3 CSR 10-8.510 Use of Traps

PURPOSE: This rule specifies the types of traps that are permitted and the restrictions on their use.

(1) Traps shall have smooth or rubber jaws only, and may include foot-hold traps, Conibear or other killing-type traps, foot-enclosing-type traps, cage-type traps, colony traps with openings no greater than six inches (6") in height and six inches (6") wide, or snares (as defined in 3 CSR 10-20.805) set under water only, and cable restraint devices (as defined in 3 CSR 10-20.805). Use of pit-

falls, deadfalls, snares set in a dry land set, and nets are prohibited.

(2) Traps, snares, and cable restraint devices shall be plainly labeled, on durable material, with the user's full name and address or Conservation Number. Wildlife held in traps, snares, or cable restraint devices may be killed or removed only by the user. Conibear or other killing-type traps set under water and colony traps set under water shall be attended and wildlife removed at least once every forty-eight (48) hours. All other traps, snares, and cable restraint devices must be attended daily and wildlife removed or released. Traps may not be set in paths made or used by persons or domestic animals, and Conibear or other killing-type traps may not be set along public roadways, except under water in permanent waters. Except as provided in 3 CSR 10-4.130, only cage-type traps or foot-enclosing-type traps may be set within one hundred fifty feet (150') of any residence or occupied building located within the established boundaries of cities or towns containing ten thousand (10,000) or more inhabitants. Homes, dens, or nests of furbearers shall not be molested or destroyed. Traps may be used in conjunction with electronic calls.

(3) Use of Conibear or Other Killing-Type Traps.

(A) No Conibear or other killing-type traps with a jaw spread greater than five inches (5") shall be used in any dry land set.

(B) Conibear or other killing-type traps with a jaw spread not greater than eight inches (8") may be set six feet (6') or more above ground level in buildings.

(C) Conibear or other killing-type traps of any size may be set under water.

(4) Use of Snares and Cable Restraint Devices.

(A) Snares (except as provided in subsection (4)(B)) must be set under water. Snares (as defined in 3 CSR 10-20.805) must have a loop fifteen inches (15") or less in diameter when set and must have a stop device that prevents the snare from closing to less than two and one-half inches (2 1/2") in diameter.

(B) Furbearers may be taken by trapping through the use of cable restraint devices during specified seasons (3 CSR 10-8.515) by persons who have successfully completed the cable restraint training course taught by a certified instructor. Cable restraint devices (as defined in 3 CSR 10-20.805) must have a loop size of twelve inches (12") in diameter or smaller when set, and the bottom of set restraint cable loop must be at least six inches (6") or greater above the ground. Cable

restraint devices must be anchored solid or staked in a location not allowing entanglement (such as rooted, woody vegetation greater than one-half inch (1/2") in diameter), and shall not be capable of extending to within twelve inches (12") of a fence, nor shall be set using a drag, or used with a kill-pole. Cable restraint devices may not be used within one hundred fifty feet (150') of any residence, occupied building, or a driveway leading to a residence.

These animals may be held for no longer than seventy-two (72) hours after capture, except when confined in facilities and cared for as specified in 3 CSR 10-9.220, and after approval by an agent of the department. Complete and current records of all transactions must be maintained showing the county of origin, the species, date captured, date of transfer, and name and permit number of the hound running area operator/dealer receiving each individual animal. These records shall be kept on forms provided by the department and submitted to

an agent of the department by April 15. Printed copies of these forms can be obtained from the Missouri Department of Conservation, PO Box 180, Jefferson City, MO 65102-0180 and online at www.missouriconservation.org. Records shall be made available for inspection by an authorized agent of the department at any reasonable time.
