall issue a refund to any individuals from whom a supplemental fee was collected after the date of revocation.

(5) Notice of Supplemental Fee. Programs shall post, in places readily accessible to persons served, one (1) or more copies of a Student Notice Poster which shall be provided by the department at no cost to the program. Posters shall explain the statutory requirement for the supplemental fees, disposition of supplemental fees, and the means by which programs collect and remit supplemental fees.

(6) Compliance. Failure to adhere to the stipulations, conditions, and requirements set forth in this rule shall be considered cause for revocation of program certification.

9 CSR 30-3.220 Referral Procedures
[Rescinded October 30, 2001]

9 CSR 30-3.230 Required Educational Assessment and Community Treatment Program (REACT)

PURPOSE: This rule identifies the Department of Mental Health (department) as being responsible for the certification of REACT programs as mandated by state statute.

(1) Mission. As specified in section 559.630, RSMo, REACT is a statewide system of comprehensive, accessible, community-based education and treatment programs designed for individuals who have been found guilty of, or pled guilty to a Chapter 195 felony drug offense. The mission of REACT is –
(A) To promote a drug- and crime-free lifestyle for individuals served;
(B) To provide education and/or treatment on the multi-faceted consequences of substance use for individuals served;
(C) To engage individuals appropriate for treatment towards personal change and recovery; and
(D) To contribute to public health and safety in Missouri.

(2) Program Functions. REACT programs shall provide or arrange for screening, education, and treatment services for individuals referred to the program.

(3) Performance Indicators. The following are intended as examples of indicators that can be used by the department and the organization providing REACT to demonstrate achievement of the program’s mission and functions. Indicators can include, but are not limited to the following:
(A) Characteristics of persons participating in REACT such as type of offense, prior alcohol and drug offenses, and prior treatment history;
(B) Consistent use of screening criteria including the rate at which persons are assigned to education and treatment programs;
(C) Rate at which persons successfully complete REACT;
(D) Reductions in alcohol and drug offenses among those who complete REACT; and
(E) Satisfaction with services and feedback as reported by individuals served.

(4) Types of Programs. The department recognizes and certifies the following types of REACT programs:
(A) REACT Screening Unit (RSU)—provide substance use screenings as part of the assessment process, including an individualized interview and recommendation and referral for further services for individuals under the purview of section 559.630, RSMo; and
(B) REACT Education Program (REP)—provide basic education over the course of ten (10) hours to assist individuals in understanding the choices they made that led to their arrest and the resulting consequences. All persons completing this course shall develop a personal change plan to assist them in preventing future offenses.

(5) Requirements for Program Certification. REACT programs shall comply with 9 CSR 30-3.032.
(A) Requirements under 9 CSR 10-7.120 shall be applicable based on the type of services provided by the program and whether services are offered to individuals and groups at the program site. In addition –
1. The program must be located in an office, clinic, or other professional setting.
2. Screenings must be located in a setting which provides space for private, one-on-one interviews and ensures confidentiality. With the department’s written approval, screenings may be conducted at other locations on a limited basis, if confidentiality is assured and the individual agrees to a screening at the alternate site.
(B) The following regulations shall be waived for REACT programs unless the department determines a specific requirement is applicable due to the unique circumstances and service delivery methods of a program:
1. 9 CSR 30-3.010;
2. 9 CSR 30-3.020;

(6) Other Requirements. Agencies certified as a REACT program shall follow the regulations in 9 CSR 30-3.201 through 9 CSR 30-3.208, unless otherwise specified in this rule.

(7) Staff Requirements. REACT programs shall not utilize any person under the supervision of any federal, state, county, and/or city correctional department to provide services to offenders.

(8) Screening Requirements. All persons referred to REACT shall receive an individualized screening prior to participating in services to determine the severity of his or her substance use disorder and the type of education and/or treatment needed. The program shall utilize a screening instrument approved by the Department of Corrections (DOC).
(A) Policies and procedures shall define the program’s screening process, including referral criteria when the screening determines additional services are needed. The screening process shall include, but is not limited to:
1. Collection of demographic information;
2. Use of the standardized screening instrument as required by DOC;
3. A face-to-face interview with a qualified addiction professional (QAP);
4. A summary report of screening results;
5. Completion of the REACT Offender Assignment form and a narrative report provided to the individual’s probation/parole officer; and
6. Case coordination as needed with the courts, probation and parole, and/or DOC to verify education and treatment recommendations have been completed.

(B) A written screening recommendation shall be provided to the person served.

(C) With proper authorization from the individual served, collaborative data may be obtained such as treatment history and relevant information from family members and other natural supports.

(D) Individuals may participate in a REP with an agency that did not conduct his/her screening due to reasonable circumstances such as distance, work schedule, or other time-related factors.

(9) Quality Recommendations. The program must develop screening recommendations that are—
(A) Impartial and solely based on the needs of the offender and the welfare of society; and
(B) Never used as a means of case finding for any particular treatment program or as a marketing tool for any REACT program.

(10) Referral Guidelines. The program must base its recommendation and referral plan for each person on the following guidelines:
(A) REP unless treatment for a substance use disorder is indicated by factors such as other alcohol/drug-related arrests, screening instrument recommendations, prior alcohol/drug treatment, or other occupational, relationship, or medical problems; and
(B) Individuals who have a serious emotional disorder or serious mental illness which may interfere with his/her participation in REACT shall be referred to a qualified mental health professional for an evaluation. Participation in REACT may be delayed until the individual’s mental health needs are evaluated and necessary services are obtained.

1. RSUs shall maintain an affiliation agreement or memorandum of understanding with a certified community mental health center or a licensed mental health professional in order to promptly coordinate mental health services.

(11) Screening Cost. The cost of the screening is determined by DOC and shall be paid by the individual served. The screening fee shall not be excessively greater than relative costs indicate and include the costs for any case coordination functions necessary to—
(A) Monitor the individual’s progress in the education or treatment program(s); and/or
(B) Coordinate with the courts or probation and parole.

(12) Notice of Program Assignment and Completion. The RSU that conducts the screening shall provide each individual with a REACT Offender Assignment form after completion of the screening and a REACT Report of Offender Compliance form indicating successful completion or unsuccessful completion of the education portion of the program.

(A) The RSU shall provide a copy of the REACT Offender Assignment form to the referring probation and parole office within one (1) week of completion of the screening. The

RSU shall provide a copy of the REACT Report of Offender Compliance form to the referring probation and parole office within one (1) week of each individual’s successful program completion.

(B) The RSU shall send a copy of the REACT Offender Assignment form and the REACT Report of Offender Compliance form to DOC, Division of Offender Rehabilitation Services, 2715 Plaza Drive, Jefferson City, MO 65109.

(C) The RSU shall provide a REACT Completion Certificate to each individual served who successfully completes the program.

(13) Cost of the REP. The individual served shall pay for the cost of the REP. The cost is determined and approved by DOC and shall cover the operating expenses of the REP.

(14) Curriculum Guide. The REP shall be conducted in accordance with the curriculum established by DOC. A program must specifically request and obtain approval from DOC before deviating in any manner from the established curriculum.

(15) Treatment Programs Recognized for REACT. When the screening indicates the individual’s need for substance use disorder treatment, arrangements shall be made for the person to participate in such services.

(A) The recognized providers of treatment services for individuals in the REACT program include department-certified, deemed certified, and nationally accredited substance use disorder treatment programs.

(16) Criteria for Successful Completion of Treatment. In order to be recognized by REACT as successfully completing treatment, the individual must have written verification from a department-certified, deemed certified, or nationally accredited substance use disorder treatment program that he or she has—
(A) Participated as scheduled in treatment services for a period of at least ninety (90) days;
(B) Successfully achieved his/her personal recovery goals; and
(C) Met any other program requirements for successful completion of treatment. Individuals with a moderate to severe substance use disorder who have a history of multiple offenses must participate in a minimum of seventy-five (75) hours of treatment services during the treatment episode.

(D) Individuals who complete a department-certified, deemed certified, or nationally accredited substance use disorder treatment program after being charged or adjudicated for their offense, but prior to screening with a RSU, must receive approval from DOC to waive the REACT requirements as a result of his/her participation in such treatment.

(17) Cost of Treatment. The individual served is responsible for all costs related to completion of substance use disorder treatment referenced in or required by this rule.

(A) Costs related to treatment shall be based on the department’s Standard Means Test sliding fee scale.

(B) Programs may develop long-term payment plans to reasonably assist individuals in paying any outstanding balances.

(18) Review and Approval of Costs. All REACT screening and education fees approved by DOC shall be periodically reviewed and adjusted, if necessary, based on the best interests of individuals served, society, and the programs.
9 CSR 30-3.240 Medication
(Rescinded October 30, 2001)

9 CSR 30-3.250 Dietary Services
(Rescinded October 30, 2001)

9 CSR 30-3.300 Prevention Programs

PURPOSE: This rule identifies the expected outcomes, strategies, and operational requirements for prevention programs.

(1) Program Description. A prevention program offers a planned, organized set of activities designed to reduce the risk of and incidence of illegal or age-inappropriate use of alcohol, tobacco, and other drugs.

(A) Prevention activities and services are provided to an identified target population within a designated geographic area.

(B) The target population may include individuals, groups, organizations, communities, and the general public. The target population may include individuals or groups considered to be at-risk or high-risk in their potential for substance use; however, prevention activities are not specifically or primarily directed to persons who need treatment for a substance use disorder.

(C) A prevention program provides services that are comprehensive, research based, and culturally sensitive and relevant.

(D) A prevention program serves all age groups and populations where the need is evident, including special populations.

(2) Use of Risk Reduction Strategies. A prevention program implements strategies which reduce the risk of and incidence of illegal or age-inappropriate use of alcohol, tobacco, and other drugs. The program shall implement the following risk reduction strategies in accordance with the type of prevention services and programming it offers:

(A) Increase awareness of the nature and extent of such substance use and their effects on individuals, families, and communities;

(B) Inform others about available prevention and treatment services;

(C) Develop social and life skills which reduce the potential for such substance use;

(D) Identify and address risk and protective factors associated with substance use;

(E) Provide and assist with constructive and healthy activities to offset the attraction of such substance use or to meet needs which otherwise may be fulfilled by these substances;

(F) Identify persons who may have become involved in the initial, inappropriate, or illegal use of alcohol, tobacco, and/or other drugs and then arrange support and other referrals, as needed;

(G) Assess community needs and assist in the development of community planning and action;
(H) Establish or change community attitudes, norms, and policies known to influence the incidence of such substance use;
(I) Actively intervene with individuals and populations who have multiple risk factors for such substance use; and
(j) Organize, coordinate, train, and assist other community groups and organizations in their efforts to reduce such substance use.

(3) Types of Certified Programs. An agency may be certified to provide one (I) or more of the following types of prevention programs:
(A) Primary Prevention Program;
(B) Targeted Prevention Program; or
(C) Statewide Prevention Resource Center.

(4) Requirements for Certification. A prevention program shall comply with rules and standards listed under 9 CSR 30-3.032.
(A) Requirements under 9 CSR 10-7.120 are applicable based on the type of services provided by the prevention program and whether services are offered to individuals and groups at the program site.
(B) The following rules and standards are waived for prevention programs, unless the department determines that a specific requirement is applicable due to the unique circumstances and service delivery methods of a program:
1. 9 CSR 10-7.010;
2. 9 CSR 10-7.020;
3. 9 CSR 10-7.030;
4. 9 CSR 10-7.060;
5. 9 CSR 10-7.070;
6. 9 CSR 10-7.080;
7. 9 CSR 30-3.100; and
8. 9 CSR 30-3.110.

(5) Qualifications of Staff. Services shall be provided by a qualified prevention specialist who demonstrates substantial skill by being –
(A) A graduate of an accredited college or university with a bachelor’s degree in community development, education, public administration, public health, psychology, sociology, social work, or closely related field and have one (1) year or more of full-time equivalent professional experience in education, public health, mental health, human services, or a closely related area. Additional years of experience may be substituted on a year-for-year basis for the education requirement; or
(B) A prevention professional that is credentialed by the Missouri Credentialing Board to provide prevention services.

(6) Documentation of Resources and Services. All prevention programs shall maintain –
(A) A current listing of resources within the geographic area in order to readily identify available substance use disorder treatment and prevention resources, as well as other resources applicable to the target population;
(B) Informational and technical materials that are current, relevant, and appropriate to the program’s goals, content, and target population.
1. Materials and their use shall accommodate persons with special needs, or the materials can be readily adapted to meet those needs.
2. Materials shall be periodically reviewed by staff and advisory board to ensure relevance to the target population and consistency with current prevention research. The advisory board shall include members of the target population and a broad range of representatives from other community groups and organizations; and
(C) A record of all service activities. The record shall –
1. Identify the presenter and participants;
2. Describe the service activity;
3. State how the activity meets the specific needs of the individual, group, or community organization served;
4. Include consents for participation or releases of information, as applicable; and
5. Include or summarize participant evaluations, as applicable.

(7) Primary Prevention Program. A Primary Prevention Program shall offer comprehensive services and activities to a specified target population(s) in its effort to reduce the risk of and incidence of illegal or age-inappropriate use or misuse of alcohol, tobacco, and other drugs.
(A) A primary prevention program shall offer all of the following types of prevention services: information, education, alternatives, problem identification and referral, community-based process, and environmental services.
1. Unless otherwise indicated, the target population for information, education, alternatives, and problem identification and referral services shall include, but is not limited to, one (1) or more of the following: persons who are at risk for a substance use disorder; families or friends, or both, of persons at risk for a substance use disorder; school officials or employers of persons at risk for a substance use disorder; caretakers and families of elderly or populations with other special needs.
2. Unless otherwise indicated, the target population for community-based process and environmental services shall include, but is not limited to, persons at risk for a substance use disorder; community groups mobilizing to combat inappropriate substance use including civic and volunteer organizations; church; schools; business; healthcare facilities and retirement communities; state and municipal governments; and other related community organizations.

1. Information services are characterized by one-way communication from the presenter to the target population.
2. In addition to the target populations listed in subsection (7)(A), the target population information services may include the general public.
3. Examples of information service activities include:
   1. Information services are characterized by one-way communication from the presenter to the target population.
   2. In addition to the target populations listed in subsection (7)(A), the target population information services may include the general public.
   3. Examples of information service activities include:
   4. Include or summarize participant evaluations, as applicable.

(C) Education services shall develop social and life skills, such as conflict resolution, decision-making, leadership, peer resistance, and refusal skills.
1. Education services are characterized by interaction between the facilitator and the participants to promote certain skills and behaviors.
2. Examples of education service activities include classroom or small group sessions for person of any age, peer leader and helper programs, and parenting and family management classes.
(D) Alternatives shall provide healthy and constructive activities to offset the attraction of such substance use or
to meet needs which otherwise may be fulfilled by these substances.

1. Alternative services engage the target population in recreational and other activities that exclude such substance use.

2. Examples of alternative service activities include developing and supporting community service activities, teen institutes and other leadership training and activities for youth, adults, parents, school faculty, or others.

(E) Problem identification and referral services shall assist in arranging support, education, and other referrals, as needed, for persons who have become involved in the initial, inappropriate, or illegal use of alcohol, tobacco, and drugs.

1. This service does not include a professional or comprehensive assessment and determination of the need for substance use disorder treatment.

2. Examples of specific problem identification and referral activities include training and consultation to student assistance programs, employee assistance programs, medication support programs for the elderly, and other programs and organizations that may intervene with persons in the target population.

(F) Community-based process shall involve the assessment of community needs and the promotion of community planning and action in order to enhance other prevention and treatment services and to reduce the incidence of such substance use.

1. The target population shall include community coalitions.

A community coalition must have broad-based community representation and participation, such as civic organizations, neighborhood groups, churches, schools, law enforcement, healthcare and substance treatment facilities, businesses, and governmental organizations.

2. Examples of community-based process activities include assessing community needs and risk factors and recruiting, training, and consulting with community coalitions.

(G) Environmental services shall positively effect community policies, attitudes, and norms known to influence the incidence of such substance use.

1. Environmental services may address legal/regulatory initiatives, service/action initiatives, or both.

2. Examples of environmental services include maintaining current information regarding environmental strategies; training and consulting with community coalitions in the development and implementation of such strategies; serving as a resource to school, businesses, and other community organizations in the development of policies; and providing information regarding alcohol and tobacco availability, advertising and pricing strategies.

8) Targeted Prevention Program. A Targeted Prevention Program shall actively intervene with individuals and populations that have multiple risk factors for the illegal or age-inappropriate use or misuse of alcohol, tobacco, and other drugs. The program shall reduce risk factors and reduce the likelihood of such substance use and include effective prevention strategies that are based on research findings.

(A) The target population shall include:

1. Persons at risk of developing a substance use disorder, such as out-of-school youth, youth dropouts, or persons prone to violence; and

2. Individuals and groups that influence those persons at risk for a substance use disorder, such as parents; teachers, families and caretakers of elderly, or populations with other special needs; and school based and community groups, including civic and volunteer organizations, churches, and other related community organizations.

(B) The program may be located in school or other community settings.

(C) The program shall provide and promote social and emotional support, skill development, counseling, and other preventive services for persons and populations with multiple risk factors.

(D) Examples of specific services and activities include early identification and intervention; efforts to prevent dropping out of school; after-school recreational and educational activities; development of social and life skills such as conflict resolution, decision making, leadership, peer resistance, and refusal skills; group counseling or individual counseling, or both; parent training and consultation with school staff or other community organizations.

9) Statewide Prevention Resource Center. A statewide prevention resource center shall organize, coordinate, train, assist, and recognize community, regional, and state resources in their efforts to reduce the illegal or age-inappropriate use or misuse of alcohol, tobacco, and other drugs.

(A) The target population shall include community coalitions and other community organizations including primary prevention programs; and other community and state resources.

(B) Examples of specific activities include:

1. Conducting statewide and regional workshops and conferences;

2. Where applicable, distributing a state-wide newsletter that contains current information about prevention activities and issues;

3. Providing information and technical assistance regarding effective prevention strategies that are based on research findings;

4. Recognizing accomplishments by community coalitions and sponsoring recognition events;

5. Coordinating prevention activities and resources development with other state level organizations and state agencies; and

6. Expanding and strengthening the network of community and state organizations involved in prevention activities.

10) All prevention programs shall participate in program evaluation activities as required by the department.

*Original authority: 630.655, RSMo 1980.

9 CSR 30-3.310 Recovery Support Programs

PURPOSE: This rule describes the certification and service delivery requirements for recovery support programs.

PUBLISHER’S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be
made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(1) Program Description. Recovery support programs offer individuals recovery support services such as care coordination, spiritual and group counseling, life skills training, recovery housing, and transportation assistance, before, during, after, or independent of substance use disorder treatment provided by an organization certified by the department. These services are offered in a multitude of settings including, but not limited to, community support groups, faith-based organizations, and self-help and peer recovery groups. Recovery support programs are person-centered, allowing individuals the opportunity to direct his/her recovery process.

(2) Types of Programs. Certification is available for the following types of recovery support programs and services:

(A) Care coordination. Care coordination consists of assisting individuals with accessing the network of services and other community resources available to facilitate retention in substance use disorder treatment and/or sustained recovery. This may include, but is not limited to, consultation with the individual’s treatment provider, procurement of medication for a mental and/or substance use disorder through charitable programs, assistance in finding and securing permanent housing, development of a social support system, and when funded by the department, bus passes to eligible individuals. A care coordination service provider shall meet the following requirements:

1. Services shall be provided by recovery support program staff;
2. Services shall include, but are not limited to:
   A. Arranging, referring, and when necessary, advocating for quality services to which the individual is entitled;
   B. Monitoring provider service delivery and ensuring communication among service providers;
   C. Locating and coordinating services specific to crisis resolution; and
   D. Training in resource acquisition;

(B) Peer recovery drop-in center. Peer recovery drop-in center service emphasizes building peer relationships to help support personal choice(s), respect, and recovery. A peer recovery drop-in center shall meet the following requirements:

1. Each center shall be managed by a Missouri Recovery Support Specialist or Missouri Recovery Specialist – Peer as designated by the Missouri Credentialing Board;
2. Each center shall be staffed with a minimum of eighty percent (80%) staff and volunteers who are in recovery from a substance use disorder or co-occurring mental and substance use disorder;
3. The drop-in center shall create a home-like environment, including a living room type space with chairs, couches, and lighting for informal conversation, and a separate space for group meetings;
4. The drop-in center shall provide coffee, tea, or other free or low-cost beverages and may offer free or low-cost healthy food items;
5. The drop-in center shall offer recreational activities that induce social interaction, such as playing cards and other games, as well as the opportunity to participate in formal peer counseling and structured life-skill building groups;
6. The drop-in center shall provide a physically and emotionally safe environment that is accessible on foot or through public transportation; otherwise, the program shall provide or arrange for alternative transportation;
7. The drop-in center hours of operation shall be geared to the needs of individuals and include evening and weekend hours, at a minimum five (5) days per week for four (4) hours per day;
8. Drop-in center services shall be voluntary, free of charge, and free of expectations of length of participation;
9. A calendar of groups meetings, educational opportunities, and recreational activities shall be posted and updated at least monthly; and
10. Drop-in center services shall provide information on and coordination with social service support agencies in the community, as well as traditional behavioral health and physical health care service providers;

(C) Recovery coaching. Recovery coaching offers the individual support to develop proactive recovery-oriented problem solving skills for the future. A recovery coaching program shall meet the following requirements:

1. Recovery coaching shall be offered before, after, or concurrently with any department-funded certified substance use disorder treatment program;
2. Recovery coaching shall be a one-to-one service delivered face-to-face or, with department approval, through telehealth;
3. Recovery coaching shall not be considered a substitute for services delivered by a certified substance use disorder treatment program;
4. Recovery coaching shall be provided by a Missouri Recovery Support Specialist or a Missouri Recovery Support Specialist - Peer as designated by the Missouri Credentialing Board; and
5. Recovery coaching services and activities shall include, but are not limited to:
   A. Helping individuals connect with peers and their communities to develop a network for information and support;
   B. Sharing experiences of recovery, including the use of recovery tools, and modeling successful recovery behaviors;
   C. Helping individuals make independent choices and taking a proactive role in their recovery;
   D. Assisting individuals with identifying strengths and personal resources to aid in setting and achieving recovery goals; and
   E. Conducting periodic recovery management check-ups and assessing victories, strengths, challenges, and setbacks;
   F. Wellness coaching is recovery coaching that focuses on the relevant physical health factors previously identified by the individual as problematic, including:
      A. Low levels of physical activity/sedentary lifestyle;
      B. Use of tobacco and other addictive substances;
      C. Lack of nutrition and dietary education;
      D. Diet and glucose monitoring for diabetes prevention and management;
      E. Oral hygiene/dental health practices; and/or
      F. Use of medications which contribute to metabolic syndrome, obesity, and other health conditions;
6. Employment coaching is recovery coaching that assists individuals in finding and maintaining competitive and gainful employment and may include, but is not limited to:
   A. Assisting in identifying tasks and activities geared toward career exploration and planning;
   B. Assisting with job searching and preparation; and/or
   C. Assisting in the development of self-management skills, interpersonal skills for the workplace, social and communication skills, and job maintenance;
(D) Spiritual counseling. Spiritual counseling helps individuals explore problems and conflicts from a spiritual perspective. Spiritual counseling shall meet the following requirements:

1. Services shall be provided by qualified clergy. A qualified clergy is defined as an ordained clergy by a recognized religious organization with at least one (1) of the following credentials:
   A. Missouri Recovery Support Specialist (MRSS);
   B. Missouri Recovery Support Specialist-Peer (MRSS-P);
   C. Certified Alcohol Drug Counselor (CADC);
   D. Certified Reciprocal Alcohol Drug Counselor (CRADC);
   E. Certified Reciprocal Advanced Alcohol Drug Counselor (CRAADC);
   F. Recognized Substance Abuse Professional (RSAP);
   G. Certified Criminal Justice Professional (CCJP);
   H. Physician;
   I. Licensed Professional Counselor (LPC);
   J. Licensed Marriage and Family Therapist (LMFT);
   K. Licensed Clinical Social Worker (LCSW); or
   L. Licensed Psychologist;

2. Religious organization shall mean that defined in 352.400.1(5), RSMo.

3. The individual’s spiritual beliefs, morals, ideas, values, and conflicts shall be explored in a safe and non-judgmental manner; and

4. Spiritual counseling services shall include one (1) or more of the following:
   A. Establishing or re-establishing a relationship with a higher power;
   B. Developing personal connectedness with a spiritual, religious, or faith-based entity;
   C. Acquiring skills needed to cope with life-changing incidents;
   D. Adopting positive values or principles;
   E. Identifying a sense of purpose and mission for one’s life;
   F. Achieving serenity and peace of mind;
   G. Finding life purpose;
   H. Overcoming emotional, social, mental, or physical obstacles; and/or
   I. Putting pain and grief into perspective;

(E) Support, educational, or life-skills groups. Support, educational, or life-skills groups provide support for individuals in recovery by offering encouragement and connections with others who share similar experiences. Support, educational, or life-skills groups shall meet the following requirements:

1. Group services shall address recovery, employment, spiritual, and/or wellness issues relevant to the needs of the individuals served;

2. Groups may be formed around shared identity such as common cultural or religious affiliation, shared experiences, and/or goals such as community re-entry following incarceration, HIV status, or challenges in parenting;

3. Group sessions may consist of the presentation of general information and application of the information to participants through group discussion designed to promote recovery and enhance social functioning;

4. Support group services shall include, but are not limited to:
   A. Classroom-style didactic lecture to present information about a topic and its relationship to substance use disorders and recovery;
   B. Presentation of educational audiovisual materials with required follow-up discussion;
   C. Promotion of discussion and questions about the topic presented to the individuals in attendance;
   D. Generalization of the information and demonstration of its relevance to recovery and enhanced functioning;
   E. Facilitating disclosure of issues that permits generalization of the issue to the larger group;
   F. Promoting positive help-seeking and supportive behaviors; and
   G. Encouraging and modeling productive and positive interpersonal communication;

5. A support, educational, or life-skills group session shall include a qualified facilitator and at least two (2) but no more than thirty (30) individuals per group in order to promote participation;

(F) Transportation. Transportation services assist individuals enrolled in a certified recovery support program or substance use disorder treatment program in achieving and sustaining recovery goals when they do not have the means to provide personal transportation. Transportation services shall meet the following requirements:

1. Transportation shall be limited to specific destinations and/or appointments as defined by the department. Allowable transportation services shall include:
   A. To and from a certified substance use disorder treatment program;
   B. To and from a certified recovery support program;
   C. To and from a doctor’s appointment, dental appointment, or appointment with other healthcare providers;
   D. To and from probation and parole, court, or other criminal justice agencies; and
   E. To and from employment-seeking activities and/or active employment;

2. Staff or volunteers who provide transportation services shall meet the background screening requirements in 9 CSR 10-5.190 and hold a class E chauffeur’s license, or if transporting more than fifteen (15) passengers, a CDL license;

3. The vehicle used for transportation shall be currently licensed, properly insured, and provide safe and reliable transportation for individuals served;

4. Staff or volunteers who provide transportation shall have access to a communication device in the vehicle at all times;

(G) Recovery housing. Recovery housing is a direct service that provides supervised, short-term housing to individuals with substance use disorders or co-occurring mental and substance use disorders. Recovery housing services shall meet the following requirements:

1. To be eligible for recovery housing, the individual shall be participating in a department certified and funded substance use disorder treatment program or recovery support program;

2. Recovery housing levels of support and supervision shall include one (1) of the following:
   A. Peer-run: At least weekly house meetings facilitated by staff; or
   B. Monitored: At least a daily monitoring visit by staff; or
   C. Supervised: twenty-four- (24-) hour supervision of individuals by staff, with a minimum of three (3) different staff members providing supervision per twenty-four- (24-) hour period;

3. Each recovery housing provider that offers the self-pay option to individuals served shall have written rental agreement policies and procedures that include, but are not limited to:
   A. An explanation of the housing arrangements shall be
posted in all housing units;

B. The grounds for termination of the rental agreement;

C. The terms of the agreement shall be established and explained to each individual at admission to housing services; and

D. If an individual enters into a rental agreement for housing with the recovery support organization, a signed copy of that rental agreement shall be kept in the individual record;

4. Recovery housing properties shall—

A. Provide proof of an initial successful Housing Quality Standards (HQS) inspection conducted by an HQS inspector;

B. Provide proof of a successful annual fire inspection; and

C. Provide proof of meeting all local government occupancy/safety requirements such as an occupancy permit, zoning approval, and/or other correspondence showing approval from the local municipal or county governing body;

5. Recovery housing properties inspected and approved as meeting standards of a state/local/regional/national provider organization such as the National Association of Recovery Residences shall be exempt from requirements in paragraph (2)(G)(4) of this rule.

(3) Specialized Services. Recovery support programs that specialize in serving minority or other populations with unique recovery needs may tailor individual and group services to address specific needs. These specialized populations, services, and philosophies may be combined in multiple ways to include, but not be limited to:

(A) Employment;

(B) Faith and spiritual beliefs;

(C) Housing;

(D) Offender re-entry;

(E) Peer supports; and

(F) Wellness.

(4) Program Certification. Certification is required for a recovery support organization to obtain and maintain a contract with the department, to participate in department programs eligible for Medicaid reimbursement, and to serve individuals whose referral sources require the provider to be certified by the department. Organizations accredited under standards of care for recovery support services by the National Association of Recovery Residences (NARR), the Council on Accreditation of Peer Recovery Support Services (CAPRSS), the local affiliates of NARR or CAPRSS, or other entity recognized by the department may be eligible for certification through deeming. Certification or deemed status does not constitute an assurance or guarantee that the department or other entity will fund or utilize designated services or programs.

(A) An organization seeking certification or deemed status as a recovery support program shall comply with certification requirements set forth in 9 CSR 10-7.130, as well as all department rules and standards contained herein.

(B) The following core rules for psychiatric and substance use disorder treatment programs shall be met by recovery support programs:

1. 9 CSR 10-7.010 Treatment Principles and Outcomes;

2. 9 CSR 10-7.020 Rights, Responsibilities, and Grievances;

3. 9 CSR 10-7.040 Quality Improvement;

4. 9 CSR 10-7.050 Research;

5. 9 CSR 10-7.060 Behavior Management;

6. 9 CSR 10-7.070 Medications;

7. 9 CSR 10-7.080 Dietary Service;

8. 9 CSR 10-7.090 Governing Authority and Program Administration;

9. 9 CSR 10-7.100 Fiscal Management;

10. 9 CSR 10-7.110 Personnel;

11. 9 CSR 10-7.120 Physical Plant and Safety;

12. 9 CSR 10-7.130 Procedures to Obtain Certification;

13. 9 CSR 10-7.140 Definitions.

(C) The following general program procedures shall be met by recovery support programs:

1. 9 CSR 10-5.190 Background Screening for Employees and Volunteers;

2. 9 CSR 10-5.200 Report of Complaints of Abuse, Neglect, and Misuse of Funds/Property;

3. 9 CSR 10-5.206 Report of Events;

4. 9 CSR 10-5.210 Exceptions Committee Procedures;

5. 9 CSR 10-5.220 Privacy Rule of Health Insurance Portability and Accountability Act of 1996 (HIPAA); and

6. 9 CSR 10-5.230 Hearings Procedures.

(D) The following department rules and standards shall be waived for recovery support programs unless the department determines that a specific requirement is applicable due to the unique circumstances and service delivery methods of a particular recovery support program:

1. 9 CSR 10-7.030 Service Delivery Process and Documentation;

2. 9 CSR 30-3.100 Service Delivery Process and Documentation; and

3. 9 CSR 30-3.110 Service Definitions and Staff Qualifications.

(5) Staff. Qualified staff shall be available in sufficient numbers to ensure effective service delivery.

(A) All staff and volunteers of recovery support programs shall meet background screening requirements in 9 CSR 10-5.190. The Missouri Department of Health and Senior Services Family Care Registry or other department-approved background screening service shall be used.

(B) All staff and volunteers who have contact with individuals receiving services shall, at a minimum, meet department-approved qualifications and complete six (6) hours of annual training on ethics and professional boundaries. The six (6) hours of annual ethics and boundaries training shall apply to the required thirty-six (36) hours of training, every two (2) years, for personnel as referenced in 9 CSR 10-7.110(2)(E).

(C) Training activities shall be documented in each employee’s personnel file and shall include the training topic, name of instructor, date(s) of training, certification/continuing education units, and location.

(D) Former recipients of services who transition to staff and volunteer roles shall have been in continuous personal recovery from a substance use disorder or co-occurring mental and substance use disorder for a period equal to or greater than twelve (12) months. Continuous personal recovery shall mean the individual—

1. Has not used any illegal drugs;

2. Has not used any physician-prescribed medication in a non-prescribed way;

3. Has not used any over-the-counter medication except for its intended use;

4. Has abstained from all use of alcohol; and

5. Is successfully managing their mental illness.

(E) All staff and volunteers of a certified recovery support program shall adhere to the Missouri Recovery Support Specialist (MRSS) Code of Ethics, or if functioning in a peer role, Missouri Recovery Support Specialist - Peer (MRSS-P) Code of Ethics, January, 2016, incorporated by reference, without any later amendments or additions, as published by the Missouri Department of Health and Senior Services.
(7) Treatment Goals. Successful outcomes for individuals with severe substance use disorder or co-occurring mental and substance use disorder, who are incarcerated in a correctional facility and have a prior history of substance use or who are in need of services as identified in the screening and assessment process outlined in section (8) of this rule; or

(G) Minimum qualifications for supervision of staff and volunteers include holding any of the following credentials: qualified substance abuse professional (QASAP) as defined in 9 CSR 10-7.140(2)(RR); Licensed Professional Counselor (LPC); Licensed Clinical Social Worker (LCSW); Licensed Psychologist; qualified clergy as defined in paragraph (2)(D)1. of this rule; or a director of a certified recovery support program. Acceptable supervision shall include a minimum of one (1) hour every month of face-to-face individual or group supervision.

(6) Admission Criteria. The criteria for admission to a recovery support program shall include at least one (1) of the following:

(A) The individual has a current substance use disorder or co-occurring mental and substance use disorder as identified in the screening and assessment process outlined in section (8) of this rule;

(B) The individual is in recovery from a substance use disorder or co-occurring mental and substance use disorder and in need of services as identified in the screening and assessment process outlined in section (8) of this rule; or

(C) The individual is re-entering the community from a correctional facility and has a prior history of a substance use disorder or co-occurring mental and substance use disorder.

(8) Screening, Assessment, and Recovery Plan. Each individual participating in recovery support services, as defined in this rule, shall be subject to a screening, an assessment, and the development of an individualized recovery plan.

(A) Screening. Each individual requesting a recovery support service(s) shall have prompt access to a screening to determine eligibility, substance use and/or co-occurring mental and substance use disorder history, and recovery needs. The screening shall—

1. Be conducted by a recovery support program and/or substance use disorder treatment program certified by the department;

2. Be conducted by trained staff;

3. Be responsive to the individual’s requests and needs; and

4. Include written notice to the individual regarding service eligibility and an initial course of action. If indicated, the individual shall be linked to other appropriate services and resources in the community. Referrals to other community resources shall include active care coordination to ensure the individual accesses appropriate supports.

(B) Assessment. Each individual requesting a recovery support service(s) shall participate in a recovery-oriented assessment that identifies his/her needs and goals, guides the development of an individualized recovery plan, and ensures engagement in appropriate recovery services. The participation of family and other natural supports and collateral parties (e.g., referral source, employer, other community agencies) in the assessment and development of the recovery plan shall be encouraged, as appropriate, and based upon the wishes of the individual.

1. The assessment shall be conducted by an organization certified by the department as a substance use disorder treatment program or a recovery support program.

2. The assessment shall be completed by a person who meets established criteria for a qualified substance use professional (QASAP) as defined in 9 CSR 10-7.140(2)(RR).

3. The assessment shall be completed within thirty (30) days of initial contact with the recovery support program. This time period does not include weekends and holidays observed by the state of Missouri.

A. If an individual is determined to have active or a severe substance use disorder, mental illness, or co-occurring mental and substance use disorder, presents symptoms of intoxication, impairment or withdrawal, cannot achieve abstinence without close monitoring, or requires structured support and daily supervision, he or she shall be referred to a certified substance use disorder treatment program or certified community mental health center for services.

B. The recovery support program may provide interim services for individuals with severe substance use, mental illness, or a co-occurring mental and substance use disorder while he/she is waiting for higher intensity services.

4. Documentation of the screening and assessment shall include, but is not limited to, the following:

A. Demographic and identifying information;

B. Needs, goals, and expectations from the person requesting services;

C. Presenting situation/problem and referral source;

D. History of previous and current psychiatric and/or substance use disorder treatment;

E. Wellness screening;

F. Current medications and medication allergies;

G. Alcohol and drug use history, including duration, patterns, and consequences of use;

H. Current psychiatric symptoms;

I. Family, social, legal, vocational and educational status, and functioning;

J. Current use of resources and services from other community agencies; and

K. Personal strengths, including family and other natural supports, social, peer, and recovery history.

5. The recovery support program shall actively coordinate other services and make appropriate referrals to ensure the safety and well-being of individuals with severe substance use, mental illness, physical health conditions, or other basic needs.

(C) Individualized Recovery Plan. The individualized recovery plan shall reflect the person’s unique needs and goals with a focus on integration and inclusion in his/her community, building healthy relationships with family and other natural supports systems, and accessing other community supports. Services may begin before the assessment is completed and the

CODE OF STATE REGULATIONS

55
recovery plan is fully developed.

1. Each individual participating in a recovery support program shall actively participate in the creation of a recovery plan within thirty (30) days of admission to the recovery support program. A qualified substance abuse professional and other member(s) of the individual’s recovery team shall also participate in development of the recovery plan.

2. The recovery plan shall guide ongoing service delivery and shall be signed by the individual.

3. The recovery plan shall be based on the individual’s initial screening and assessment as well as an assisted self-assessment of his or her goals and the strengths and capacities that he or she will use or rely upon to achieve these goals.

4. Service needs beyond the scope of the recovery support program that are being addressed by referral to or coordination with another community organization shall be included in the recovery plan.

5. Progress toward achievement of recovery goals shall be reviewed on a periodic basis to ensure the plan reflects current issues and maintains relevance for the individual. Each individual shall directly participate in regular reviews and updates of their recovery plan and shall sign the review.

(9) Organized Record System. Each recovery support program shall have an organized record system for each individual that receives recovery support services.

(A) Records shall be maintained in a manner that ensures confidentiality and security. The organization shall abide by all local, state, and federal laws and regulations concerning the confidentiality of records.

(B) If records are maintained on a computer system, there shall be a backup process in place to safeguard records in the event of operator or equipment failure and to ensure security from inadvertent or unauthorized access.

(C) The recovery support program shall retain individual records for at least six (6) years from the date of service or until all litigation, adverse audit findings, or both, are resolved.

(D) The recovery support program shall assure ready access to all records, including computerized records, by authorized staff and other authorized parties including department staff.

(10) Documentation. Services funded by the department shall be entered in the department-approved electronic record system. Services documented shall be legible, clear, complete, accurate, and recorded in a timely fashion not to exceed twenty-four (24) hours from service delivery with indelible ink, print, or approved electronic record system.

(A) Entries shall be dated and authenticated by the staff member providing the service, including name and title. Any errors on paper documentation shall be marked through with a single line, initialed, and dated.

(B) There shall be documentation of services provided and results accomplished.

(C) Individual service notes and group logs shall include:
1. Description of the specific service provided;
2. The date and actual time (beginning and ending times) the service was rendered;
3. Name and title of the person who rendered the service;
4. The setting in which the service was rendered;
5. The relationship of the services to the recovery plan; and
6. Description of the individual’s response to the service provided.

(D) Where applicable, the record shall also include documentation of referrals to other services or community resources and the outcome of those referrals, signed authorization to release confidential information, missed appointments and efforts to re-engage the individual, urine drug screening or other toxicology reports, and crisis or other significant events that may impact the recovery process.
