Division 10—Director of Revenue Chapter 110—Sales/Use Tax—Exemptions

12 CSR 10-110.013 Drugs and Medical Equipment

PURPOSE: Section 144.030.2(18), RSMo, provides an exemption for prescription drugs, orthopedic and prosthetic devices, numerous dental items, hearing aids, hearing aid supplies and certain sales of over-the-counter drugs. This rule explains the sales tax law as it applies to these exemptions.

(1) In general, sales of prescription drugs, orthopedic and prosthetic devices and certain qualifying health-related equipment, and certain sales of over-the-counter drugs, are exempt from Missouri sales tax.

(2) Definition of Terms.

(A) Orthopedic device—a rigid or semi-rigid leg, arm, back or neck brace and casting materials which are directly used for the purpose of supporting a weak or deformed body member or restricting or eliminating motion in a diseased or injured part of the body.

(B) Over-the-counter drug—a drug product which may be purchased without a physician's prescription.

(C) Prescription drug—a drug dispensed by a licensed pharmacist only upon a lawful prescription from a licensed practitioner.

(D) Prosthetic device—a device that replaces all or part of the function of a permanently inoperative or malfunctioning internal body organ and is medically required.

(3) Basic Application of Tax.

(A) Sales of prescription drugs, insulin, medical grade oxygen, drug samples and materials used to manufacture samples, which may be dispensed by a licensed practitioner are exempt from tax. Sales of over-the-counter drugs when sold to an individual with a disability or to the individual's agent are exempt from tax. When selling over-the-counter drugs to an individual with disability, the retailer should obtain a purchaser's signed statement of disability. The retailer should retain these statements for three (3) years. The statement should include the purchaser's name, type of purchase and amount of purchase, and be signed by the purchaser or the purchaser's agent. The retailer should request a form of identification, such as driver's license, credit card, etc. to verify the identity of the purchaser. Sales of prosthetic devices as defined on January 1, 1980, by the

Federal Medicare Program under Title XVIII of the Social Security Act of 1965 are exempt from tax.

(B) Sales of orthopedic devices as defined by the Federal Medicare Program under Title XVIII of the Social Security Act of 1965 are exempt from tax.

(C) Also exempt from sales tax are items specified in section 1862(A)(12) of the Social Security Act of 1965. EBI Medical Systems, Inc. v. Director of Revenue (AHC 1997). The taxpayer manufactured and sold osteogenic (bone) stimulators. The devices provided small amounts of electrical current that stimulate the bone to promote growth and healing, and were available by prescription only. The taxpayer argued the stimulators were exempt from taxation under section 144.030.2(18), RSMo, using three alternative theories: (1) as a prosthetic device, (2) as an orthopedic device, and (3) as a prescription drug. The Commission found the stimulator was an orthopedic device, but not a prosthetic device nor a prescription drug. The stimulators qualified as orthopedic devices under Regulation 12 CSR 10-3.852(3) that defines orthopedic devices to include orthotics. The Commission defined orthotics as “an orthopedic appliance or apparatus used to support, align, prevent, or correct deformities or to improve the function of movable parts of the body.” The Commission concluded the stimulator promotes bone growth to correct deformities, and therefore, was an orthotic and an orthopedic device. The Social Security Act of 1965, 42 U.S.C. Section 1395x(s)(8), defines prosthetic devices as devices “which replace all or part of an internal body organ.” Since the stimulators do not “replace all or part of the function of a permanently inoperative or malfunctioning internal body organ,” the stimulators were not prosthetic devices. The federal definition of “Prescription drug,” set forth in 21 U.S.C.A. Section 321(g)(1), specifically excludes devices or their component parts or accessories. The Commission found the stimulator was a device, and therefore, by definition, was not a prescription drug.

Red Line Medical Supply, Inc. v. Director of Revenue (AHC 1995). This case involved a taxpayer engaged in the business of selling medical supplies at retail. The taxpayer stated its belief that enteral nutrients were “prosthetic devices” under Title XVIII of the Social Security Act of 1965 and, therefore, its sales of the nutrients were exempt from Missouri sales/use tax. The Commission found that the federal statutes were interpreted in part by the Carriers Manual and, therefore, could be utilized in determining whether enteral nutrients were prosthetic devices. It further found, however, that the manual did not define enteral nutrients as prosthetic devices. The Commission also found that under Missouri case law, **Medic House, Inc. v. Director of Revenue**, 799 S.W.2d 81 (Mo. banc 1990), in order for enteral nutrients to qualify as “prosthetic devices,” they must “(1) ‘replace all or part of an internal body organ’ and (2) be ‘medically required.’” Applying the facts to the case, the Commission found that enteral nutrients were not prosthetic devices and, therefore, taxpayer should have collected and remitted Missouri sales taxes on its sales of enteral nutrients.

Four Rivers Home Health Care, Inc. v. Director of Revenue (AHC 1992). Taxpayer sold oxygen for medicinal use and also sold durable medical equipment. Taxpayer did not collect or remit sales tax on either oxygen or durable medical equipment because it considered both to be exempt pursuant to 144.030.2(18), RSMo. Taxpayer sold oxygen only upon a physician’s prescription; but taxpayer did not have a licensed pharmacist on the premises. Taxpayer also sold wheelchairs, motorized three-wheel vehicles, crutches, walkers, canes, commode chairs, pressure pads and cushions, seat lift chairs and patient lifts, arm slings, flow meters, oxygen regulators and intermittent partial pressure breathing apparatus. The Commission found that oxygen was a drug. However, it is not designated as a prescription drug. The Missouri Supreme Court has ruled that the sales tax exemption does not apply to this oxygen since persons other than a licensed pharmacist dispense it. **Medic House, Inc. v. Director of Revenue**, 799 S.W.2d 81 (Mo. banc 1990). The Commission found that a prosthetic device physically replaces a missing organ. A device that accommodates the absence of an organ or supplements the impaired function of an organ is not a prosthetic device. The listed durable medical equipment did not replace a missing organ and were not prosthetic devices. The Commission also found that orthopedic devices are defined in 42 U.S.C.1395x(s)(9).

Leg, arm, back, and neck braces, and artificial legs, arms, and eyes, including replacements, are exempt if required by a change in the patient's physical condition. The durable medical equipment items sold by taxpayer were not artificial limbs or braces. These items are not exempt under section 144.030.2(18), RSMo.

12 CSR 10-110.016 Refunds and Credits (Moved to 12 CSR 10-102.016)

12 CSR 10-110.220 Hotels and Motels

PURPOSE: This rule explains the taxability of rooms, meals and drinks provided by hotels, motels, and similar establishments in which these items are regularly provided to the public. It also covers purchases made by these establishments. The applicable sections are 144.010, 144.011, 144.020, 144.021, 144.030 and 144.080, RSMo.

(1) In general, sales or charges for rooms, meals or drinks at a place that regularly serves the public are taxable.

(2) Definitions. Permanent resident—An individual who contracts in advance for a room for a period of thirty consecutive days or more and who actually remains a guest for thirty consecutive days or more. Businesses do not qualify as permanent residents.

(3) Basic Application of the Tax.

(A) Charges for rooms, meals, and drinks furnished by hotels, restaurants, and other establishments, in which rooms, meals, or drinks are regularly served to the public, are taxable. Rooms for lodging as well as meeting, banquet and conference rooms are taxable.

(B) A permanent resident is not subject to tax on their lease or rental payments. A permanent reservation for any room is not synonymous with permanent resident.

(C) An educational institution, which furnishes room and board to students in pursuit of their educational objectives, is not subject to tax on the gross receipts.

(D) Persons engaged in providing rooms are subject to tax on the gross receipts from the sale of tangible personal property and taxable services:

1. Receipts for food or drink are taxable regardless of whether the charge is made per meal, daily, weekly, or monthly;

2. In room pay-per-view programs or movies are not subject to tax; and

3. All persons engaged in providing rooms must collect tax on all charges for

telecommunication services, including intrastate and interstate calls.

(E) Rooms, meals and drinks are exempt from tax if sold to an exempt organization or a representative of that organization if the seller has documentation of the exemption. If the representative claims the exemption, even if the representative pays with his own funds and is reimbursed, and the hotel has a copy of a valid exemption letter issued by the Missouri Department of Revenue to the organization, the sale is exempt. An agent of the United States government paying with a U.S. government credit card is also exempt.

(F) Persons providing complimentary meals and drinks or non-reusable tangible personal property as part of the room accommodation should not pay tax on the purchases. Non-reusable items include soap, shampoo, tissue, and food or confectionery items offered to the guests without charge.

(G) The purchaser must pay tax on the purchase of reusable items including furniture, curtains, linens, towels, pillows, mirrors, radios and televisions for room accommodation.

(4) Examples.

(A) A hotel rents a room to a guest for a night. The soap and shampoo are included in the price of the room and may be purchased tax exempt by the hotel under a resale exemption. The complimentary breakfast provided to the guest is also included in the price of the room, and the hotel may purchase the food under a resale exemption. The towels, bed linens and furniture are subject to tax at the time of purchase.

(B) A hotel provides a complimentary room for a couple's wedding night. The hotel includes a free bottle of champagne and a free breakfast. The hotel must pay tax on the cost of the champagne and the breakfast because the hotel did not charge for the room.

(C) An airline reserves rooms at a hotel under a long-term room contract. In exchange for room availability, the airline agrees to pay for all rooms on a guaranteed basis, whether or not it uses the rooms. The entire charge for the rooms is taxable, regardless of whether the rooms are actually used.

12 CSR 10-110.900 Farm Machinery and Equipment Exemptions

PURPOSE: Sections 144.030.2(22), 144.045.1 and 144.047, RSMo, exempt certain farm machinery, equipment, repair parts and lubricants from taxation. This rule explains which items qualify for these exemptions.

(1) In general, the purchase of farm machinery, equipment, repair parts and supplies used exclusively and directly for producing crops, raising and feeding livestock, fish or poultry or producing milk for ultimate sale at retail is exempt from tax.

(2) Definition of Terms.

(A) Farm machinery—Machinery and equipment used directly and exclusively in the agricultural production process.

(B) Repair and replacement parts—Items of tangible personal property that are components of exempt farm machinery and equipment. Included in the repair and replacement part category are batteries, tires, fan belts, mufflers, spark plugs, oil filters, plow parts, standard type motors and cutting parts.

(3) Basic Application of Exemption.

(A) To qualify for exemption pursuant to section 144.030.2(22), RSMo, items purchased must be—

1. Used exclusively for agricultural purposes;

2. Used on land owned or leased for the purpose of producing farm products;

3. Used directly in producing farm products to be sold ultimately in processed form or otherwise at retail or in producing farm products to be fed to livestock or poultry to be sold ultimately in processed form at retail. The term "used directly" encompasses items that are used in some manner prior to the actual commencement of production, during production, or in some manner after the production has terminated. In determining whether items are used directly, consideration must be given to the following factors:

A. Where the items in question are used;

B. When the items in question are used; and

C. How the items in question are used to produce a farm product; and

4. Farm machinery or equipment that meet these requirements are exempt from tax, as are repair or replacement parts thereon and lubricants used exclusively for such farm machinery or equipment and one-half (1/2) of any diesel fuel used in such machinery or equipment.

(B) Pursuant to section 144.045.1, RSMo, farm machinery or equipment that would otherwise qualify as exempt farm machinery and equipment will not lose its exempt status merely because the machinery or equipment is attached to a vehicle or real property. Such equipment includes, but is not limited to, a grinder mixer mounted on a vehicle or special livestock flooring. When exempt farm machinery or equipment attached to a motor vehicle is sold with the motor vehicle, the part of the total sales price attributable to the farm machinery or equipment is exempt from tax if the farm machinery or equipment is separately invoiced.

(C) Pursuant to section 144.047, RSMo, farm machinery includes aircraft used solely for aerial application of agricultural chemicals.

(D) Pursuant to section 144.030.2(34), RSMo, all sales of grain bins for storage of grain for resale are exempt; however, parts purchased separately for these bins are not exempt. Grain bins and all parts purchased that qualify as farm machinery and equipment are exempt.

(E) The fact that particular items may be considered to be essential or necessary will not automatically entitle them to exemption. The following categories of items are excluded from the meaning of the term farm machinery and farm equipment and are subject to tax:

1. Under no circumstances can a motor vehicle or trailer ever be treated as tax exempt farm machinery. The terms motor vehicle and trailer are defined by the titling and licensing laws of Missouri (Chapter 301);

2. Containers and storage devices such as oil and gas storage tanks, pails, buckets and cans;

3. Hand tools and hand-operated equipment such as wheelbarrows, hoes, rakes, pitchforks, shovels, brooms, wrenches, pliers and grease guns;

4. Consumable items such as antifreeze, freon, ether, and starter fluid;

5. Attachments and accessories not essential to the operation of the machinery itself (except when sold as part of the assembled unit) such as cigarette lighters, radios, canopies, air-conditioning units, cabs, deluxe seats, tool or utility boxes and lubricators;

6. Equipment used in farm management such as communications and office equipment, repair, service, security or fire protection equipment;

7. Drainage tile, fencing material, building materials, general heating, lighting and ventilation equipment for nonproduction areas; and

8. Machinery and equipment used for a dual purpose, one purpose being agricultural and the other being nonagricultural are not exempt.

(F) Schedule A is a list of items of farm machinery and equipment which will usually be exempt if used exclusively for agricultural purposes on land owned or leased for the purpose of producing farm products and used directly in producing farm products or livestock to be sold ultimately at retail.

(4) Examples.

(A) An implement dealer sells a soilmoover to a farmer. The soilmoover is going to be used on low-lying agricultural land exclusively for the purpose of controlling drainage. The sale of the soilmoover is exempt.

(B) A farmer purchases a combine. The farmer later purchases an AM/FM radio to be installed on the combine. The farmer's purchase of the combine is exempt; however, the farmer's purchase of the AM/FM radio is taxable. If the radio had been a part of the assembled unit, the total price for the combine would have been exempt.

(C) A farmer purchases a lawnmower. The farmer uses the lawnmower to mow around grain bins, as well as mow his lawn. The purchase of the lawnmower is subject to tax, since the lawnmower is not used exclusively and directly for agricultural production.

(D) A farmer purchases a water chiller for use to control the climate inside the hatchers and setters. The water chiller is also used to cool the administrative areas in the hatchery. The purchase of the water chiller is subject to tax, since it is not used exclusively for agricultural production.

(E) A farmer takes his tractor to the implement dealer for routine maintenance, which includes changing the oil, filters and antifreeze. The sale of the oil and filters would be exempt; however, the antifreeze would be subject to tax.

(F) A farmer buys a bale spike to be installed on his pickup truck. The bale spike is not subject to tax.

(G) A farm supply store sells commercial rabbitry equipment, such as feeders, nest boxes and wire hanging cages used for rabbit cages and feeders, to a farmer who raises rabbits in confinement for human consumption. These items are not subject to tax.

**Original authority: 144.270, RSMo 1939, amended 1941, 1943, 1945, 1947, 1955, 1961; and 144.705, RSMo 1959.*

Charles A. Johnson, Jr. v. Director of Revenue (AHC 1986). A seed cleaner was purchased under a claim of exception to process soybeans. The Commission ruled that although the taxpayer bought the seed cleaner to process his own soybeans, he used the equipment to process other farmers' seed as well. Processing the seed of others failed to meet the requirement that the equipment be used directly and exclusively for the production of farm products.

Crystal Lake Fisheries v. Director of Revenue (AHC 1989). A nearby creek could flood raceways used to raise rainbow trout. A dike prevents the creek from flooding the raceways. A bulldozer was purchased, which was used to repair and maintain the dike. The bulldozer is also used to prevent flooding of pasture, hay, and land containing hardwood and softwood trees, all of which are harvested as required. The court found that the bulldozer in question met the three requirements of the exemption statute. The bulldozer was used exclusively for agricultural purposes, on land owned or leased for the purpose of farming, and directly in producing farm products.

12 CSR 10-110.910 Livestock

PURPOSE: Sections 144.030.2(1), 144.030.2(7), 144.030.2(22), 144.030.2(29)

and 144.030.2(32), RSMo, exempt from taxation certain livestock, feed and feed additives, medicines and vaccines, and pesticides and herbicides. This rule explains the requirements that must be met to qualify for these exemptions.

(1) In general, the sale of livestock, animals or poultry used for breeding or feeding purposes, feed for livestock or poultry, feed additives, medications or vaccines administered to livestock or poultry in the production of food or fiber, and sales of pesticides and herbicides used in the production of aquaculture, livestock or poultry are exempt from tax.

(2) Definition of Term.

(A) Aquaculture—The controlled propagation, growth and harvest of aquatic organisms as defined in section 277.024, RSMo.

(B) Commercial breeder—A person, other than a hobby or show breeder, engaged in the business of breeding animals for sale or exchange in return for consideration and who harbors more than three (3) intact females for the primary purpose of breeding animals for sale.

(C) Feed—Food essential for growth, fattening or nourishment of livestock or poultry.

(D) Feed additives—Tangible personal property, including medicine or medical additives added to feed.

(E) Livestock—Cattle, calves, sheep, swine, ratite birds, including but not limited to, ostrich and emu, aquatic products as defined in section 277.024, RSMo, elk documented as obtained from a legal source and not from the wild, goats, horses, other equine, or rabbits raised in confinement for human consumption.

(F) Poultry—Any domesticated bird, such as adult or baby chickens, turkeys, ducks, guinea fowl or geese.

(3) Basic Application of Exemptions.

(A) Pursuant to section 144.030.2(1), RSMo, sales of feed for livestock or poultry are not subject to tax.

PURPOSE: Sections 144.030.2(1), (22), and (32), RSMo, exempt the sales of certain grains, seed, pesticides, limestone, fertilizer and herbicides. This rule explains the requirements that must be met in order to qualify for these exemptions. Section 144.020.1(3), RSMo, taxes certain utility services. This rule explains the application of this taxing provision for sales to agricultural consumers.

(1) In general, the sale of grains to be converted into foodstuffs or seed, and limestone, fertilizer, and herbicides used in connection with the growth or production of crops, livestock or poultry is exempt from tax.

(2) Definition of Terms.

(A) Herbicides—Chemical substances used to destroy or inhibit the growth of plants, especially weeds.

(B) Livestock—See 12 CSR 10-110.900.

(C) Pesticides—Chemicals used to kill pests, especially insects. Pesticides include adjuvants such as crop oils, surfactants, wetting agents and other pesticide carriers used to improve or enhance the effect of a pesticide and the foam used to mark the application of pesticides and herbicides for the production of crops, livestock or poultry.

(3) Basic Application of Tax.

(A) The sale of grain to be converted into foodstuffs ultimately sold in processed form at retail is exempt.

(B) The sale of seed, lime or fertilizer used in producing crops that will be sold at retail

or will be fed to livestock or poultry to be sold ultimately in processed form at retail is exempt.

(C) Sales of pesticides or herbicides used in the production of crops, orchards, aquaculture, livestock or poultry are exempt.

(D) Seed, pesticides and fertilizers sold for nonagricultural use are subject to tax. Sales of fertilizer for lawns, shrubbery and similar ornamental uses and seeds for ornamental purposes are examples of sales subject to tax.

Conagra Poultry Co. v. Director of Revenue, 862 S.W.2d 915 (Mo. banc 1993). Wood shavings were sold by the taxpayer, a turkey processor, to its contractors as part of the contractors' compensation for raising the turkeys. The contractors expected to use as fertilizer all the litter that the turkey-raising operation would produce in their own farming. The court ruled that at the time the wood shavings passed to the contractors, the wood shavings had no value as fertilizer. The wood shaving become fertilizer upon absorbing nutrients in the turkey droppings. The wood shavings were not exempt as materials used in processing because even though the wood shavings became a component part of the fertilizer, the contractors used the fertilizer for their own farming and did not sell any products for final use or consumption.

Norwin G. Heimos Greenhouse, Inc. v. Director of Revenue, 724 S.W.2d 505 (Mo. banc 1987). Gas, water and electricity were used for the operation of greenhouses. A refund was requested on tax paid on utilities used in the greenhouse's production of flower and vegetable plants for sale to retailers. The court found that the greenhouse's use of utilities constituted agricultural consumption and was not subject to sales tax under Section 144.020.1(3), RSMo. The legislatures distinguished between agricultural and commercial in the property tax statutes and the Employment Security Law. The court concluded that the legislature also intended that agricultural consumers be considered as a class separate from commercial consumers for sales tax purposes.

12 CSR 10-110.950 Letters of Exemption Issued by the Department of Revenue

PURPOSE: Chapter 144, RSMo provides that certain organizations are exempt. This rule sets out the steps necessary to obtain a letter of exemption from the department.

(1) In general, the department issues letters of exemption to qualifying exempt entities. These letters are valid for a period of five (5) years. Documentation verifying the exempt status of the organization must be filed with the department to obtain a letter of exemption.

(2) Application of the Rule.

(A) The seller is responsible for collecting tax unless the exempt entity provides proof that it is exempt. One form of proof of exemption is a letter of exemption issued by the department.

(B) An organization seeking a letter of exemption certificate must complete a Missouri Sales/Use Tax Exemption Application—Form 1746. If the documentation establishes the entity qualifies as an exempt entity, the department issues a letter of exemption. This letter of exemption is effective for five (5) years from the date of issuance of the letter.

(C) The department may require the following supporting documentation to verify the claim:

1. A copy of the Articles of Incorporation, Bylaws or both;
2. A copy of the Section 501 tax exemption letter or ruling issued by the United States Department of Treasury, Internal Revenue Service;
3. A copy of the tax exemption ruling issued by the assessing officers in each coun-

ty in which the applicant's property is or will be located for property tax purposes;

4. Financial statements of the organization for the previous three (3) years, indicating sources and amount of revenue, and a breakdown of the disbursements, or if just beginning the organization, an estimated budget for one (1) year;

5. A copy of the not-for-profit certificate, registration or charter issued by the Missouri secretary of state's office, if registered or incorporated within Missouri; and

6. Any other documents, statements and information as may reasonably be requested by the Department of Revenue.

(D) If any of the documents requested above are not submitted with the application, a letter of explanation must accompany the application. Federal agencies and instrumentalities, Missouri state agencies and Missouri political subdivisions are not required to send supporting documentation. Out-of-state political subdivisions do not qualify.

(E) Foreign diplomatic and consular personnel exempt from Missouri sales by treaty need not obtain a letter of exemption. The United States Department of State will issue an exemption card for use.

12 CSR 10-110.990 Tax—Sales of Food

PURPOSE: Section 144.014, RSMo provides for a reduced tax rate for certain sales of food. This rule explains when the reduced rate applies.

(1) In general, qualified sales of food by a qualified business are taxed at a reduced state rate of 1.225% plus any applicable local tax. All other sales of food are taxed at the full state rate of 4.225% plus any applicable local tax.

(2) Basic Application of Rule.

(A) Sales of food subject to the reduced rate include food that qualifies under the Federal Food Stamp Program. This includes food or food products for home consumption and seeds and plants for use in gardens to produce foods for personal consumption. Alcoholic beverages, tobacco and hot food items ready for immediate consumption do not qualify for the reduced rate. Food items refrigerated or at room temperature qualify for the reduced rate, even if the purchaser

elects to heat the item on the business' premises. Bakery items, even if still warm from baking, are qualified foods.

(B) A business whose gross receipts from sales of food and drink prepared by the business for immediate consumption, either on or off premises, are 80% or less of its total gross receipts must remit tax on its qualifying food sales at a reduced state tax rate of 1.225% plus any applicable local tax.

(C) Sales of qualifying food through vending machines are subject to the reduced tax rate.

(3) Examples.

(A) A grocery store sells nonfood items and qualifying food items. The store will charge the regular tax rate on the nonfood items and the reduced tax rate on the qualifying food items.

(B) A vending machine company provides two vending machines to a business. One machine is for cold items and one machine keeps items hot. Only the cold items are eligible for the reduced tax rate. The hot items are subject to the regular tax rate.

(C) A convenience store sells burritos from its freezer. The convenience store provides a microwave so the purchaser can heat it. The sale of the burrito is taxed at the reduced rate because it is a qualifying food item.

(D) A vending machine company sells popcorn and soup in microwave pouches and containers. These items are sold at room temperature and are heated by the purchaser in a microwave provided in the vending area. These items are eligible for the reduced tax rate.

(E) A fast food restaurant sells cold salads and cold soft drinks. These cold items represent approximately 10% of total gross receipts. Because the restaurant's total food sales of items prepared for immediate consumption are more than 80% of the total sales, the restaurant should charge the regular tax rate on all its food sales.

(F) A convenience store sells prepared cold sub sandwiches, ice cream and cold drinks. The store also prepares and sells hot dogs and chili. All items are sold "to go." The store should charge the reduced tax rate on the cold items, but should charge the regular tax rate on the hot items.

(G) A company sells pre-packaged ice cream bars made by an unrelated ice cream manufacturer to neighborhood families from trucks. The ice cream truck driver should charge the reduced rate of tax because the seller does not prepare the ice cream bars and are not consumed on the premises of the seller.

(H) An ice cream vendor sells soft cones and pre-packaged ice cream bars made by an unrelated ice cream manufacturer at a football game. The gross receipts from the sales of soft cones are less than 80% of the ice cream vendor's total gross receipts. None of the ice cream qualifies for the reduced rate because it is consumed on the premises.
