**Title 5—DEPARTMENT OF
ELEMENTARY AND
SECONDARY EDUCATION**

**Division 20—Division of Learning Services
Chapter 100—Office of Quality Schools**

**5 CSR 20-100.105 Missouri School
Improvement Program-5**

PURPOSE: This rule implements an accountability system for Missouri public school districts and is designed to stimulate and encourage improvement in student performance. An assessment of school districts' educational outcomes will enable the State Board of Education to classify districts as required by state law.

(1) Pursuant to section 161.092, RSMo, this rule is to be effective two (2) years from the date of adoption of the proposed rule by the State Board of Education (board). The *Missouri School Improvement Program (MSIP)-5 Performance Standards and Indicators*, Appendix A, included herein, is comprised of quantitative standards for school districts. *MSIP-5 Process Standards and Indicators* will include evidence of adequate instruction in physical education and fine arts to be included in standards used to determine classification.

(2) School district performance will be reviewed annually by the Department of Elementary and Secondary Education (department) in accordance with this rule, including the standards, using the appropriate scoring guide, forms, and procedures outlined by the department. Review of these data will guide the department in determining school districts in need of improvement as well as the appropriate level of intervention necessary for significant and sustained improvement in student achievement and in determining high performing school districts that may serve as models of excellence. Decisions will be made using multiple years of data.

(3) The board will assign classification designations of unaccredited, provisionally accredited, accredited, and accredited with distinction based on the standards of the MSIP.

(4) As a condition of receiving a classification designation other than unaccredited, each school district reviewed under the MSIP must maintain a current school improvement plan in a format approved by the department. Districts identified through the MSIP as needing improvement must submit a school improvement plan for approval by the department.

(5) A school district's classification designation based on the standards of the MSIP will remain in effect until the board approves another designation. The board may consider changing a district's classification designation upon its determination that the district has—

(A) Failed to implement any required school improvement plan at an acceptable level;

(B) Demonstrated significant change in student performance over multiple years;

(C) Employed a superintendent or chief executive officer without a valid Missouri superintendent's certificate in a K-12 school district, or employed a superintendent or chief executive officer without a valid Missouri superintendent's or elementary principal's certificate in a K-8 school district;

(D) Experienced significant change in the scope or effectiveness of the programs, services, or financial integrity upon which the original classification designation was based; and/or

(E) Failed to comply with a statutory requirement.

(6) The board of education of any school district which is dissatisfied with the classification designation assigned by the board shall request reconsideration within sixty (60) calendar days of notice received of the original classification. The request for reconsideration shall be submitted to the commissioner of education and state the specific basis for reconsideration, including any errors of fact cited to support reconsideration. Review by the board shall be scheduled within sixty (60) calendar days of receipt of the request for reconsideration and shall be based upon the materials submitted with the original classification, the request for reconsideration, and any materials offered by the commissioner of education or requested by the board.

5 CSR 20-100.160 Policies and Standards for Summer School Programs

PURPOSE: This rule establishes policies and standards for public school districts and charter schools which choose to conduct summer school programs that will qualify for state aid in accordance with Chapter 163, RSMo.

(1) Summer school programs may be held any time between the close of the regular school term and the beginning of the next regular term and must be approved by the local school board. School districts with a "year-round" regular term schedule may conduct an approved component of summer school during the breaks in the regular term. A summer school program shall consist of a planned schedule of course offerings for resident students at the elementary or high school level. An approved summer school program for students without disabilities must be in session for at least one hundred twenty (120) clock hours. Summer school programs for students with disabilities must be in session for at least sixty (60) clock hours depending upon the hours needed to comply with the Individualized Education Program (IEP).

(2) A school board may authorize the operation of summer school programs at the elementary or high school level, or both. Each approved summer school program shall have at least the required minimum clock hours of instruction. An elementary summer school program may include any combination of grades kindergarten through eight (K-8). A high school summer school program may include any combination of grades seven through twelve (7-12). A school district or charter school may operate one (1) or more summer school programs at any level. Each summer school program that is operated separately with different opening and closing dates must meet the minimum clock hours of instruction requirements. A variety of classes may be offered at either the elementary or secondary level which meet state guidelines and whose total hours of instruction equal at least one hundred twenty (120) clock hours. A second method of meeting the clock hour requirement is to offer a variety of classes at the elementary and secondary level whose combined hours total at least one hundred twenty (120). This method is commonly referred to as "stacking." Under the "stacking" method, typically sixty (60) hours of instruction are offered at the elementary level with sixty (60) hours of instruction offered at the secondary level for a combined total of one hundred twenty (120) clock hours. The clock hours of regular summer school classes may be combined with the clock hours of special education extended school year programs to reach the one hundred twenty (120)-clock hour requirement. No individual course or segment of an approved summer school program, other than special education programs, may consist of less than thirty (30) clock hours of classroom instruction. Minimum time requirements exclude break time and lunch time. School districts with "year-round" regular term schedules may include instructional hours offered in a structured summer school program held during breaks in the regular term.

(A) Examples of acceptable combinations are as follows:

1. Sixty (60) hours in grades kindergarten through six (K-6) or kindergarten through eight (K-8) plus sixty (60) hours in grades seven through eight (7-8) or nine through twelve (9-12) in an approved summer school;

2. Sixty (60) hours in a special education extended school year program plus sixty (60) hours in grades kindergarten through eight (K-8) or nine through twelve (9-12) in an approved summer school;

3. Thirty (30) hours in grades kindergarten through six (K-6) plus thirty (30)

hours in grades seven through eight (7–8) plus sixty (60) hours in grades nine through twelve (9–12) in an approved summer school; or

4. Sixty (60) hours in grades kindergarten through eight (K–8) offered during breaks in the regular term plus sixty (60) hours in grades nine through twelve (9–12) offered during breaks in the regular term for school districts with year-round regular term schedules.

(B) Title I summer school hours may not be used in the “stacking” method. The district or charter school must demonstrate compliance with the supplement not supplant requirement before federal programs funds may be used for summer services. Prior to obligating federal funds for summer services, the district must complete a Federal Program Proposed Summer School Plan.

(3) The curriculum in an approved summer school program at any level must include one (1) or more of the following academic areas as the major portion of the clock hours of instruction in the program: elementary school—language arts, mathematics, science, social studies; and high school—language arts, mathematics, science, social studies, practical arts.

(A) Any course which may be offered in the regular school term may be approved as part of the summer school with the exception of physical education hours that do not count as credit toward graduation for students in grades nine (9), ten (10), eleven (11) and twelve (12). Special approval must be requested for summer school courses that would require special approval during the regular term.

(B) The following are examples of courses which may be approved as part of the summer school program but must be in addition to, and not in place of, the academic areas: driver education, art, crafts, physical education and music.

(C) Activities such as gymnastics, weight lifting, tennis and swimming lessons conducted under the sponsorship of the school cannot be included as part of the approved summer school program unless they are an integral part of a comprehensive physical education course which is part of the scheduled clock hours of instruction in the approved summer school program.

(D) Activities such as recreation programs, athletic practices, isolated music rehearsals and isolated band practices may be offered by the school but shall not be included as part of the clock hours of instruction in an approved summer school program and shall not be

counted for summer school membership and attendance for state aid purposes.

(4) The attendance of resident students between the ages of six and twenty (6–20) in grades one through twelve (1–12) and students who are eligible to attend kindergarten the next fall (must be five (5) before the first day of August of the school year beginning in that calendar year) may be counted for summer school state aid purposes in accordance with Chapter 163, RSMo.

(5) Some high school courses may be offered for credit and some courses for no credit in an approved summer school program. High school students may earn one-half (1/2) unit of high school credit for laboratory courses which meet at least seventy-five (75) clock hours and one-half (1/2) unit of high school credit for other courses which meet for sixty to seventy-five (60–75) clock hours. One-fourth (1/4) unit of high school credit may be granted for driver education classes which provide thirty (30) clock hours of classroom instruction, six (6) clock hours behind the wheel and twelve (12) clock hours as an observer in a driver education car. Minimum time requirements exclude any break time and lunch time.

(6) Summer school teachers must have valid Missouri teacher certification.

(7) Transportation for summer school students with disabilities is reimbursable as provided in 5 CSR 30-261.040 Allowable Costs for State Transportation Aid.

(8) School food services for summer school students are not required but may be provided.

(9) Facilities and equipment used for summer school shall be of a quality equal to that used during the regular term.

(10) Textbooks, library resources and other instructional materials and aids shall be of a quality equal to that used during the regular term.

(11) State Board of Education classification standards pertaining to class size are applicable to summer school programs.

(12) Department of Elementary and Secondary Education (DESE) staff will review applications for approval of summer school programs, consult with local school officials as needed and approve eligible summer school programs for state aid. Approved

summer school programs will be visited and reviewed by DESE staff.

(13) School districts and charter schools must keep individual student membership and attendance records for summer school programs. The summer school records shall be audited as required by law.

(14) Summer school program applications and reports shall be submitted in a form and at a time as may be required by DESE.

5 CSR 20-100.170 Missouri School Improvement Program

PURPOSE: This rule implements a program of comprehensive assessments of school districts’ educational resources, instructional processes and educational outcomes designed to stimulate and encourage improvement in the efficiency and effectiveness of instruction, and provides information which will enable the State Board of Education to accredit and classify the districts as required by state law.

PUBLISHER’S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(1) This rule is to be effective July 1, 2006, and incorporated by reference and made a part of this rule the *Missouri School Improvement Program (MSIP) Standards and Indicators Manual* which is comprised of qualitative and quantitative standards for school districts. As referenced in the *MSIP Standards and Indicators Manual*, the standards are organized in three (3) sections—Resource Standards, Process Standards and Performance Standards. The standards are supported by appendices which include: the minimum graduation requirements, media standards for school learning resource centers, teacher certification requirements and assessment program standards. Anyone interested in viewing or requesting a copy of the MSIP Manual (Revised September 2004) may contact the School Improvement and Accreditation Section, 205 Jefferson Street, PO Box 480, Jefferson City, MO 65102-0480.

(2) During each year, the Department of Elementary and Secondary Education (DESE) will select school districts which will be reviewed and classified in accordance with this rule, including the standards, with the appropriate scoring guide and forms and procedures outlined in the annual MSIP.

(3) The State Board of Education (board) will assign classification designations of unaccredited, provisionally accredited and accredited based on the standards of the MSIP.

(4) As a condition of receiving a classification designation other than unaccredited, each school district reviewed under MSIP must file, within sixty (60) days of the board's decision, a school improvement plan in a form specified by DESE and implement it in accordance with a specified schedule approved by DESE.

(5) A school district's classification designation based on the standards of the MSIP will remain in effect until the board approves another designation. The board may consider changing a district's classification designation after its regularly scheduled review or upon its determination that the district has:

(A) Failed to implement its school improvement plan at an acceptable level;

(B) Implemented its school improvement plan substantially and, therefore, may qualify for a higher classification designation;

(C) Employed a superintendent or chief executive officer without a valid Missouri superintendent's certificate in a K-12 school district; or employed a superintendent or chief executive officer without a valid Missouri superintendent's or elementary

principal's certificate in a K-8 school district; and/or

(D) Altered significantly the scope or effectiveness of the programs, services or financial integrity upon which the original classification designation was based.

(6) A school district designated unaccredited by the board under the provisions of this rule will be liable for tuition and transportation for resident students legally transferring to another district pursuant to applicable state laws and regulations from the date of the action by the board through the end of the school year during which the board awards the district a designation of provisionally accredited or higher.

(7) Any school district which on June 30, 1997, or thereafter, has been classified unaccredited by the board in two (2) successive years will be subject to lapsing, pursuant to applicable state laws and regulations. A school district that is classified as unaccredited shall lapse on June 30 of the second full year after the school year during which the unaccredited classification is initially assigned.

(8) A school district designated provisionally accredited twice sequentially or a school district designated provisionally accredited after being unaccredited will be designated provisionally accredited for three (3) years, at which time a re-review will be conducted. A district's accreditation designation may not be raised more than one (1) level during a re-review.

(A) The board may lower a district's accreditation if a district fails to gain full accreditation after being designated provisionally accredited twice sequentially; or after being designated provisionally accredited after being unaccredited and the district fails to make significant or consistent improvement in student achievement in order to gain accreditation.

(9) The board of education of any school district which is dissatisfied with the classification designation assigned by the board may request a hearing before the commissioner of education for the purpose of showing cause why its classification designation should be reconsidered. Each request must be submitted in writing within thirty (30) days of the board's classification designation, setting forth the specific reasons for the request, including any errors of fact upon which the board relied in making the classification designation. If the commissioner of education agrees that sufficient cause has been shown, s/he will request the board to reconsider the

district's classification designation together with the additional or corrected information.

5 CSR 20-100.190 Graduation Requirements for Students in Public High Schools

PURPOSE: This rule establishes minimum graduation requirements for public school districts.

(1) High School Graduation Requirements. Effective for the graduating class of 2010 and thereafter, the state minimum high school graduation requirements comprise twenty-four (24) units of credit that must be earned between grades nine (9) and twelve (12). The requirements are stated in terms of the number of units of credit that must be earned in each subject area:

Subject Area	Units of Credit
Communication Arts	4.0
Social Studies	3.0
Mathematics	3.0
Science	3.0
Fine Art	1.0
Practical Arts	1.0
Physical Education	1.0
Health Education	.5
Personal Finance	.5*
Electives	7.0
Total Credits	24.0

*The .5 unit of credit of Personal Finance may be earned in social studies, practical arts or as an elective. If earned in social studies or practical arts, the required units of credit in that area are reduced by .5 (i.e. social studies from 3.0 to 2.5) and the elective total is increased to 7.5.

(2) The minimum high school graduation requirements should focus on competencies and align with the Missouri Show-Me Standards and grade-level expectations. Missouri Show-Me Standards and grade-level expectations are located on the Department of Elementary and Secondary Education (DESE) website.

(3) **Course Requirements.** In order to earn one standard unit of high school credit, a student must earn a passing grade in that course. A standard unit of credit is defined by a course that meets for seven thousand eight hundred thirty (7,830) minutes during a school year. Half- and quarter-units of credit may be earned for courses meeting proportionately fewer minutes. However, if a student demonstrates mastery of the required competencies of a course, the district may grant credit through an alternative method with prior approval by DESE. Alternative time schedules may be approved if requested by the district.

(4) **Local Board Policies.** Local boards of education must adopt and disseminate written policies concerning graduation. The policies must clearly set forth all requirements and all allowable variations. Local graduation policies must include at least the state minimum requirements and may exceed the state minimums by requiring more total units of credit, requiring more units within a particular subject, or establishing additional requirements.

(5) **Accommodation of Students with Disabilities.** Local school boards must establish policies and guidelines that ensure students with disabilities have the opportunity to earn credits toward graduation in a nondiscriminatory environment.

(6) **Variations and Substitutions.** The state minimum graduation requirements cannot be applied with absolute uniformity in every case. Students' individual situations sometimes require consideration of variations and alternatives. If a local board chooses to allow these variations and alternatives, it must do so through officially adopted policies and through procedures that will ensure fair and consistent application of its policies.

5 CSR 20-100.230 Virtual Instruction Program

PURPOSE: This rule establishes policies and procedures for the Missouri Department of Elementary and Secondary Education to implement a public virtual school program to serve school-age students residing in the state, as authorized by section 161.670, RSMo.

(1) General information. Missouri's Virtual Instruction Program (MoVIP) offers online courses to any kindergarten through grade twelve (K-12) students residing in Missouri, subject to appropriations. All MoVIP teachers are Missouri certified in the subjects they teach. All courses offered through MoVIP are aligned with Missouri Show-Me Standards.

(2) Access. A school district shall not limit a student's access to MoVIP state-funded courses, even if the district offers the same

course titles. School officials are encouraged to advise students who are considering MoVIP courses about whether those courses are appropriate, based on academic prerequisites and each student's age and academic readiness.

(A) State appropriations will pay for no more than six (6) virtual credits per school year for any one (1) student. A credit consists of two (2) semesters of work for a school year.

(B) A school district cannot limit the number of credits a student may earn through MoVIP during a single or multiple school years.

(C) Students may be allowed to take MoVIP courses during the regular school day as allowed by local district policies.

(3) Selection. In any fiscal year, the number of students seeking to enroll in courses through MoVIP may exceed the level of state funding appropriated to support the program. The Department of Elementary and Secondary Education (DESE) will use a selection process to assure that students in all parts of the state have an equal opportunity to participate in the MoVIP program.

(4) Credit. Course credit issued through the MoVIP program shall be recognized by all public school districts in Missouri, regardless of who paid for the MoVIP course (state reimbursement or private tuition).

(A) All courses offered by MoVIP must use course numbers established by DESE.

(B) MoVIP will officially notify school districts and parents about the completion of each course and about any change in a student's status (moving, dropping a course, etc.). When a course is completed, the notification will be in the form of a percentage of work satisfactorily completed, as opposed to a letter grade.

(C) School district policies governing how grades and credits are awarded must be applied to MoVIP courses and credits the same way they are applied to courses offered by the school district. Once a grade has been assigned for a course credit that was taken through the MoVIP program that credit shall be treated the same as any other course offered by the district.

(5) Special Education. MoVIP shall provide the services/accommodations set forth in a student's Individual Education Program (IEP) to enable a student to take the online courses offered by MoVIP. Provisions in the IEP for related services shall be the responsibility of the local school district where the student is enrolled, unless the student is a private school

student accessing MoVIP. No IEP is needed for students not enrolled in a public school district. For those students, related services shall be provided by the local district to the extent required by their proportionate share requirement under state and federal regulations implementing the Individuals with Disabilities Education Act (IDEA). Districts must provide MoVIP with a copy of the current IEP for students enrolled in the public school district and participates in MoVIP.

(6) Multiple Providers. DESE shall ensure that multiple content providers are allowed in the event that more than one (1) vendor is determined to be in compliance with the provisions of section 161.670, RSMo, the requirements of this rule, and are determined to be responsive to the request for proposal issued by DESE.

(7) Funding. Districts that have resident students enrolled in MoVIP classes will receive a disbursement corresponding to fifteen percent (15%) of the total state aid attributable to such students under sections 163.031 and 163.043, RSMo.
