Chapter 4—Licensing of Speech-Language Pathologists and Clinical Audiologists

4 CSR 150-4.010 Applications for License

PURPOSE: This rule outlines the procedures for application for licensure as a professional speech pathologist, clinical audiologist, or both.

(1) Applications for licensure must be made on forms prepared by the Advisory Commission for Professional Speech Pathologists and Clinical Audiology. Application forms may be obtained by writing the executive secretary for the Advisory Commission for Professional Speech Pathologists and Clinical Audiologists, P.O. Box 4, Jefferson City, MO 65102 (314) 751-2334.

(2) An application will not be considered as officially submitted unless completely filled out, properly attested and the application fee paid by the applicant. The application fee must be in the form of a cashier’s check or money order.

(3) The completed application, including all documents, supporting material and official transcripts required by the commission, must be received at least thirty (30) days before the next regularly scheduled commission meeting. Applications completed fewer than thirty (30) days before the next regularly scheduled meeting may be scheduled for the following regularly scheduled meeting.

(4) The commission will require that the other states where an individual is licensed certify to their record of the individual applicant.

(5) An applicant shall present with the application a recent, unmounted, identifiable photograpph not larger than three and one-half inches by five inches (3 1/2” × 5”) nor smaller than two inches by three inches (2” × 3”).

(6) Following the commission’s review, the applicant will be informed by letter either that the application has been approved or that it has been rejected. Any rejection letter will outline, with as much specificity as practicable, the reasons for rejection.

AUTHORITY: section 345.030, RSMo 1986.*

Dear Speech Pathologist/Clinical Audiologist:

Transmitted herewith are the materials you will need to make application for licensure to practice speech pathology/clinical audiology in the State of Missouri. Included in the packet are:

1. The application with specific instructions for completing it;
2. A Documents and Fee page which will help you through the application process;
3. A Verification of Licensure form (if necessary, please make additional copies);
4. A booklet containing the text of the Speech Pathology/Clinical Audiology Practice Act and the attendant rules and regulations of the Missouri Board.

It is suggested that you read the Documents and Fee page before beginning the process. Next, read the Practice Act. Besides containing applicant information, this statute governs your professional conduct as a practitioner of speech pathology/clinical audiology in the State of Missouri.

No application can be considered by the Board until the entire file is complete. Therefore, you should not make any firm commitment to actually begin working until you have received notification of licensure in writing from this office. Proof that a speech pathologist/clinical audiologist has practiced speech pathology/clinical audiology in Missouri before becoming licensed, is grounds for denial of licensure.

Please be advised that no application will be processed without a fee. You will be notified in writing, one (1) time if your application is deficient in any way. Therefore, you should allow a minimum of thirty (30) days for the processing of your application once you have filed the completed application and the required documents in this office.

Please be reminded that it is unlawful to misrepresent any material fact, in any way, in connection with application for Missouri licensure. Proof that a speech pathologist/clinical audiologist has misrepresented any material fact is grounds for denial of licensure.

If you have any questions during the process which are not answered in the enclosed material, you may contact the Board of Healing Arts for assistance by dialing 314/751-0144.

Sincerely Yours,

SPEECH PATHOLOGY/CLINICAL AUDIOLOGY DEPARTMENT

4 CSR 150-4.020 Examinations

PURPOSE: This rule outlines the requirements and procedures for obtaining a speech pathology or clinical audiology license, or both, by examination.

(1) The examination given pursuant to section 345.010.1(6), RSMo shall be the National Examination for Speech Pathology and Clinical Audiology.

(2) The candidate shall submit the applicable nonrefundable licensing application fee to the commission and shall meet the requirements of section 345.050.1(1)-345.050.1(5), RSMo prior to taking the examination. If the commission finds that the applicant has met these qualifications, it then shall be the responsibility of the candidate to contact the National Teachers Examination Program Policy Council at CN6651, Princeton, NJ 08541-6051 to sit for the examination.

(3) The candidate shall have the National Teachers Examination Program Policy Council notify the commission of the candidate’s test result.

(4) The passing score required for licensure must meet the minimum score required for the certificate of clinical competence.

(5) A candidate approved by the commission for an examination shall take that examination within two (2) years from the date of the initial commission approval. If the candidate has not taken the examination by the end of the two (2)-year period prescribed in this rule—

(A) The initial commission approval to sit for the examination then shall become invalid; and

(B) In order to be considered for the examination later, the applicant shall file a complete new application including the nonrefundable application fee with the commission.

(6) Following the commission’s review, the applicant will be informed by letter either that the application has been approved or that it has been rejected. Any rejection letter will outline, with as much specificity as practicable, the reasons for rejection.

4 CSR 150-4.030 Reexamination

PURPOSE: This rule outlines the requirements and procedures for retaking the licensure examination for speech pathologists or clinical audiologists, or both.

(1) A candidate whose license has lapsed for more than three (3) years, pursuant to section 345.055(1), RSMo, must submit a new application (see 4 CSR 150-4.010) pursuant to 4 CSR 150-4.010 and 4 CSR 150-4.020 and shall be reexamined.

(2) A candidate who is reexamined because of a lapsed license and who fails the reexamination is disqualified from retaking the examination until the applicant satisfies the requirements of the commission. This requires the applicant to meet with the commission, for the commission to specify further education and experience needed and for the applicant to document that these requirements have been satisfied.

(3) All other candidates may retake the examination two (2) subsequent times. Both of the two (2) subsequent reexaminations must be retaken within three (3) years of the date of the approval of the candidate’s application. A candidate who fails the initial examination and fails two (2) subsequent reexaminations shall be disqualified until the applicant satisfies the requirements of the commission. This requires the applicant to meet with the commission, for the commission to specify further education and experience needed and for the applicant to document that these requirements have been satisfied.

(4) If the candidate has not taken the subsequent two (2) reexaminations by the end of the three (3)-year period prescribed in this rule, the initial commission approval to sit for the examinations shall then become invalid and in order to be considered for further reexamination, the applicant shall file a complete new application including the nonrefundable application fee with the commission.

4 CSR 150-4.040 Foreign Trained Applicants

PURPOSE: This rule outlines the requirements and procedures for foreign trained applicants applying for a speech pathology or clinical audiology license, or both.

(1) All foreign trained applicants applying for a license to practice shall complete the requirements specified in 4 CSR 150-4.010 and 4 CSR 150-4.020 and submit the nonrefundable application fee.

(2) A foreign trained applicant graduating from a foreign college or university which is not approved and accredited by the American Speech-Language and Hearing Association shall be required to obtain a credential evaluation verifying the applicant’s professional degree. The credential evaluation service must be approved by the commission.

4 CSR 150-4.050 Renewal of License

PURPOSE: This rule provides information to professional speech pathologists and clinical audiologists in Missouri regarding annual renewal of licensure.

(1) A license may be renewed on or before the expiration of the license by submitting the signed renewal notice and fee to the commission.

(2) The commission shall mail an application for renewal to each person licensed in this state at the last known mailing address. The failure to mail the application or the failure to receive it does not, however, relieve any person of the duty to renew and to pay the fee required nor provide exemption from the penalties provided for failure to renew.

(3) Any person practicing any of the acts as set forth in section 345.015, RSMo with an expired license shall be subject to discipline under sections 345.065 and 345.075, RSMo.

4 CSR 150-4.051 Definitions

PURPOSE: This rule defines the terms used throughout this chapter.

(1) For the purpose of this chapter, the following definitions shall apply:
   (A) Commission—means the Advisory Commission for Speech-Language Pathologists and Clinical Audiologists;
   (B) Board—means the Missouri State Board of Registration for the Healing Arts;
   (C) Licensee—means any person licensed to practice speech-language pathology and/or clinical audiology in the state of Missouri;
   (D) Hour of continuing education—means fifty (50) minutes spent in actual attendance at and completion of an approved continuing education activity;
   (E) One (1) continuing education unit (CEU)—is equivalent to ten (10) clock hours of approved continuing education (i.e. ten (10) clock hours = 1.0 CEU, one (1) clock hour = 0.1 CEU).

4 CSR 150-4.052 Continuing Education Requirements.

PURPOSE: This rule details the board's minimum continuing medical education requirement for renewal or reinstatement of a speech-language pathology and/or clinical audiology license, and specifies the record documentation requirements.

(1) Each licensee shall biennially complete and report at least thirty (30) hours of continuing education. The board shall not issue a renewal of a licensee’s certificate of registration unless the licensee documents completion of thirty (30) hours of continuing education in the immediately preceding reporting period.

(2) The period for completion of the continuing education requirements shall be the twenty-four (24)-month period beginning January 1 and ending December 31 of each reporting period. Continuing education hours cannot be carried over into the next reporting period. A licensee who has failed to obtain and report, in a timely fashion, the required thirty (30) hours of continuing education shall not engage in the practice of speech-language pathology and/or clinical audiology unless an extension is obtained and approved pursuant to 4 CSR 150-4.054.

(3) Each licensee shall certify by signature, on his/her licensure renewal form, under penalty of perjury, that s/he has completed the required thirty (30) hours of continuing education, and that the continuing education obtained meets the qualifying criteria specified in 4 CSR 150-4.053.

(4) Each licensee shall retain records documenting his/her attendance at and completion of the required hours of continuing education for a minimum of three (3) years after the reporting period in which the continuing education was completed. The records shall document the titles of the courses taken, dates, locations, course sponsors, category of hours earned, and number of hours earned. The board may conduct an audit of licensees to verify compliance with the continuing education requirement. Licensees shall assist the board in its audit by providing timely and complete responses to the board’s inquiries.

(5) To reinstate the license of a speech-language pathologist and/or clinical audiologist whose license has been in a noncurrent state for any reason, for a period of three (3) years or less, that licensee shall obtain, in addition to any other requirements of law, all the continuing education that the licensee would otherwise have been required to obtain if the license had been current and active during that period. To reinstate a license which has been in a noncurrent state for any reason, for more than three (3) years, that licensee shall comply with 4 CSR 150-4.030 and any other requirements of law. No license shall be reinstated unless and until all required continuing education is obtained and reported to the board and all other requirements of law have been satisfied.

(6) Violation of any provision of this rule shall constitute misconduct, fraud, misrepresentation, dishonesty, unethical conduct or unprofessional conduct in the performance of the functions or duties of a speech-language pathologist and/or clinical audiologist depending on the licensee’s conduct. In addition, a licensee who has failed to complete and report in a timely fashion the required hours of continuing education and engages in the active practice of speech-language pathology and/or clinical audiology without the express written authority of the board shall be deemed to have engaged in the unauthorized practice of speech-language pathology and/or clinical audiology and punishable as such under section 345.075, RSMo.

(7) Provisional licensees are exempt from obtaining continuing education until such time as a permanent license is issued.

for the normal development and use of speech, language, and hearing; physical bases and processes of the production and perception of speech, language, and hearing; linguistic and psycholinguistic variables related to normal development and use of speech, language, and hearing; and technological, biomedical, engineering, and instrumentation information which would enable expansion of knowledge in the basic communication processes. Any computer course used for continuing education must involve the actual application to the communicatively impaired population;

2. Professional areas—information pertaining to disorders of speech, language, and hearing, i.e., various types of disorders of communication, their manifestations, classification and causes; evaluation skills, including procedures, techniques, and instrumentation for assessment; and management procedures and principles in habilitation and rehabilitation of communication disorders. The board shall accept dysphagia courses provided by qualified instructors; and

3. Related areas—study pertaining to the understanding of human behavior, both normal and abnormal, as well as services available from related professions which apply to the contemporary practice of speech-language pathology/audiology, e.g., theories of learning and behavior; services available from related professions that also deal with persons who have disorders of communications; information from these professions about the sensory, physical, emotional, social or intellectual states of child or adult; and other areas such as general principles of program and business management, professional ethics, clinical supervision, counseling and interviewing.

(3) For the purpose of this rule, thirty (30) days spent in a clinical fellowship year during a reporting period shall satisfy the required continuing education requirement for that reporting period.

(4) Documentation of continuing education compliance shall be evidenced by—

(A) A Continuing Education Registry Form from the ASHA, MSHA, AMA, AAA or the MAA, DESE, or the CEC; specifically listing the continuing education obtained by the licensee and the dates of obtaining; or

(B) A certificate of attendance provided by a sponsor which contains the date of program, the program title and presenter(s), program site, number of clock hours attended, name of sponsor, name of licensee and is signed by a program official; or

(D) An official transcript, from a regionally accredited college or university, indicating successful completion of academic coursework in appropriate subject matter as specified in subsection (2)(D) of this rule. One (1) semester hour of coursework is equivalent to fifteen (15) hours of continuing education and one-quarter (1/4) hour of coursework is equivalent to ten (10) hours of continuing education.

4 CSR 150-4.054 Continuing Education Extensions

PURPOSE: This rule details the requirements for licensed speech-language pathologists and/or clinical audiologists requesting an extension of time to complete the required continuing education hours necessary for licensure renewal.

(1) A licensee who cannot complete the required hours of continuing education because of personal illness, military service or other circumstances beyond the licensee’s control which the board deems to be sufficient to impose an insurmountable hardship may apply for an extension of time to complete the continuing education requirements. Any extension of time to complete the continuing education requirements will be granted solely in the discretion of the board. The licensee must make a written application for extension of time prior to the December 31 deadline for completion of the continuing education requirement. The application for extension shall be accompanied by a processing fee as specified in 4 CSR 150-4.060, together with the application for extension. The licensee shall provide full and complete written documentation of the grounds supporting the reasons for which an extension is sought. A licensee who requests an extension of time to complete the required hours of continuing education shall not engage in active practice of speech-language pathology and/or clinical audiometry until the board grants the licensee’s request for extension and the licensee receives express written authorization to do so.

(A) Military service extensions may be granted only to a licensee who was absent from the United States for at least a majority of the reporting period due to his/her military service commitment under combat circumstances or pursuant to a state of national emergency. At a minimum, the licensee must submit written documentation from the appropriate military authorities verifying the licensee’s military service commitment and the periods during which the commitment was being fulfilled under a combat or national emergency status; the number of hours earned during the reporting period and a plan for completing the balance of the required continuing education.

(B) Illness extensions may be granted only to a licensee who has suffered a personal illness or personal disability of a nature to prevent him/her from engaging in the active practice of speech-language pathology and/or clinical audiometry for at least a majority of the reporting period.
