I had known her for more than three years during which time he with for himself was her 8th best friend but what he was of lawful age I proceeded to join them in matrimony & ever since I had left more than three months until I was informed that some one had said that bride was not 21 years old I immediately went back and told her what I had heard and that he must not consider himself married as I did not wish to involve myself in

any difficulty and that if he would
go to his mother and get acquainted with
her he would be right. This states that it was
unnecessary he would prove himself to be
any other person than what is stated.
