*PURPOSE: Dates and limits for hunting deer in various parts of the state are established annually, based on the results of biological*

*surveys. The goal is to provide recreational opportunities consistent with the maintenance or establishment of optimum numbers of deer. This rule establishes the open seasons and limits for deer hunting.*

#### (1) General Requirements.

(A) For the purposes of this rule, deer shall mean white-tailed deer and mule deer and antlered deer shall mean a deer with at least one (1) antler not less than three inches (3") long. Deer may be pursued, taken, killed, possessed or transported only as permitted in this rule. A person may take two (2) deer of either sex on an archer's hunting permit provided that only one (1) antlered deer may be taken prior to the November portion of the firearms deer hunting season. A person holding an archer's hunting permit may obtain up to five (5) antlerless-only archery deer hunting permits to be used only in units 13, 14, 17, 22, 24, 58 and 59. A person may take one (1) antlerless deer on each antlerless-only archery deer hunting permit. In addition, a person may take one (1) antlered deer on a firearms deer hunting permit or one (1) deer of either sex on a firearms any-deer hunting permit. A person may take one (1) additional antlerless deer on a firearms first bonus deer hunting permit and one (1) additional antlerless deer on a firearms second bonus deer hunting permit. Additional deer may be taken as a participant in a managed deer hunt on a managed deer hunting permit. A person may participate in only one (1) managed deer hunt in the prescribed permit year. A person under twelve (12) years of age holding a youth deer and turkey hunting permit may, during the firearms deer hunting seasons, take one (1) antlered deer statewide or (1) antlerless deer in a deer management unit where any-deer permits are issued (as provided in 3 CSR 10-5.205). Any person killing a deer shall properly tag it immediately with a transportation tag listing the full name and address of the taker, which shall remain attached to the carcass until it has been inspected and marked at an established checking station. In addition, the taker shall validate the harvest by immediately notching the permit as required. A resident landowner or lessee, as defined in this Code, shall not be required to purchase a deer hunting permit to take, during the November and December portions of the firearms deer hunting season, an antlered deer, to take deer of either sex during the archery deer hunting season or to take up to five (5) additional antlerless deer during the archery season in units 13, 14, 17, 22, 24, 58 and 59, as prescribed in this rule, on any land s/he owns or, in the case of the lessee, upon which s/he resides, but s/he

shall adhere to season methods and limits prescribed in this rule and shall tag the deer immediately with the full name and address of the taker and submit it for inspection as required in this rule. Resident landowners or corporate shareholders who qualify under this rule are eligible for any-deer and bonus deer hunting permits. Nonresident landowners as defined who qualify under this rule are eligible to purchase nonresident landowner firearms permits for use on qualifying land.

(B) All deer taken shall be transported and possessed only by the taker until such deer have been submitted in person by the taker thereof for inspection and marking at an established checking station. Deer taken during the November portion of the firearms deer hunting season, and during the January portion of the firearms deer hunting season in units 1 through 17, 20, 22 through 24, 58 and 59, shall be submitted with the transportation tag attached and the prescribed hunting permit, notched as required, for inspection and marking in the county where taken or an adjoining open county between the hours of 8:00 a.m. and 8:00 p.m. Central Standard Time (CST) on the day taken. Deer taken during the December portion of the firearms deer hunting season and the archery hunting season shall be submitted for inspection and marking within twenty-four (24) hours of take at an established checking station, except that deer taken on an antlerless-only archery deer hunting permit must be checked at an established checking station within the unit where taken. Deer may not be transported without the head attached unless inspected and marked at an established checking station. Notwithstanding any contrary provisions of other rules, deer inspected and marked with a locking seal at an established checking station may be transported, possessed and stored, and parts of properly checked deer when labeled with the full name, address and permit number of the taker, may be transported and possessed by any person. Locking seals placed on deer at established checking stations shall remain attached to the deer carcass until the processor begins the act of processing the meat for packaging. Donations of commercially processed deer meat may be made to not-for-profit charitable organizations for distribution to underprivileged persons under administrative guidelines established by the director.

(C) Deer shall not be taken while in any stream or other body of water, or from any boat with a motor attached. Deer may not be hunted, pursued or taken with the aid of dogs, bait, any motor driven land conveyance

or aircraft at any time. While hunting or pursuing deer, dogs may not be used or possessed.

(D) Bait shall mean grain or other feed placed or scattered so as to constitute an attraction or enticement to deer. Scents and minerals, including salt, are not regarded as bait. An area shall be considered baited for ten (10) days following complete removal of the bait.

(E) Any person who kills or injures any deer shall make a reasonable effort to retrieve the deer and include it in his/her season limit; however, this does not authorize trespass.

(2) Firearms Deer Hunting Season.

(A) Deer may be taken as provided in this rule from one-half (1/2) hour before sunrise until one-half (1/2) hour after sunset from November 11 through November 21, 2000 and from January 6 through January 9, 2001 in units 1 through 17, 20, 22 through 24, 58 and 59, by the holder of a firearms deer hunting permit with a shotgun not smaller than 20-gauge or larger than 10-gauge; or with a muzzleloading or cap-and-ball firearm not capable of being loaded from the breech, not smaller than .40 caliber, and capable of firing only a single projectile at one (1) discharge; or with any pistol, revolver or rifle firing centerfire ammunition propelling an expanding-type bullet; or with a longbow or crossbow. The possession of full hard metal case projectiles, ammunition propelling more than one (1) projectile at a single discharge and self-loading firearms having a capacity of more than eleven (11) cartridges in magazine and chamber combined are prohibited while pursuing deer.

(B) Deer may be taken as provided in this rule from one-half (1/2) hour before sunrise until one-half (1/2) hour after sunset from December 2 through December 10, 2000, by the holder of a firearms deer hunting permit with a muzzleloading or cap-and-ball firearm not capable of being loaded from the breech, not smaller than .40 caliber, and capable of firing only a single projectile at one (1) discharge. A person, while in the act of pursuing or hunting deer on a firearms deer hunting permit may have and use more than one (1) muzzleloading or cap-and-ball firearm, but have no other firearm, longbow or crossbow on his/her person.

(C) During the November portion of the firearms deer hunting season, and during the January portion of the firearms deer hunting season in units 1 through 17, 20, 22 through 24, 58 and 59, other wildlife may be hunted only with a shotgun and shot not larger than No. 4, except that this provision does not apply to waterfowl hunters, trappers or to a

resident landowner on his/her land or to a lessee on the land on which s/he resides; provided that the holder of an unused firearms deer hunting permit and the prescribed hunting permit may take coyotes and, after the opening of the furbearer hunting season, bobcats in the area described in 3 CSR 10-7.450 by the methods prescribed for taking deer. Furbearers, squirrels and rabbits may not be chased, pursued or taken with dogs during daylight hours of the November portion of the firearms deer hunting season in Bollinger, Butler, Carter, Dent, Iron, Madison, Oregon, Reynolds, Ripley, Shannon and Wayne counties.

(D) During all portions of the firearms deer hunting season, all persons while hunting deer shall wear a cap or hat, and a shirt, vest or coat having the outermost color commonly known as daylight fluorescent orange, blaze orange or hunter orange which shall be plainly visible from all sides while being worn. Camouflage orange garments do not meet this requirement. This requirement shall not apply to archery deer hunters during the December portion of the firearms season, to archery deer hunters during the January portion of the firearms season in Units 18, 19, 21, and 25-57, or to hunters using archery methods while hunting within municipal boundaries where discharge of firearms is prohibited or on federal or state public hunting areas where deer hunting is restricted to archery methods.
