Regulations
(Rescinded February 28, 2007)

AUTHORITY: sections 160.518, 160.545,
161.092, 161.210 and 163.031.5(3), RSMo
2000. This rule was previously filed as 5 CSR
30-345.020. Original rule filed Sept. 30,
1999, effective March 30, 2000. Amended:
Rescinded: Filed July 14, 2006, effective Feb.

5 CSR 50-345.100 Missouri School
Improvement Program

PURPOSE: This rule implements a program of comprehensive assessments of school districts' educational resources, instructional processes and educational outcomes designed to stimulate and encourage improvement in the efficiency and effectiveness of instruction, and provides information which will enable the State Board of Education to accredit and classify the districts as required by state law.

PUBLISHER'S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(1) This rule is to be effective July 1, 2006, and incorporated by reference and made a part of this rule the Missouri School Improvement Program (MSIP) Standards and Indicators Manual which is comprised of qualitative and quantitative standards for school districts. As referenced in the MSIP Standards and Indicators Manual, the standards are organized in three (3) sections—Resource Standards, Process Standards and Performance Standards. The standards are supported by appendices which include: minimum graduation requirements, media standards for school learning resource centers, teacher certification requirements and assessment program standards. Anyone interested in reviewing or requesting a copy of the MSIP Manual (Revised September 2004) may contact the School Improvement and Accreditation Section, 205 Jefferson Street, PO Box 480, Jefferson City, MO 65102-0480.

(2) During each year, the Department of Elementary and Secondary Education (DESE) will select school districts which will be reviewed and classified in accordance with this rule, including the standards, with the appropriate scoring guide and forms and procedures outlined in the annual MSIP.

(3) The State Board of Education (board) will assign classification designations of unaccredited, provisionally accredited and accredited based on the standards of the MSIP.

(4) As a condition of receiving a classification designation other than unaccredited, each school district reviewed under MSIP must file, within sixty (60) days of the board's decision, a school improvement plan in a form specified by DESE and implement it in accordance with a specified schedule approved by DESE.

(5) A school district's classification designation based on the standards of the MSIP will remain in effect until the board approves another designation. The board may consider changing a district's classification designation after its regularly scheduled review or upon its determination that the district has:

(A) Failed to implement its school improvement plan at an acceptable level;

(B) Implemented its school improvement plan substantially and, therefore, may qualify for a higher classification designation;

(C) Employed a superintendent or chief executive officer without a valid Missouri superintendent's certificate in a K–12 school district; or employed a superintendent or chief executive officer without a valid Missouri superintendent's or elementary principal's certificate in a K–8 school district; and/or

(D) Altered significantly the scope or effectiveness of the programs, services or financial integrity upon which the original classification designation was based.

(6) A school district designated unaccredited by the board under the provisions of this rule will be liable for tuition and transportation for resident students legally transferring to another district pursuant to applicable state laws and regulations from the date of the action by the board through the end of the school year during which the board awards the district a designation of provisionally accredited or higher.

(7) Any school district which on June 30, 1997, or thereafter, has been classified unaccredited by the board in two (2) successive years will be subject to lapsing, pursuant to applicable state laws and regulations. A school district that is classified as unaccredited shall lapse on June 30 of the second full year after the school year during which the unaccredited classification is initially assigned.

(8) A school district designated provisionally accredited twice sequentially or a school district designated provisionally accredited after being unaccredited will be designated provisionally accredited for three (3) years, at which time a re-review will be conducted. A district's accreditation designation may not be raised more than one (1) level during a re-review.

(A) The board may lower a district's accreditation if a district fails to gain full accreditation after being designated provisionally accredited twice sequentially; or after being designated provisionally accredited after being unaccredited and the district fails to make significant or consistent improvement in student achievement in order to gain accreditation.

(9) The board of education of any school district which is dissatisfied with the classification designation assigned by the board may request a hearing before the commissioner of education for the purpose of showing cause why its classification designation should be reconsidered. Each request must be submitted in writing within thirty (30) days of the board's classification designation, setting forth the specific reasons for the request, including any errors of fact upon which the board relied in making the classification designation. If the commissioner of education agrees that sufficient cause has been shown, s/he will request the board to reconsider the district's classification designation together with the additional or corrected information.
5 CSR 50-345—DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION

PURPOSE: This rule establishes the criteria and procedures for annually identifying school district and/or school building eligibility for waivers in compliance with applicable state law and regulations. The student performance data will be reviewed, and the commissioner of education will notify districts if they are eligible for a waiver. Districts may respond to this notification by either accepting or rejecting such waiver.

1. Schools may qualify for an MSIP waiver when the district does not, if the school meets the following qualifications:
   A. The school is currently designated as A+;
   B. The school agrees to administer the MSIP Advance Questionnaire;
   C. The school is in compliance with all Resource and Process Standards and Indicators listed in the Waiver Checklist; and
   D. The school is not designated a Priority School.

2. The following MSIP Process Standards and Indicators will not be waived:
   A. The district must have cross-referenced all curricular areas to the Show-Me Standards;
   B. The district reports school dropout to the Missouri Literacy Hot Line;
   C. The district meets state and federal special education requirements for students with disabilities, economically disadvantaged students, migratory children, students whose native or home language is other than English and homeless youth;
   D. The district complies with all regulations of the state and federal categorical programs in which the district participates;
   E. The district distributes a student code of conduct and provides a protected, orderly environment;
   F. The district provides professional development programs and services as required by state law;
   G. Board of education members must be trained as prescribed by state law;
   H. The district meets the salary compliance and the minimum salary requirements as defined in state law. This does not apply to “hold harmless” districts;
   I. The district’s community, through the board of education, provides sufficient financial resources and the district is not identified as a “financially stressed district”;
   J. The district annually reviews its Comprehensive School Improvement Plan (CSIP) and updates it if necessary;
   K. The district provides a safe physical environment for students;
   L. The district implements effective and efficient fiscal management systems that ensure accountability of district funds;
   M. The district maintains and regularly updates cumulative health records for all students, including immunizations as required by state law; and/or
   N. The district complies with all laws related to the transportation of students.

3. No MSIP Performance Standards will be waived.
   1. No Priority Schools will be waived.
   2. No Financially Stressed districts will be waived.

(3) A district or school which meets the performance criteria for any of the above four (4) waivers will be so notified by the commissioner of education. The district must either accept or decline the waiver within four (4) weeks after notification; except those districts which qualify for the A+ High School MSIP Waiver, which must accept or decline that waiver by October 1 of the year of the scheduled MSIP review.
5 CSR 50-345.300 Graduation Requirements for Students in Public High Schools

PURPOSE: This rule establishes minimum graduation requirements for public school districts.

(1) High School Graduation Requirements. Effective for the graduating class of 2010 and thereafter, the state minimum high school graduation requirements comprise twenty-four (24) units of credit that must be earned between grades nine (9) and twelve (12). The requirements are stated in terms of the number of units of credit that must be earned in each subject area:

*The .5 unit of credit of Personal Finance may be earned in social studies, practical arts or as an elective. If earned in social studies or practical arts, the required units of credit in that area are reduced by .5 (i.e. social studies from 3.0 to 2.5) and the elective total is increased to 7.5.

(2) The minimum high school graduation requirements should focus on competencies and align with the Missouri Show-Me Standards and grade-level expectations. Missouri Show-Me Standards and grade-level expectations are located on the Department of Elementary and Secondary Education (DESE) website.

(3) Course Requirements. In order to earn one standard unit of high school credit, a student must earn a passing grade in that course. A standard unit of credit is defined by a course that meets for seven thousand eight hundred thirty (7,830) minutes during a school year. Half- and quarter-units of credit may be earned for courses meeting proportionately fewer minutes. However, if a student demonstrates mastery of the required competencies of a course, the district may grant credit through an alternative method with prior approval by DESE. Alternative time schedules may be approved if requested by the district.

(4) Local Board Policies. Local boards of education must adopt and disseminate written policies concerning graduation. The policies must clearly set forth all requirements and all allowable variations. Local graduation policies must include at least the state minimum requirements and may exceed the state minimums by requiring more total units of credit, requiring more units within a particular subject, or establishing additional requirements.

(5) Accommodation of Students with Disabilities. Local school boards must establish policies and guidelines that ensure students with disabilities have the opportunity to earn credits toward graduation in a nondiscriminatory environment.

(6) Variances and Substitutions. The state minimum graduation requirements cannot be applied with absolute uniformity in every case. Students’ individual situations sometimes require consideration of variances and alternatives. If a local board chooses to allow these variances and alternatives, it must do so through officially adopted policies and through procedures that will ensure fair and consistent application of its policies.
