20 CSR 2200-4.020 Requirements for Licensure

PURPOSE: This rule sets out requirements for licensure in Missouri of registered professional nurses and licensed practical nurses by examination, endorsement and renewal.

(1) Examination.
   (A) Written examination as used in Chapter 335, RSMo shall mean either a paper and pencil examination or a computerized adaptive examination.
   (B) The registered professional nurse (RN) candidate shall have successfully completed the basic prescribed curriculum and received a degree or diploma from a school with an accredited professional nursing program. The practical nurse candidate shall have successfully completed a basic prescribed curriculum in an accredited school of practical nursing and have earned a practical nursing degree, diploma or certificate or completed a comparable period of training as determined by the Board. A comparable period of training as
determined by the board shall mean graduation from an accredited professional nursing program with validation by examination of a personal and vocational concepts course by an accredited practical nursing program or graduation from the Army Practical Nurse Program.

(C) The candidate shall make written application to the Missouri State Board of Nursing for permission to be admitted to the licensing examination for professional/practical nurses. Application forms for the licensing examination shall be obtained from the Missouri State Board of Nursing.

1. A request for forms shall be made by the director of the program of professional/practical nursing and should include the names and completion dates of candidates who expect to apply for admission to the examination.

2. Application forms for out-of-state/country graduates may be obtained by contacting the State Board of Nursing, giving name, address, name and address of school of nursing and completion date.

3. Any applicant applying for the practical nurse licensing examination who is deficient in theory, clinical experience, or both, as stated in 20 CSR 2200, Chapter 3—Practical Nursing, and has not earned a practical nursing degree or met the requirements for a comparable period of training as determined by the board pursuant to 20 CSR 2200-4.020(1)(B), will not be approved.

(D) A completed application for the licensing examination signed and accompanied by one (1) two-inch by two-inch (2" x 2") portrait/photograph of the applicant shall be submitted to the Missouri State Board of Nursing for evaluation along with the required examination fee, and proof of submission of fingerprints to the Missouri State Highway Patrol’s approved vendor for both a Missouri State Highway Patrol and Federal Bureau of Investigation fingerprint background check prior to the established deadline date set by the Missouri State Board of Nursing. Proof shall consist of any documentation acceptable to the board. Any fees due for fingerprint background checks shall be paid by the applicant directly to the Missouri State Highway Patrol or its approved vendor. All fees are nonrefundable. Note: The name appearing on the application will be the only legal name of the individual recognized by the Missouri State Board of Nursing unless evidence of the change in name has been submitted.

(E) An application for a candidate’s first licensing examination in Missouri shall bear the school seal and the signature of the director of the program of professional/practical nursing. This shall indicate the endorsement of the candidate to take the licensing examination. The affidavit portion of the application shall be properly executed before a notary public.

(F) Applicants approved by the Missouri State Board of Nursing as eligible to take the licensing examination for professional/practical nurses shall be notified and forwarded identifying material and specific information as to date, time and place. Candidates shall take the current National Council of State Boards of Nursing, Incorporated Licensure Examination for professional/practical nurses.

(G) The term first licensing examination scheduled by the board, as used in section 335.081, RSMo, shall mean the first licensure examination taken by the student which must be taken within ninety (90) days of graduation.

(H) An applicant for licensure by endorsement or licensure by examination who answers yes to one (1) or more of the questions on the application or the fingerprint checks reveal charges and/or convictions which relate to possible grounds for denial of licensure under section 335.066, RSMo shall submit copies of appropriate documents, as requested by the board, related to that answer or the fingerprint check before his/her application will be considered complete. The copies shall be certified if they are records of a court or administrative government agency. An applicant for licensure by endorsement or licensure by examination who the executive director or designee determines may not meet the requirements for licensure or examination shall be notified that the application will be reviewed by the members of the board at the board’s next regular scheduled meeting following receipt of all requested documents. The Missouri State Board of Nursing shall notify, by certified mail or delivery, any individual who is refused permission to take an examination for licensure or an individual licensed in another state, territory or foreign country that is denied a license by endorsement without examination. At the time of notification, this individual is to be made aware of his/her avenue of appeal through the Missouri Administrative Hearing Commission.

(I) A passing designation as determined by the Missouri State Board of Nursing shall be attained by candidates to qualify for licensure to practice professional/practical nursing in Missouri. Results of the licensing examination shall be reported only by pass/fail designation to candidates and to directors of programs of professional/practical nursing.

(J) An original examination report shall be forwarded to the examinee. A copy shall be retained in the permanent application on file in the Missouri State Board of Nursing office. A composite report shall be forwarded to the director of each program of professional/practical nursing listing the names of the candidates and the pass/fail designation for each candidate.

(K) A transcript of the final record shall be submitted to the Missouri State Board of Nursing for each applicant upon completion of the program of professional/practical nursing. The seal, if available, of the school and signature of the director of the program of professional/practical nursing or registrar shall be affixed to the transcript. The transcript must include the degree awarded and date of graduation. A candidate cannot take the licensure examination until all licensure requirements are met, including providing a transcript.

(L) There shall be a thirty (30)-day grace period for graduates who have successfully passed the first available licensing examination in another state following graduation to obtain a temporary permit or license in Missouri after the graduate has received his/her results.

(M) Requests for Examination Modification.

1. The Missouri State Board of Nursing and its test service shall determine if a candidate shall be allowed modification of the examination if the candidate requests the modification because of a disability defined by the Americans with Disabilities Act.

2. The candidate requesting modification shall submit a request to the Missouri State Board of Nursing. The request shall contain—

   A. A letter from the candidate’s nursing education program indicating what modifications, if any, were granted by that program;

   B. Appropriate documentation supporting the request for accommodation from a qualified professional with expertise in the areas of the diagnosed disability. Documentation must include:

      (I) A history of the disability and any past accommodation granted the candidate and a description of its impact on the individual’s functioning;

      (II) Identification of the specific standardized and professionally recognized tests/assessments given (e.g., Woodcock-Johnson, Weschler Adult Intelligence Scale);

      (III) Clinical diagnoses of disability (where applicable, list the DSM Code Number and Title);

      (IV) The scores resulting from testing, interpretation of the scores and evaluations; and

      (V) Recommendations for testing accommodations with a stated rationale as to why the requested accommodation is necessary and appropriate for the diagnosed disability; and
C. A letter from the applicant requesting the modifications detailing the specific modifications and explaining the rationale for the modifications.

3. When the request is received from the candidate with the previously listed items, the request will be reviewed.

4. If approved, a request for modification of an examination will be submitted to the National Council of State Boards of Nursing, Incorporated.

5. After the National Council of State Boards of Nursing, Incorporated has reported its decision to the Missouri State Board of Nursing, the candidate will be notified of the decision.

(2) Repeat Examination.

(A) A candidate who does not achieve the passing designation as determined by the Missouri State Board of Nursing shall not qualify to receive a license to practice professional/practical nursing in Missouri. It shall be unlawful for any person to practice professional/practical nursing in Missouri as a graduate nurse after failure of the National Council of State Boards of Nursing, Incorporated licensure examination until successfully passing the examination and receiving a license.

(B) A candidate who does not achieve the passing designation who wishes to review, challenge, or both, the National Council Licensure Examination must send a written letter of request to the Missouri State Board of Nursing office no later than four (4) months after release of examination results to the candidate.

(C) If approved, the request is submitted to the National Council of State Boards of Nursing, Incorporated. A board fee may be charged.

(D) A candidate who does not achieve the passing designation shall be notified. No further examination notices shall be issued by the Missouri State Board of Nursing.

(E) The required fee shall be submitted to the Missouri State Board of Nursing office each time the candidate applies for the examination and is nonrefundable.

3. Evidence of completion of the applicable secondary education set forth in section 335.046, RSMo requirements or the equivalent as determined by the State Department of Education;

4. Applicants who are not citizens of the United States who have completed programs in schools of professional/practical nursing in states which require citizenship for licensure may take the National Council Licensure Examination for professional/practical nurses in Missouri if they meet all of Missouri's requirements; and

5. If an individual was licensed by waiver as a practical/vocational nurse in another state, territory or foreign country prior to July 1, 1955, and the individual meets the requirements for licensure as a practical nurse in Missouri which were in effect at the time the individual was licensed in the other jurisdiction, she/he is eligible for licensure in Missouri as an LPN. If an individual is licensed by waiver in another state after July 1, 1955, she/he does not qualify for licensure by waiver in Missouri as a practical nurse.

(B) Procedure for Application.

1. An applicant should request an application for endorsement licensure from the Missouri State Board of Nursing. The request shall include the full name, current mailing address and state of original licensure.

2. The application for endorsement licensure shall be completed in black ink with the affidavit portion properly executed before a notary public and submitted with the required application fee, and proof of submission of fingerprints to the Missouri State Highway Patrol's approved vendor for both a Missouri State Highway Patrol and Federal Bureau of Investigation fingerprint background check. Proof shall consist of any documentation acceptable to the board. Any fees due for fingerprint background checks shall be paid by the applicant directly to the Missouri State Highway Patrol or its approved vendor. All fees are nonrefundable. The application shall be submitted to the Missouri State Board of Nursing.

3. The endorsement/verification of licensure form shall be forwarded by the applicant to the board of nursing for completion in the state or territory of original licensure by examination, or to Canada, with a request to submit the completed form to the Missouri State Board of Nursing.

4. The applicant shall cause an official nursing transcript to be forwarded directly to the Missouri State Board of Nursing office if a transcript is requested by the executive director or designee.
5. A final evaluation of the submitted application shall be made only after all required credentials are assembled.

6. The applicant shall be notified of this evaluation for licensure.

(6) Applicants Not Meeting Requirements.
(A) An applicant who does not meet the Missouri requirements for licensure at the time of completion of a program of professional/practical nursing shall be advised regarding the necessary steps for qualification on the basis of the particular deficiency.

(B) An applicant who has not attained the passing score or grade on the licensing examination as required by the Missouri State Board of Nursing at the time of original licensure shall be required to take the current National Council Licensure Examination (NCLEX®) and receive a pass designation prior to licensure.

(C) A professional/practical nurse licensed in another state or territory of the United States shall be entitled to licensure; provided, qualifications are equivalent to the requirements in Missouri at the time of original licensure.

(7) Temporary Permit.
(A) Applicants wishing to practice professional/practical nursing in Missouri following the evaluation of the application and transcript, if requested to determine if the applicant meets licensure requirements in Missouri, should submit a copy of a current nursing license from another state, territory or Canada. A temporary permit may be secured for a limited period of time six (6) months until licensure is granted or denied by the Missouri State Board of Nursing or until the temporary permit expires, whichever comes first. If the applicant does not hold a current nursing license in another state, territory or Canada, a temporary permit may be issued upon receipt of a completed endorsement verification of licensure form and transcript, if requested. Applicants from Canada may apply for a temporary permit provided for by rule.

(8) Intercountry Licensure by Examination in Missouri—RN and LPN.

(B) Unqualified Applicants. An applicant who does not meet Missouri’s current minimum requirements for licensure shall be advised regarding the necessary steps for qualification.

(C) The board of nursing will cooperate with the United States Immigration Service by advising it of the status of the applicant for nursing licensure if requested.

(9) Licensure Renewal.

(A) Renewal periods shall be for one (1), two (2), or three (3) years as determined by the board.

(B) The required fee shall be submitted prior to the date the license lapses.

(C) In answer to requests for information regarding an individual’s licensure, the staff of the board will verify status and other information as deemed appropriate by the executive director.

(10) Inactive Licenses.

(A) Any nurse possessing a current license to practice nursing in Missouri may place that license on inactive status by filing a written and signed request for inactive status with the board. This request may be accomplished, but need not be, by signing the request for inactive status which appears on the nurse’s application for license renewal and returning that application to the board prior to the date the license has lapsed.

(B) Individuals wishing to reactivate licenses after being carried as inactive shall request a Petition for Renewal from the Missouri State Board of Nursing. Fees shall be accepted only if accompanied by a completed Petition for Renewal. Back fees shall not be required for the years the licensee’s records were carried as inactive. The Petition for Renewal shall show, under oath or affirmation of the nurse, a statement—

1. That the nurse is not presently practicing nursing in Missouri;

2. As to whether the nurse did practice nursing while the license was inactive and, if so, how long and where. If the nurse was practicing nursing in Missouri at the time his/her license was inactive, he/she also must submit a notarized statement indicating that he/she ceased working as soon as he/she realized that the license was inactive.

3. No person shall practice nursing or hold him/herself out as a nurse in Missouri while his/her license is inactive.

(D) A nurse who petitions for renewal of an inactive license who answers yes to one (1) or more of the questions on the petition which relate to possible grounds for denial of renewal under section 335.066, RSMo, shall submit copies of appropriate documents related to that answer, as requested by the board, before his/her petition will be considered complete. The copies shall be certified if they are records of a court or administrative government agency. If a nurse requesting reinstatement of his/her inactive license is denied by the State Board of Nursing based upon the fact that the nurse is subject to disciplinary action under any provisions of Chapter 335, RSMo, the nurse shall be notified of the statutory right to file a complaint with the Administrative Hearing Commission.

(E) A nurse whose license is inactive for three (3) years or more shall file the petition, documents and fees required in subsection (10)(B). In addition, the nurse may be required to appear before the board personally and demonstrate evidence of current nursing knowledge and may be required to successfully complete an oral or written examination, or both, provided by the board or to present proof of regular licensed nursing practice in other states during that time period.

(A) Pursuant to sections 335.056 and 335.061, RSMo, a license issued by the State Board of Nursing to an RN or LPN is lapsed if the nurse fails to renew that license in a timely fashion. A license renewal is timely if the nurse mails a completed application for renewal, accompanied by the requisite fee, in a properly stamped and addressed envelope, postmarked no later than the expiration date of the nurse’s current license. No person shall practice nursing or hold him/herself out as a nurse in Missouri while his/her license is registered with the State Board of Nursing as being lapsed.

(B) A nurse whose license has lapsed in Missouri for fewer than thirty (30) days may obtain renewal of that license by mailing the requisite fee to the proper address and postmarked no later than the thirtieth day of lapse. Satisfactory explanation of the lapse will be presumed. The State Board of Nursing, in its discretion, may not renew the license of any nurse who is subject to disciplinary action under Chapter 335, RSMo, but the board shall advise the nurse of the statutory right to file a complaint with the Administrative Hearing Commission.

(C) A nurse whose license has lapsed in Missouri for thirty (30) days or more, but fewer than three (3) years, must petition the State Board of Nursing for renewal of the license on a form furnished by the board. Accompanying the petition shall be a late renewal fee and the fee for the current renewal period as outlined in 20 CSR 2200-4.010. If the nurse has practiced nursing in Missouri while the license was lapsed, in order to renew, the licensee must pay the lapse fee, the renewal fee for each year he/she practiced nursing in Missouri and the fee for the current renewal period. This petition shall show under oath or affirmation of the nurse—

1. A statement that the nurse is not presently practicing nursing in Missouri;

2. A statement as to whether the nurse did practice nursing while the license was lapsed and, if so, how long and where; and

3. If the nurse was practicing nursing in Missouri at the time his/her license was lapsed, he/she must submit a notarized statement indicating that he/she ceased working as soon as he/she realized that the license was lapsed.

In addition, the nurse must cause his/her employer to submit a statement on the employer’s letterhead stationery or a notarized statement indicating that the nurse ceased working as soon as he/she realized that the license was lapsed.

(D) A nurse whose license is lapsed for three (3) years or more shall file the same petition, documents and fees required in subsection (11)(C). In addition, the nurse may be required to appear before the board personally and demonstrate evidence of current nursing knowledge and may be required to successfully complete an examination provided by the board or by proof of regular licensed nursing practice in other states during that time period.

(E) Upon satisfactory completion of the requirements specified in subsections (11)(B)–(D) which are pertinent to that nurse, the board reserves the right to refuse to reinstate the lapsed license of any nurse, including one who is subject to disciplinary action under any provisions of Chapter 335, RSMo, which includes disciplinary action for practicing nursing without a license while that license is lapsed. A nurse who is petitioning for renewal of a lapsed license who answers yes to one (1) or more of the questions on the petition which relate to possible grounds for denial of renewal under section 335.066, RSMo, shall submit copies of appropriate documents, as requested by the board, related to that answer before his/her petition will be considered complete. The copies shall be certified if they are records of a court or administrative government agency. If a lapsed license is not reinstated, the board shall notify the nurse of the fact and the statutory right
to file a complaint with the Administrative Hearing Commission.

(F) If any provision of this rule is declared invalid by a court or agency of competent jurisdiction, the balance of this rule shall remain in full force and effect, severable from the invalid portion.

(12) Duplicate Licenses. A duplicate license, marked duplicate, may be issued in the event the original becomes lost or destroyed, or if the licensee requests a duplicate license due to a name change. The licensee must notify the Missouri State Board of Nursing and a form will be forwarded for completion and notation. A fee will be charged for the duplicate.

(13) Change of Name, Address, or Both.
(A) Original License. The original license may not be altered in any way; it must remain in the name under which it was issued.

(B) Current License.
1. If a change of name has occurred since the issuance of the current license, the licensee must notify the board of the name change in writing. If a duplicate license reflecting the name change is desired, the current license and required fee must be submitted to the board office.

2. If a change of address has occurred since the issuance of the current license, the licensee must notify the board of the address change. No duplicate license will be issued solely to reflect an address change. 3. Requests for the current license to be sent to a place other than the regular mailing address shall be forwarded to the executive director.

(14) Retired License Status.
(A) An applicant for renewal of a nurse license who is retired from the profession may apply for a retired license status by completing a form provided by the board.

(C) A licensee may qualify for retired license status provided the licensee:
1. Is retired from the profession;
2. Holds a current, unrestricted, and undisciplined nurse license; and
3. Submits the required form.

(D) Retired license renewal for a professional nurse shall be biennial; occurring on odd-numbered years and the license shall expire on April 30 of each odd-numbered year. 20 CSR 2200-4.021 Graduate Temporary Permit

PURPOSE: This rule provides individuals who are recent graduates with a mechanism for determining whether or not the individual falls within the exemption found in section 335.081(6), RSMo.

(1) In order to establish a system where individuals recently graduated from nursing programs in another state, territory, Canada or foreign country and potential Missouri employers can determine whether or not the graduate may practice under the exemption found in section 335.081(6), RSMo, a graduate temporary permit is created. Issuance of the graduate temporary permit is not a prerequisite to practice under the exemption found in section 335.081(6), RSMo.
(2) The following conditions must be met before a graduate temporary permit will be issued:

(A) The individual must provide the following information on a form provided by the board:
   1. Full name;
   2. Address of individual;
   3. Name of school of nursing;
   4. Address of school of nursing; and
   5. Date individual graduated from school of nursing;

(B) The form must be signed by the individual. The individual then must send the form to the government agency which regulates nursing in the state or territory in which the individual is scheduled to take the licensure exam or the state or territory in which the individual took the licensure exam;

(C) The government agency must send the form directly to the Missouri State Board of Nursing. The government agency must include the following information on the form:
   1. That the individual is scheduled to take the licensure examination or that the individual has taken the licensure examination;
   2. The date(s) on which the individual is scheduled to take or took the licensure exam;
   3. Whether or not this will be or was the individual’s first time to take the licensure exam;
   4. The approximate expected date of the test results of the examination;
   5. The signature and title of the government official who completed the form;
   6. The state, territory or province in which the government agency is located;
   7. The date on which the government official signed the form; and
   8. The seal of the government agency, if applicable;

(D) At its discretion, the board may accept an official school transcript specifying graduation date instead of the information provided directly by the government agency. The applicant must provide directly to the board the information requested on the top portion of the application; and

(E) The individual, to the extent possible, must complete the application for licensure in Missouri and file it with the Missouri State Board of Nursing accompanied by the fee required for licensure in Missouri.

(3) The graduate temporary permit automatically will terminate and expire if the individual does not pass the licensure exam successfully. At that time, the individual will no longer fall within the exemption found in section 335.081(6), RSMo and the individual may not perform the functions or duties of a professional nurse or practical nurse in Missouri.

20 CSR 2200-4.040 Mandatory Reporting Rule

PURPOSE: This rule establishes a procedure and guidelines regarding reports required from hospitals, ambulatory surgical centers, or temporary nursing staffing agencies by section 383.133, RSMo concerning any final disciplinary action against a nurse licensed under Chapter 335, RSMo or the voluntary resignation of any such nurse.

(1) The State Board of Nursing shall receive and process any report from a hospital, ambulatory surgical center, or temporary nursing staffing agency concerning any disciplinary action against a nurse licensed under Chapter 335, RSMo or the voluntary resignation of any such nurse against whom any complaints or reports have been made which might have led to disciplinary action. Disciplinary action is defined in section 383.130, RSMo as any final action taken by the board of trustees or similarly empowered officials of a hospital or ambulatory surgical center, or owner or operator of a temporary nursing staffing agency, to reprimand, discipline, or restrict the practice of a health care professional. Only such reprimands, discipline, or restrictions in response to activities which are also grounds for disciplinary actions according to the professional licensing law for that health care professional shall be considered disciplinary actions for purposes of this definition.

(2) Reports to the board shall be in writing and shall comply with the minimum requirements as set forth in this rule. The Board of Nursing will assume that all reports received from hospitals, ambulatory surgical centers, or temporary nursing staffing agencies will be treated as under section 383.133, RSMo. The information shall be submitted within fifteen (15) days of the final disciplinary action, and shall contain, but need not be limited to:

(A) The name, address and telephone number of the person making the report;
(B) The name, address and telephone number of the person who is the subject of the report;

court, including the date of filing and the docket number of the action; and

(E) A statement as to what final action was taken by the institution.

(3) Reports made to the board under the mandated reporting requirements as defined in Chapter 383, RSMo shall not be deemed a violation of the federal Health Insurance Portability and Accountability Act (HIPAA) and the privacy rules located in the Act because the Missouri State Board of Nursing qualifies as a health oversight agency as defined in the HIPAA privacy rules.

(4) Any activity that is construed to be a cause for disciplinary action according to section 335.066, RSMo shall be deemed reportable to the board. Nothing in this rule shall be construed as limiting or prohibiting any person from reporting a violation of the Nursing Practice Act directly to the State Board of Nursing.

(5) In cases where a nurse voluntarily submits to an employee assistance program or to a rehabilitation program for alcohol or drug impairment and no disciplinary action is taken by the facility, the facility is not mandated to report but may report. If the nurse is subsequently disciplined by the facility for violating provisions of the employee assistance program or rehabilitation program or voluntarily resigns in lieu of discipline, the facility must report to the board under the above provision.
