#### Chapter 2—Minimum Standards for Accredited Programs of Professional Nursing

#### 4 CSR 200-2.001 Definitions

**PURPOSE:** This rule defines terms used in 4 CSR 200.

(1) When used in 4 CSR 200, the following terms mean:

- **Accredited**—Recognized by the board as meeting or maintaining minimum standards for educational preparation of professional nurses;
- **Administrator**—Registered professional nurse with authority and responsibility for administration of program;
- **Annual report**—Report submitted annually by the administrator of the program that updates information on file with the board and validates continuing compliance with minimum standards;
- **Associate degree program**—Program leading to associate degree in nursing conducted by degree granting institution;
- **Baccalaureate program**—Program leading to baccalaureate degree in nursing conducted by degree granting institution;
- **Board**—Missouri State Board of Nursing;
- **Campus**—A separate geographic location with a separate student body and coordinator;
- **Certificate of accreditation**—Document issued by the board to schools of nursing which have met minimum standards;
- **Clinical experience**—Faculty planned and guided learning activities designed to meet course objectives or outcomes and to provide a nursing student with the opportunity to practice cognitive, psychomotor, and affective skills in the delivery of nursing care to an individual, group or community;
- **Clinical skills laboratory**—Designated area where skills and procedures can be demonstrated and practiced;
- **Conditional accreditation**—status of a school or program that has failed to meet or maintain the regulations or requirements, or both, set by the board. This status is subject to the school or program conforming to the requirements and recommendations and within a time period set by the board;
- **Coordinator**—Registered professional nurse with authority and responsibility for administration of the campus nursing program as delegated by the administrator of the nursing program;
- **Curriculum**—Planned studies and learning activities designed to lead students to graduation and eligibility for application of licensure;
- **Diploma program**—Program leading to diploma in nursing sponsored by a health care institution;
- **Direct care**—A clinical experience in which patient care is given by the student under the direction of the faculty member or preceptor;
- **Distance learning site**—An offering of studies primarily from a campus location to a separate location;
- **Endorsement**—Process of acquiring licensure as a nurse based on original licensure by examination in another state, territory or country;
- **Faculty**—Individuals designated by sponsoring institution with responsibilities for development, implementation and evaluation of philosophy, objectives and curriculum of nursing program;
- **Full-time faculty**—Those individuals deemed by sponsoring institution to meet definition for full-time employment;
- **Generic**—Initial educational program in nursing leading to entry-level licensure;
- **Governing body**—Body authorized to establish, monitor policies and assume responsibility for the educational programs;
- **Graduate competency**—Individual graduate behaviors;
- **Initial accreditation**—status of a newly established school or program that has not graduated its first class and has not received other approval status;
- **Minimum standards**—Criteria which nursing programs shall meet in order to be approved by the board;
- **NCLEX-RN® examination**—National Council Licensure Examination for Registered Nurses;
- **Observational experiences**—Faculty planned learning experiences designed to assist students to meet course objectives by the observation of patients/clients;
- **Participatory observation**—A planned clinical experience in which students under the direction of a faculty member, may participate in basic care activities, such as, assessment of vital signs, collection of data and assistance with activities of daily living where a registered nurse may or may not be present. Students shall have the skills appropriate to the experiences planned. Students may not participate in invasive or complex nursing activities beyond documented competencies without direct supervision of faculty member or preceptor;
- **Pharmacy program**—Program leading to associate degree or baccalaureate degree with a major in nursing leading to entry-level licensure;
- **Purposes of Accreditation**
  1. To promote the safe practice of professional nursing by setting minimum standards for schools preparing entry-level professional nurses.
  2. To assure that educational requirements for admission to the licensure examination have been met and to facilitate continuation in the educational program.
- **Program**—Course of study leading to a degree or diploma;
- **Preceptor**—Registered professional nurse assigned to assist nursing students in an educational experience which is designed and directed by a faculty member;
- **Systematic evaluation plan**—Written plan developed by faculty for comprehensive evaluation of all aspects of the program;
- **Written agreement**—Formal memorandum of understanding or contract between a nursing education program and a clinical site which designates each party’s responsibilities for the education of nursing students.

**4 CSR 200-2.010 Accreditation**

**PURPOSE:** This rule defines accreditation in the minimum standards for accredited programs of professional nursing and registration of professional nurses in Missouri.

(1) **Generic programs granting diploma, associate degree or baccalaureate degree with a major in nursing shall obtain accreditation from the Missouri State Board of Nursing.**

(A) **Purposes of Accreditation.**

1. To promote the safe practice of professional nursing by setting minimum standards for schools preparing entry-level professional nurses.

2. To assure that educational requirements for admission to the licensure examination have been met and to facilitate
endorsement in other states, territories, countries, or a combination of these.

3. To encourage continuing program improvement through self-study, evaluation and consultation.

4. To assist programs of professional nursing in developing and maintaining academic standards (didactic and clinical) that are congruent with current educational and nursing practice standards.

(B) Classification of Accreditation.

1. Initial accreditation is the status granted a program of professional nursing until full accreditation is granted.

2. Full accreditation is the status granted a program of professional nursing after the program has graduated one (1) class and has met minimum standards.

3. Conditional accreditation is the status of a program that has failed to meet or maintain the regulations or requirements, or both, set by the board. This status is subject to the school or program conforming to the requirements set by the board.

(C) Accreditation Process.

1. Requirements for initial accreditation.

A. An institution desiring to establish a program of professional nursing shall send a letter of intent to the board at least three (3) months prior to the submission of a proposal. The letter of intent must include: the mission statement of the educational institution; accreditation status of the educational institution; type and length of the nursing program proposed; and tentative budget plans including evidence of financial resources adequate for planning, implementing, and continuing the nursing program.

B. A program proposal shall be written and presented to the board by the administrator of the proposed program with or without faculty assistance. The proposal shall bear the signature of the administrator who shall meet the criteria in 4 CSR 200-2.060(2)(A) and shall be active in the position on a full-time basis at least nine (9) months and preferably one (1) year prior to the entry of the first class. Fourteen (14) copies of the proposal must be accompanied by the required application fee. The proposal must be prepared following the reporting format and include each component as indicated in 4 CSR 200-2.010(1)(C). Board approval of the proposal with or without contingencies must be obtained no later than six (6) months prior to the anticipated opening date.

C. A proposal submitted shall contain the following information:

(I) Statement of need and feasibility study which includes:

(a) Documentation of the need for the nursing program with rationale for why the program should be established;
(b) Number of professional nursing and practical nursing programs in the area and potential effect on those nursing programs;
(c) Number and source of anticipated student population;
(d) Number and type (practical nurse, associate, diploma, and baccalaureate) of nurses available in service area;
(e) Number and type of employers in the service area including documentation that these employers need graduates of the proposed program, including projections of nursing staff needs;
(f) Documentation of community and economic development need and support for the proposed nursing program;
(g) Letters of support for the proposed nursing program; and
(h) Source of potential qualified administrator and faculty;

(II) Curriculum.

(a) Philosophy;
(b) Organizing framework;
(c) Graduate competencies;
(d) Curriculum sequence;
(e) Course objectives and descriptions including credit hours for all courses;

(III) Students.

(a) Number of students per class;
(b) Number of classes admitted per year;
(c) Admission criteria;
(d) Plans for progression and retention of students;
(e) Grievance procedure;
(f) Plan for emergency health care of nursing students;

(IV) Faculty.

(a) Number of full-time and part-time faculty;
(b) Qualifications of faculty;
(c) Position descriptions;
(V) Ancillary personnel.

(a) Position description;
(b) Number of full-time and part-time ancillary personnel;
(IV) Sponsorship.

(a) Evidence of authorization to conduct the program of professional nursing;
(b) Accreditation status of the sponsoring institution;
(c) Description of the governing body and copies of the organizational charts of the sponsoring institution and of the program of professional nursing;

(d) Evidence of the financial stability and resources of the sponsoring institution and the program of nursing;

(VII) Facilities.

(a) Description of education facilities (classrooms, library, offices, clinical skills laboratory, and other facilities).

(b) Description of available equipment and supplies for clinical development, list of library and learning resources and number of computers available for student use.

(c) Description of clinical sites that will provide educationally sound experience.

(d) A letter of intent from each proposed clinical site indicating that they are able to offer/provide the educational experiences necessary for student learning.

(D) Site Survey.

1. Prior to initial accreditation a representative from the board shall make an on-site survey to verify implementation of the proposal and compliance with 4 CSR 200-2.050–4 CSR 200-2.130.

(E) Board Decision.

1. Initial Accreditation will be granted if the site survey indicates the proposal has been implemented and the program is in compliance with 4 CSR 200-2.050–4 CSR 200-2.130 as determined by the board or its representative(s). Throughout the period of initial accreditation, the program will be evaluated annually. Upon graduation of the first class of students which has completed the entire program and receipt of results of the National Council Licensure Examination for Registered Nurses (NCLEX–RN® examination), the board will review—

A. The program’s compliance with minimum standards during initial accreditation—including the program’s adherence to the approved proposed and changes authorized by the board;

B. Report of the on-site survey (if conducted);

C. Report of National Council Licensure Examination NCLEX® results (see 4 CSR 200-2.180(1)); and

D. Identification and analysis of student attrition rate.

2. After its review, the board will decide to continue initial accreditation for a period of not more than one (1) year, deny accreditation or grant full accreditation.

(2) Full Accreditation.

(A) Annual Report. Each program and each campus of each program shall complete and submit an annual report to the board. A copy of a current operational budget and audited fiscal report showing income and
expenditures shall be submitted with the annual report. Annual reports shall be completed with current information except where otherwise noted in the Annual Report form and sent to the board prior to the deadline established per board policy. Annual reports shall be submitted in a format provided by the board. Following review by the board, each program shall be notified of the board’s action(s).

(B) Five (5)-Year Survey. Each accredited program and each campus of each accredited program shall be surveyed every five (5) years from the first year of full accreditation. An on-site survey or a paper survey may be conducted. If a nursing program is accredited by a national recognized nursing accrediting body AND accredited by North Central Association for Schools and Colleges or the Coordinating Board for Higher Education, or the Accrediting Council for Independent Colleges and Schools, a five (5)-year on-site survey may be deferred. A paper review may be completed to include a self-study, recommendations of accrediting body, and attrition information as required by the board. Copies of correspondence regarding changes in accreditation status shall be submitted to the Board of Nursing immediately.

(C) Additional Visits/Surveys. A representative of the board shall make additional visits/surveys as deemed necessary by the board. A program may request additional visits.

(3) Annual Registration.

(A) An application for annual registration shall be sent to each accredited program and each campus of each accredited program from the board. Failure to receive the application will not relieve the program of its obligation to register.

(B) A separate annual registration form and designated fee shall be submitted to the board for each accredited program and each campus of each accredited program prior to June 1.

(C) Programs shall not operate without current registration. Failure to submit the required registration fee prior to June 1 will result in a lapsed status and the disciplinary process shall be initiated.

(4) Removal of Accreditation. A program’s accreditation may be removed pursuant to section 335.071.3, RSMo, for noncompliance with minimum standards.

(A) Should circumstances warrant, the board will notify the program administrator of concerns regarding the program, and the administrator will be requested to respond to those concerns.
