Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 25—Hazardous Waste
Management Commission
Chapter 13—Polychlorinated Biphenyls

10 CSR 25-13.010 Polychlorinated Biphenyls

PURPOSE: This rule establishes standards for the management of waste materials or waste manufactured items containing polychlorinated biphenyls at concentrations of fifty parts per million or more.

PUBLISHER’S NOTE: The publication of the full text of the material that the adopting agency has incorporated by reference in this rule would be unduly cumbersome or expensive. Therefore, the full text of that material will be made available to any interested person at both the Office of the Secretary of State and the office of the adopting agency, pursuant to section 536.031.4, RSMo. Such material will be provided at the cost established by state law.

(1) Applicability.
   (A) This rule shall apply in the state of Missouri to all polychlorinated biphenyls (PCB) material and PCB units as defined in subsection (2)(A) in shipment to or from or managed at a Missouri PCB facility.
   (B) Where conflicting regulations exist in accordance with 10 CSR 25-11.

(2) Definitions and Substitution of Terms.
   (A) Small capacitors that remain as suitable for recovery, storage or volume reduction.
   (B) The definitions for the following terms are codified in 40 CFR 761.3, July 1, 1989 and are incorporated by reference:
      1. Capacitor;
      2. Chemical substance;
      3. Fluorescent light ballast;
      4. PCB article;
      5. PCB container;
      6. PCB-contaminated electrical equipment;
      7. PCB transformer.
   (C) The following terms shall be substituted:

   (3) Definitions.
   (A) Chemical substance, a component of waste manufactured items; among the foam, paint, plastic, paper, food, and other components that a waste chemical substance that is limited to the biphenyl molecule that has been chlorinated to varying degrees or any combination of substances which contain this substance.
   (B) Waste oil containing PCBs at a concentration of less than fifty parts per million (50 ppm) and not otherwise meeting the definition of PCB material shall be managed in accordance with 10 CSR 25-11.
   (C) Waste oil containing PCBs at a concentration of less than fifty parts per million (50 ppm) and not otherwise meeting the definition of PCB material shall be managed in accordance with 10 CSR 25-11.
   (D) This rule does not relieve a regulated person from his/her responsibility to comply with the federal Toxic Substances Control Act, 15 USC 2601–2629 (December 22, 1987) or the corresponding regulations.

   (4) Incorporation by Reference.
   (A) Small capacitors that remain as suitable for recovery, storage or volume reduction.
   (B) The definitions for the following terms are codified in 40 CFR 761.3, July 1, 1989 and are incorporated by reference:
      1. Capacitor;
      2. Chemical substance;
      3. Fluorescent light ballast;
      4. PCB article;
      5. PCB container;
      6. PCB-contaminated electrical equipment;
      7. PCB transformer.
   (C) The following terms shall be substituted:
2. “PCB facility” shall be substituted for “hazardous waste facility”; “hazardous waste treatment, storage or disposal facility”; “treatment, storage or disposal facility”; and “HWM facility”; and
3. “PCB facility permit” shall be substituted for “Part B permit” and “RCRA permit.”

(3) Manifesting, Record Keeping and Reporting.
(A) Assignment of PCB Identification Numbers. PCB material and PCB units are assigned the following PCB identification numbers:
M001 Mineral oil dielectric fluid containing equal to or greater than fifty parts per million (50 ppm) PCBs but less than five hundred parts per million (500 ppm) PCBs.
M002 PCB-contaminated electrical equipment with dielectric fluid.
M003 PCB-contaminated electrical equipment that has been drained of all free-flowing liquids.
M004 Dielectric fluid containing greater than five hundred parts per million (500 ppm) PCBs.
M005 PCB transformers with dielectric fluid.
M006 PCB transformers that have been drained of all free-flowing liquids.
M007 PCB transformers that have been flushed with solvent as prescribed in 40 CFR 761.60(b)(1)(i)(B). 40 CFR 761.60(b)(1)(i)(B), July 1, 1989, is incorporated by reference.
M008 Capacitors contaminated with PCBs.
M009 Soil, solids, sludges, dredge materials, clothing, rags or other debris contaminated with PCBs.
M010 PCB-contaminated solvent. (Note: Any PCB-contaminated solvent that meets the definition of hazardous waste shall further be identified by the appropriate EPA identification number.)
M011 Other PCB material.
M012 Other PCB units.

(B) Manifests. No Missouri PCB facility shall accept a consignment of PCB material, PCB units or both unless it is accompanied by a hazardous waste manifest that meets the requirements of this section. All consignments of PCB material, PCB units or both originating from a Missouri PCB facility shall be accompanied by a hazardous waste manifest that meets the requirements of this section.

1. If a consignment is destined for a Missouri PCB facility, then an EPA Form 8700-22/MDNR-HWG-10 (Missouri Hazardous Waste Manifest) (see 10 CSR 25-7.270) or its equivalent shall be completed and used according to the Missouri Hazardous Waste Manifest Instructions and the supplemental instructions for PCB manifests. The manifests and instructions are available from the department;
2. If a consignment originates from a Missouri PCB facility and is destined for a facility located in a state which does not regulate PCBs, then an EPA form 8700-22/MDNR-HWG-10 (Missouri Hazardous Waste Manifest) or its equivalent shall be completed and used according to the Missouri Hazardous Waste Manifest Instructions and the supplemental instructions for PCB manifests. The manifests and instructions are available from the department;
3. If a consignment originates from a Missouri PCB facility and is destined for a facility located in a state which regulates PCBs and the receiving state requires the use of a particular version of the Uniform Hazardous Waste Manifest (EPA Form 8700-22 or its equivalent), then the receiving state’s manifest shall be used and completed according to the receiving state’s manifest instructions;
4. The manifest shall include the following information:
   A. The consignor’s name, business address and phone number;
   B. The transporter(s) name(s), phone number(s) and Missouri identification number(s);
   C. The designated facility’s name, site address and phone number;
   D. The proper United States Department of Transportation (DOT) description of the consignment;
   E. The number and type of containers;
   F. The total quantity of the consignment expressed in standard units of weight or volume;
   G. The appropriate PCB identification number(s) from subsection (3)(A) of this rule;
   H. A prominent display of the words “PCB Manifest” in item 15 of the manifest; and
   I. The original, dated signatures of the consignor, transporter(s) and facility operator;
5. Consignments of PCB material, PCB units or both shall be manifested separately at the Missouri PCB facility and are destined for a Missouri PCB facility located in a state which does not regulate PCBs, then an EPA form 8700-22/MDNR-HWG-10 (Missouri Hazardous Waste Manifest) (see 10 CSR 25-7.270) or its equivalent shall be completed and used according to the Missouri Hazardous Waste Manifest Instructions and the supplemental instructions for PCB manifests. The manifests and instructions are available from the department;
6. The owner/operator of a Missouri PCB facility who ships PCB material, PCB units or both off-site for treatment, storage or disposal shall comply with the following requirements:
   A. The owner/operator of a Missouri PCB facility shall contract with the designated facility to return the completed manifest to the Missouri PCB facility within thirty-five (35) days after the date the waste was accepted by the initial transporter;
   B. An owner/operator of a Missouri PCB facility who does not receive a copy of the PCB manifest with a handwritten signature of the owner/operator of the designated facility within thirty-five (35) days of the date the waste was accepted by the initial transporter shall contact the transporter, the owner/operator of the designated facility, or both, to determine the status of the consignment;
   C. An owner/operator of a Missouri PCB facility who has not received the completed manifest with the handwritten signature of the owner/operator of the designated facility within thirty-five (35) days from the date the waste was accepted by the initial transporter shall submit a completed exception report to the department within forty-five (45) days from the date the waste was accepted by the initial transporter; and
   D. The exception report shall include the following: the name, address and telephone number of the Missouri PCB facility; the name, address and telephone number of the Missouri transporter license number for each transporter; the name, address and telephone number of the designated facility; the manifest document numbers followed by the date of shipment; the waste description and the PCB identification number(s); the total quantity of PCB material, PCB units, or both, and the appropriate abbreviation for units of measure as follows: G—gallons (liquids only); P—pounds; T—tons (2000 lbs.); Y—cubic yards; L—liters (liquid only); K—kilograms; M—metric tons (1000 kg); N—cubic meters; the following certification statement, signed and dated by an authorized representative of the Missouri PCB facility: “I have personally examined and am familiar with the information submitted on this form. I hereby certify that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information which includes fine and imprisonment;” a legible copy of the manifest document originated by the Missouri PCB facility and signed by the initial transporter which was retained by the Missouri PCB facility and for which the Missouri PCB facility does not have confirmation of delivery; and a cover letter signed by the facility owner/operator or his/her authorized representative explaining the efforts taken to locate the PCB material,
PCB units or both and the results of those efforts.

(C) The facility shall return a copy of the PCB manifest to the transporter immediately upon receipt of the consignment and shall return a copy to the consignor within thirty-five (35) days of receipt. The facility’s manifest copy shall be maintained on-site for a period of three (3) years following receipt of a consignment. The period of record retention shall extend upon the written request of the department or automatically during the course of any unresolved enforcement action regarding the regulated activity.

(D) Reporting Requirements. The owner/operator of a PCB facility shall submit the following reports to the department:

1. The owner/operator shall submit an annual report by July 15 of each year that covers the previous calendar year. The annual report shall be prepared in accordance with 40 CFR 761.180(b). 40 CFR 761.180(b), July 1, 1989, is incorporated by reference.

2. The owner/operator shall complete and submit, within forty-five (45) days after the end of each calendar quarter, a quarterly report that includes the following information:
   - The name, address and phone number of the facility;
   - The quarter for which the report is prepared;
   - A summary of the total quantity of PCB material and PCB units (designated by PCB identification number) treated on-site;
   - A summary of the total quantity of PCB material and PCB units (designated by PCB identification number) generated on-site;
   - A summary of the total quantity of PCB material and PCB units (designated by PCB identification number) transferred to other treatment, storage or disposal facilities.
   - A summary shall be prepared for each individual facility utilized and shall include a list of shipping dates and the method of final disposition;
   - In chronological order, a copy of each PCB manifest received during the reporting quarter;
   - I. In chronological order, all completed manifests utilized for off-site shipments during that calendar quarter; and
   - J. A certification which reads: “CERTIFICATION: I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate and complete for the quarterly accounting of PCB material so handled, and the operations of the facility referenced herein. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.” The original signature of the owner/operator shall follow this certification.

(E) Operating Record. The owner/operator of a PCB facility shall maintain a written operating record. This subsection sets forth recordkeeping requirements for storage and transfer operations. A PCB facility shall also comply with the applicable recordkeeping requirements set forth in sections (7) and (8) of this rule. The information required in this subsection shall be recorded, as it becomes available, and maintained in the operating record of the facility until closure of the facility.

1. When PCB material is transferred from a PCB article or PCB container to a PCB container (for example, bulk tank or drum), the owner/operator shall record the following information:
   - The date of transfer;
   - The quantity of PCB material transferred;
   - The appropriate PCB identification number or some other reference to the type of material and PCB concentration;
   - Identification of the container into which the PCBs were transferred; and
   - The manifest document number from the manifest that accompanied the consignment or some other type of cross reference to the manifest document number.

2. When PCB material is transferred from a bulk tank to a tank truck, the owner/operator shall record information that indicates—
   - The date transported;
   - The tank identification and tank level or the quantity of PCB material removed from the tank; and
   - The manifest document number(s) associated with the off-site shipment(s).

(F) Transporter Requirements. The facility shall submit the following reports to the department or automatically during the course of any unresolved enforcement action regarding the regulated activity.

1. When PCB material is transferred from a Missouri PCB facility to a transporter, the transporter shall include the following information:
   - A. The facility name, address and telephone number;
   - B. A description of the existing and proposed treatment and storage methods and capacities;
   - 2. Manifesting. PCB articles that are transported to a facility for the purpose of servicing need not be accompanied by a manifest; and
   - 3. Owners/operators of PCB-contaminated metals reclamation incinerators shall meet the minimum technical standards in subsection (11)(A) of this rule.
(C) A provisionally regulated PCB facility which does not provide adequate environmental protection as determined by the department may be required to meet any or all of the requirements of this rule.

(D) The owner/operator of a provisionally regulated PCB facility who fails to operate within the criteria of subsection (5)(A) of this rule or who fails to comply with the requirements of subsection (5)(B) of this rule may be required to meet any or all of the requirements of this rule.

(6) Mobile Treatment Units.

(A) For the purpose of the rule, mobile treatment units (MTUs) are defined as follows:

1. Mobile treatment processes that utilize a physical or chemical treatment unit for the purpose of reclassifying a transformer pursuant to 40 CFR 761.30(a)(2)(v) as incorporated in this rule; or

2. Any other mobile treatment process that requires EPA approval pursuant to 40 CFR 761.60(e).

(B) MTUs are exempt from sections (3), (7), (8), and (9) of this rule provided that—

1. The owner/operator of an EPA approved MTU submits a copy of the MTU’s EPA approval to the department at least thirty (30) days prior to initial operation in Missouri;

2. The owner/operator of a MTU that does not require an EPA approval submits a detailed description of his/her process at least thirty (30) days prior to initial operation in Missouri;

3. The owner/operator of a MTU that is not providing a transformer reclassification service cannot operate for more than twenty (20) consecutive working days at any given job site without prior written approval of the department;

4. The owner/operator of a MTU that is providing a transformer reclassification service cannot operate at any given job site for more than one hundred eighty (180) days without prior written approval from the department; and

5. The owner/operator submits a site-specific notification to the department prior to treatment of PCBs at any given job site. The site-specific notification shall include the following information:

A. The client’s name, address and phone number;

B. The approximate quantity of PCBs to be processed by the MTU;

C. The approximate PCB concentration of the PCB material prior to treatment; and

D. The location of the job site.

(7) Standards for Owners/Operators of PCB Facilities. The owner/operator of a permitted Missouri PCB facility shall comply with this section. This section sets forth standards for a Missouri PCB facility permit which modify and add to the requirements of 40 CFR Part 264 incorporated by reference in 10 CSR 25-7.264(1) and modified in 10 CSR 25-7.264(2), which apply in this rule. For those subsections marked Reserved in which no modification or addition is indicated, the requirements of 10 CSR 25-7.264 and those 40 CFR parts incorporated by reference in 10 CSR 25-7.264 apply.

(A) Applicability. This subsection sets forth standards which modify or add to the requirements of 40 CFR Part 264 Subpart A, incorporated in 10 CSR 25-7.264(1) and modified in 10 CSR 25-7.264(2)(A). This section does not apply to an owner/operator of a provisionally regulated PCB facility or mobile treatment unit provided that the owner/operator maintains compliance with section (5) or (6) of this rule, respectively.

(B) General Facility Standards. This subsection sets forth standards which modify or add to 40 CFR Part 264 Subpart B, incorporated in 10 CSR 25-7.264(1) and modified in 10 CSR 25-7.264(2)(B). In addition to the requirements in 40 CFR 264.13(a)(1), as incorporated in 10 CSR 25-7.264, the waste analysis, at a minimum, shall contain all the information which must be known to treat, store, dispose of or broker the waste in accordance with the requirements of this rule, the PCB facility permit conditions and 40 CFR Part 761.

(C) Preparedness and Prevention. (Reserved)

(D) Contingency Plan and Emergency Procedures. (Reserved)

(E) Manifest System, Recordkeeping and Reporting. The owner/operator shall comply with the requirements in section (3) of this rule.

(F) Groundwater Protection. (Reserved)

(G) Closure and Post-Closure. This subsection sets forth standards which modify or add to those requirements in 40 CFR Part 264 Subpart G incorporated in 10 CSR 25-7.264(1) and modified in 10 CSR 25-7.264(2)(G). The most recent closure and post-closure estimates prepared in accordance with this subsection shall be submitted annually to the department by March 1.

(H) Financial Assurance Requirements. (Reserved)

(I) Use and Management of Containers. This subsection sets forth standards which modify or add to those requirements in 40 CFR Part 264 Subpart I incorporated in 10 CSR 25-7.264(1) and modified in 10 CSR 25-7.264(2)(I).

1. The term container as used in this subsection shall mean PCB article, PCB container or both.

2. The storage area shall meet the requirements in 40 CFR 761.65(b), 40 CFR 761.65(b), July 1, 1989 is incorporated by reference.

3. The temporary storage exemptions in 40 CFR 761.65(c)(1) are not allowed for permitted PCB facilities.

(J) Tank Systems. (Reserved)

(K) Surface Impoundments. The management of PCB material, PCB units or both in a surface impoundment is prohibited.

(L) Waste Piles. The management of PCB material, PCB units or both in a waste pile is prohibited.

(M) Land Treatment. The management of PCB material, PCB units or both in a land treatment unit or facility is prohibited.

(N) Landfills. This subsection sets forth standards applicable to PCB incinerators which modify or add to those requirements in 40 CFR Part 264 Subpart N incorporated by reference in 10 CSR 25-7.264(1) and modified in 10 CSR 25-7.264(2)(N). Landfilling of PCB material containing free liquids is prohibited.

(O) PCB Incinerators. This subsection sets forth standards applicable to PCB incinerators which modify or add to those requirements in 40 CFR Part 264 Subpart O, incorporated by reference in 10 CSR 25-7.264(1) and modified in 10 CSR 25-7.264(2)(O).

1. The provisions of 40 CFR 264.340(b), as incorporated in 10 CSR 25-7.264, shall not apply in this rule.

2. The requirements of 40 CFR 264.340(a)(1), as incorporated in 10 CSR 25-7.264, are modified to require an incinerator burning PCBs to achieve a destruction and removal efficiency (DRE) of ninety-nine and nine thousand nine hundred ninety-nine thousandths percent (99.9999%).

4. Combustion criteria for PCB liquids and combustion gases entering a secondary chamber shall be either of the following:

A. Maintenance of the introduced liquids for a two (2)-second dwell time at time degree hundreds Celsius, plus or minus one hundred degrees Celsius (1200°C ± 100°C) and three percent (3%) excess oxygen in the stack gas; or

B. Maintenance of the introduced liquids for a one and one-half (1 1/2) second...
dwell time at sixteen hundred degrees Celsius, plus or minus one hundred degrees Celsius, \((1600^\circ \text{C} \pm 100^\circ \text{C})\) and two percent (2\%) excess oxygen in the stack gas.

5. Combustion efficiency shall be at least ninety-nine and nine-tenths percent (99.9\%), computed as follows: Combustion efficiency equals the concentration of carbon dioxide divided by the sum of the concentration of carbon dioxide and the concentration of carbon monoxide multiplied by one hundred

\[
\left( \frac{C_{\text{CO}_2}}{C_{\text{CO}_2} + C_{\text{CO}}} \right) \times 100
\]

where

\(C_{\text{CO}_2}\) = the concentration of carbon dioxide; and

\(C_{\text{CO}}\) = the concentration of carbon monoxide.

(P) Health Profiles. (Reserved)

(Q) (Reserved)

(R) (Reserved)

(S) (Reserved)

(T) (Reserved)

(U) (Reserved)

(V) (Reserved)

(W) (Reserved)

(X) Miscellaneous Units. This subsection sets forth requirements which modify or add to the requirements in 10 CSR 25-7.264(X).

1. Permit conditions will be based upon successful process demonstrations. The process demonstrations shall define the maximum PCB concentration and type of PCB material and PCB units that can be treated.

2. The final concentrations of treated PCB material must be less than two parts per million (2 ppm) PCB.

(8) Interim Status Standards for Owners/Operators of PCB Facilities. The requirements set forth in 40 CFR Part 265, incorporated by reference in 10 CSR 25-7.265(1) and modified in 10 CSR 25-7.265(2) apply in this rule. This section sets forth standards for interim status PCB facilities which modify and add to the requirements of 40 CFR Part 265 incorporated by reference in 10 CSR 25-7.265(1) and modified in 10 CSR 25-7.265(2). This section does not apply to an owner/operator of a provisionally regulated PCB facility or mobile treatment unit provided that the owner/operator maintains compliance with section (5) or (6) of this rule, respectively. For those subsections marked Reserved in which no modification or addition is indicated, the requirements of 10 CSR 25-7.265 and those 40 CFR parts incorporated by reference in 10 CSR 25-7.265 apply in this rule.

(A) General. Within one hundred eighty (180) days after the effective date of this rule, the owner/operator shall complete, sign and submit a PCB facility permit application or a closure plan prepared in accordance with 10 CSR 25-13.010(8)(G) to the director.

(B) General Facility Standards. (Reserved)

(C) Preparedness and Prevention. (Reserved)

(D) Contingency Plan and Emergency Procedures. (Reserved)

(E) Manifest System, Record Keeping and Reporting. The owner/operator shall comply with the requirements in section (3) of this rule.

(F) Groundwater Monitoring. (Reserved)

(G) Closure and Post-Closure. (Reserved)

(H) Financial Requirements. (Reserved)

(I) Use and Management of Containers. (Reserved)

(J) Tank Systems. (Reserved)

(K) Surface Impoundments. The management of PCB material, PCB units or both in surface impoundments is prohibited.

(L) Waste Piles. The management of PCB material, PCB units or both in waste piles is prohibited.

(M) Land Treatment. The management of PCB material, PCB units or both in a land treatment facility is prohibited.

(N) Landfills. (Reserved)

(O) Incinerators. (Reserved)

(P) Thermal Treatment. (Reserved)

(Q) Chemical, Physical and Biological Treatment. (Reserved)

(9) PCB Facility Permitting. The requirements in 40 CFR Part 270, incorporated by reference in 10 CSR 25-7.270(1) and modified in 10 CSR 25-7.270(2) apply in this rule. This section sets forth standards for a Missouri PCB facility permit which modify and add to the requirements of 40 CFR Part 270 incorporated by reference in 10 CSR 25-7.270(1) and modified in 10 CSR 25-7.270(2). This section does not apply to an owner/operator of a provisionally regulated PCB facility or a mobile treatment unit provided that the owner/operator maintains compliance with section (5) or (6) of this rule, respectively. For those subsections marked Reserved in which no modification or addition is indicated, the requirements of 10 CSR 25-7.270 and those 40 CFR Parts incorporated by reference in 10 CSR 25-7.270 apply in this rule.

(A) General Information. This subsection sets forth standards which modify or add to the requirements in 40 CFR Part 270 Subpart A, incorporated by reference in 10 CSR 25-7.270(1) and modified in 10 CSR 25-7.270(2)(A). The owner/operator shall submit a Missouri PCB facility application on a form provided by the department.

(B) Permit Application. This subsection sets forth standards which modify or add to the requirements in 40 CFR Part 270 Subpart B, incorporated by reference in 10 CSR 25-7.270(1) and modified in 10 CSR 25-7.270(2)(B).

1. The requirements for qualifying for interim status are set forth in paragraph (9)(G)2. of this rule.

2. The waste analysis plan required by 40 CFR 270.14(b)(3), as incorporated in 10 CSR 25-7.270, shall be prepared in accordance with subsection (7)(B).

3. These requirements are in addition to the specific information requirements for incinerators in 40 CFR 270.19 as incorporated in 10 CSR 25-7.270.

A. 40 CFR 270.19(a), as incorporated in 10 CSR 25-7.270, shall not apply in this rule.

B. In addition to the requirements of 40 CFR 270.19(c)(5) as incorporated in 10 CSR 25-7.270, methods and results of monitoring for the following parameters shall be submitted from any previously-conducted trial burns: oxygen \((O_2)\); carbon dioxide \((CO_2)\); oxides of nitrogen \((NO_x)\); hydrochloric acid \((HCl)\); total chlorinated organic content \((RCl)\); PCBs; and total particulate matter.

(C) Permit Conditions. (Reserved)

(D) Changes to Permit. (Reserved)

(E) Expiration and Continuance of Permits. (Reserved)

(F) Special Forms of Permits. This subsection sets forth standards which modify or add to the requirements in 40 CFR Part 270 Subpart F incorporated by reference in 10 CSR 25-7.270(1) and modified in 10 CSR 25-7.270(2)(F).

1. In addition to the requirements of 40 CFR 270.62(b)(2), as incorporated in 10 CSR 25-7.270, the applicant shall conduct monitoring for the following parameters: a) oxygen \((O_2)\); b) carbon monoxide \((CO)\); c) carbon dioxide \((CO_2)\); d) oxides of nitrogen \((NO_x)\); e) hydrochloric acid \((HCl)\); f) total chlorinated organic content \((RCl)\); g) PCBs; and h) total particulate matter.

(G) Interim Status. This subsection sets forth standards which modify or add to those requirements in 40 CFR Part 270 Subpart G,
incorporated by reference in 10 CSR 25-
7.270(1) and modified in 10 CSR 25-
7.270(2)(G).

1. A PCB facility that meets the require-
ments of this subsection may continue to
operate without a PCB permit if the facility
remains in compliance with the interim status
requirements in this subsection.

2. A PCB facility shall qualify for inter-
im status if the facility—
A. Was in operation on August 13,
1986;
B. Filed a letter of intent with the
department before December 12, 1986 to
construct, alter or operate the facility; and
C. Is in compliance with section (8) of
this rule.

(10) Public Participation. The public partici-
pation requirements and variance and appeal
procedures in 10 CSR 25-8.124 apply in this
rule.

(11) Minimum Operating Requirements for
Specific Units.
(A) PCB-Contaminated Metals Reclama-
tion Incinerators. This subsection shall apply
to owners/operators of PCB-contaminated
metals reclamation incinerators.
1. PCB units shall be drained of all free-
flowing liquids prior to thermal processing.
2. Minimum technical standards. The
thermal treatment unit shall meet the follow-
ing criteria: the temperature in the afterburn-
er shall be equal to or greater than one thou-
sand degrees Celsius (1000°C) and the com-
bustion gas shall be retained in the afterburn-
er for a period of at least one and one-half (1
1/2) seconds.
3. The owner/operator shall demonstrate
compliance with the performance standards
set forth in paragraph (11)(A)2. of this rule
upon request of the department.
(B) (Reserved)
