Transportation Commission**
**Chapter 10—Contractor Performance
Rating to Determine Responsibility**

7 CSR 10-10.010 Definitions

PURPOSE: This rule contains the definitions of terms used in this chapter.

- (1) **Affiliate.** A person, firm or corporation is an affiliate of another person, firm or corporation if, directly or indirectly, either one controls or has the power to control the other, or third persons or a firm controls or has the power to control both. Examples of control include, but are not limited to: interlocking management or ownership, identity or interests among family members, shared facilities or equipment, or common use of employees.
- (2) **Bidder.** Any individual, partnership, corporation or any person or firm participating as part of a joint venture in submitting a proposal to the commission to perform the work contemplated.
- (3) **Chief engineer.** The chief engineer of the Missouri Department of Transportation.
- (4) **Commission.** The Missouri Highways and Transportation Commission.
- (5) **Construction.** The functional unit within the department which is responsible for administering all construction contracts awarded by the commission.
- (6) **Contractor.** The individual proprietorship, partnership, limited partnership, corporation, limited liability company, limited liability partnership, limited liability corporation or firm of whatever organizational form participating in a joint venture, undertaking performance of the work under the terms of a contract with the commission and acting directly or through his/her/its agents, employees or subcontractors.
- (7) **Contractor performance review committee** consists of the following: director of operations, chairperson; director of project development; state design engineer; state construction engineer; state bridge engineer; or an authorized representative acting on behalf of any one of them.
- (8) **Contractor representative.** A general partner, officer of a corporation or other proper term depending on the company or organization, as one having authority of position, stated in writing.
- (9) **Department.** The Missouri Department of Transportation (MoDOT).
- (10) **District.** One (1) of ten (10) geographic regions of Missouri established for administrative purposes within the department.
- (11) **District engineer.** The engineer in charge of a district.
- (12) **Mean.** The sum of all of the individual contractor's ratings divided by the total number of ratings.
- (13) **Nonresponsible contractor.** A contractor determined by the commission to lack one (1) or more of the qualities associated with a responsible bidder or responsible contractor.
- (14) **Notice of rating.** Notice of the rating by the resident engineer in a contractor performance questionnaire or of the annual rating shall be sent by mailing a copy of the contractor performance questionnaire or of a writing containing the annual rating to the contractor at the contractor's address contained in its most recent contractor questionnaire required by the Missouri Standard Specifications for Highway Construction. The department will keep a written record of the persons to whom such notices of ratings were sent and of the address and date they were sent for a period of at least ten (10) years in the case of the contractor performance questionnaire and at least ten (10) years in the case of the notice of the annual rating, which record shall prove the mailing of the notice of rating. Further, it shall be presumed that a notice of rating sent by mail was received by the contractor on the second day, which is not a Sunday or holiday, after the day the written record states it was sent excepting only if a different date is shown by a delivery receipt of the United States Postal Service.
- (15) **Principal.** A person is a principal of a firm if s/he is an officer, director, owner, partner or other person with that firm who has primary management, supervisory or bidding duties or authority.
- (16) **Resident engineer.** The individual employed by the department and assigned to a district, holding that title, who is the department's representative assigned the immediate control and administration of a commission project awarded by contract to a contractor for construction. Whenever appropriate, it also refers to his/her designated representative.
- (17) **Responsible bidder or responsible contractor.** A contractor, or any contractor or firm which participates collectively in a joint venture, which is capable financially, skilled and has sufficient integrity, experience and resources of all kinds, to promptly complete a project awarded, to provide a satisfactory quality of work, in compliance with the contract, in cooperation with the department and others, and in a safe manner.
- (18) **Sample.** A statistical subset of the total number of contractors doing work for MoDOT during the rated year.
- (19) **Specialty contractors.** Those contractors who have performed eighty-five percent (85%) or more of their work in one specification area as set forth in Divisions 200-900 in the Missouri Standard Specifications for Highway Construction.
- (20) **Standard deviation.** The square root of the average difference between the individual ratings and their mean.
- (21) **State construction engineer.** The registered professional engineer in charge of the construction unit within the department.
- (22) **Subcontractor.** Any individual, partnership, corporation or a person or firm participating as part of a joint venture, to whom the contractor sublets any part of the work under a commission contract.
- (23) **Successor.** A person, firm or corporation is a successor to another if it is a business entity organized following the disqualification of the other, and it has the same or similar management, ownership or principal employees as the disqualified person, firm or corporation.
- (24) **Weighted average.** The weighted average is the sum of a sample lot's adjusted individual ratings. The adjustment factor is (\$ volume of sample)/(\$ volume of sample lot total).

7 CSR 10-10.020 Explanation of Contractor Performance Rating System

PURPOSE: This rule explains the need for the contractor rating system established in this chapter and states the general objectives of the system.

(1) The commission has the obligation to award its contracts to only responsible bidders. The commission also has the duty to supervise and control the construction and maintenance of its state highway system. Inherent in these concepts, and in the commission's general obligation to the traveling public of this state, is that the commission must regulate those who construct the finished highway product. The commission does not prequalify persons or firms as responsible bidders and contractors. Therefore, it requires a system for evaluating the performance of those contractors working on commission projects.

(2) This contractor rating system is intended to help the commission periodically determine those contractors who are responsible or are nonresponsible and those responsible contractors whose outstanding or superior performance merits recognition by the commission. In the process, the rating system is intended to provide the contractors with evaluations of their work and information they can use to improve their performance and product on future commission projects.

(3) These regulations also set forth the procedures governing how contractors who render unsatisfactory performance may be determined nonresponsible and ineligible to bid for work on commission projects and how nonresponsible contractors may be reinstated as responsible bidders or responsible contractors.

AUTHORITY: sections 226.020, 227.030 and 227.100, RSMo 1986 and 226.130, RSMo Supp. 1993.* Original rule filed Dec. 31, 1990, effective July 8, 1991.

*Original authority: 226.020 and 227.030, RSMo 1939, 226.130, RSMo 1939, amended 1993; and 227.100, RSMo 1939, amended 1963, 1967, 1969.

7 CSR 10-10.030 Rating Categories for Evaluating the Performance of a Contractor

PURPOSE: This rule sets forth the rating criteria used in evaluating the performance of contractors awarded commission projects.

(1) Contractors awarded commission projects shall be rated on the following three (3) basic categories:

(A) Quality of work includes, but is not limited to, construction methods, materials, structural adequacy, appearance, workmanship, attention to detail and acceptable work;

(B) Contract compliance includes, but is not limited to, timely compliance, compliance with traffic control, handling of traffic, submittal of required documents, maintenance of the work site and adherence to environmental requirements; and

(C) Prosecution and progress includes, but is not limited to, proper planning and execution, achieving the progress schedule, coordinating subcontractors and timely completion.

(2) Each question will be assigned to a category and will be assigned a point value for comparison purposes. Questions will be completed according to the guidelines shown on the questionnaire. Not all questions will be applicable and will, therefore, not be completed.

(3) A contractor's individual category rating in the category of "Quality" will be determined by comparing the total number of points awarded to the total number of points assigned, to each question completed, based on the weighted average of the total dollar value of work completed to date and pertaining to each section of the questionnaire. A contractor's individual category rating, for the remaining categories, will be determined by comparing the total number of points awarded in each category to the total number of points assigned to each question completed in that category.

(4) For overall rating purposes, the categories are assigned importance factors as follows: quality of work, thirty-three and one-third percent (33.33%); contract compliance, thirty-three and one-third percent (33.33%); and prosecution and progress, thirty-three and one-third percent (33.33%).

7 CSR 10-10.040 Contractor Performance Questionnaire Used in Evaluating Contractor Performance

PURPOSE: This rule describes generally the form used in rating and reporting a contractor's performance on a contract, according to the provisions of this chapter.

(1) The form used to evaluate contractor performance on a commission contract is known as the Contractor Performance Questionnaire. The Contractor Performance Questionnaire identifies the contractor, the project(s) to which it applies, the original and final contract amounts and other pertinent project data.

(2) One (1) form is intended to rate all projects together which were awarded in a combination bid contract. The Contractor Performance Questionnaire shall designate all project(s) listed in the contract on these combinations.

(3) The Contractor Performance Questionnaire contains questions that are assigned to the three (3) evaluation categories: quality of work; prosecution and progress; and contract compliance. Not all questions will be applicable on any certain project and will, therefore, not be completed.

(4) The Contractor Performance Questionnaire shall rate a contractor on the work required in the whole contract and shall take into consideration the contractor's progress and work product, as well as those of all the subcontractors. The contractor is responsible for all work required in the contract, as well as the selection of subcontractors and the quality of their work.

(5) A copy of the Contractor Performance Questionnaire may be obtained by submitting a written request to the following address: Missouri Department of Transportation, Construction, P.O. Box 270, Jefferson City, MO 65102.

AUTHORITY: sections 226.020, 226.130, 227.030 and 227.100, RSMo 2000.* Original

rule filed Dec. 31, 1990, effective July 8, 1991. Emergency rescission and rule filed Nov. 20, 1997, effective Jan. 1, 1998, expired June 29, 1998. 7 CSR 10-10.050 Procedure and Schedule for Completing the Contractor Performance Questionnaire

PURPOSE: This rule describes the procedures and schedule which apply to the completion of the Contractor Performance Questionnaire.

(1) The Contractor Performance Questionnaire shall be completed by the resident engineer assigned to the contract project(s). If the resident engineer is unable to complete the form, the district engineer responsible for those projects shall designate another person familiar with those projects to complete the Contractor Performance Questionnaire.

(2) The Contractor Performance Questionnaire shall be completed in accordance with this chapter and with written instructions given the resident engineer by the Construction unit. A copy of the current instructions may be obtained from the state construction engineer.

(3) Each Contractor Performance Report shall be completed on all projects that were active during the rated year and will be completed within thirty (30) days after final project acceptance, but shall be completed no later than January 15, whichever comes first. Prior reports on the same contract shall not bind or govern the completion of a final report.

(4) The resident engineer shall sign and date the Contractor Performance Questionnaire when s/he completes his/her rating. The contractor's representative, at his/her election, may meet privately with the resident engineer to review the questionnaire. If the contractor's representative does review the questionnaire, s/he shall sign and date it as an acknowledgment that s/he has reviewed it.

A copy of the questionnaire shall be furnished to the contractor by the resident engineer. If the contractor's representative does not return a signed questionnaire to the resident engineer within two (2) weeks after it has been mailed to him/her, the questionnaire shall be final, with no further comment to be considered by the contractor's representative.

AUTHORITY: sections 226.020, 226.130, 227.030 and 227.100, RSMo 2000.* Original rule filed Dec. 31, 1990, effective July 8, 1991. Emergency rescission and rule filed Nov. 20, 1997, effective Jan. 1, 1998, expired June 29, 1998. Rescinded and readopted: Filed Nov. 20, 1997, effective May 30, 1998. 7 CSR 10-10.060 Explanation of Standard Deviation Rating System for all Contractors

PURPOSE: This rule describes the procedures and rating values used in annual ratings of contractors.

(1) Statistical Analysis. Statistical analysis shall be used by the commission to compare performance by the contractors. Through standard deviation analysis, the commission shall determine how contractors relate to each other.

(2) Rating Categories. The following categories shall be used by the commission in determining the annual rating of each contractor based on the Contractor Performance Questionnaire and on the statistical analysis used by the commission: average, above average, below average, outstanding and unacceptable:

(A) Average Rating. An average rating shall result if the contractor's rating is within the range of the mean plus or minus one (1) standard deviation;

(B) Above Average Rating. An above average rating shall result if the contractor's rating is equal to or greater than the mean plus one (1) standard deviation but less than the mean plus two (2) standard deviations;

(C) Outstanding Rating. An outstanding rating shall result if the contractor's rating is

equal to or greater than the mean plus two (2) standard deviations;

(D) Below Average Rating. A below average rating shall result if the contractor's rating is equal to or less than the mean minus one (1) standard deviation but greater than the mean minus two (2) standard deviations; and

(E) Unacceptable Rating. An unacceptable rating shall result if the contractor's rating is equal to or less than the mean minus two (2) standard deviations.

(3) Overall and Category Ratings. On an annual basis, each contractor who has done work for the commission and which the commission has completed a Contractor Performance Questionnaire, shall be given a rating for each of the three (3) categories: quality of work, prosecution and progress and contract compliance as well as receiving an overall rating which combines the ratings of all of the three (3) categories.

AUTHORITY: sections 226.020, 226.130, 227.030 and 227.100, RSMo 2000.* Original rule filed Dec. 31, 1990, effective July 8, 1991. Amended: Filed April 13, 1994, effective Oct. 30, 1994. Amended: Filed June 12, 1996, effective Jan. 30, 1997. Emergency rescission and rule filed Nov. 20, 1997, effective Jan. 1, 1998, expired June 29, 1998. Rescinded and readopted: Filed Nov. 20, 1997, effective May 30, 1998. Emergency amendment filed Dec. 1, 2000, effective Jan. 1, 2001, expired June 29, 2001. Amended: Filed Dec. 1, 2000, effective May 30, 2001.

*Original authority: 226.020, RSMo 1939; 226.130, RSMo 1939, amended 1993, 1995; 227.030, RSMo 1939; 227.100, RSMo 1939, amended 1963, 1967, 1969.

7 CSR 10-10.070 Procedure for Annual Rating of Contractors

PURPOSE: This rule describes the procedures used in annual rating of contractors.

(1) Annual Rating of Contractors. The Construction unit shall be responsible for the determination of the annual ratings of contractors. The Construction unit will annually determine a contractor's overall and category performance rating for all contracts on which work was performed during the period, January 1 through December 31. The ratings for the categories Quality, and Contract Compliance will be based on a weighted average

of the dollar value of all work completed during the rated year on all contracts. The category, Prosecution and Progress, shall use contract dollar totals for determining the contractor's performance rating.

(2) Contractor Rating Groups. For purposes of evaluating contractor performance, contractors shall be divided into two (2) sample groups based upon whether the contractor is a specialty contractor and on the dollar value of the work completed during the rated year.

(A) Contractor Groups. Group one contractors shall be the ten (10) contractors who have the largest dollar value of work completed during the rated year. Contractors not included in group one or the specialty contractor group shall be divided in half as group two, medium volume, contractors and group three, light volume, contractors.

1. Sample lot one. Sample lot one shall include all contractors belonging in group one contractors and group two, medium volume contractors.

2. Sample lot two. Sample lot two shall include all contractors belonging in group three, light volume contractors and specialty contractors.

(B) Commission Determination of Contractor Groups and Sample Lots. The commission shall determine all contractor groups and sample lots for the purposes of grouping contractors.

(3) Upon the Construction unit's annual rating of all contractors, the ratings shall be reviewed by the state construction engineer. Upon the Construction unit's approval, all contractors shall be notified in writing of their annual ratings. The Construction unit will act on each contractor or not, based on the overall and category rating the contractor receives. These actions may range from recognizing very outstanding performance, to recommending that a contractor be declared nonresponsible.

(4) Review Process. If the contractor disagrees with any particular response on the questionnaire and cannot resolve the dispute with the resident engineer, s/he may request in writing that the district engineer review the matter. Such request must be made to the district engineer within twenty-eight (28) days from the date of the mailing of the questionnaire form to the contractor. However, the contractor's representative shall first have discussed the questionnaire response with the resident engineer in order to resolve the dispute. Upon receiving the contractor's written request to review the particular area of discrepancy on the questionnaire, the district

engineer shall review the matter and provide the contractor with a written response regarding the particular area of dispute between the contractor and the resident engineer. All reports shall be submitted to the Construction unit before, but no later than, February 15.

(A) "Unacceptable" Rating. No request for review to the committee or to the department regarding the contractors' performance ratings is permitted or is provided under this chapter, with the exception of contractors who receive an unacceptable performance rating.

1. The contractor must have received either an unacceptable category or overall performance rating and timely discussed the dispute with the resident engineer and made a timely written request for review by the district engineer of the particular rating on the questionnaire that the contractor disagrees with as provided in this chapter.

2. The contractor shall have ten (10) working days to request an informal hearing to review an unacceptable performance rating.

3. The contractor shall submit its request for an informal hearing to the following address: Missouri Department of Transportation, Construction, P.O. Box 270, Jefferson City, MO 65102.

(B) Procedure. If the contractor timely requests an informal hearing, the review committee shall advise the contractor of the time, date and place. This is not a contested case under Chapter 536, RSMo. The rules of evidence shall not apply at the hearing.

(C) Review by the Contractor Performance Review Committee. The contractor performance review committee will review the contractor's request and make a recommendation to the chief engineer. The chief engineer's decision regarding the contractor's rating, review of which is held as provided by this section, shall be final and no further commission action is necessary.

(5) No Further Commission Action. As to contractor performance ratings of which no review is requested or permitted under this rule, upon the determination by the Construction unit regarding the annual ratings of all contractors and the approval of the chief engineer of the annual ratings, the ratings of the contractors shall become final for purposes of this chapter and the effect of a level of performance. No commission action is necessary regarding the annual ratings of the contractors.

7 CSR 10-10.080 Determination of Nonresponsibility

PURPOSE: This rule describes the effect and consequences that a commission determination of nonresponsibility has upon the person or contractor which has been disqualified under the provisions of this chapter.

(1) Unacceptable Category or Overall Rating. A contractor who receives an initial unacceptable rating shall be placed on probation. Any contractor who is on probation and receives a second unacceptable rating shall be declared nonresponsible and shall be suspended for a period of one (1) year. During this suspension period, no bids shall be accepted from the contractor. At the conclusion of this suspension period, the contractor shall be reinstated on a probationary basis and be allowed to bid on commission projects. Any contractor who has previously been suspended for unacceptable performance, has a current deficiency status, and receives a subsequent unacceptable rating shall be declared nonresponsible and shall be barred from bidding on commission projects for a period of three (3) years. After the three (3) year debarment period has ended, the contractor may be reinstated on a probationary basis. Any deficiency status shall remain in effect until the contractor obtains an annual average category rating in all categories.

(2) Affiliates of the Contractor. Any probation, suspension or debarment of the contractor shall be equally applicable to all affiliates of the contractor.

7 CSR 10-10.090 Reservation of Rights to Recommend or Declare Persons or Contractors Nonresponsible on Other Grounds

PURPOSE: This rule reserves to the department the right to recommend disqualification of, and to the commission the right to disqualify persons, firms or contractors for reasons other than those set forth in this chapter.

(1) Nothing in this chapter shall be construed to waive, limit or restrict the right of the chief engineer to recommend that a contractor be declared nonresponsible, if any individual rating on one (1) or more of the three (3) rating categories specified in 7 CSR 10-10.030 is so low that the chief engineer has cause to believe that the contractor cannot responsibly or competently perform contract work generally, or of a particular type or description. The commission reserves the right to declare nonresponsible any contractor which it finds to be incompetent or nonresponsible, with those terms and conditions governing the disqualification as it deems appropriate.

(2) Nothing in this chapter shall be construed to waive, limit or restrict the right of the chief engineer to recommend that a person, firm, corporation or contractor be declared nonresponsible for any other legal reason, circumstance, or for financial irresponsibility that would support a finding that the person, firm, corporation, or contractor was nonresponsible. The commission reserves the right to declare nonresponsible any person, firm, corporation or contractor which it finds to be nonresponsible upon sufficient legal grounds, with those terms and conditions governing the disqualification as it deems appropriate.
