Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

 valid under certain conditions—previous to any marriage in this state
 a license for that purpose shall be obtained from the officer authorized
 to issue the same and no marriage hereafter contracted shall be recognized
 as valid unless such license has been previously obtained, and unless such
 marriage is solemnized by a person authorized by law to solemnize mar-

 lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.
 —It shall be unlawful for the Recorder of Deeds of any County or City
 to issue a marriage license, to any person, unless such person presents
 and files with such Recorder of Deeds a report of a negative laboratory
 serological test for syphilis and an affidavit signed by the applicant that
 to his or her best knowledge and belief he or she is free from syphilis;
 or unless, in the case of an applicant with a positive test, such appli-
 cant presents and files a certificate from a physician duly licensed to
 practice in the State of Missouri stating to his or her best knowledge and
 belief, after having made a thorough physical examination of such
 applicant, he or she is not infected with syphilis, or if so infected is not in

 thereto a laboratory report of the test of syphilis made by such laboratory;
 or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and
 unlikely to consummate the marriage or that an applicant is pregnant.
 The laboratory report of the negative blood test and the affidavit of the
 applicant, and the physician's certificate of health with the laboratory

 Missouri, or by the State Board of Health of any other state of the
 United States, or by the United States Public Health Service.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. **Provided, however,** that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage deemed able. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. **Provided, however,** that no marriage shall be deemed ed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not in valid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. **Provided, however,** that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage deemed able. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. **Provided, however,** that no marriage shall be deemed null and void. **Provided, however,** that the validity thereof be in any way affected or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance. The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C. Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and willfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and willfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and willfully make any false statement in the laboratory report; or any person who shall have knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be sol-
 emnized, by whom—License shall not be issued until at least three days
 after application therefor—common law marriage null and void—not in-
 valid under certain conditions.—previous to any marriage in this state
 a license for that purpose shall be obtained from the officer authorized
 to issue the same and no marriage hereafter contracted shall be recognized
 as valid unless such license has been previously obtained, and unless such
 marriage is solemnized by a person authorized by law to solemnize mar-
 riages. Before applicants for a marriage license shall receive a license, and
 before the Recorder of Deeds shall be authorized to issue a license, the
 parties to the marriage must, at least three days before the date they
 desire such license to be issued, present an application for the license
 to the Recorder of Deeds. Upon the expiration of three days after the
 receipt of such application, duly executed and signed, the Recorder of
 Deeds shall issue the license, unless one of the parties withdraw the
 application. Provided, however, that said license may be issued on order
 of the Circuit or probate court or a judge thereof in vacation of the
 County in which said license is applied for, without waiting three days
 as herein provided, such license being issued only for good cause shown
 and by reason of such unusual conditions as to make such marriage advis-
 able. Any person violating the provisions of this section shall be deemed
 guilty of a misdemeanor. Common law marriage hereafter contracted
 shall be null and void. Provided, however, that no marriage shall be deem-
 ed or adjudged invalid, nor shall the validity thereof be in any way affected
 on account of any want of authority in any person so solemnized the same
 under the next proceeding section, if consummated with the full belief
 on the part of the person, so married, or either of them, that they were
 lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.
 —It shall be unlawful for the Recorder of Deeds of any County or City
 to issue a marriage license, to any person, unless such person presents
 and files with such Recorder of Deeds a report of a negative laboratory
 serological test for syphilis and an affidavit signed by the applicant that
 to his or her best knowledge and belief he or she is free from syphilis;
 or unless, in the case of an applicant with a positive test, such applic-
 ant presents and files a certificate from a physician duly licensed to
 practice in the State of Missouri stating to his or her best knowledge and
 belief, after having made a thorough physical examination of such
 applicant, he or she is not infected with syphilis, or if so infected is not in
 the stage of the disease wherein it is communicable either to the spouse
 or the offspring, which said physician's certificate shall have attached
 thereto a laboratory report of the test of syphilis made by such laboratory;
 or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and
 unlikely to consummate the marriage or that an applicant is pregnant.
 The laboratory report of the negative blood test and the affidavit of the
 applicant, and the physician's certificate thereto, shall be made not longer
 than fifteen (15) days before the date of the issuance of the license and
 said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall
 draw rules and regulations concerning the procedure and methods of
 making such laboratory examinations and the filing of the reports of
 such examinations with the State Board of Health, and concerning the
 affidavit, certificate and other forms necessary for an efficient admin-
 istration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of
 the State Board of Health or by such other public health laboratories

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw on order application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not in valid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed ed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and willfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and willfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and willfully make any false statement in the laboratory report; or any person who shall have knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not in valid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted or adjudged invalid, nor shall the validity thereof be in any way affected under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents to him or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be sol-
 emnized, by whom—License shall not be issued until at least three days
 after application therefor—common law marriage null and void—not in-
 valid under certain conditions.—previous to any marriage in this state
 a license for that purpose shall be obtained from the officer authorized
 to issue the same and no marriage hereafter contracted shall be recognized
 as valid unless such license has been previously obtained, and unless such
 marriage is solemnized by a person authorized by law to solemnize mar-
 riages. Before applicants for a marriage license shall receive a license, and
 before the Recorder of Deeds shall be authorized to issue a license, the
 parties to the marriage must, at least three days before the date they
 desire such license to be issued, present an application for the license
 to the Recorder of Deeds. Upon the expiration of three days after the
 receipt of such application, duly executed and signed, the Recorder of
 Deeds shall issue the license, unless one of the parties withdraw the
 application. Provided, however, that said license may be issued on order
 of the Circuit or probate court or a judge thereof in vacation of the
 County in which said license is applied for, without waiting three days
 as herein provided, such license being issued only for good cause shown
 and by reason of such unusual conditions as to make such marriage advis-
 able. Any person violating the provisions of this section shall be deemed
 guilty of a misdemeanor. Common law marriage hereafter contracted
 shall be null and void. Provided, however, that no marriage shall be deem-
 ed or adjudged invalid, nor shall the validity thereof be in any way affected
 on account of any want of authority in any person so solemnized the same
 under the next proceeding section, if consummated with the full belief
 on the part of the person, so married, or either of them, that they were
 lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.
 —It shall be unlawful for the Recorder of Deeds of any County or City
 to issue a marriage license, to any person, unless such person presents
 and files with such Recorder of Deeds a report of a negative laboratory
 serological test for syphilis and an affidavit signed by the applicant that
 to his or her best knowledge and belief he or she is free from syphilis;
 or unless, in the case of an applicant with a positive test, such appli-
 cant presents and files a certificate from a physician duly licensed to
 practice in the State of Missouri stating to his or her best knowledge and
 belief, after having made a thorough physical examination of such
 applicant, he or she is not infected with syphilis, or if so infected is not
 in the stage of the disease wherein it is communicable either to the spouse
 or the offspring, which said physician's certificate shall have attached
 thereto a laboratory report of the test of syphilis made by such laboratory;
 or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and
 unlikely to consummate the marriage or that an applicant is pregnant.
 The laboratory report of the negative blood test and the affidavit of the
 applicant, and the physician's certificate of health with the laboratory
 report of the test for syphilis attached thereto, shall be made not longer
 than fifteen (15) days before the date of the issuance of the license and
 said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall
 draw rules and regulations concerning the procedure and methods of
 making such laboratory examinations and the filing of the reports of
 such examinations with the State Board of Health, and concerning the
 affidavit, certificate and other forms necessary for an efficient admin-
 istration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of
 the State Board of Health or by such other public health laboratories
 wherever maintained in the State of Missouri, upon the request of a
 physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or
 public health laboratory duly approved by the State Board of Health of
 Missouri, or by the State Board of Health of any other state of the
 United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who
 shall unlawfully issue license to marry to any person who fails to present
 and file the certificate provided for in this Act; or any physician who
 shall knowingly and wilfully make any false statement in such certificate;
 or any person applying for a license to marry who shall knowingly and
 wilfully make any false statement in or concerning the said certificate;
 or any person applying for a license to marry who shall knowingly and
 wilfully make any false statement in the laboratory report; or any person
 or persons having knowledge of any matter relating to or pertaining to the
 examination who shall disclose the same or any portion thereof, shall
 upon conviction thereof be deemed guilty of a misdemeanor and punished
 as such.

Section 3364-C. Marriage not invalid, by reason of violation, if
 parties otherwise qualified.—If the parties to a marriage are otherwise
 qualified for marriage, the validity of any marriage under this Act shall
 not be impaired by any false statement contrary to the provisions of
 the Act or by the illegal communication of information concerning one
 or both of the parties to such marriage or by any other violation under
 Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D.
 This Act shall become effective on January 1, 1944, and shall be in full
 force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Provided, however, that no marriage shall be deemed null and void, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health, shall be made not later than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance. The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C. Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant. For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and willfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and willfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and willfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not in valid under certain conditions—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed null and void, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of the applicant that serological test for syphilis and an affidavit signed by the applicant to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not later than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C. Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person who shall knowingly and wilfully make any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions.—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364. License must be obtained—marriage may be solemnized, by whom—License shall not be issued until at least three days after application therefor—common law marriage null and void—not invalid under certain conditions—previous to any marriage in this state a license for that purpose shall be obtained from the officer authorized to issue the same and no marriage hereafter contracted shall be recognized as valid unless such license has been previously obtained, and unless such marriage is solemnized by a person authorized by law to solemnize marriages. Before applicants for a marriage license shall receive a license, and before the Recorder of Deeds shall be authorized to issue a license, the parties to the marriage must, at least three days before the date they desire such license to be issued, present an application for the license to the Recorder of Deeds. Upon the expiration of three days after the receipt of such application, duly executed and signed, the Recorder of Deeds shall issue the license, unless one of the parties withdraw the application. Provided, however, that said license may be issued on order of the Circuit or probate court or a judge thereof in vacation of the County in which said license is applied for, without waiting three days as herein provided, such license being issued only for good cause shown and by reason of such unusual conditions as to make such marriage advisable. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor. Common law marriage hereafter contracted shall be null and void. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity thereof be in any way affected on account of any want of authority in any person so solemnized the same under the next proceeding section, if consummated with the full belief on the part of the person, so married, or either of them, that they were lawfully joined in marriage.

Section 3364-A. Requiring certificate of serological test for syphilis.—It shall be unlawful for the Recorder of Deeds of any County or City to issue a marriage license, to any person, unless such person presents and files with such Recorder of Deeds a report of a negative laboratory serological test for syphilis and an affidavit signed by the applicant that to his or her best knowledge and belief he or she is free from syphilis; or unless, in the case of an applicant with a positive test, such applicant presents and files a certificate from a physician duly licensed to practice in the State of Missouri stating to his or her best knowledge and belief, after having made a thorough physical examination of such applicant, he or she is not infected with syphilis, or if so infected is not in the stage of the disease wherein it is communicable either to the spouse or the offspring, which said physician's certificate shall have attached thereto a laboratory report of the test of syphilis made by such laboratory; or unless a duly licensed physician presents a certificate stating that one

of the applicants for a license to marry is on his or her deathbed and unlikely to consummate the marriage or that an applicant is pregnant. The laboratory report of the negative blood test and the affidavit of the applicant, and the physician's certificate of health with the laboratory report of the test for syphilis attached thereto, shall be made not longer than fifteen (15) days before the date of the issuance of the license and said license shall be void after ten (10) days from the date of issuance.

The State Board of Health shall have complete control of and shall draw rules and regulations concerning the procedure and methods of making such laboratory examinations and the filing of the reports of such examinations with the State Board of Health, and concerning the affidavit, certificate and other forms necessary for an efficient administration of Section 3364-A through Section 3364-C.

Laboratory tests shall be made free of charge by the laboratory of the State Board of Health or by such other public health laboratories wherever maintained in the State of Missouri, upon the request of a physician or by an applicant.

For the purpose of this act, "Laboratory" shall mean any private or public health laboratory duly approved by the State Board of Health of Missouri, or by the State Board of Health of any other state of the United States, or by the United States Public Health Service.

Section 3364-B. Penalty for violation.—Any Recorder of Deeds who shall unlawfully issue license to marry to any person who fails to present and file the certificate provided for in this Act; or any physician who shall knowingly and wilfully make any false statement in such certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in or concerning the said certificate; or any person applying for a license to marry who shall knowingly and wilfully make any false statement in the laboratory report; or any person or persons having knowledge of any matter relating to or pertaining to the examination who shall disclose the same or any portion thereof, shall upon conviction thereof be deemed guilty of a misdemeanor and punished as such.

Section 3364-C. Marriage not invalid, by reason of violation, if parties otherwise qualified.—If the parties to a marriage are otherwise qualified for marriage, the validity of any marriage under this Act shall not be impaired by any false statement contrary to the provisions of the Act or by the illegal communication of information concerning one or both of the parties to such marriage or by any other violation under Section 3364-A and Section 3364-B.

Section 3364-D. Law effective January 1, 1944.—Section 3364-D. This Act shall become effective on January 1, 1944, and shall be in full force and effect thereafter.
